**INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL
STATEMENTS AND SUPPLEMENTAL INFORMATION**

Board of Trustees
State of Mississippi Institutions of Higher Learning
3825 Ridgewood Road
Jackson, MS 39211-6463

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the State of Mississippi Institutions of Higher Learning (the IHL System), a component unit of the State of Mississippi, as of and for the years ended June 30, 2009 and 2008, which collectively comprise the IHL System's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the IHL System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We did not audit the financial statements and schedules of:

the University of Mississippi Medical Center Educational Building Corporation, a component unit of the University of Mississippi Medical Center, which statements reflect total assets of \$140,851,186 and \$146,044,827 as of June 30, 2009 and 2008, respectively, and total revenues of \$4,885,343 and \$8,138,750 for the respective years then ended;

the University of Mississippi Educational Building Corporation, a component unit of the University of Mississippi, which statements reflect total assets of \$152,002,987 and \$90,779,659 as of June 30, 2009 and 2008, respectively, and total revenues of \$5,562,430 and \$4,105,399 for the respective years then ended;

the University of Mississippi Medical Center Tort Claims Fund, which statements reflect total assets of \$28,250,872 and \$31,048,556 as of June 30, 2009 and 2008, respectively, and total revenues of \$1,488,134 and \$3,641,580 for the respective years then ended;

the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund, which statements reflect total assets of \$11,423,030 and \$9,407,000 as of June 30, 2009 and 2008, respectively, and total revenues of \$7,640,196 and \$7,706,338 for the respective years then ended;

the State Institutions of Higher Learning Tort Liability Fund, which statements reflect total assets of \$10,182,667 and \$9,666,607 as of June 30, 2009 and 2008, respectively, and total revenues of \$3,125,478 and \$3,288,039 for the respective years then ended; and

the discretely presented component units consisting of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation and the University of Southern Mississippi Foundation, which represent 100% of the assets and revenues of the discretely presented component units.

Those financial statements and schedules were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the above mentioned entities, is based on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements and schedules of the blended and discretely presented component units audited by other auditors, as described above, were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the IHL System, as of June 30, 2009 and 2008, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2009, on our consideration of the IHL System's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 9 through 24 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our 2009 audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the IHL System's 2009 basic financial statements. The accompanying individual university financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented as supplemental information for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133 and is not a required part of

the basic financial statements. This supplemental information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, is fairly stated in all material respects in relation to the 2009 basic financial statements taken as a whole.

Management's Discussion and Analysis

(THIS PAGE LEFT BLANK INTENTIONALLY)

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis
June 30, 2009 and 2008

Introduction

The following discussion and analysis provides an overview of the financial position and activities of the Mississippi Institutions of Higher Learning (the "IHL System") for the year ended June 30, 2009. As comparison data, the financial position and activities from the prior fiscal period have also been included (year ended June 30, 2008). The report consists of a series of financial statements prepared in accordance with Governmental Accounting Standards Board Statement Nos. 34 and 35, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. The IHL System reports as a special purpose government engaged solely in business-type activities. The discussion below has been prepared by management and should be read in conjunction with the financial statements and the notes thereto which follow this section.

The State of Mississippi Institutions of Higher Learning System office was created in 1943 for the purpose of overseeing and directing Mississippi's eight public universities, as well as the University of Mississippi Medical Center, various off-campus centers and multiple research institutes located throughout Mississippi. These campuses serve a student population of approximately 71,000 and employ approximately 25,000 individuals, including about 5,200 faculty members.

Each of the public universities has established its own educational building corporation (EBC) in accordance with Section 37-101-61 of the Mississippi Code Annotated of 1972. The main purpose of these corporations is for the acquisition of land or buildings, and the construction and equipping of new facilities for the various universities. In accordance with Governmental Accounting Standards Board Statements No.'s 14 and 39, the EBC's are deemed component units of the IHL System and are included as blended component units in their general-purpose financial statements.

In addition to the EBC's, the IHL System had three additional component units that were deemed significant. These three units consisted of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation and the University of Southern Mississippi Foundation. Their audited financial statements are discretely presented behind the IHL System's financial statements.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

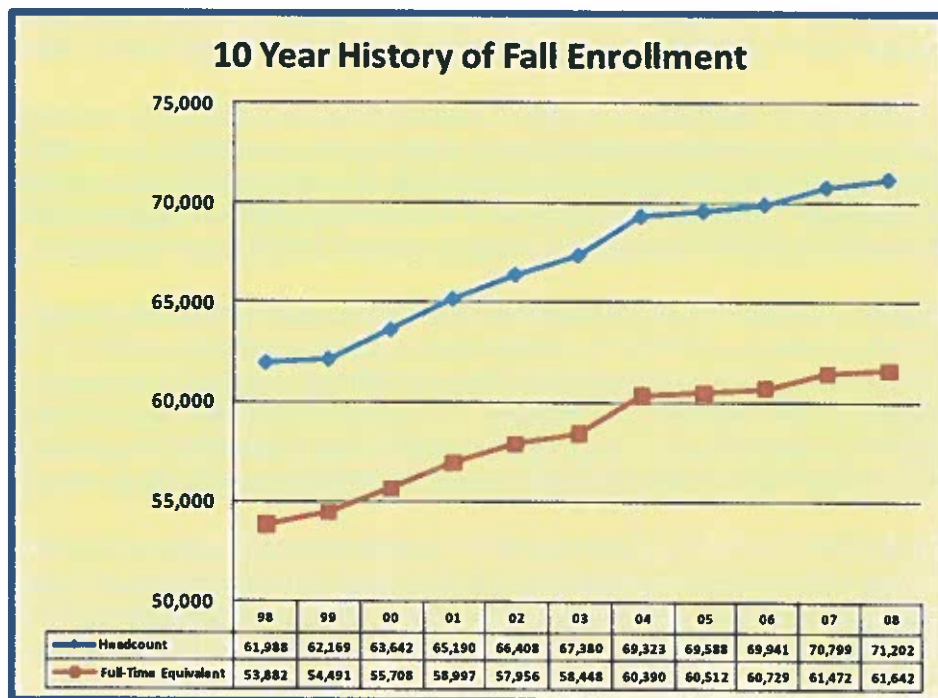

The following is a list of abbreviations used throughout this financial report for the member universities of the IHL System:

▪ ASU	--	Alcorn State University
▪ DSU	--	Delta State University
▪ JSU	--	Jackson State University
▪ MSU	--	Mississippi State University
▪ MUW	--	Mississippi University for Women
▪ MVSU	--	Mississippi Valley State University
▪ UM	--	University of Mississippi
▪ USM	--	University of Southern Mississippi
▪ UMMC	--	University of Mississippi Medical Center
▪ IHL Executive Office	--	Institutions of Higher Learning – Executive Office
▪ MCVS	--	Off-campus entity
▪ IHL SYSTEM	--	(Summary of all of the above)

Financial Highlights

The financial position of the IHL System has shown steady growth over the last several years. Net assets have increased by \$313.7 million (assets minus liabilities) since June 30, 2007. The reason for this improvement was an increase in capital assets, net of related debt, and unrestricted net assets. Many of the institutions have recently undergone, or are in the process of major building projects, especially in the student housing environment.

Despite tuition rate increases most years, enrollment has continued to increase for the IHL System since 1998. IHL management believes that this increase is indicative of the strong demand for a quality educational product at a very reasonable price.

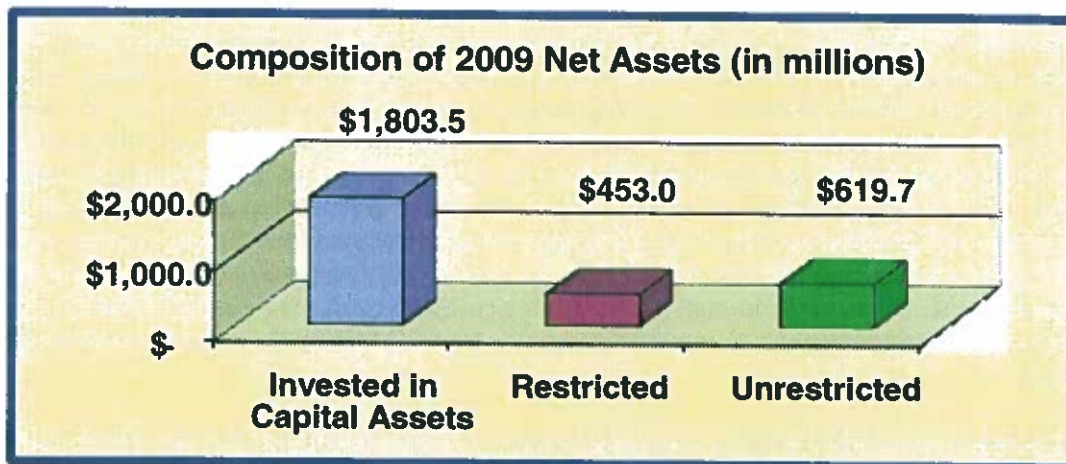

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

Other revenue sources such as federal, state and private grants and contracts have remained stable at some institutions but increased at most. The IHL System's efforts to create self-generated funds, control costs, and eliminate expenditures on some non-core essential activities allowed the institutions to generate sufficient resources to meet and sometimes even exceed budgeted goals.

GASB guidance requires that state appropriation revenues be classified as non-operating on the Statement of Revenues, Expenses and Changes in Net Assets (SRECNA). Because of this treatment, the IHL System will always show a net operating loss at year-end on the SRECNA. This net operating loss approximated \$866.3 million and \$844.7 million for the years ended June 30, 2009 and 2008, respectively. Total operating revenues increased 7.4% in 2009 and 5.5% in 2008, while operating expenses for 2009 and 2008 increased 5.7% and 5.4%, respectively. The accumulated impact of non-operating and other revenues and expenses of the IHL System resulted in a net gain of \$994.7 million in 2009 and \$1,024.5 million in 2008. Overall, the IHL System's net assets increased by \$128.4 million for fiscal year 2009 compared to \$179.8 million in 2008 before the effect of prior period adjustments.

Net assets, which represent the residual interest in the IHL System's assets after liabilities are deducted, increased by \$128.4 million (4.7%) from the prior fiscal year to \$2.9 billion. This compares to an increase of \$185.3 million (7.2%) in 2008 when compared to 2007. Shown below is a chart illustrating the composition of the IHL System's net assets as of June 30, 2009.

Unrestricted net assets as of June 30, 2009 are reflected at \$619.7 million. The major components of this total are the University of Mississippi Medical Center with \$239.6 million, the University of Mississippi with \$152.0 million, Mississippi State University with \$116.5 million, and the University of Southern Mississippi with \$68.9 million for a total of \$577.0 million. As of June 30, 2008, unrestricted net assets were \$579.3 million.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis
June 30, 2009 and 2008

Overview of the Financial Statements

The IHL System's financial report consists of three sections- Management's Discussion and Analysis, the basic financial statements including notes to the financial statements, and finally the financial statements of the discrete component units. The IHL System's basic financial statements consist of the **Statement of Net Assets**, the **Statement of Revenues, Expenses, and Changes in Net Assets**, and the **Statement of Cash Flows**.

Basic Financial Statements

The basic financial statements present information for the IHL System as a whole. **The Statement of Net Assets** presents the financial position of the IHL System at the end of the fiscal year and includes all assets and liabilities for all institutions within the IHL System. The difference between total assets and total liabilities is one measure of the IHL System's financial health or position. The change in net assets is a useful indicator of whether the financial condition of the IHL System is improving or deteriorating. Over time, increases or decreases in the IHL System's net assets provides a useful trend in assessing whether its financial health is improving.

The **Statement of Revenues, Expenses and Changes in Net Assets** presents the operating results of the IHL System, as well as non-operating revenues and expenses. In general terms, operating revenues are received for providing goods and services to the various customers and constituencies of the IHL System. Operating expenses are those incurred to acquire or produce the goods and services provided in return for the operating revenues. Non-operating revenues are those received for which goods and services are not provided as an exchange transaction. For example, state appropriation revenues are classified as non-operating because the State Legislature provides them, without the Legislature receiving commensurate goods or services in return. Due to this classification treatment of such a large portion of the IHL System's total revenues, the IHL System's financial statements typically depict an overall operating loss. Other typical non-operating revenue sources include gifts, grants and appropriations restricted for capital purposes.

The **Statement of Cash Flows** provides another perspective on the IHL System's results of operations. This statement provides detailed information about the cash sources and uses of the IHL System. Additional details concerning this statement are explained later in this report.

Other non-financial factors such as enrollment trends and the condition of the physical plant are also useful in evaluating the overall financial health of the IHL System.

Statement of Net Assets

Net assets are divided into three major categories:

- **Invested in capital assets, net of debt** – represents the IHL System's equity in property, plant and equipment which it owns.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

-
- **Restricted net assets** – represent those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements.
 - **Unrestricted net assets** – represent those assets that are available to the IHL System for any lawful purpose.

From the data presented, readers of the Statement of Net Assets are able to determine the following:

- the assets available to continue the operations of the IHL System
- the liabilities of the IHL System which include the amount owed vendors and lending institutions, and
- the net assets that are available for future expenditure by the IHL System

At June 30, 2009 current assets totaled \$855.7 million and consisted primarily of cash and cash equivalents, short-term investments and net receivables. Current assets increased 9.1% (\$71.2 million) from June 30, 2008. Since June 30, 2007 current assets have increased over 26% (\$177.8 million). Cash, cash equivalents, and short-term investments constituted approximately 59% and 52% of current assets as of June 30, 2009 and 2008, respectively, while receivables constituted approximately 35% of current assets for both years. Approximately 52% and 53% of these net receivables are amounts due from gifts, contracts and grants and the State for appropriations as of June 30, 2009 and 2008, respectively, and approximately 29% (2009) and 19% (2008) related to patient care receivables from UMMC.

At June 30, 2009, current liabilities totaled \$283.4 million and consist primarily of accounts payable and accrued liabilities, and deferred revenues. Deferred revenues include advance receipts for athletic ticket sales, summer tuition, fees, and student housing. Current liabilities increased 4.4% (\$11.9 million) from June 30, 2008. Since June 30, 2007 current liabilities have increased over 29% (\$63.8 million). A large portion of this increase has been experienced by UMMC, where medical payments to third-party payers increased approximately \$31.8 million since June 30, 2007.

At June 30, 2009 and 2008, non-current assets totaled \$3.2 billion and \$3.0 billion, respectively, and include depreciable capital assets of \$2.5 billion (2009) and \$2.3 billion (2008). Other non-current assets include cash and investments that are restricted externally by endowment arrangements or specific grant and contract arrangements and approximated \$555.2 million at June 30, 2009 and \$523.3 million at June 30, 2008. One other significant non-current asset of the IHL System was student note receivables which equaled \$111.0 million at June 30, 2009 and \$109.3 million at June 30, 2008. In comparison to the prior year-end, non-current assets increased 6.2% (\$185.6 million). Since June 30, 2007, non-current assets have actually increased 11.3% (\$320.6 million). The majority of this increase has been seen in the accumulation of capital assets, \$332.6 million. Specifically, the IHL System's inventory of buildings increased in pre-depreciation value by 18.5% or a total of \$341.7 million since June 30, 2007. Additional details about the IHL System's capital asset growth can be seen in the Capital Asset and Debt Administration section of this report.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

Non-current liabilities are those liabilities due and payable more than twelve months from year-end (June 30th). Non-current liabilities equaled \$862.9 million at June 30, 2009 and \$746.4 million at June 30, 2008. These liabilities have increased 16.3% (or \$120.8 million) since June 30, 2007. The largest component of this increase arose from new issuances of capital debt principal from revenue bonds and notes payable, as well as capital lease obligations with contractual maturities greater than one year. In total these capital debt obligations equaled \$696.7 million as of June 30, 2009, of which \$39.8 million is payable during the next 12 months. This compares to capital debt obligations at June 30, 2008 of \$593.2 million, including current maturities of \$39.2 million. Additional details about the IHL System's capital debt can be seen in the Capital Asset and Debt Administration section of this report. Other non-current liabilities of significance include estimated amounts for accrued compensated absences that will not be paid within the next fiscal year (\$83.4 million at June 30, 2009 and \$75.3 million at June 30, 2008), the non-current portion of unpaid claim liabilities relative to its self-insured programs, and government advance refundable obligations relative to the federal government's Perkins loan program in the event of termination.

Restricted non-expendable net assets equaled \$106.9 million and \$108.9 million at June 30, 2009 and 2008, respectively, and consisted of endowment and similar type funds, which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained intact and invested for the purpose of producing income that may either be expended or added to principal. The values of these net assets have increased approximately \$3.1 million or less than 3% since June 30, 2007.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

A summarized listing of the IHL System's assets, liabilities and net assets for the past three fiscal year ends is shown below.

	As of			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Assets					
Current assets	\$ 677,907,937	\$ 784,576,242	\$ 855,725,714	15.7%	9.1%
Capital assets, net	2,164,689,010	2,346,535,978	2,497,240,707	8.4%	6.4%

Statement of Revenues, Expenses and Changes in Net Assets

The Statement of Revenues, Expenses and Changes in Net Assets (SRECNA) displays information on how the IHL System's assets changed as a result of current year operations. This statement presents the IHL System's revenues received and expenses incurred, as well as any other gains or losses for the fiscal year. Operating revenues and expenses have been revised to give effect for certain eliminations relating to inter-campus transactions among the IHL System institutions.

The IHL System's consolidated SRECNA for the year ended June 30, 2009 indicates a net operating loss of \$866.3 million and compares to a net operating loss of \$844.7 million in 2008. The fiscal year 2009 loss represents an increase in the net operating loss from the prior year by \$21.6 million. Since June 30, 2007, the IHL System's net operating loss has increased 12.9% (or \$99.1 million). What this two year loss increase means is that operating expenses have been growing at a faster rate (11.5%) than have operating revenues (10.7%). Net operating loss does not include the

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

effects of non-operating items such as state appropriations revenues, certain gift revenues, or net investment earnings. A summary of the IHL System's SRECNA for the last three fiscal years is shown below.

	For the Years Ended			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Operating revenues	\$ 1,550,106,554	\$ 1,598,226,525	\$ 1,716,514,359	3.1%	7.4%

Net assets at the end of the year	\$ 2,562,471,356	\$ 2,747,777,923	\$ 2,876,190,778	7.2%	4.7%

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

Operating Revenues

Operating revenues for the IHL System totaled \$1.7 billion for fiscal year 2009 compared to \$1.6 billion in 2008. Operating revenues increased 7.4% (or \$118.3 million) during 2009, and an additional 3.1% (or 48.2 million) during 2008. Major components of operating revenues are UMMC patient care revenues (35% in 2009 and 33% in 2008), grants and contracts revenue (29% in 2009 and 30% in 2008), net tuition and fees (21% in 2009 and 20% in 2008), and sales and service revenues from auxiliary activities (9% in 2009 and 10% in 2008). The following table summarizes the IHL System's operating revenues for the past three fiscal years.

	For the Years Ended			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Tuition and Fees (net)	\$ 300,084,842	\$ 324,558,260	\$ 355,813,578	8.2%	9.6%
Grants and contracts	529,688,752	473,876,115	495,371,300	-10.5%	4.5%
Federal Appropriations	14,166,595	15,235,366	14,762,103	7.5%	-3.1%
Sales and Services of educational departments	48,249,402	50,435,806	47,257,293	4.5%	-6.3%
Auxiliary Enterprises (net)	149,003,518	157,688,663	157,195,204	5.8%	-0.3%
Patient Care revenues	463,933,432	531,192,186	599,612,765	14.5%	12.9%
Other	44,980,013	45,240,129	46,502,116	6.0%	2.8%
Total Operating revenues	\$ 1,550,106,554	\$ 1,598,226,525	\$ 1,716,514,359	3.1%	7.4%

Net tuition and fee revenues increased 9.6% (or \$31.3 million) in fiscal year 2009. Mississippi residents saw their in-state tuition rates increase an average of 3.7% in FY 2009, while non-residents paid a 9.0% average higher tuition rate versus the prior year. This accounted for the majority of the tuition revenue increase. Similar rate increases in FY 2008 yielded an additional 8.2% (or 24.5 million) in tuition revenue.

The IHL System grants and contracts revenues increased 4.5% (or \$21.5 million) during FY 2009. This was an encouraging bounce back from the previous year decrease of 10.5% which was primarily caused by the discontinuance of the Special Leveraging Educational Assistance Program (SLEAP - Hurricane Katrina) federal aid program. Over the course of FY 2006 and FY 2007, the IHL System received approximately \$90 million towards the administration of this disaster aid relief program. These funds were discontinued after 2007.

The University of Mississippi Medical Center's net patient care revenues increased 12.9% (or \$68.4 million) in FY 2009. In fact, patient care revenues have experienced significant increases during the last three years. Since 2007, patient revenues have increased 29.3% (or \$135.7 million). Large volume increases in patient admissions, as well as general service price hikes and a recently implemented revenue cycle project have all contributed significantly in this overall revenue rise.

Management's Discussion and Analysis
June 30, 2009 and 2008

Operating Expenses

Operating expenses for the IHL System totaled \$2.6 billion for fiscal year 2009 compared to \$2.4 billion in 2008. Operating expenses increased 5.7% (or \$139.9 million) during 2009, and an additional 5.4% (or \$125.6 million) during 2008. Personnel costs represented 58% (2009) and 57% (2008) of all operating expenses and were the largest component. Other major components for both fiscal 2009 and 2008 were contractual service expenses (18%), commodities (10%), and scholarships and fellowship expenses (5%). The following table summarizes the IHL System's operating expenses (by major object category) for the past three fiscal years.

By Major Object Category	For the Years Ended			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
	Salaries and wages	\$ 1,006,872,216	\$ 1,091,776,007	\$ 1,162,961,844	8.4%
Fringe benefits	272,960,209	305,152,746	322,469,156	11.8%	5.7%
Travel	42,949,694	46,314,254	45,546,636	7.8%	-1.7%
Contractual services	452,788,278	436,926,690	456,543,617	-3.5%	4.5%
Utilities	61,251,067	67,493,528	73,181,756	10.2%	8.4%
Scholarships and fellowships	145,090,826	125,121,663	134,638,181	-13.8%	7.6%
Commodities	237,119,747	265,298,795	265,788,199	11.9%	0.2%
Depreciation	92,264,119	99,791,287	109,528,387	8.2%	9.8%
Other	5,999,662	5,050,318	12,138,308	-15.8%	140.3%
Total Operating expenses	\$ 2,317,295,818	\$ 2,442,925,288	\$ 2,582,796,084	5.4%	5.7%

IHL personnel costs (salaries, wages and fringe benefits) increased 6.3% (or \$88.5 million) during FY 2009. Much of this increase was experienced at UMMC (\$50.8 million) where many new clinical and technical positions on the hospital side of operations were employed. This goes hand-in-hand with the hospitals obligation to properly care for the additional patient volume that was realized during the last three years. A three year analysis of IHL System personnel costs will also show that these costs increased 16.1% (or \$205.6 million) since 2007. Included in that was a 5% merit increase for most IHL employees during 2008. Salary increases in 2009 were generally limited to market adjustments.

The IHL System utilities expense increased 8.4% and 10.2% during 2009 and 2008, respectively, due to ever increasing rates for campus electricity, gas and water and as a result of growth in the physical plant infrastructure. The increased fuel and delivery costs in 2008 affected the prices paid by institutions for their many types of office and general supplies. This is reflected in the \$29.9 million increase in the IHL System's commodities expense during 2008. For 2009 commodities expense was comparable to 2008.

Scholarships and fellowships expense increased 7.6% (or \$9.5 million) in FY 2009. The increase was primarily the result of the tuition rate increases imposed by IHL System institutions during the year. Most of this increase was financed through the campus's institutionally sourced financial aid

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

programs. During 2008 scholarships and fellowships expenses reflected a \$20.0 million decrease when compared to 2007 which principally resulted from the discontinuance of the federal SLEAP (Hurricane Katrina Aid) program that ended in 2007. This particular program provided financial aid benefits for affected students throughout the IHL System which resulted in a \$43.0 million decrease in student aid. After considering this impact, scholarship and fellowship expense actually increased approximately \$23 million during 2008.

Depreciation expense for the IHL System increased 9.8% during FY 2009, while also increasing an additional 8.2% in 2008. This was a direct result in the IHL System's continuing investment in capital assets, including facilities, infrastructure and machinery and equipment. More information about the growth of these assets can be seen in the Capital Assets and Debt Administration section of this report.

As an alternative presentation model, the IHL System's last three fiscal years worth of operating expenses are shown below by major function category. Functional classifications are the traditional categories that universities have used. They represent the type of programs and services that the universities provide. For example, funds utilized to compensate a classroom professor or provide classroom materials would be classified as instruction.

Operating Expenses					
By Function	For the Years Ended			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Instruction	\$ 507,529,876	\$ 546,956,440	\$ 564,371,754	7.8%	3.2%
Research	311,389,546	331,813,167	333,629,057	6.6%	0.5%
Public service	133,675,962	152,388,258	174,670,061	14.0%	14.6%
Academic support	113,057,687	127,246,899	132,690,413	12.6%	4.3%
Student services	63,504,418	66,748,981	67,584,677	5.1%	1.3%
Institutional support	230,120,691	216,369,208	202,970,115	-6.0%	-6.2%
Operations & Maintenance of Plant	145,780,837	157,863,858	157,076,379	8.3%	-0.5%
Student aid	193,624,849	137,108,770	139,884,071	-29.2%	2.0%
Auxiliary enterprises	154,637,244	162,083,151	174,916,490	4.8%	7.9%
Depreciation	75,599,349	95,213,387	102,856,799	25.9%	8.0%
Hospital	447,078,823	492,792,720	578,967,246	10.2%	17.5%
Other	1,774,922	4,253,607	2,207,358	139.7%	-48.1%
Eliminations	(60,478,386)	(47,913,158)	(49,028,336)	-20.8%	2.3%
Total Operating expenses	\$ 2,317,295,818	\$ 2,442,925,288	\$ 2,582,796,084	5.4%	5.7%

Funding the Instruction function continues to be the one of the IHL System's highest priorities (22%). In fact, the IHL System expended an additional 3.2% (or \$17.4 million) in the area of classroom instruction during 2009. A visible effort to expand Instructional costs can be seen to have been successful as the IHL System has expended an additional \$56.8 million in this area alone since 2007 (an 11% increase). Public Service expenditures increased 14.6% (\$22.3 million) during 2009,

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

with an additional 14.0% (\$21.7 million) growth during 2008. Institutional Research (external and internal) continues to grow as can be seen above. Approximately \$22.2 million in additional research funding has been poured into the IHL System since FY 2007. Institutional support costs typically present the functions of the executive management department, general administration and logistical support services, computing, public relations and development. These costs continued to decrease in FY 2009, down 6.2% (or \$13.4 million). Since FY 2007, Institutional Support costs have decreased 11.6% (or \$26.6 million). Auxiliary enterprise costs include all expenditures associated with departments that primarily exist to furnish goods or services to students, faculty, or staff and that charge a fee directly related to, although not necessarily equal to, the cost of the goods and services. Auxiliary departments are required to be essentially self-supporting activities. Examples are (1) Student housing, (2) Food Services, (3) Bookstores, and (4) Intercollegiate Athletics. These auxiliary expenditures increased 7.9% (or \$12.8 million) in fiscal year 2009 and compares to an increase of 4.8% (or \$7.4 million) during 2008. By and large the greatest percentage variance amongst the different expenditure functions was realized in the Hospital function. These costs were incurred by UMMC during the course of their treatment of patients. Hospital costs rose 17.5% in FY 2009. This large increase is not a one-year anomaly. Since 2007, Hospital expenses have risen 29.5% (or \$131.9 million). Increased patient volumes, as well as medical procedure rate adjustments were the main drivers for these increases.

From FY 2007 through FY 2009, the IHL System identified millions of dollars in inter-campus transactions among the institutions that required elimination for financial statement presentation purposes. Examples of such transactions would be student financial aid funds administered by the IHL Executive Office that were directed to the campuses, as well as grant agreements between one or more IHL System institutions in which one campus served as a primary recipient and the other campus would act as a sub-recipient to that same grant agreement. The elimination entries were mostly channeled through the scholarships and fellowships line-item as presented by major object code category.

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

Capital Asset and Debt Administration

At June 30, 2009, the IHL System had almost \$2.5 billion invested in a broad range of capital assets. These assets are comprised of land, buildings and improvements (infrastructure), equipment and library books. They are stated net of accumulated depreciation. The following table summarizes the IHL System's Capital Assets for the most recent three year-end periods.

	As of			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Capital assets not being depreciated	\$ 428,062,912	\$ 441,528,247	\$ 445,456,058	3.1%	0.9%
Depreciable capital assets:					
Improvements other than buildings	187,879,399	205,157,717	238,161,724	9.2%	16.1%
Buildings	1,841,101,865	2,030,614,868	2,182,796,569	10.3%	7.5%
Equipment	497,883,743	519,297,833	541,631,366	4.3%	4.3%
Library books	284,626,803	300,049,479	314,257,831	5.4%	4.7%
Total depreciable capital assets	2,811,491,810	3,055,119,897	3,276,847,490	8.7%	7.3%
Total cost of capital assets	3,239,554,722	3,496,648,144	3,722,303,548	7.9%	6.5%
Less accumulated depreciation	(1,074,865,712)	(1,150,112,166)	(1,225,062,841)	7.0%	6.5%
Capital assets, net	\$ 2,164,689,010	\$ 2,346,535,978	\$ 2,497,240,707	8.4%	6.4%

Non-depreciable capital assets totaled \$445.5 million at June 30, 2009 and \$441.5 million at June 30, 2008. These assets principally consisted of land and construction in progress.

The IHL System experienced strong growth in two capital asset areas, Buildings and Improvements other than Buildings (i.e., Infrastructure). These assets increased 7.5% and 16.1% respectively during FY 2009. Since FY 2007, the IHL institutions gross value of its Building facilities has increased \$341.7 million, while campus infrastructure values have grown \$50.3 million. Each IHL institution recorded sizable capital asset additions during FY 2009. Some of the more significant additions are listed below.

- DSU finished renovations to Kethley Hall and the Delta Music Institute
- JSU continued renovations to their Student Center and School of Engineering facility
- MSU completed numerous facility renovation projects, including the Colvard Student Union and the Rothenburg Opera Building
- MUW finished renovations to its Fine Arts Hall

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

- MVSU finished construction on two new residence halls and continued construction of a new Science and Technology facility
- UM finished renovations on its baseball stadium, while also finishing construction of the Inn at Ole Miss and numerous renovation projects on existing academic facilities
- USM continued construction on numerous construction projects, including an expansion of M.M. Roberts Stadium, the Trent Lott Center for Economic Development, the 4th Street Housing Complex, and the Polymer Building
- UMMC continued construction on the Guyton Building expansion, as well as the inclusion of several existing facilities at the newly owned Farmer's Market property

Please refer to the June 30, 2008 and June 30, 2007 audited financial statements for a description of significant additions during those fiscal years.

At June 30, 2009, the IHL System had \$696.7 in bonded debt, notes payable and capital lease obligations. This represented a 17.4% (or \$103.5 million) increase over the prior year-end. The following table summarizes the IHL System's long-term debt for the most recent three year-end periods.

	As of			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Bonds Payable	\$ 565,181,030	\$ 555,915,540	\$ 667,866,841	-1.6%	20.1%
Notes Payable	3,678,102	6,185,380	5,902,637	68.2%	-4.6%
Capital Lease Obligations	27,310,137	31,109,799	22,922,268	13.9%	-26.3%
Total debt	\$ 596,169,269	\$ 593,210,719	\$ 696,691,746	-0.5%	17.4%

Bonded debt increased 20.1% (or \$112.0 million) during FY 2009. This increase was a result of several new bond issuances made by IHL institutions during the year. New issuances made during 2009 included \$29.2 million at MSU, \$49.7 million at UM and \$49.9 million at USM. These issuances were primarily used to fund new construction on these campuses.

As of June 30, 2008, bonded debt decreased approximately \$9.3 million when compared to the prior year. This decrease was a result of normal debt service payments made by the institutions during the prior year, with no significant new debt issuances introduced.

Statement of Cash Flows

The final statement presented by the IHL System is the Statement of Cash Flows. This statement presents detailed information about the cash activities of the institution during the year. The statement is divided into five parts. The first part entitled "Cash Flows Activities from Operating" shows the net cash used by the operating activities of the IHL System. The second section is entitled "Cash Flows Activities from Non-capital Financing". The primary source of these activities includes State Appropriations. The third section, entitled "Cash Flows Activities from Capital and Related Financing" shows cash flows from the acquisition and construction of capital and related

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

items. The fourth section is entitled "Cash Flows Activities from Investing". This section reflects cash flows from investing activities and shows purchases, proceeds, and interest received from investing activities. The final section contains a reconciliation of net cash provided (used) to the operating income (loss) reflected on the SRECNA. A condensed Statement of Cash Flows is presented below.

	For the Years Ended			Changes Between Years	
	June 30, 2007	June 30, 2008	June 30, 2009	2007 to 2008	2008 to 2009
Statement of Cash Flows

Cash and cash equivalents -					
End of Year	\$ 292,368,568	\$ 419,825,639	\$ 523,215,751	43.6%	24.6%
Cash and cash equivalents classified as:					
Current assets	\$ 165,628,453	\$ 298,676,728	\$ 342,514,748	80.3%	14.7%
Non-current assets	126,740,115	121,148,911	180,701,003	-4.4%	49.2%
Total cash and cash equivalents					
	\$ 292,368,568	\$ 419,825,639	\$ 523,215,751	43.6%	24.6%

Major sources of funds included in operating activities for FY 2009, were student tuition and fees (\$349.2 million), grants and contracts (\$492.2 million), patient care services (\$659.8 million), and auxiliary enterprises (\$166.4 million). Major uses of funds included in operating activities were payments for employees' salaries and benefits (\$1.48 billion), and to suppliers (\$768.6 million).

Major sources of funds included in the non-capital financing activities for FY 2009 include state appropriations (\$745.3 million) and gifts and grants received for purposes other than capital endeavors (\$124.4 million).

Major sources of funds included in the capital and related financing activities section for FY 2009 include proceeds from capital debt issuances (\$257.7 million), and grants and contract funding designated for capital projects (\$64.6 million). Major uses of funds in this section include direct cash

State of Mississippi Institutions of Higher Learning

Management's Discussion and Analysis June 30, 2009 and 2008

payments made for capital assets (\$185.7 million), and principal and interest payments made to retire capital debt (\$185.9 million).

In addition, in FY 2009 capital assets were impacted by non-cash activities including state appropriations and donations (\$54.2 million) and donations of capital assets (\$10.3 million).

Economic Outlook

The overall financial position of the IHL System remains strong. The IHL System continues to successfully respond to significant challenges to its academic programs, stemming from the State's and nations current economic downturn. State support is expected to continue declining through FY 2012. State appropriated revenues comprise approximately 30% of the IHL System's total revenues. At the time of this writing, the FY 2010 state appropriated revenues have already been reduced 5% due to a government mandated mid-year budget cut. These declines will be compounded by the expiration of federal stimulus funding after FY 2011. Even, given the continuation of this economic environment, the IHL System maintains high credit ratings from Moody's (Aa3) and Standard & Poor's (AA-). Achieving and maintaining these high credit ratings provides the IHL System a higher degree of flexibility in securing capital funds on the most competitive terms. This flexibility, along with ongoing efforts toward revenue diversification and cost containment, will enable the IHL System to provide the necessary resources to support a level of excellence in service to students, patients, the research community, the State and the nation.

As a labor-intensive organization, the IHL System faces competitive pressures related to attracting and retaining faculty and staff. Moreover, consistent with the national landscape, the cost of the IHL System's health benefits for its employees has increased dramatically over the past several years, with the increasing costs of medical care and prescription drugs of particular concern. The IHL System has in the past and will continue to take proactive steps to respond to these challenges of rising costs.

While it is not possible at this time to predict the ultimate results, management believes that the IHL System's financial condition will remain relatively strong and stable into FY 2010 and beyond. Management at each institution has a proven track record of successfully adapting to this present economic environment while continuing to search for new opportunities to compliment state support. The IHL System's goal, as always, is to deliver extraordinary services to their customers and constituents while maintaining financial integrity.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Mississippi Constitution was amended in 1943 to create a Board of Trustees of State Institutions of Higher Learning (Board). This constitutional Board provides management and control of Mississippi's system of universities. The Board meets monthly and oversees the eight public universities, the University of Mississippi Medical Center and various off-campus centers and locations throughout the state.

The current twelve Board members were appointed by the Governor and approved by the Senate for twelve year terms as follows: one from each of the seven congressional districts, one from each of the three Supreme Court Districts, and two appointed from the state-at-large. The Mississippi Constitution was amended in 2003 to change the length of terms and appointment districts for Board members. New appointments will occur from the three current Supreme Court districts for terms of nine years. The amendment provides for these new appointments and tenures to be gradually implemented. Full implementation occurs in 2012.

Each of the eight universities and the University of Mississippi Medical Center has established its own educational building corporation (a nonprofit corporation incorporated in the State of Mississippi) in accordance with Section 37-101-61 of the Mississippi Code Annotated of 1972. The purpose of these corporations is for the acquisition, construction and equipping of facilities and land for the various universities. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, these educational building corporations are deemed component units of the State of Mississippi Institutions of Higher Learning and are included as blended component units in the general purpose financial statements.

The following is a list of abbreviations used throughout the report for the member universities of the State of Mississippi Institutions of Higher Learning (collectively "the IHL System"):

ASU	Alcorn State University
DSU	Delta State University
JSU	Jackson State University
MSU	Mississippi State University
MUW	Mississippi University for Women
MVSU	Mississippi Valley State University
UM	University of Mississippi
USM	University of Southern Mississippi
UMMC	University of Mississippi Medical Center
IHL Board Office	Institutions of Higher Learning - System Office
MCVS	Off-campus entity

The IHL System is considered a component unit of the State of Mississippi reporting entity.

The IHL System reports the following discretely presented component units:

Mississippi State University Foundation, Inc.

The Mississippi State University Foundation is a legally separate, tax-exempt not for profit entity established to solicit and manage funds for the benefit of Mississippi State University.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

University of Mississippi Foundation

The University of Mississippi Foundation is a legally separate, tax exempt not for profit non-stock corporation formed for the benefit of the University of Mississippi.

University of Southern Mississippi Foundation

The University of Southern Mississippi Foundation is a not for profit entity formed to provide support to the University of Southern Mississippi and its students.

Although these universities do not control the timing or amount of receipts they receive from these foundations, the majority of the resources or income thereon that these foundations hold and invest are restricted to the activities of their respective universities by the donors.

The Mississippi State University Foundation, Inc., the University of Mississippi Foundation, and the University of Southern Mississippi Foundation each make distributions to their respective Universities for support. During the years ended June 30, 2009 and 2008, support distributions were as follows:

<i>For the years ended June 30,</i>	2009	2008
Mississippi State University Foundation, Inc.	\$ 17,875,592	\$ 23,995,804
University of Mississippi Foundation	\$ 37,484,939	\$ 29,222,192
University of Southern Mississippi Foundation	\$ 8,133,099	\$ 5,458,560

Nature of Operations

Through its member universities, the IHL System serves the state, national and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge and by disseminating knowledge to the people of Mississippi and throughout the world.

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB, including Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments*, and Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - of Public Colleges and Universities*, issued in June and November, 1999, respectively.

Basis of Accounting

The financial statements of the IHL System have been prepared in accordance with accounting principles generally accepted in the United States of America, including all applicable effective statements of the GASB and all statements of the Financial Accounting Standards Board through November 30, 1989, using the economic measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant transactions among departments, campuses and auxiliary units of the IHL System have been eliminated.

Cash Equivalents

For purposes of the statements of cash flows, the IHL System considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The IHL System's investments are invested in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the IHL System's financial statements.

Significant estimates also include the determination of the allowances for uncollectible accounts and contractual adjustments and estimated third-party payor settlements, included as other current assets, relating to the IHL System's patient services. In addition, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates associated with these programs could change by a material amount in the near term.

Included in other long-term liabilities are unpaid claim liabilities relating to the IHL System's self-insured workers' compensation fund, self-funded unemployment trust fund, its tort liability fund and the University of Mississippi Medical Center tort claims fund. The liabilities for these unpaid claims and loss adjustment expenses are determined using both evaluations of each claim and statistical analyses and represent the estimated ultimate net cost of all claims and expenses incurred through the end of the reporting period. The determinations of claims payable include estimates that are particularly susceptible to change in the near term. Management believes that liabilities established for these unpaid claims at June 30, 2009 and 2008 are adequate to cover the ultimate net cost of claims and contractual adjustments, but these liabilities are necessarily based upon estimates and, accordingly, the amount ultimately paid will be more or less than such estimates. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed, and any adjustments are reflected in operations currently.

In connection with the preparation of the financial statements of the IHL System, management evaluated subsequent events through December 15, 2009 which was the date the financial statements were available to be issued.

Short-term Investments

Short-term investments are investments that are not cash equivalents but mature within the next fiscal year.

Accounts Receivables, net

Accounts receivables consist of tuition and fee charges to students and patient accounts receivables at UMMC. Accounts receivables also include amounts due from federal and state governments, and from non-governmental sources, in connection with reimbursement of allowable expenses made pursuant to the universities' grants and contracts. Accounts receivables are recorded net of an allowance for doubtful accounts.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Student Notes Receivables, net

Student notes receivables consist of federal, state and institutional loans made to students for the purpose of paying tuition and fee charges. Loan balances expected to be paid during the next fiscal year are presented on the statement of net assets as current assets. Those balances that are either in deferment status or expected to be paid back beyond the next fiscal year are presented as noncurrent assets on the statement of net assets.

Inventories

Inventories consist of bookstore, physical plant, agriculture, printing and food service supplies. These inventories are generally valued at the lower of cost or market, on either the first-in, first-out ("FIFO") basis or the average cost basis.

Collections

On occasion, the IHL System may obtain collections of art or historical treasures (usually as private donations to its member institutions). These collections are usually held for public exhibition, education or research. The IHL System is not required to capitalize these collections and in practice generally does not capitalize their value in the financial presentation.

Prepaid Expenses

Prepaid expenses generally consist of expenditures that are related to projects, programs, activities or revenues of future fiscal periods.

Restricted Cash and Cash Equivalents and Restricted Short-term Investments

Cash, cash equivalents and short-term investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statements of net assets.

Endowment Investments

Endowment investments are generally subject to the restrictions of donor gift instruments. They include true endowment funds, which are funds received from a donor with the restriction that only the income is to be utilized; term endowment funds, which are funds for which the donor has stipulated that the principal may be expended after a stated period or on the occurrence of a certain event and quasi-endowment funds, which are funds established by the governing board to function like an endowment fund but may be totally expended at any time at the discretion of the governing board.

Other Long-term Investments

The IHL System accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses and changes in net assets.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or, if donated, at fair market value at the date of donation. Livestock for educational purposes is adjusted at year-end to reflect market price. Renovations to buildings and improvements other than buildings that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to the functional expenditure categories. See Note 6 for additional details concerning useful lives, salvage values and capitalization thresholds. Expenditures for construction in progress are capitalized as incurred. Interest expense relating to construction is capitalized net of interest income earned on resources set aside for this purpose, if material. Restricted cash and investments include certain maintenance and replacement reserves that have been established to fund costs relating to residences and other auxiliary activity facilities.

Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities generally consist of amounts owed to vendors, contractors, or accrued items such as interest, wages, and salaries.

Income Taxes

Each member institution of the IHL System is considered an agency of the State and is treated as a governmental entity for tax purposes. As such, they are generally not subject to federal and state income taxes. However, these institutions do remain subject to income taxes on any income that is derived from a trade or business regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded because, in the opinion of management, there is no significant amount of taxes on such unrelated business income.

Deferred Revenues

Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Deposits Refundable

Deposits refundable represent good faith deposits from students to reserve housing assignments, key deposits and post breakage deposits in the residence halls of the member universities of the IHL System.

Noncurrent Liabilities

Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable and capital lease obligations, (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

Government Advances Refundable

The IHL System participates in the Federal Perkins Loan and Nursing Loan Programs, which are funded through a combination of Federal and institutional resources. The portion of these programs that has been funded with Federal funds is ultimately refundable to the U.S. Government upon the termination of IHL System's participation in the programs. The portion that would be refundable if the programs were terminated has been presented as other long-term liabilities and approximated \$65,398,000 and \$65,570,000 as of June 30, 2009 and 2008, respectively.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences

Twelve-month employees earn annual personal leave at a rate of 12 hours per month for zero to three years of service; 14 hours per month for three to eight years of service; 16 hours per month for eight to 15 years of service; and for 15 years of service and over, 18 hours per month are earned.

There is no requirement that annual leave be taken, and there is no maximum accumulation. At termination, these employees are paid for up to 240 hours of accumulated annual leave.

Nine-month employees earn major medical leave at a rate of 13 1/3 hours per month for one month to three years of service; 14 1/5 hours per month for three to eight years of service; 15 2/5 hours per month for eight to 15 years of service; and for 15 years of service and over, 16 hours per month are earned. There is no limit on the accumulation of sick leave. At retirement, these employees are paid for up to 240 hours of accumulated major medical leave.

Classification of Revenues and Expenditures

The IHL System has classified its revenues and expenses as either operating or nonoperating according to the following criteria:

Operating revenues and expenses have the characteristics of exchange transactions. These transactions can be defined as an exchange in which two or more entities both receive and sacrifice value, such as purchases and sales of goods or services. Examples of operating revenues include (1) student tuition and fees; (2) sales and services of auxiliary enterprises; (3) most federal, state and local grants and contracts; and (4) other operating revenues. Examples of operating expenses include (1) employee compensation, benefits, and related expense; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, supplies and other services; (4) professional fees; and (5) depreciation expenses related to certain capital assets.

Non-operating revenues has the characteristics of non-exchange transactions. Examples of non-operating revenues include state appropriations, gifts and contributions. Non-operating expenses are defined in GASB No. 9, *Reporting Cash Flows of Proprietary and Non-expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB No. 34, such as state appropriations, investment income and interest on capital asset related debt and bond expenses. Included in non-operating gifts and grants are federally awarded student financial aid program revenues of approximately \$99,034,000 and \$87,491,000 for the years ended June 30, 2009 and 2008, respectively.

Auxiliary Enterprise Activities

Auxiliary enterprises typically exist to furnish goods or services to students, faculty, or staff, and that charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. One distinguishing characteristic of auxiliary enterprises is that they are managed as essentially self-supporting activities. Included in auxiliary enterprise revenues are fees and sales for residence halls, food services, bookstore activities and intercollegiate athletic programs. The general public may be served incidentally by auxiliary enterprises.

Patient Care Revenues

Patient care revenues are reported at the estimated net realizable amounts from patients, third-party payers, and others for hospital and clinical services rendered by UMMC, including contractual allowances and estimated retroactive revenue adjustments due to future audits, reviews, and

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

investigations, as well as the provision for doubtful accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations. During 2009 and 2008, net patient service revenue decreased approximately \$20,183,000 and \$19,927,000, respectively, due to adjustments to previous estimates. The provision for doubtful accounts netted against revenue approximated \$293,239,000 in 2009 and \$268,501,000 in 2008.

Medicare

Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Inpatient skilled nursing services are paid at prospectively determined per diem rates that are based upon patients' acuity. Certain in-patient non-acute services and defined medical education costs are paid based on a cost reimbursement methodology. UMMC is reimbursed for certain services at tentative rates, with final settlement determined after submission of annual cost reports by UMMC and audits thereof by the Medicare intermediary. UMMC's Medicare cost reports have been audited and settled for all years through fiscal 2007. During 2008, UMMC received notification from the fiscal intermediary of the intent by Medicare to reopen cost reports filed for as far back as 2002 to adjust for overpayments made for outpatient renal dialysis services and as a result accrued an estimated liability of approximately \$8,229,000. In 2009, UMMC repaid the Medicare program approximately \$5,424,000 for adjustments to outpatient renal dialysis services for fiscal years 2003 through 2006. In addition, during 2009, UMMC received notification that the Medicare recovery audit contractor program, intended to identify and recover improper Medicare payments to healthcare providers, for the region that includes the State of Mississippi would begin soon. As a result and based upon a review of claims eligible for the review and experience of providers being audited in other regions, UMMC accrued a reserve of approximately \$9,160,000 for potential claim adjustments as of June 30, 2009.

Medicaid

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology for certain services and at prospectively determined rates for all other services. UMMC is reimbursed for cost reimbursable services at tentative rates based on annual cost reports submitted by UMMC with final settlement determined after audits thereof by the Medicare fiscal intermediary. During 2009 and 2008, UMMC accrued additional liabilities of approximately \$14,014,000 and \$12,000,000, respectively for potential claim adjustments as a result of notifications by Medicaid. These notifications centered around changes in the methodology used to reimburse outpatient services that would be applied retroactively back to 2005 and decreases in previously computed rates for inpatient services as a result of audited Medicare cost reports and changes in Medicaid covered days. In 2009, approximately \$10,289,000 was repaid to Medicaid relative to these claim adjustments.

Revenue from the Medicare and Medicaid programs, including supplement payments for Medicaid DSU and UPL, accounted for approximately 27% and 46%, respectively, of UMMC's net patient service revenues for the year ended June 30, 2009 and approximately 22% and 56%, respectively, for the year ended June 30, 2008.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

UMMC also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to UMMC under these agreements includes prospectively determined rates per discharge, discounts for established charges and prospectively determined daily rates.

Scholarship Discounts and Allowances

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid, such as loans, funds provided to students as awarded by third parties and Federal Direct Lending, is accounted for as a third party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as scholarship allowances, which reduce revenues, or as operating expenses. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash.

Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a university basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third party aid.

Net Assets

Net assets are classified according to external donor restrictions or availability of assets for satisfaction of university obligations. Nonexpendable restricted net assets are gifts that have been received for endowment purposes, the corpus of which cannot be expended. Expendable restricted net assets represent funds that have been gifted for specific purposes and institutional funds used for federal loan programs.

The unrestricted net assets of the IHL System include certain amounts which have been designated for financial resource utilization in future periods. Unrestricted net assets include designations as of June 30, 2009 and 2008, as follows:

<i>As of June 30,</i>	2009	2008
Academic programs and research	\$ 9,980,187	\$ 16,536,585
Auxiliary operations, renewals and replacements	36,466,899	34,890,224
Capital projects	101,654,176	50,224,255
Debt services	8,597,972	1,879,852
Designated projects	79,050,428	66,562,750
Encumbrances	55,105,473	59,665,592
Quasi-endowments	14,935,110	17,761,411
Repairs and maintenance	8,374,569	8,232,890
Undesignated	305,579,796	323,544,024
	\$ 619,744,610	\$ 579,297,583

Future Accounting Pronouncements

In June 2007, GASB issued Statement No. 51, *Accounting and Financial Reporting of Intangible Assets*. The objective of this statement is to establish accounting and financial reporting requirements for intangible assets to reduce inconsistencies in recognition, measurement, and

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

amortization of intangible assets. This statement requires that all intangible assets not specifically excluded by its scope be classified as capital assets. This statement provides guidance on determining the useful life of an intangible asset or if the intangible asset should be considered to have an indefinite useful life, and therefore should not be amortized. GASB No. 51 is effective for the IHL System for the fiscal year beginning July 1, 2009.

In November 2007, the GASB issued GASB Statement No. 52, *Land and Other Real Estate Held as Investments by Endowments*. This statement establishes consistent standards for the reporting of land and other real estate held as investments by requiring endowments to report their land and other real estate investments at fair value. Governments also are required to report the changes in fair value as investment income and to disclose the methods and significant assumptions employed to determine fair value, and other information that they currently present for other investments reported at fair value. GASB No. 52 is effective for the IHL System for the fiscal year beginning July 1, 2009 with any changes made to comply with this statement treated as an adjustment of prior periods.

In June 2008, the GASB issued GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments and specifically requires governments to measure most derivative instruments at fair value in their financial statements that are prepared using the economic resources measurement focus and the accrual basis of accounting. The new standard provides specific criteria that governments will use to determine whether a derivative instrument will result in an effective hedge. Changes in fair value for effective hedges that are achieved with derivative instruments will be recognized in the reporting period to which they relate. The changes in fair value of these hedging derivative instruments do not affect current investment revenue, but are instead reported as deferrals in the statement of net assets or the balance sheet. Derivative instruments that either do not meet the criteria for an effective hedge or are associated with investments that are already reported at fair value are classified as investment derivative instruments for financial reporting purposes. Changes in fair value of those derivative instruments are reported as part of investment revenue in the current reporting period. The requirements of GASB No. 53 are effective for the IHL System for the fiscal year beginning July 1, 2009.

In March 2009, the GASB issued GASB Statement No. 54, *Fund Balance Reporting and Government Fund Type Definitions*. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in government funds. The requirements of GASB No. 54 are effective for the IHL System for the fiscal year beginning after June 15, 2010.

Management has not completed its evaluations to determine the effect, if any, the adoption of these future statements will have on the IHL System's financial condition or results of operations.

Reclassifications

Certain reclassifications have been made to the 2008 financial statements to conform to the 2009 method of presentation.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 2 – PRIOR PERIOD ADJUSTMENTS

For the year ended June 30, 2008, the IHL System recorded prior period adjustments which reduced net assets, as previously reported, by \$5,513,926. These prior period adjustments resulted from corrections of errors as follows:

Adjustments to capital assets	\$ 6,405,518
Other corrections	(891,592)
Total	\$ 5,513,926

NOTE 3 – CASH AND INVESTMENTS

Cash, Cash Equivalents and Short-term Investments

Investment policies as set forth by Board of Trustees policy and state statute authorize the universities to invest in demand deposits and interest-bearing time deposits such as savings accounts, certificates of deposit, money market funds, U.S. Treasury bills and notes, and repurchase agreements.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of the failure of a financial institution, the IHL System will not be able to recover deposits or collateral securities that are in the possession of an outside party. The IHL System does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages risk on behalf of the IHL System. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the IHL System.

The collateral for public entities' deposits in financial institutions is held under a program governed by Section 27-105-5 of the Mississippi Code Annotated (1972). Under this program, the IHL System's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Investments

Investment policies as set forth by Board policy as authorized by Section 37-101-15, Mississippi Code Annotated (1972), authorizes the universities to invest in equity securities, bonds and other securities. Investments are reported at fair value (market).

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 3 – CASH AND INVESTMENTS (Continued)

The following table summarizes the fair values of the IHL System's investments as of June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Short-term investments - current assets	\$ 163,888,934	\$ 105,722,484
Noncurrent assets:		
Restricted short-term investments	11,443,294	8,965,197
Endowment investments	157,961,394	179,379,213
Other long-term investments	205,048,500	213,804,913
Total	\$ 538,342,122	\$ 507,871,807

The following table presents the fair value of investments by type at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
U.S. Government agency obligations	\$ 179,730,566	\$ 202,442,680
U.S. Treasury obligations	11,632,429	1,096,439
Certificates of deposit	172,032,226	114,981,696
Corporate bonds and notes	742,547	708,598
Commercial mortgage backed securities	6,703,097	4,672,303
Collateralized mortgage obligations	20,741,363	11,629,042
Municipal bonds	11,674,207	2,969,559
Money market funds	501,391	2,534,057
Fixed income mutual funds	31,501,578	32,711,280
Asset backed securities	2,892,885	3,402,500
Domestic equity securities	35,183,021	48,474,690
International equity mutual funds	13,822,819	24,020,113
Land grant principle	1,340,068	1,340,068
Domestic equity mutual funds	28,361,379	36,610,752
Guaranteed investment contract	-	3,797,117
Equity hedge funds	10,474,331	11,301,749
Miscellaneous	11,008,215	5,179,164
Total	\$ 538,342,122	\$ 507,871,807

Custodial Credit Risk

Per GASB Statement No. 40, custodial credit risk is defined as the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The IHL System does not presently have a formal policy for custodial credit risk. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered with securities held by the counterparty's trust department or agent, but not held in the government's name. Investments of approximately \$20,583,000 and \$26,121,000 were exposed to custodial risk as of June 30, 2009 and June 30, 2008, respectively.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 3 – CASH AND INVESTMENTS (Continued)

Interest Rate Risk

Per GASB Statement No. 40, interest rate risk is defined as the risk a government may face should interest rate variances adversely affect the fair value of investments. The IHL System does not presently have a formal policy that addresses interest rate risk. As of June 30, 2009 and 2008, the IHL System had the following investments subject to interest rate risk:

As of June 30, 2009

Investment Type	Fair Value	Investment Maturities (in years)			
		Less than 1	1 - 5	6 - 10	More than 10
U.S. Government agency obligations	\$ 179,730,566	\$ 2,346,875	\$ 116,866,875	\$ 58,871,038	\$ 1,645,778
U.S. Treasury obligations	11,632,429	11,296,953	284,252	34,617	16,607

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 3 – CASH AND INVESTMENTS (Continued)

Credit Risk

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. The IHL System does not presently have a formal policy that addresses credit risk. As of June 30, 2009 and 2008, the IHL System had the following exposure to investment credit risk:

As of June 30,	2009	2008
<u>Credit Rating</u>	<u>Fair Value</u>	<u>Fair Value</u>
AAA	\$ 167,671,579	\$176,372,651
Aaa	10,819,033	27,248,249
Aa1	6,337	10,112
Aa2	19,361	9,087
Aa3	1,576,105	851,176
AA	6,109,452	130,496
A1	15,473	4,036
A2	29,136	36,321
A3	17,541,587	264,145
A	4,441,801	201,142
Baa1	-	3,785
Baa2	4,058	6,936
BBB	10,447	10,272
Rating not available	57,374,303	58,281,110
Total	\$ 265,618,672	\$ 263,429,518

The credit risk ratings listed above are issued upon standards set by Standards and Poor's or Moody's Ratings Services.

Concentration of Credit Risk

Per GASB Statement No. 40, concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The IHL System does not presently have a formal policy that addresses concentration of credit risk. The IHL System had the following investments that represent more than 5 percent of net investments as of June 30, 2009 and 2008:

As of June 30, 2009

<u>Issuer</u>	<u>Fair Value</u>	<u>Percentage</u>
Federal Home Loan Bank notes	\$ 44,169,552	8.20%
Federal Home Loan Mortgage Corporation notes	39,671,356	7.37%
Federal National Mortgage Association notes	63,780,872	11.85%

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 3 – CASH AND INVESTMENTS (Continued)

As of June 30, 2008

<u>Issuer</u>	<u>Fair Value</u>	<u>Percentage</u>
Federal Home Loan Bank notes	\$ 70,495,035	13.88%
Federal Home Loan Mortgage Corporation notes	59,146,517	11.65%
Federal National Mortgage Association notes	32,165,072	6.33%

Foreign Currency Risk

Per GASB Statement No. 40, the foreign currency risk is defined as the risk that changes in exchange rates will adversely affect the fair value of an investment. The IHL System does not presently have a formal policy that addresses foreign currency risk. The IHL System's exposure to foreign currency risk is limited to investments in global or pooled non-U.S. equity mutual funds which approximated \$13,823,000 and \$24,020,000 at June 30, 2009 and 2008, respectively.

NOTE 4 – ACCOUNTS RECEIVABLE

Accounts receivable of the IHL System consisted of the following as of June 30, 2009 and 2008:

<u>As of June 30,</u>	<u>2009</u>	<u>2008</u>
Student tuition	\$ 63,530,472	\$ 60,231,897
Auxiliary enterprises and other operating activities	19,906,537	17,827,522
Contributions and gifts	20,654,515	15,239,690
Federal, state, and private grants and contracts	113,372,970	112,846,545
State appropriations	18,226,726	14,408,129
Accrued interest	3,090,343	3,386,772
Patient income	2,218,900,069	1,909,425,307
Other	11,185,350	8,881,229
Total account receivable	2,468,866,982	2,142,247,091
Less allowance for doubtful accounts	(2,176,094,641)	(1,879,748,383)
Net accounts receivable	\$ 292,772,341	\$ 262,498,708

As a component unit of the State of Mississippi, the IHL System is precluded by statute from discharging amounts owed. Accordingly, gross accounts receivables and the allowance for doubtful accounts include amounts considered to be 100% uncollectible and fully reserved in a prior year.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 5 – NOTES RECEIVABLE FROM STUDENTS

Notes receivable from students are payable in installments over a period of up to ten years, commencing three to twelve months from the date of separation from one of the IHL System's institutions. The following is a schedule of interest rates and unpaid balances for the different types of notes receivable held by the IHL System as of June 30, 2009 and 2008:

	Interest Rates	June 30, 2009	Current Portion	Non-current Portion
Perkins student loans	3% to 9%	\$ 77,190,125	\$ 7,871,457	\$ 69,318,668
Nursing student loans	3% to 9%	436,529	77,107	359,422
Other federal loans	3% to 9%	3,287,060	1,720,068	1,566,992
Institutional loans	0% to 9%	58,205,408	5,521,255	52,684,153
Medical student loans	3% to 9%	165,742	22,977	142,765
Dental student loans	3% to 9%	373,471	20,559	352,912
Total notes receivable		139,658,335	15,233,423	124,424,912
Less allowance for doubtful accounts		(17,186,431)	(3,748,054)	(13,438,377)
Net notes receivable		\$ 122,471,904	\$ 11,485,369	\$ 110,986,535

	Interest Rates	June 30, 2008	Current Portion	Non-current Portion
Perkins student loans	3% to 9%	\$ 74,172,090	\$ 7,595,644	\$ 66,576,446
Nursing student loans	3% to 9%	533,797	80,428	453,369
Other federal loans	3% to 9%	3,209,412	1,699,807	1,509,605
Institutional loans	0% to 9%	57,312,989	4,522,918	52,790,071

As of June 30, 2009 and 2008, capital assets included assets under capital leases with an original cost of basis of approximately \$36,349,000 and \$42,914,000, respectively and accumulated depreciation of approximately \$9,944,000 and \$8,541,000, respectively.

Prior period adjustments in 2008 were recorded to correct prior year's errors in recording construction in progress, capital assets and accumulated depreciation.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 6 – CAPITAL ASSETS (Continued)

Depreciation is computed on a straight-line basis with the exception of the library books category, which is computed using a composite method. The following useful lives, salvage values and capitalization thresholds are used to compute depreciation:

	Estimated Useful Lives	Salvage Value	Capitalization Threshold
Buildings	40 years	20%	\$ 50,000
Improvements other than buildings	20 years	20%	25,000
Equipment	3 - 15 years	1 -10%	5,000
Library books	10 years	0%	-

NOTE 7 – ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities consisted of the following as of June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Payable to vendors and contractors	\$ 81,720,082	\$ 72,722,229
Accrued salaries, wages and employee withholdings	65,226,131	63,175,135
Accrued interest	2,675,442	2,027,592
Other	4,975,385	5,992,296
Total	\$ 154,597,040	\$ 143,917,252

NOTE 8 – DEFERRED REVENUES

Deferred revenues consisted of the following as of June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Unearned summer school revenue	\$ 18,382,384	\$ 19,245,677
Unearned grants and contract revenue	5,348,478	13,816,413
Other, principally athletic activities	19,931,247	18,522,076
Total	\$ 43,662,109	\$ 51,584,166

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES

Long-term liabilities of the IHL System consists of notes and bonds payable, capital lease obligations and certain other liabilities that are expected to be liquidated at least one year from June 30, 2009 and 2008, respectively. The various leases cover a period not to exceed five years. The IHL System has the option to prepay all outstanding obligations less any unearned interest to fully satisfy the obligation. There is also a fiscal funding addendum stating that if funds are not appropriated for periodic payment for any future fiscal period, the lessee will not be obligated to pay the remainder of the total payments due beyond the end of the current fiscal period.

Information regarding original issue amounts, interest rates and maturity dates for bonds, notes and capital leases relative to the long-term liabilities for each of the universities within the IHL System as of June 30, 2009 and 2008, is listed in the following schedule.

Demand Bonds

Included in bonds payable are several variable rate demand revenue bond issues which are subject to purchase on the demand of the holder at a price equal to principal plus accrued interest. Demand revenue bonds outstanding as of June 30, 2009 include Series 2006B-2 bonds issued by the University of Mississippi EBC (UMEBC) aggregating approximately \$4,075,000 and Series 2008A and Series 2008B bonds issued by the University of Mississippi Medical Center EBC (UMMCEBC) aggregating approximately \$84,630,000. As of June 30, 2008, demand revenue bonds outstanding included Series 2000A and Series 2006B-2 bonds issued by UMEBC aggregating approximately \$30,900,000 and Series 2001 and Series 2004 bonds issued by UMMCEBC aggregating approximately \$84,855,000.

With regard to the IHL System's demand bond program, the issuer generally enters into take-out or liquidity agreements with a financial institution which would convert the demand bonds to another form of long-term indebtedness, if not successfully remarketed within 180 days, except for the new 2008A and 2008B variable rate demand revenue bonds of UMMEBC which have only a 60-day waiting period. The converted term loans under the take-out agreements subject the bonds to accelerated amortizations payable in ten equal semi-annual installments over a five year period. In addition, the liquidity bank interest rate for these two bond issues, which is a variable rate determined by various factors, has a floor of not less than 10% per annum and not greater than 25%.

For the demand bonds, the issuer is required to pay annual standby purchase liquidity fees to the liquidity provider (ranging from .145% to .44% per annum of the available commitment (outstanding principal and interest)).

As of June 30, 2008, \$23.2 million of outstanding UMEBC Series 2000A coupons had been tendered to the liquidity provider for this issue, and interest rates reset to prime, which was 5%. By August 14, 2008, the remaining \$3.625 million of outstanding coupons had been tendered. At the

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES (Continued)

time of issuance, these variable rate bonds were insured to Aaa status through MBIA. The credit rating of MBIA was downgraded and placed on negative credit watch during 2008. As a result of this credit rating downgrade, the market and liquidity for MBIA insured municipals disappeared. The liquidity provider attempted to remarket these bonds but because their remarketing was improbable in the near term and accelerated amortization requirements of the liquidity facility agreement would have activated on July 1, 2009, the bonds were refunded through the issuance of 2009B revenue bonds in 2009.

On October 8, 2008, all \$4,075,000 of outstanding UMEBC Series 2006B-2 coupons were tendered to the liquidity provider and interest rates reset to prime. This issue was insured to AAA status through FSA. FSA was placed on "Negative Watch list" by Moody's Investors Service on July 21, 2008 and "CreditWatch Negative" by Standard and Poor's on October 8, 2008. As a result of these credit rating announcements the liquidity and market for FSA insured variable rate demand obligations dramatically contracted. Because remarketing of the bonds was not successful during 2009 and accelerated amortization requirements were scheduled to activate beginning October 1, 2009, the bonds were retired on September 22, 2009.

As of June 30, 2008, \$42 million of outstanding UMMCEBC Series 2004 variable rate demand revenue bonds had been tendered to the liquidity provider for this issue, and interest rates reset to prime, which was 5%. At the time of issuance, these variable rate bonds were insured to Aaa status through AMBAC. The credit rating of AMBAC was downgraded and placed on negative credit watch during 2008. As a result of this credit rating downgrade, the market and liquidity for AMBAC insured municipals disappeared. While the liquidity provider attempted to remarket these bonds, their remarketing was improbable in the near term. Accelerated amortization requirements of the liquidity facility agreement activate 180 days after June 22, 2009 which would have required accelerated repayments in ten equal semi-annual installments beginning December 1, 2009.

In addition, UMMCEBC had outstanding at June 30, 2008, \$42.3 million of Series 2001 variable rate demand revenue bonds that were insured at issuance by AMBAC. Due to the rating downgrades of AMBAC and financial instability of the carrier, these bonds traded at an interest rate higher than the market rate and as of June 30, 2008 had an effective rate of 7.5%. In 2009, these bonds were tendered to the liquidity provider which would have subjected these bonds to accelerated amortization.

In order to mitigate the adverse impact of certain credit market conditions and avoid accelerated amortization, UMMCEBC began deliberations and negotiations in May 2008 to refund both the 2001 and the 2004 issues. Refunding was completed on both bond issues in October 2008, with issuances of two new variable rate demand revenues refunding bonds, whose principal matures annually through July 1, 2034, with interest due monthly. The new issuances carry similar terms and similar remarketing and standby purchase take-out arrangements; however, the new agreements have only a 60-day waiting period before the bank bonds are required to be paid back in equal installments over five years.

Advance and Current Refundings

During the fiscal years 2009 and 2008, the IHL System issued approximately \$126,557,000 and \$49,409,000, respectively, of revenue refunding bonds to currently refund or advance refund and defease certain bond issues. Net proceeds for the advance refunding of bond issues were deposited into irrevocable trusts to provide all future debt service payments of the refunded debt.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES (Continued)

The refunding of the issues were undertaken to avoid accelerated repayments for demand bonds and to reduce debt service payments over the remaining years of maturity. During 2009 and 2008, the advanced refunding reduced debt service payments over the next 26 years and resulted in economic gains (the difference between the present value of the debt service payments of the refunded and refunding bonds) of approximately \$50,237,000 and \$1,388,000, respectively.

Defeased Bonds

In prior years, the IHL System defeased certain outstanding bonds by depositing the new proceeds of refunding bonds and additional monies from debt service funds in irrevocable trusts to be used solely for satisfying all remaining principal and interest payments on defeased bonds. Accordingly, for financial reporting purposes the defeased bonds and related trust accounts are not included in the financial statements. At June 30, 2009 and 2008, approximately \$86,966,000 and \$70,607,000, respectively, of outstanding bonds (including prior years' refundings) are considered defeased.

Interest Rate Exchange Agreements (Swap)

University of Mississippi EBC, Series 2000A, Swap Agreement

As a means to lower exposure to rising interest rates, the University of Mississippi EBC (UMEBC) entered into an interest rate swap agreement in connection with the \$34.7 million UMEBC, Series 2000A variable-rate issue. The intention of the swap was to effectively change the interest rate on \$20 million of bonds originally issued to a fixed rate of 3.314%. UMEBC subsequently entered into a basis swap agreement which overlays the original interest rate swap agreement. The basis swap agreement exchanged the referenced index rate of the original swap agreement. The intention of the basis swap agreement was to further enhance the probability of reducing the exposure to interest rate fluctuations over the remaining term of the original notional amount. These agreements were subject to credit and market risks that were not reflected on the financial statements.

Under the interest rate swap agreement, UMEBC paid the counterparty (JP Morgan) a fixed payment of 3.314% and receives a variable payment computed at 70% of the one month average LIBOR. Under the basis swap agreement, UMEBC paid the counterparty a variable payment computed at 70% of one month average LIBOR and receives a variable payment computed at 63.03% of the five year average LIBOR.

During 2009 the 2000A variable rate bond issue was refunded. As a result, in 2009 both the interest rate swap agreement and the basis swap agreement were terminated and the net termination cost of approximately \$1,006,000 was charged to expense.

As of June 30, 2008, the calculated fair value of the interest rate swap agreement was a liability of approximately \$231,000 and the fair value of the basis swap agreement was an asset of approximately \$60,000. The fair value of the swap agreements were calculated by a swap pricing system in which the future net settlement swap payments were calculated and discounted to the valuation date using future spot interest rates. The future spot rates are zero-coupon bonds due on the future settlement dates implied from the current yield curve.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES (Continued)

University of Mississippi Medical Center EBC Swap Agreements

To lower exposure to rising interest rates, the University of Mississippi Medical Center EBC (UMMCEBC) entered into various interest rate swap agreements. On July 1, 2004, UMMCEBC entered into an interest rate swap agreement with a notional amount of \$45 million to effectively change the interest rate on its Series 2001 variable-rate bonds to a fixed rate of 3.285%. This swap agreement was not terminated when the Series 2001 bonds were refunded in 2009 but was maintained to effectively fix the rate for the 2008B series variable rate demands bonds that were used to refund the Series 2001 bonds.

On August 16, 2004, UMMCEBC entered into an interest rate swap agreement with a notional amount of \$44 million to effectively change the interest rate on its Series 2004 variable-rate bonds to a fixed rate of 3.197%. This swap agreement was not terminated when the Series 2004 bonds were refunded in 2009 and also was maintained to effectively fix the rate for the 2008A series variable rate demand bonds that were used to refund the Series 2004 bonds.

The variable-rate coupons of the bonds for both series are based on the variable Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (formerly the Bond Market Association Municipal Swap Index).

UMMCEBC had also entered into two secondary basis interest rate swap agreements tied to different benchmark indexes but with similar terms as the above swap agreements. The intent of the two supplemental basis swap agreements was to take advantage of market conditions to further reduce interest cost for both bond issues. Due to favorable market conditions the two supplemental basis swap agreements were terminated in March 2008, which resulted in gains reported in non-operating revenues of approximately \$2,173,000 during 2008.

Terms

The \$41.895 million Series 2008B bonds mature July 1, 2031 and the related swap agreement settles monthly and matures July 1, 2014. The notional amount of the interest rate swap agreement was \$41,335,000 and \$42,305,000 at June 30, 2009 and 2008, respectively. Under the interest rate swap agreement, UMMCEBC pays the counterparty (Wachovia) a fixed payment of 3.285% and receives a variable payment computed at 67% of the one month average LIBOR. Prior to its termination on March 3, 2008, under the secondary basis swap agreement, UMMCEBC paid the counterparty (Wachovia) a fixed payment of 3.285% and received a variable payment computed at 61.52% of the five year LIBOR rate with settlements occurring monthly. The results of the transactions of the secondary swap were to create a swap indexed to five year LIBOR, rather than one month LIBOR.

The \$43.125 million Series 2008A bonds mature June 1, 2034 and the related swap agreement settles monthly and matures June 1, 2014. The interest rate swap agreement's notional amount was \$42,160,000 and \$42,550,000 at June 30, 2009 and 2008, respectively. Under the interest rate swap agreement, UMMCEBC pays the counterparty a fixed payment of 3.197% and receives a variable payment computed at 67% of the one month average LIBOR. Prior to its termination on March 17, 2008, under the secondary basis swap agreement, UMMCEBC paid the counterparty (Morgan Keegan Financial Products, Inc.) a fixed payment of 3.19684% and received a variable

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES (Continued)

payment computed at 83.9% of the BMA index reference rate with settlements occurring monthly. The results of the transactions of the secondary swap were to create a swap indexed to the BMA reference rate, rather than one month LIBOR.

Fair Values

The June 30, 2009 and 2008, calculated fair value of the initial interest rate swap for the \$45 million Series 2001 bond and \$41.895 million refundable Series 2008B bond was a liability approximating \$2,602,000 and \$931,000, respectively. The calculated fair value of the interest rate swap for the \$44 million Series 2004 bonds and its refundable \$43.125 million Series 2008A bonds was a liability of approximating \$2,574,000 and \$771,000 as of June 30, 2009 and 2008, respectively. The fair value of the swap agreements were calculated by the counterparty using systems derived from both proprietary models as of a given date based on certain assumptions regarding past, present and future market conditions and certain financial information from sources that the counterparty believes to be reliable. The fair value of the swap agreements is not recognized in the IHL System's financial statements.

Credit Risk

At June 30, 2009 and 2008, UMMCEBC was not exposed to credit risk because the interest rate swap agreements had a combined fair value liability of approximately \$5,176,000 and \$1,702,000, respectively. However, should interest rates change and the fair values become positive and result in a net asset, then UMMCEBC would be exposed to credit risk. To mitigate the potential for credit risk, the interest rate swap agreements include provisions for collateral thresholds and transfer amounts that correspond to the credit rating of the counterparty's long-term unsecured and unsubordinated debt. Collateral is required when triggered by ratings from both Standard and Poor's and Moody's of the counterparty's unsecured debt that are less than the debt of UMMCEBC as rated by Standard and Poor's and Moody's. Any required collateralization is required to be cash, U.S. Treasury securities or GNMA certificates.

Basis Risk

The interest rate swap agreements expose UMMCEBC to basis risk as the relationship between LIBOR and the SIFMA Municipal Swap Index converges, changing the synthetic rate on the bonds. The effect of this difference in basis is indicated by the difference between the intended synthetic rate of 3.285% and the actual synthetic rate at June 30, 2009 of 3.325% for the \$41.895 million series 2008B and the difference between the intended synthetic rate of 3.197% and the actual synthetic rate at June 30, 2009 of 3.24% for the \$43.125 million series 2008A swap. As of June 30, 2009, the SIFMA Municipal Swap Index rate was .35% and 67% of one-month average LIBOR was 2.1321% as calculated for the swap transactions.

Rollover Risk

The interest rate swap agreement terminates July 1, 2014, for the \$41.895 million series 2008B and June 1, 2014, for the \$43.125 million series 2008A. The \$41.895 million series 2008B variable-rate bonds mature July 1, 2031, while the \$43.125 million series 2008A variable-rate bonds mature June 1, 2034. When the swaps mature, the remaining bond interest payments revert back to the variable rates which could be higher than the synthetic rates imposed by the swap agreements.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 9 – LONG-TERM LIABILITIES (Continued)

Termination Risk

UMMCEBC or the counterparty may terminate the interest rate swap agreements if the other party fails to perform under the terms of the contract. If a swap is terminated, the variable-rate bond would no longer carry a synthetic interest rate. Also, if at the time of termination, the fair value of the interest rate swap agreements is negative, UMMCEBC would be liable to the counterparty for a payment equal to the fair value of the interest rate swap agreements.

Swap Payments and Associated Debt

Using rates as of June 30, 2009, debt service requirements of the variable-rate and net swap payments, assuming current interest rates remain the same for their term were as follows for the \$41.895 million Series 2008B:

Fiscal Year Ending June 30,	Principal	Interest	Interest Rate Swaps, Net	Total
2010	\$ 1,010,000	\$ 102,212	\$ 668,572	\$ 1,780,784
2011	1,050,000	99,588	651,402	1,800,990

Jackson State University EBC Swap Agreement

To lower exposure to rising interest rates, Jackson State University EBC (JSUEBC) entered into two interest rate swap agreements with an aggregate notional amount of \$66,405,000 in order to hedge the interest rates on its Series 2004-B and Series 2007 bonds. As of the trade date, September 11, 2008, the interest rate swap agreements were fixed at a rate considered off-market and JSUEBC received an upfront payment of \$1,900,000 which has been accounted for as a borrowing liability that will be repaid over the life of the swap agreements once they become effective. The effective date of the swap agreement related to the Series 2004-B bonds with a notional amount of \$22.375 million is effective March 1, 2011 at which time JSUEBC will pay the counterparty at a fixed rate of 5% and receive a variable rate indexed to the SIFMA Municipal Swap Index rate. The effective date of the second swap agreement related to the Series 2007 bonds with a notional amount of \$44.030 million is effective March 1, 2015 at which time JSUEBC will pay the counterparty at a fixed rate of 5% and receive a variable rate indexed to the SIFMA Municipal Swap Index rate. Both swap agreements mature on March 1, 2034 and interest payments are settled semi-annually.

As of June 30, 2009, the aggregate fair value of the two swap agreements is a liability of approximately \$4,984,000. Because fair value of the interest rate swap agreements was negative, JSUEBC was not exposed to credit risk at June 30, 2009. JSUEBC or the counterparty may terminate the interest rate swap agreements if the other party fails to perform under the terms of the contract. If at the time of termination, the fair value of the interest rate swap agreements is negative, JSUEBC would be liable to the counterparty for a payment equal to the fair value of the interest rate swap agreements.

The upfront payment accounted for as an other borrowing liability is repayable over the life of the interest rate swap agreements beginning on their respective effective dates based upon an imputed portion of the fixed rate payor settlements. This other borrowing accrues interest at a discount rate of approximately 4.60% annually and accrued interest as of June 30, 2009 approximated \$66,000.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 10 – NATURAL CLASSIFICATIONS WITH FUNCTIONAL CLASSIFICATIONS

The IHL System's operating expenses by functional classification were as follows for the years ended June 30, 2009 and 2008:

Functional Classification	Year ended June 30, 2009										
	Salaries & Wages	Fringe Benefits	Travel	Contractual Services	Utilities	Scholarships & Fellowships	Commodities	Depreciation Expense	Other	Total

NOTE 11 – OPERATING LEASES

Leased property under operating leases is composed of office rent, land, computer software and equipment. The following is a schedule by year of the future minimum rental payments required under noncancellable operating leases for the next five years:

Year ending June 30,

2010	\$ 11,799,767
2011	10,721,708
2012	8,843,774
2013	6,993,961
2014	5,861,674
Total minimum payments required	\$ 44,220,884

The total rental expense for all operating leases, except those with terms of a month or less that were not renewed, for the years ending June 30, 2009 and 2008 approximated \$14,663,000 and \$14,732,000, respectively.

NOTE 12 – CONSTRUCTION COMMITMENTS AND FINANCING

The IHL System has contracted for various construction projects as of June 30, 2009 and 2008. Estimated costs to complete the various projects and the sources of anticipated funding are presented below:

As of June 30, 2009

	Total Costs to Complete	Funded by			
		Federal Sources	State Sources	Institutional Sources	Other
Alcorn State University	\$ 1,462,807	\$ 813,711	\$ 649,096	\$ -	\$ -

NOTE 13 – DONOR RESTRICTED ENDOWMENTS

The net appreciation on investments of donor restricted endowments that is available for authorization for expenditures approximated \$10,810,000 and \$27,982,000 as of June 30, 2009 and 2008, respectively. This amount is included on the statements of net assets as a component of the expendable net assets for scholarships and/or other purposes.

Most endowments operate on the total-return concept as permitted by the Uniform Management of Institutional Funds Act (Sections 79-11-601 through 79-11-617, Miss. Code Ann. 1972) as enacted in 1998. The annual spending rate for these endowments is 5% of the three-year moving average market value.

NOTE 14 – PENSION PLAN

Plan Description

The IHL System participates in both the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan and the Optional Retirement Plan (ORP), a multiple-employer defined contribution plan established in 1990. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to the Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 14 – PENSION PLAN (Continued)

Vesting period

In 2007, the Mississippi Legislature amended the PERS Plan to change the vesting period from four to eight years for members who entered the IHL System after July 1, 2007. A member who entered the IHL System prior to July 1, 2007 is still subject to the four year vesting period provided that the member does not subsequently refund their account balance.

Funding policy

PERS members are required to contribute 7.25% of their annual covered salary and the institution is required to contribute at an actuarially determined rate. The actuarially determined rate was 11.85% of annual covered payroll for fiscal years 2008 and 2009 and increases to 12.00% for fiscal 2010. For fiscal year 2007 the actuarially determined rate was 11.30%. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The IHL System's contributions to PERS for the years ending June 30, 2009, 2008, and 2007 were \$90,659,363, \$91,405,286, and \$81,068,513, respectively. Such contributions equaled the required contributions for each respective year.

The membership of the ORP is composed of teachers and administrators of the institutions of higher learning appointed or employed on or after July 1, 1990, who elect to participate in ORP and reject membership in PERS. Membership in ORP is offered as a recruitment tool for the IHL System's universities. The IHL System's contributions to ORP for the years ending June 30, 2009, 2008, and 2007 were \$29,748,567, \$25,830,044, and \$21,884,296, respectively, which equaled its required contributions for each respective year.

Title 25, Article 11 of the Mississippi Code states that the Board of Trustees of the System will provide for the administration of the ORP program. ORP participants direct the investment of their funds among three investment vendors. Benefits payable to plan participants are not obligations of the State of Mississippi. Such benefits and other rights of participants or their beneficiaries are the liability of the vendors and are governed solely by the terms of the annuity contracts issued by them. As such, ORP is not considered part of the IHL System's reporting entity for financial reporting purposes.

NOTE 15 – SELF-INSURED WORKER'S COMPENSATION FUND

The IHL System participates in the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund (the WC Fund). The WC Fund exists in order to provide a mechanism for the IHL System to fund and budget for the costs of providing workers' compensation benefits to eligible employees. The WC Fund does not pay benefits directly to employees. Rather, funds are set-aside in trust, and a third party administrator is utilized to distribute the benefits to eligible employees. Total assets and liabilities of the WC Fund approximated \$11,423,000 and \$14,804,000, at June 30, 2009, respectively and approximated \$9,407,000 and \$15,049,000 at June 30, 2008, respectively.

A professionally licensed actuarial firm was contracted to establish a liability for both reported and unreported insured events, which includes estimates of future payments of losses. The difference between the assets and liabilities of the fund is not expected to impact the WC Fund's ability to pay claims.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 15 – SELF-INSURED WORKER'S COMPENSATION FUND (Continued)

In order to minimize the amount of risk and in accordance with self-insurance general practices, the WC Fund purchases excess loss insurance to cover risks exceeding \$1,000,000 per occurrence. Excess loss insurance premiums for the years ended June 30, 2009 and 2008 were approximately \$361,000 and \$331,000, respectively. Excess loss insurance does not discharge the WC Fund from its primary liability to cover the IHL System's claims. Consequently, failure of the insurer to honor its obligation could result in losses to the WC Fund.

The following represents changes in the unpaid claims liabilities for the WC Fund for the year ended June 30, 2009 and 2008:

<i>Years ended June 30,</i>	2009	2008
Accrued claims at beginning of year	\$ 14,912,000	\$ 13,996,000
Incurring Claims		
Provision for insured events of the current year	6,869,000	6,726,000
Decrease in provision for insured events of prior years	(2,122,000)	(1,473,000)
Total incurred claims and claims adjustment expenses	4,747,000	5,253,000
Claim Payments		
Claims attributable to insured events of the current year	1,483,000	1,439,000
Claims attributable to insured events of prior years	3,512,000	2,898,000
Total payments	4,995,000	4,337,000
Total accrued claims at end of year	\$ 14,664,000	\$ 14,912,000

Total accrued claims are presented at their present value using a discount rate of 4.0%. The discount approximated \$2,256,000 and \$2,380,000 as of June 30, 2009 and 2008, respectively.

NOTE 16 – UNEMPLOYMENT TRUST FUND

The IHL System participates in a self-funded Unemployment Trust Fund (the Unemployment Fund). The Unemployment Fund exists in order to provide a mechanism for the IHL System to fund and budget for the costs of providing unemployment benefits to eligible former employees. The Unemployment Fund does not pay benefits directly to former employees. Rather, it reimburses the Mississippi Department of Employment Security for benefits it pays directly to former IHL System employees. The assets and liabilities of the Unemployment Fund approximated \$2,358,000 and \$2,129,000 at June 30, 2009, respectively and approximated \$2,275,000 and \$1,859,000 at June 30, 2008, respectively.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis of the Unemployment Fund as of June 30, 2009 and 2008. The actuarial firm determined the recommended funding requirement, as of June 30, 2009, ranged from \$1.8 million to \$2.6 million.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 16 – UNEMPLOYMENT TRUST FUND (Continued)

Furthermore, they concluded that the actual assets of the Unemployment Fund, which approximated \$2,358,000 at June 30, 2009 were reasonable and the Unemployment Fund was adequately funded with a margin of conservatism.

NOTE 17 – TORT LIABILITY FUND AND OTHER CONTINGENCIES

The IHL System participates in the State Institutions of Higher Learning Tort Liability Fund (the IHL Tort Fund). In accordance with Section 11-46-1, et seq., Mississippi Code Annotated (1972), the Mississippi Tort Claims Board has authorized the Board of Trustees of State Institutions of Higher Learning (IHL Board) to establish a fund in order to self-insure a certain portion of its liability under the Mississippi Tort Claims Act and professional liability claims. The IHL Board established the IHL Tort Fund to provide self-insurance.

Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against the IHL System. A maximum limit of liability of \$500,000 per occurrence is currently permissible.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis of the IHL Tort Fund as of June 30, 2009 and 2008. Total assets and liabilities of the IHL Tort Fund approximated \$10,183,000 and \$11,027,000 at June 30, 2009, respectively, and approximated \$9,667,000 and \$7,965,000 at June 30, 2008, respectively.

The following represents changes in the unpaid claims liabilities for the IHL Tort Fund during the period ended June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Accrued claims at beginning of year	\$ 7,829,000	\$ 7,235,000
Incurred Claims		
Provision for insured events of the current year	2,411,000	1,883,000
Increase (decrease) in provision for insured events of prior years	2,213,000	(112,000)
Total incurred claims and claims adjustment expense	4,624,000	1,771,000
Claims Paid		
Claims attributable to insured events of the current year	119,000	20,000
Claims attributable to insured events of prior years	1,442,000	1,157,000
Total payments	1,561,000	1,177,000
Total accrued claims at end of year	\$ 10,892,000	\$ 7,829,000

Total accrued claims are presented at their present value using a discount rate of 4.0%. The discount approximated \$1,643,000 and \$1,183,000 as of June 30, 2009 and 2008, respectively.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 17 – TORT LIABILITY FUND AND OTHER CONTINGENCIES (Continued)

In addition to claims covered by the IHL Tort Fund and the UMMC Tort Fund (described more fully below), the IHL System is defendant in various other legal matters occurring in the normal course of business activities. Management, with the advice of legal counsel, is of the opinion that the ultimate resolution of these matters will not have a material adverse impact on the IHL System's financial statements.

NOTE 18 – UNIVERSITY OF MISSISSIPPI MEDICAL CENTER TORT CLAIMS FUND

The University of Mississippi Medical Center participates in the University of Mississippi Medical Center Tort Claims Fund (UMMC Tort Claims Fund). In accordance with Section 11-46-1, et seq., Mississippi Code Annotated (1972), the Mississippi Tort Claims Board has authorized the Board of Trustees of the IHL System to establish a fund to self-insure a certain portion of its liability under the Mississippi Tort Claims Act.

Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against the State Institutions of Higher Learning. A maximum limit of liability of \$500,000 per occurrence is currently permissible.

The Board of Trustees of the IHL System established the UMMC Tort Claims Fund to pay professional and tort liability claims up to the maximum liability limits described above.

Total assets and liabilities of the UMMC Tort Claims Fund approximated \$28,251,000 and \$27,032,000 at June 30, 2009, respectively and approximated \$31,049,000 and \$24,748,000 at June 30, 2008, respectively.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis to establish a liability for both reported and unreported insured events, which includes estimates of future payments of losses.

State of Mississippi Institutions of Higher Learning

Notes to Financial Statements

NOTE 18 – UNIVERSITY OF MISSISSIPPI MEDICAL CENTER TORT CLAIMS FUND (Continued)

The following represents changes in the unpaid claims liabilities for the UMMC Tort Claims Fund for the years ended June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Accrued claims at beginning of year	\$ 24,747,000	\$ 25,587,000
Incurring Claims		
Provision for insured events of the current year	6,713,000	6,130,000
Decrease in provision for insured events of prior years	(391,000)	(3,586,000)
Total incurred claims	6,322,000	2,544,000
Payments		
Claims attributable to insured events of the current year	9,000	107,000
Claims attributable to insured events of prior years	4,073,000	3,277,000
Total payments	4,082,000	3,384,000
Total accrued claims at end of year	\$ 26,987,000	\$ 24,747,000

At June 30, 2009, unpaid claims of \$30,466,000, are presented at their net present value of \$26,987,000. At June 30, 2008, unpaid claims of \$27,418,000, are presented at their net present value of \$24,747,000. Claim liabilities are discounted at an annual rate of 4% for both years.

NOTE 19 – SUBSEQUENT EVENTS

UMCEBC has been approved to issue approximately \$18.5 million of Series 2009C bonds to provide partial financing for the construction of a residential college facility with an estimated total construction cost of approximately \$25 million which will also be funded through private gifts and internal capital funds.

During October 2009, UMMCEBC issued fixed rate bonds to refund its Series 2008A and 2008B variable rate demand bonds and the remaining outstanding indebtedness of its callable Series 1998A and 1998B bonds. The total new issued bonds approximated \$105.6 million/

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Organization

Mississippi State University Foundation, Inc. (the MSU Foundation) is a not-for-profit entity established to solicit and manage funds for the benefit of Mississippi State University (MSU). The MSU Foundation also manages funds for affiliates of MSU, including MSU Alumni Association, MSU Alumni Foundation, MSU Bulldog Club, Inc. and MSU Bulldog Foundation.

Basis of Accounting

These financial statements, which are presented on the accrual basis of accounting, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three classes – permanently restricted, temporarily restricted or unrestricted as follows:

Permanently restricted net assets

net assets subject to donor-imposed stipulations that they be maintained permanently by the MSU Foundation. Generally, the donor of these assets permits the MSU Foundation to use all or part of the income earned on related investments for general or specific purposes in support of MSU.

Temporarily restricted net assets

net assets subject to donor-imposed stipulations that may or will be met by actions of the MSU Foundation and/or the passage of time.

Unrestricted net assets

net assets which represent resources generated from operations or that are not subject to donor-imposed stipulations. Unrestricted net assets include contributions designated to a particular college or unit for which the use or purpose is unrestricted.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenditures are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributed goods and services are recorded as revenues and expenses in the statements of activities at estimated fair value.

Income and realized and unrealized gains on investments of permanently restricted net assets are reported as follows:

- as increases in permanently restricted net assets if the terms of the gift or the MSU Foundation's interpretation of relevant state law require that gains be added to the principal of a permanent endowment fund;

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

- as increases or decreases in temporarily restricted net assets if the terms of the gift impose restrictions on their use;
- as increases or decreases in unrestricted net assets in all other cases.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

An estimate that is particularly susceptible to significant change in the near term relates to the allowance for uncollectible pledges.

The MSU Foundation's investments are invested in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the MSU Foundation's financial statements.

Restricted Cash

Funds held for an unaffiliated organization that retains control over the expenditures of such funds are classified as restricted cash in the statement of financial position with a corresponding amount in agency payable.

Land, Buildings and Equipment

Land, buildings and equipment are stated at cost, if purchased, or at fair value on the date of gift, if donated. Depreciation of buildings and equipment, including assets acquired under capital leases, is provided on the straight-line method over the shorter or the estimated useful life of the assets or the term of the lease. The estimated useful lives for buildings is 30-40 years and furniture, fixtures, and equipment is 5-10 years.

The MSU Foundation assesses potential impairment to its long-lived assets when there is evidence that events or changes in circumstances have made recovery of the carrying value of the assets unlikely. An impairment loss is recognized when the sum of the expected future undiscounted net cash flows is less than the carrying amount of the asset.

Investments

The MSU Foundation's investments primarily consist of publicly traded fixed income and equity securities, other investments, and cash held for reinvestment. Other investments include real estate investments, private equity funds and hedge funds through fund-of-funds structures generally organized as limited partnerships or limited liability companies. The fair value of publicly traded fixed income and equity securities investments are based on quoted market prices. Since partnership and member interests do not have readily ascertainable market values and may be subject to withdrawal restrictions, the MSU Foundation values these investments in accordance with valuations provided

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

by the general partner or fund manager of the underlying partnership or company. The MSU Foundation's management may, in addition, consider other factors in assessing the fair value of these investments. Real estate is valued at estimated fair value. Cash held for reinvestment consists of primarily of liquid short-term instruments held by the investment pool.

The MSU Foundation believes that the carrying amount of its other investments is a reasonable estimate of fair value as of June 30, 2009 and 2008. Because other investments are not marketable, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investment existed.

The liquidity crisis that originally was linked principally to the sub-prime lending markets has spread to other corners of the credit markets in the U.S. and internationally. It is not possible at this time to predict the full impact or duration of the existing illiquid credit market conditions. The unstable market conditions and the resulting uncertainties contribute to additional risks associated with certain significant investment valuation estimates. Management continues to monitor the composition of its portfolio to assess the potential impact of these market conditions on the valuation of its investments.

Pledges

All unconditional promises to give are recorded at their estimated realizable value on a discounted basis.

Split Interest Agreements

The MSU Foundation accepts gifts subject to split interest agreements. These gifts may be in the form of gift annuities, charitable lead trusts, charitable remainder trusts or perpetual trusts. At the time of receipt, a gift is recorded based upon the fair value of assets donated less any applicable liabilities. Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using appropriate discount rates (at June 30, 2009 rates ranged from approximately 3% to 8%). For certain split interest agreements where the measurement objective is fair value, the discount rate is adjusted to a current market rate at each reporting date. Funds subject to split interest agreements are classified as temporarily restricted or permanently restricted based upon donor designations.

Externally managed trusts consist of irrevocable charitable lead trusts, charitable remainder trusts and perpetual trusts whereby the MSU Foundation is the beneficiary, not the trustee. The MSU Foundation records these trusts, after discovery of their existence, at the present value of the estimated future cash receipts from the assets of the trust.

Contribution revenue attributable to split interest agreements for the fiscal years ended June 30, 2009 and 2008 were \$1,704,261 and \$2,305,417, respectively.

Bond Issuance Costs and Bond Discounts

Bond issuance costs and bond discounts are amortized over the term of the related bond issue using the straight-line method, which does not significantly differ from the effective interest method.

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The MSU Foundation is a not-for-profit entity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from Federal income taxes on related income pursuant to Section 501(a) of the Code.

On July 1, 2008 the MSU Foundation adopted Financial Accounting Standards Boards (FASB) Interpretation NO. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting for uncertainty in income tax positions recognized in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of those positions are determined. There was no impact on the MSU Foundation's financial statements as a result of the adoption of FIN 48.

Liquidity

Assets are presented according to their nearness to cash and liabilities are presented according to their nearness of payment or use of cash.

Recent Accounting Pronouncements

Effective July 1, 2008, the MSU Foundation adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes an enhanced framework for measuring fair value and expands disclosures about fair value measurements. In conjunction with the adoption of SFAS No. 157, the MSU Foundation elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private equity investments, hedge funds, real estate, and other funds. This guidance amends SFAS No. 157 and permits, as a practical expedient, for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to SFAS No. 157. The MSU Foundation's adoption of SFAS No. 157 did not have a significant impact on the MSU Foundation's determination of fair value in the financial statements but did result in expanded footnote disclosures in notes 2 and 8 to the financial statements.

Effective July 1, 2008, the Foundation adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – including an amendment of FASB Statements No. 115* (SFAS No. 159). SFAS No. 159 gave the MSU Foundation the irrevocable option to report most financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value reported in earnings. The MSU Foundation did not elect the fair value option in regard to items not previously recorded at fair value; therefore, the adoption of this statement had no impact on the financial position or results of operations of the MSU Foundation.

In August 2008, The FASB issued Staff Position (FSP) No. 117-1, *Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds* (FSP 117-1). FSP 117-1 provides guidance on the net asset classification of

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the UPMIFA and expands disclosure about an organization's endowment funds (both donor-restricted endowment funds and board-designated endowment funds), whether or not the organization is subject to UPMIFA. FSP 117-1 is effective for fiscal years ending after December 15, 2008. As of June 30, 2009, the state of Mississippi had not yet adopted UPMIFA. The MSU Foundation adopted the disclosure provisions of FSP 117-1 during the year ended June 30, 2009.

Subsequent Events

In connection with the preparation of the financial statements and in accordance with the recently issued SFAS No. 165, *Subsequent Events*, the MSU Foundation evaluated subsequent events after the balance sheet date of June 30, 2009 through December 14, 2009, which was the date the financial statements were available to be issued.

NOTE 2 – INVESTMENTS

The MSU Foundation, MSU, the MSU Alumni Foundation and the MSU Bulldog Club, Inc. are participants in a joint venture whereby certain assets are pooled for investment purposes. The MSU Foundation is the investment pool's general partner, manages the assets of the pool, and maintains separate accounts for each participant. Investment income, gains and losses and expenses of the pool are allocated to each participant based on their share of ownership of the pool. At June 30, 2009 and 2008, approximately 83% and 82%, respectively, of the MSU Foundation's investments are included in the pool.

Investments are summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
U.S. Government securities	\$ 3,071,969	\$ 3,806,857
Corporate bonds	36,028,716	33,727,322
Equity securities	94,487,509	124,937,100
Partnership and member interests	57,425,166	65,576,096
Short-term investments	5,046,481	2,719,419
Real estate	7,176,345	7,180,888
Other	1,164,232	1,127,235
	\$ 204,400,418	\$ 239,074,917

Included in the above table are approximately \$98,198,000 and \$123,487,000 at June 30, 2009 and 2008, respectively, of investments whose carrying values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based upon information provided by the fund managers or general partners.

Within each asset class, the MSU Foundation achieves diversification through allocations to several investment strategies and market capitalizations.

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 2 – INVESTMENTS (Continued)

At June 30, 2009, the MSU Foundation's remaining outstanding commitments to private equity and venture capital interests totaled \$1,686,975. The projected capital call amounts for the next five fiscal years and thereafter are summarized in the table below:

<i>Year ended June 30,</i>	Projected capital calls
2010	\$ 675,000
2011	675,000
2012	336,975
2013	-
2014	-
Thereafter	-
Total	\$ 1,686,975

Private equity and venture capital interests have ten year terms, with extensions of one to four years. As of June 30, 2009, the average remaining life of the private equity and venture capital interests is approximately 5 years.

At June 30, 2009 and 2008, the MSU Foundation had hedge fund investments of approximately \$43,751,000 and \$50,089,000, respectively. Some of the hedge fund investments with redemption restrictions allow early redemption for specified fees. The terms and conditions upon which an investor may redeem an investment vary, usually with the majority requiring 15 to 180 days notice after the initial lock up period. At June 30, 2009, the MSU Foundation had no alternative investment funds for which an otherwise redeemable investment was not redeemable.

The MSU Foundation has entered into various split interest agreements, including charitable lead annuity trusts, charitable remainder unitrusts, and charitable gift annuities, whereby the MSU Foundation serves as trustee. The assets held under these split interest agreements are included in investments at June 30, 2009 and 2008 with an approximate fair value of \$5,468,000 and \$7,564,000, respectively.

The following schedule summarizes net investment loss in the statements of activities for the years ended June 30, 2009 and 2008:

<i>Year ended June 30,</i>	2009	2008
Dividends and interest (net of expenses of \$815,363 (and \$855,174, respectively)	\$ 7,083,087	\$ 7,555,777
Net realized and unrealized losses	(38,861,557)	(14,142,434)
	\$ (31,778,470)	\$ (6,586,657)

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 3 – PLEDGES RECEIVABLE

Pledges receivable, net, are summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Unconditional promises expected to be collected in:		
Less than one year	\$ 7,893,435	\$ 6,615,233
One year to five years	10,108,024	8,437,035
Over five years	4,262,201	5,667,000
	22,263,660	20,719,268
Less unamortized discount (rates ranging from 1% to 5% and 3% to 5% in 2009 and 2008, respectively)	(2,024,659)	(2,986,990)
	20,239,001	17,732,278
Less allowance for uncollectible pledges	(676,701)	(701,841)
	\$ 19,562,300	\$ 17,030,437

NOTE 4 – NOTE RECEIVABLE

At June 30, 2009 and 2008, the MSU Foundation had two notes receivable totaling \$366,117 and \$443,482, respectively, both with a related party. The notes receivable require semi-annual and monthly payments of \$33,238 and \$3,229, respectively, have interest rates of 6% and maturity dates of August 2014 and December 2010, respectively.

NOTE 5 – LAND, BUILDINGS AND EQUIPMENT

Land, buildings and equipment are summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Land and buildings	\$ 11,987,491	\$ 11,987,491
Furniture, fixtures and equipment	7,446,302	7,462,510
	19,433,793	19,450,001
Less accumulated depreciation	(6,893,627)	(6,143,083)
	\$ 12,540,166	\$ 13,306,918

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 6 – LONG-TERM DEBT

Long-term debt is summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Mississippi Business Finance Corporation, Variable Rate Revenue Bonds, Series 2002		\$ 2,400,000
Non-interest bearing unsecured note payable to a private foundation. Principal is payable as repayments are received from students.	\$ 267,941	311,790
Non-interest bearing unsecured note payable to a private foundation, paid in full July 2008.	-	1,500,000
	267,941	4,211,790
Less unamortized bond discount	-	(19,200)
	\$ 267,941	\$ 4,192,590

In April 2002, the MSU Foundation issued \$6,000,000 in Series 2002 Variable Rate Revenue Bonds through the Mississippi Business Finance Corporation. The MSU Foundation redeemed the bonds in November 2008.

Interest expense incurred during the year ended June 30, 2009 and 2008 was \$25,098 and \$95,430, respectively.

NOTE 7 – NET ASSETS

Temporarily restricted and permanently restricted assets at June 30, 2009 and 2008 were available for the following purposes:

<i>As of June 30, 2009</i>	Net Assets	
	Temporarily Restricted	Permanently Restricted
General college support	\$ 12,914,740	\$ 74,445,123
Student financial aid	12,073,790	87,879,020
Research	1,010,879	16,297,408
Faculty and staff support	1,274,278	39,780,153
Facilities	4,808,804	7,915,287
Other	482,296	2,186,023

Student financial aid	16,041,084	84,246,189
Research	1,674,467	16,211,370
Faculty and staff support	4,235,079	38,073,356
Facilities	4,537,033	7,810,145
Other	950,163	1,793,295
Total	\$ 45,474,916	\$ 217,226,004

NOTE 8 – FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments

The carrying amounts reported in the statements of financial position for cash, other receivables, and accounts payable and accrued liabilities approximate fair value because of the immediate or short-term maturities of these financial instruments. The carrying amount of pledges receivable approximates fair value as they are presented on a discounted basis. The fair value of the notes receivable has been estimated using current interest rates and approximate the carrying amounts at June 30, 2009 and 2008. The fair value of the various debt instruments has been estimated using interest rates currently offered to the MSU Foundation for borrowings having similar character, collateral and duration. The fair value of such debt instruments approximates the carrying amounts at June 30, 2009 and 2008. Investments and amounts due from externally managed trusts are reflected in the accompanying financial statements at fair value. The fair value of annuity obligations approximates carrying value at June 30, 2009 due to discount rates and actuarial assumptions used in the calculation of the MSU Foundation's liability.

Fair Value Hierarchy

The MSU Foundation adopted SFAS No. 157 on July 1, 2008 for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. SFAS NO. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the MSU Foundation has the ability to access at the measurement date;

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 8 – FAIR VALUE MEASUREMENTS (Continued)

Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the levels within the fair value hierarchy as of June 30, 2009:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments	\$ 85,846,807	\$ 53,952,100	\$ 64,601,511	\$ 204,400,418
Present value of amounts due from externally managed trust	-	26,986,042	-	26,986,042
	\$ 85,846,807	\$ 80,938,142	\$ 64,601,511	\$ 231,386,460

Changes to investments classified as Level 3 as of June 30, 2009 follows:

Balance as of July 1, 2008	Purchases/ Sales	Net transfers	Gains (losses)	Balance as of June 30, 2009
\$ 72,756,984	\$ (1,210,168)	\$ -	\$ (6,945,305)	\$ 64,601,511

Gains (losses) presented in the table above relate to assets held by the MSU Foundation at June 30, 2009.

Shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable, are classified as Level 2 or Level 3. Because the net asset value reported by each fund is used as a practical expedient to estimate the fair value of the MSU Foundation's interest therein, its classification in Level 2 is based on the MSU Foundation's ability to redeem its interest at or near the date of the statement of financial position. If the interest can be redeemed in the near term, the investment is classified in Level 2, otherwise the investment is classified in Level 3. The classification of investments in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree or difficulty in estimating the fair value of each investment's underlying assets and liabilities.

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 9 – LEASES

The MSU Foundation has entered into a lease agreement that expires August 2014 for the use of an airplane, with a guaranteed residual of \$1,912,550, and other equipment under a capital lease agreement that expires in October 2013. Future minimum lease payments under the capital lease obligations are as follows:

Year ending June 30,

2010	\$	458,938
2011		458,938
2012		458,938
2013		458,938
2014		458,938
Thereafter		1,256,652
Total future minimum lease payments		3,551,342
Amount representing interest		(375,989)
<u>Present value of net minimum lease payments</u>		<u>\$ 3,175,353</u>

The equipment recorded under the capital lease agreement is included in property and equipment at an original cost of \$4,538,794 with accumulated depreciation of \$1,592,438 and \$1,252,060 as of June 30, 2009 and 2008, respectively.

NOTE 10 – ENDOWMENT

The MSU Foundation's endowment consists of over 950 individual donor-restricted endowment funds established for a variety of purposes. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds, including funds designated by the Board of Directors of Mississippi State University Foundation (the MSU Foundation Board) to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretations of Relevant Law

The MSU Foundation Board has interpreted the State of Mississippi Code of 1972 §79-11-601 through §79-11-617 Cited as the "Uniform Management of Institutional Funds Act" (UMIFA) as requiring the MSU Foundation Board to use reasonable care, skill, and caution as exercised by a prudent investor, in considering the investment management and expenditures of endowment funds. In accordance with UMIFA, the MSU Foundation Board may expend so much of an endowment fund as the MSU Foundation Board determines to be prudent for the uses and purposes for which the endowment fund is established, consistent with the goal of conserving the long term purchasing

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 10 – ENDOWMENT (Continued)

power of the endowment fund. The MSU Foundation Board considered the following factors in making its determination:

- 1) The purpose of the MSU Foundation
- 2) The intent of the donor of the endowment fund
- 3) The terms of the applicable instrument
- 4) The long-term and short-term needs of the MSU Foundation and MSU in carrying out their purposes
- 5) General economic conditions
- 6) The possible effect of inflation or deflation
- 7) The other resources of the MSU Foundation and MSU
- 8) Perpetuation of the endowment

As a result of this interpretation, the MSU Foundation Board classifies as permanently restricted net assets (a) the original value of gifts donated to a permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UMIFA. However, by MSU Foundation Board policy, any appreciation is considered an asset of each individual endowment fund and is not appropriated for general MSU Foundation or MSU use.

Spending Policy

The MSU Foundation's spending policy is designed to provide for positive growth in the market value of its endowment, net of distributions, over an extended period of time. In establishing this policy, the MSU Foundation Board considered the long-term expected return of the endowment investment pool and the goal of maintaining the purchasing power of the endowment asset. Over the long term, the current spending policy is designed to return a net positive gain in market value (growth) after spendable transfers.

The annual rate for spendable transfers, distributed semi-annually, is 4% of the investment pool's average unit value over the most recent 24-month period. In addition, each endowed fund is assessed an annual 1% administrative fee. This fee is a portion of the funding mechanism for the development and alumni programs of MSU.

Investment Policy

The MSU Foundation's investments objectives are to provide a nominal annual return of 9% or more in order to preserve, or increase, the purchasing power of endowment capital, while generating an income stream to support activities of the funds held for the colleges and units of MSU. This policy is designed to tolerate volatility in short and intermediate-term performance. The endowment assets are invested as a part of the investment pool, as discussed in note 2.

To satisfy its long-term rate of return objectives, the pool embraces a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The MSU Foundation, through the Mississippi State

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 10 – ENDOWMENT (Continued)

Investment Pool, targets a diversified asset allocation that includes global equities, fixed income, natural resources, and hedge strategies to achieve long-term objectives within prudent risk constraints.

Endowment net asset composition by type of fund as of June 30, 2009:

Funds With Deficiencies

As a result of market declines for certain recently established endowments, the fair value of certain donor-restricted endowments was less than the historical cost value (original gift/book value) of such funds ("underwater") by \$22,089,786 and \$1,015,890 at June 30, 2009 and 2008, respectively.

Mississippi State University Foundation, Inc.

Notes to Financial Statements

NOTE 10 – ENDOWMENT (Continued)

These losses have been recorded as reductions in unrestricted net assets in accordance with accounting principles generally accepted in the United States of America. Future gains will be used to restore this deficiency in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 1 – NATURE OF ORGANIZATION

The University of Mississippi Foundation (the UM Foundation) is a non-profit, non-stock corporation formed for the benefit of The University of Mississippi (UM). The UM Foundation promotes, encourages, and assists educational, scientific, literary, research, and service activities of UM and its affiliates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The UM Foundation prepares its financial statements in accordance with U.S. generally accepted accounting principles which require that management make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Such estimates include the present value discount rates applied to the pledges receivable and liabilities under remainder trust agreements, allowance for uncollectible pledges, fair market values of certain investments including real estate, partnership and member interests, and depreciation of property and equipment. Actual results could differ significantly from those estimates.

The UM Foundation's investments are primarily invested in various types of investment securities within many markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the UM Foundation's financial statements.

Donor-Imposed Restrictions

The financial statements report amounts in three classes of net assets – unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets – based on the existence or absence of donor-imposed restrictions.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted.

When a donor restriction expires or the stated purpose is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the statements of activities as net assets released from restriction.

The permanently restricted net assets include the principal amount of contributions accepted with the stipulation from the donor that the principal be maintained in perpetuity and only the income from investment thereof be expended. The purpose of such expenditure may also be specified by the donor.

Revenue Recognition

The UM Foundation generally recognizes gifts as revenue when notified of an unconditional promise to give. Unconditional promises to give that are expected to be collected in future years are

University of Mississippi Foundation

Notes to Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

reported at the present value of their future cash flows. The discounts on these amounts are computed using risk free interest rates applicable to the years in which the promises are received.

Amortization of the discounts is included in contribution revenues. An allowance for uncollectible amounts is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of the fund-raising activity. See note 3 for discussion of pledges receivable. Investments received by gift are recorded at fair value at the date of donation.

The increase in the cash surrender value of life insurance policies is recorded as a component of other income.

The UM Foundation earns a management fee of one-half of one percent on certain endowment funds. For the fiscal years ended June 30, 2009 and 2008, such fees totaled approximately \$1,322,000 and \$1,413,000, respectively, and was recorded as other income and reflected within unrestricted net assets.

Cash and Cash Equivalents

The UM Foundation recognizes all demand deposit accounts as cash and cash equivalents. It is the policy of the UM Foundation to consider money market accounts with brokers as other short-term investments.

Investments

Investments are recorded at fair value. The fair values of all investments other than real estate and partnership and member interests (which include certain private equity investments and hedge funds) are based on quoted market prices. Since partnership and member interests do not have readily ascertainable fair values and may be subject to withdrawal restrictions, the UM Foundation values these investments in accordance with valuations provided by the general partners or fund managers of the underlying partnerships or companies. The UM Foundation reviews and evaluates such valuations and believes that the carrying amount of its partnership and member interests is a reasonable estimate of fair value. The UM Foundation's real estate investments are also carried at fair value based on appraisal values at the date of receipt and as subsequently updated. Both realized and unrealized gains and losses are reflected in the accompanying statements of activities based on restrictions put in place by the donor.

Tax Status

The UM Foundation is exempt from federal and state income taxes; accordingly, no provision for income taxes has been made in the accompanying financial statements.

Fair Value of Financial Instruments

The carrying amounts at June 30, 2009 and 2008 for cash and cash equivalents, pledges receivable, beneficial interest in remainder trust, funds held for others, liabilities under remainder trusts and other liabilities approximate their fair values. See note 4 for investments.

Split Interest Agreements

The UM Foundation accepts gifts subject to split interest agreements. These gifts are generally in the form of charitable remainder unitrusts (CRUTs) and charitable remainder annuity trusts (CRATs). At the time of receipt, a gift is recorded based upon the fair value of the assets donated

University of Mississippi Foundation

Notes to Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

less the present value of any applicable liabilities for projected distributions to third parties. The discount rate used to value the beneficiary liability is fixed at the gift date. CRUTs are revalued annually and the beneficiary payments adjusted accordingly. Funds subject to split interest agreements are classified as temporarily restricted or permanently restricted based upon donor designations.

The UM Foundation is the beneficiary of one externally managed charitable remainder trust. This trust is recorded at the present value of the estimated future cash receipts from the assets of the trust.

Recently Issued Accounting Standards

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in tax positions and requires that the UM Foundation recognize in its financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. In December 2008, the FASB issued FASB Staff Position (FSP) FIN 48-3, *Effective Date of FASB Interpretation No. 48 for Certain Nonpublic Enterprises*. FSP FIN 48-3 permits an entity within its scope to defer the effective date of FIN 48 to its annual financial statements for fiscal years beginning after December 15, 2008. The UM Foundation has elected to defer the application of FIN 48 to the year beginning July 1, 2009, and the adoption of FIN 48 is not anticipated to have any material impact to the UM Foundation's financial statements.

Effective July 1, 2008, the UM Foundation adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes an enhanced framework for measuring fair value and expands disclosures about fair value measurements. In conjunction with the adoption of SFAS No. 157, the UM Foundation elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private equity investments, hedge funds, real estate, and other funds. This guidance amends SFAS No. 157 and permits, as a practical expedient, for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to SFAS No. 157. The UM Foundation's adoption of SFAS No. 157 did not have a significant impact on the UM Foundation's determination of fair value in the financial statements but did result in expanded footnote disclosures in note 5 to the financial statements.

Effective July 1, 2008, the UM Foundation adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – including an amendment of FAS Statements No. 115* (SFAS No. 159). SFAS No. 159 gave the UM Foundation the irrevocable option to report most financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value reported in earnings. The UM Foundation did not elect the fair value option in regard to items not previously recorded at fair value; therefore, the adoption of this statement had no impact on the financial position or results of operations of the UM Foundation.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In August 2008, The FASB issued Staff Position (FSP) No. 117-1, *Endowments of Non-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds (FSP 117-1)*. FSP 117-1 provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the UPMIFA and expands disclosures about an organization's endowment funds, whether or not the organization is subject to UPMIFA. FSP 117-1 is effective for fiscal years ending after December 15, 2008. As of June 30, 2009, the state of Mississippi had not yet adopted UPMIFA. The UM Foundation adopted the disclosure provisions of FSP 117-1 during the year ended June 30, 2009.

Subsequent Events

In connection with the preparation of the financial statements and in accordance with the recently issued SFAS No. 165, *Subsequent Events*, the UM Foundation evaluated subsequent events after the balance sheet date of June 30, 2009 through October 16, 2009, which was the date the financial statements were available to be issued.

NOTE 3 – PLEDGES RECEIVABLE

The UM Foundation obtains pledges through fund raising projects in support of various activities. At June 30, 2009, pledges mature at various dates through 2030 (approximately \$8,962,000 is due in fiscal year 2010, \$16,711,000 is due in total during the period including fiscal year 2011 through fiscal year 2015, and \$3,061,000 is due thereafter). At June 30, 2008, pledges mature at various dates through 2029 (approximately \$9,136,000 is due in fiscal year 2009, \$23,245,000 is due in total during the period including fiscal year 2010 through fiscal year 2014, and \$5,352,000 is due thereafter). A summary of pledges receivable as of June 30, 2009 and 2008 follows:

<i>As of June 30,</i>	2009	2008
Temporarily restricted	\$ 21,480,174	\$ 26,865,432
Permanently restricted	7,253,570	10,867,191
	28,733,744	37,732,623
Allowances for doubtful pledges	(1,771,452)	(7,481,928)
Present value discount (ranging from 3.3% to 5.1%)	(4,688,644)	(7,367,764)
	\$ 22,273,648	\$ 22,882,931

University of Mississippi Foundation

Notes to Financial Statements

NOTE 4 – INVESTMENTS

The UM Foundation's investments consist of the following at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
U.S. Government securities	\$ 396,250	\$ 647,626
Corporate bonds	4,023,458	4,679,491
Certificates of deposit	300,267	284,451
Other short-term investments	19,384,749	14,211,342
Other fixed income securities	83,641,546	84,558,891
Equity securities	102,144,717	143,271,349
Real estate	6,808,299	6,958,299
Partnership and member interests	33,848,293	37,190,129
	\$ 250,547,579	\$ 291,801,578

NOTE 5 – FAIR VALUE MEASUREMENT

The UM Foundation adopted SFAS No. 157 on July 1, 2008 for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the UM Foundation has the ability to access as the measurement date.

Level 2 – inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 5 – FAIR VALUE MEASUREMENT (Continued)

The following table presents the financial assets carried at fair value by level within the valuation hierarchy as of June 30, 2009:

	Level 1	Level 2	Level 3	Total
U.S. Government securities	\$ -	\$ 396,250	\$ -	\$ 396,250
Corporate bonds	98,978	3,924,480	-	4,023,458
Certificates of deposit	-	300,267	-	300,267
Other short-term investments	7,000,570	12,384,179	-	19,384,749
Other fixed income securities	69,558,327	14,083,219	-	83,641,546
Equity securities	102,144,717	-	-	102,144,717
Real estate	-	-	6,808,299	6,808,299
Partnership and member interest	-	7,862,710	25,985,583	33,848,293
Total investments	\$ 178,802,592	\$ 38,951,105	\$ 32,793,882	\$ 250,547,579
Beneficial interest in remainder trust	\$ -	\$ -	\$ 3,730,226	\$ 3,730,226

See Note 2(e), Investments, and Note 2(h), Split Interest Agreements, for information regarding the methods used to determine the fair value of the UM Foundation's investments and its beneficial interest in remainder trust. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the UM Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as the reporting date.

The following table includes a rollforward of the amounts for the year ended June 30, 2009 for investments classified within Level 3.

	Real estate	Partnership and member interests	Beneficial interest in remainder trust
Balance as of June 30, 2008	\$ 6,958,299	\$ 25,864,286	\$ 3,417,765
Net realized and unrealized gains (losses)	(150,000)	(3,742,703)	312,461
Net purchases (sales)	-	3,864,000	-
Balance as of June 30, 2009	\$ 6,808,299	\$ 25,985,583	\$ 3,730,226

University of Mississippi Foundation

Notes to Financial Statements

NOTE 6 – NET ASSET CLASSIFICATION OF ENDOWMENT FUNDS

The UM Foundation adopted FASB Staff Position (FSP) SFAS No. 117-1 *Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds* as of July 1, 2008. This standard, which is effective for years ending after December 31, 2008 provides guidance on the net asset classification of donor restricted endowment funds and related disclosures. FSF 117-1 also provides guidance relative to net asset classification of funds subject to the Uniform Prudent Management of Institutional Funds Act (UPMIFA). When adopted by the state of domicile, UPMIFA requires a number of management assessments, including:

- Determination as to whether a donor intended an endowment to maintain its purchasing power or as a fixed sum,
- The classification of endowment earnings, and
- The ability to spend corpus of an endowment.

The State of Mississippi has not adopted UPMIFA. The UM Foundation's Board of Directors has determined its donor agreements to provide for the preservation of the fair value of the original gift as of the date of the donor restricted endowment funds. As a result, the UM Foundation classifies as permanently restricted net assets the original gift donated to the permanent endowment and the original value of subsequent gifts and other income. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified in temporarily restricted net assets until the amounts are appropriated for expenditure in accordance with the donor memorandums of agreement.

The UM Foundation has established policies to achieve the overall, long-term investment goal of achieving an annualized total return, through appreciation and income, greater than the rate of inflation plus any distribution needs, thus protecting the assets against inflation. The Board and Joint Committee on Investments agree that investing in securities with higher return expectations outweighs their short-term volatility risk. As a result, the majority of assets are invested in equity or equity-like securities. Fixed income securities are used to lower the short-term volatility of the portfolio and to provide income stability, especially during periods of weak or negative equity markets. Cash is not a strategic asset of the portfolio, but is a residual to the investment process and used to meet short-term liquidity needs. The primary performance objective of the UM Foundation is to achieve a total return, net of investment management fees and expenses, in excess of inflation and the spend rate.

Income available for spending is determined by a total return system and is approved by Board of Directors of the UM Foundation. The amount to be spent involves taking 5 percent of a 3-year moving average of the market value per unit. The objective is to provide relatively stable spending allocations. No portion of the original gift value of the endowed assets will be allocated for spending.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 6 – NET ASSET CLASSIFICATION OF ENDOWMENT FUNDS

Changes in donor-restricted endowment net assets for the years ended June 30, 2009 and 2008 are as follows:

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment net assets (deficit), June 30, 2007	\$ (209)	\$ 76,783,272	\$ 123,130,634	\$ 199,913,697
Contributions to endowment	-	-	7,489,155	7,489,155
Appropriation for expenditures	-	(7,768,281)	-	(7,768,281)
Investment return:				
Investment income	-	7,637,405	-	7,637,405
Net appreciation (depreciation)	(472,096)	(20,565,820)	-	(21,037,916)
Donor-restricted endowment net assets (deficit), June 30, 2008	(472,305)	56,086,576	130,619,789	186,234,060
Contributions to endowment	-	-	7,309,781	7,309,781
Appropriation for expenditures	-	(9,036,789)	-	(9,036,789)
Investment return:				
Investment income	-	5,705,977	-	5,705,977
Net appreciation (depreciation)	(8,275,537)	(27,806,238)	-	(36,081,775)
Donor-restricted endowment net assets (deficit), June 30, 2009	\$ (8,747,842)	\$ 24,949,526	\$ 137,929,570	\$ 154,131,254

Due to unfavorable market fluctuations, the UM Foundation has endowments that have fallen below the original gift value of the funds. At June 30, 2009 and 2008, the fair values of certain permanently restricted investments were below their original contribution by approximately \$8,748,000 and \$472,000, respectively, and these deficiencies have been recorded in unrestricted net assets. Future gains will be used to restore these deficiencies in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets.

NOTE 7 – LIFE INSURANCE POLICIES

The UM Foundation has obtained life insurance policies for which it has been named owner and beneficiary. The face amount of life insurance policies in excess of cash surrender value held by the UM Foundation is deferred and recognized as revenue only when collected. The cash surrender value amounts of such policies as of June 30, 2009 and 2008 was \$1,330,000 and \$1,367,000, respectively, which are reflected as other assets in the accompanying statements of financial position.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 8 – CHARITABLE TRUSTS

The UM Foundation administered charitable remainder trusts with investments of approximately \$5,515,000 and \$6,726,000 as of June 30, 2009 and 2008, respectively, and are reported as investments on the statements of financial position. Pursuant to the trust agreements, specified amounts of income from the trust's assets must be distributed to the income beneficiaries each year. Liabilities under remainder trusts totaled \$4,352,873 and \$5,978,882 as of June 30, 2009 and 2008, respectively. The discount rates used in this measurement range from 5.25% to 6.20%. The remainder of the income and the assets will become the property of the UM Foundation at a time designated in the trust agreements, usually upon the death of the income beneficiary.

NOTE 9 – PROPERTY AND EQUIPMENT

Property and equipment consist of the following at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Land	\$ 300,000	\$ 665,000
Building and equipment	3,005,713	3,468,271
Total	3,305,713	4,133,271
Accumulated depreciation	(1,218,283)	(1,188,640)
Property and equipment, net	\$ 2,087,430	\$ 2,944,631

Depreciation expense has been computed utilizing the straight-line method over the estimated useful life of the building — 30 years and the equipment — 7 and 10 years.

NOTE 10 – NET ASSETS

Permanently restricted net assets at June 30, 2009 and 2008 were available for the following purposes:

<i>As of June 30,</i>	2009	2008
Academic and program support	\$ 30,415,319	\$ 28,333,715
Scholarship support	64,990,577	59,878,745
Faculty support	30,583,380	28,632,139
Library support	13,443,655	12,998,528
Total	\$ 139,432,931	\$ 129,843,127

The vast majority of temporarily restricted net assets at June 30, 2009 and 2008 were available for academic and program support.

University of Mississippi Foundation

Notes to Financial Statements

NOTE 11 – FUNDS HELD FOR OTHERS

The UM Foundation administered funds for others of \$15,686,378 and \$16,282,368 at June 30, 2009 and 2008, respectively. These funds are commingled with the UM Foundation's investments and are accounted for at the fair value of the underlying investments. Earnings and losses from these investments, as well as funds received and distributed, are not included in the changes of net assets of the UM Foundation.

The UM Foundation assists with fund raising activities of UM and processes the receipts for many UM affiliated organizations. During fiscal years 2009 and 2008, the UM Foundation received approximately \$2,445,000 and \$1,917,000, respectively, for the University of Mississippi Alumni Association and \$15,527,000 and \$13,539,000, respectively, for the UMAA Foundation. Distributions to these organizations, all of which were made at the direction of the affiliated organization, for fiscal years 2009 and 2008 include approximately \$2,462,000 and \$2,041,000, respectively, to the University of Mississippi Alumni Association and \$15,491,000 and \$14,519,000, respectively, to the UMAA Foundation. In addition to these affiliated organizations, the UM Foundation maintains funds for certain other third party organizations. During fiscal year 2009 and 2008, the UM Foundation received approximately \$752,000 and \$127,000, respectively, from these organizations and made distributions to these organizations, at the organization's direction, of approximately \$668,000 and \$392,000, respectively.

NOTE 12 – MISSISSIPPI COMMON FUND TRUST

Included in other liabilities are \$539,439 and \$2,655,324 at June 30, 2009 and 2008, respectively, related to the Mississippi Common Fund Trust. The donor directed trust was established by the UM Foundation to allow donors to receive a charitable deduction for gifts to the trust. The UM Foundation manages the trust's assets with earnings distributed to a charitable organization, at the donor's direction, on an annual basis. If the donor does not make an annual designation of funds to a charitable organization, then such designation may be made by the UM Foundation. Remaining corpus must be disbursed to one or more qualifying charitable organizations within one year after the death of the donor's surviving spouse as directed through the donor's will or other instruction or it will revert to the UM Foundation.

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization

The University of Southern Mississippi Foundation (the USM Foundation) is a not-for-profit entity organized under the laws of the State of Mississippi to provide support to The University of Southern Mississippi (USM) and its students. The USM Foundation depends on USM to provide the staff and facilities for its operations (see note 12).

Foundation Aviation Holdings, LLC was formed by the USM Foundation in October 2008 as a single member limited liability company. The USM Foundation's consolidated financial statements include the accounts of Foundation Aviation Holdings, LLC. All significant intercompany accounts and intercompany transactions have been eliminated.

Basis of Accounting

The consolidated financial statements, which are presented on the accrual basis of accounting, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three classes – permanently restricted, temporarily restricted, and unrestricted as follows:

Permanently restricted net assets

net assets subject to donor-imposed stipulations that they be maintained permanently by the USM Foundation. Generally, the donor of these assets permits the USM Foundation to use all or part of the income earned on related investments for general or specific purposes in support of USM.

Temporarily restricted net assets

net assets subject to donor-imposed stipulations that may or will be met by actions of the USM Foundation and/or the passage of time. Temporarily restricted net assets include contributions designated to a particular college or unit. To the extent that restricted resources from multiple donors are available for the same purpose, the USM Foundation expends such gifts on a "first in, first out" basis.

Unrestricted net assets

net assets which represent resources generated from operations or that are not subject to donor-imposed stipulations.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at a rate commensurate with the risk involved. Amortization of the discount is recorded

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

as contribution revenue and recognized in accordance with donor-imposed restrictions, if any, on the contributions. Allowance is made for uncollectible contributions based upon management's judgment and analysis of the creditworthiness of the donors, past collection experience and other relevant factors.

Income and realized and unrealized gains (losses) on investments of permanently restricted net assets are reported as follows:

- as increases (decreases) in permanently restricted net assets if the terms of the gift or the USM Foundation's interpretation of relevant state law require that they be added to the principal of a permanent endowment fund;
- as increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on their use;
- as increases (decreases) in unrestricted net assets in all other cases.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual results could differ from those estimates.

The USM Foundation's investments are invested in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the USM Foundation's financial statements.

Another estimate that is particularly susceptible to significant change in the near term relates to the allowance for uncollectible pledges. Management's estimate of the allowance for uncollectible pledges is based on an analysis of economic conditions, financial information about donors and current receivable levels and agings.

Advances

At June 30, 2009, advances to USM totaling \$360,275, represent amounts paid to USM for projects that have not been completed. At June 30, 2008, there were no such advances to USM.

Furniture and Equipment

Furniture and equipment are stated at cost if purchased, or at fair value on the date of gift if donated. Depreciation of equipment is provided on the straight-line method over the estimated useful life of the assets. The estimated useful lives for automobiles and office equipment is five years and furniture and fixtures is seven years. Software costs are capitalized in accordance with Statement of Position No. 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*, and depreciates over an estimated useful life of five years.

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are reported at fair value. Transactions are accounted for on a trade date basis. Real estate investment funds are reported at net asset value. Other investments, which consist primarily of pooled investment funds and real estate, are recorded at fair value. The fair value of real estate is based on recent appraisals.

The liquidity crisis that originally was linked principally to the sub-prime lending markets has spread to other corners of the credit markets in the U.S. and internationally. It is not possible at this time to predict the full impact or duration of the existing illiquid credit market conditions. The unstable market conditions and the resulting uncertainties contribute to additional risks associated with certain significant investment valuation estimates. Management continues to monitor the composition of its portfolio to assess the potential impact of these market conditions on the valuation of its investments.

Pledges

All unconditional pledges to give are recorded at their estimated realizable value on a discounted basis using a risk-free interest rate.

Split Interest Agreements

The USM Foundation accepts gifts subject to split interest agreements. These gifts are in the form of annuities, pooled income funds, charitable remainder trusts, or charitable lead trusts. At the time of receipt, a gift is recorded based upon the fair value of assets donated less any applicable liabilities. Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using a designated discount rate. Funds subject to split interest agreements are classified as temporarily restricted or permanently restricted based upon donor designations.

Income Taxes

The USM Foundation is exempt from federal income taxes on related income under Internal Revenue Code section 501(a) as an organization described in section 501(c)(3). Foundation Aviation Holdings, LLC is disregarded as an entity separate from the USM Foundation for purposes of the Internal Revenue Code. Accordingly, no provision for income taxes have been made.

Planned Giving Inventory

Planned giving inventory, which includes wills, revocable trusts, and the face value of insurance policies of which the USM Foundation is the owner and beneficiary, is not recorded as it represents a conditional promise to give which constitutes a future uncertain event.

Liquidity

Assets are presented according to their nearness to cash and liabilities are presented according to their nearness of payment or use of cash.

Cash Equivalents

All highly liquid cash investments with an original maturity of three months or less when purchased are considered to be cash equivalents.

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributed Goods and Services

Contributed goods and services are recorded as revenues and expenses in the consolidated statements of activities at estimated fair value (see note 12).

Recently Issued Accounting Standards

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in tax positions and requires that the USM Foundation recognize in their consolidated financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. In December 2008, the FASB issued FASB Staff Position (FSP) FIN 48-3, *Effective Date of FASB Interpretation No. 48 for Certain Nonpublic Enterprises*. FSP FIN 48-3 permits an entity within its scope to defer the effective date of FIN 48 to its annual financial statements for fiscal years beginning after December 15, 2008. The USM Foundation has elected to defer the application of FIN 48 to the year beginning July 1, 2009, and the adoption of FIN 48 is not anticipated to have any material impact to the USM Foundation's consolidated financial statements.

Effective July 1, 2008, the USM Foundation adopted the provisions of FASB Statement No. 157 (Statement No. 157), *Fair Value Measurements*, for fair value measurements of financial assets and financial liabilities and for fair value measurement of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Statement No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Statement No. 157 also establishes a framework for measuring fair value and expands disclosures about fair value measurements (see note 3). In junction with the adoption of Statement No. 157, the USM Foundation elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private equity investments, hedge funds, real estate, and other funds. This guidance amends Statement No. 157 and permits, as a practical expedient for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances, may not equal fair value that would be calculated pursuant to Statement No. 157. FASB Staff Position FAS 157-2, *Effective Date of FASB Statement No. 157*, delays the effective date of Statement No. 157 until fiscal years beginning after November 15, 2008 for all nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a nonrecurring basis. On July 1, 2009, the USM Foundation will be required to apply the provisions of Statement No. 157 to fair value measurements of nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a nonrecurring basis. The USM Foundation believes applying these provisions will not have a significant impact on its 2010 consolidated financial statements.

Effective July 1, 2008, the USM Foundation adopted FASB No. 159 (Statement No. 159), *The Fair Value Option for Financial Assets and Financial Liabilities*. Statement No. 159 gave the USM Foundation the irrevocable option to report most financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value recorded in changes in net assets.

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

The USM Foundation did not elect the fair value option in regards to items not previously recorded at fair value; therefore, the adoption of this statement had no impact on the USM Foundation's 2009 consolidated financial statements.

The FASB issued FASB Staff Position (FSP) No. 117-1, *Endowments of Non-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds*, which provides guidance about the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of UPMIFA and expands disclosures about endowment funds (both donor-restricted and board-designated endowment funds), regardless of whether an organization is subject to UPMIFA. FSP FAS No. 117-1 is effective for fiscal years ending after December 15, 2008. As of June 30, 2009, the State of Mississippi had not yet adopted UPMIFA. The USM Foundation adopted the disclosure provisions of FSP 117-1 during the year ended June 30, 2009 (see note 10).

Subsequent Events

In connection with the preparation of the consolidated financial statements and in accordance with the recently issued SFAS No. 165, *Subsequent Events*, the USM Foundation evaluated subsequent events after the consolidated statements of financial position date of June 30, 2009 through November 24, 2009, which is the date the consolidated financial statements were available to be issued.

NOTE 2 – INVESTMENTS

Investments are summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Pooled investments and mutual funds	\$ 13,908,675	\$ 14,863,113
U.S. Government obligations	9,597,384	8,699,018
Corporate equities	11,507,583	23,331,845
Corporate debt obligations	4,582,326	4,054,938
Real estate investment trust	550,429	1,256,577
Cash surrender value of insurance policies	1,813,664	1,673,193
Real estate	505,656	516,056
Other	46,032	46,032
	\$ 42,511,749	\$ 54,440,772

The USM Foundation has entered into various split interest agreements, including charitable gift annuities and pooled income funds, whereby the USM Foundation serves as trustee. The assets held under these split interest agreements are included in investments at June 30, 2009 and 2008 with a fair value of \$544,460 and \$711,350, respectively.

At June 30, 2009 and 2008, the fair value of certain permanently restricted investments have gone below their historical cost, and the deficiency of \$2,538,573 and \$273,916, respectively, has been

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 2 – INVESTMENTS (Continued)

recorded in unrestricted net assets. Future gains will be used to restore these deficiencies in unrestricted net assets before any appreciation above the historical cost value of such funds increases temporarily restricted net assets.

The following schedule summarizes net investment income (loss) and its classification in the consolidated statement of activities:

Year ended June 30, 2009

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Dividends and interest (net of expenses of \$395,690)	\$ 660,474	\$ 408,427	\$ 23,808	\$ 1,092,709
Realized losses, net	(108,778)	(2,195,788)	(81,014)	(2,385,580)
Unrealized losses, net	(2,533,179)	(4,478,341)	(307,078)	(7,318,598)
	\$ (1,981,483)	\$ (6,265,702)	\$ (364,284)	\$ (8,611,469)

Year ended June 30, 2008

Dividends and interest (net of expenses of \$420,040)	\$ 1,256,644	\$ (65,205)	\$ 42,070	\$ 1,233,509
Realized gains (losses), net	34,661	3,785,985	320,900	4,141,546
Unrealized gains (losses), net	(409,255)	(5,501,249)	(294,295)	(6,204,799)
	\$ 882,050	\$ (1,780,469)	\$ 68,675	\$ (829,744)

NOTE 3 – FAIR VALUE MEASUREMENTS

Statement No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Statement No. 157 also establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value hierarchy established in Statement No. 157 prioritizes the inputs used in valuation techniques into three levels as follows:

Level 1 – Observable inputs are quoted prices in active markets for identical assets or liabilities,

Level 2 – Observable inputs are other than the quoted prices in active markets for identical asset and liabilities – includes quoted prices for similar instruments, quoted prices for identical or similar instruments in inactive markets, and amounts derived from valuation models where all significant inputs are observable in active markets; and

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 3 – Unobservable inputs -- includes amounts derived from valuation models where one or more significant inputs are unobservable and require management to develop relevant assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds, pooled investment funds, U.S. Government obligations, corporate equities, corporate debt obligations and externally managed trusts: Valued at the closing price reported on the active market on which the individual securities are traded.

Real estate investment funds: Valued at the net asset value of underlying investments as determined by the asset custodian; management also takes into consideration the audited financial information to determine overall reasonableness of the recorded value.

Life insurance contracts: Valued at the cash surrender value of the life insurance contract as determined by the life insurance company.

Real estate and other: Valued based on recent appraisals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the USM Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the USM Foundation's assets at fair value as of June 30, 2009:

	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	\$ 13,829,979	\$ -	\$ -	\$ 13,829,979
Pooled investment funds	78,696	-	-	78,696
U.S. Government obligations	9,597,384	-	-	9,597,384
Corporate equities	11,507,583	-	-	11,507,583
Corporate debt obligations	4,582,326	-	-	4,582,326
Real estate investment funds	-	-	550,429	550,429
Life insurance contracts	-	-	1,813,664	1,813,664
Real estate	-	-	505,656	505,656
Other	-	-	46,032	46,032
Externally managed trust	1,575,976	-	-	1,575,976
	\$ 41,171,944	\$ -	\$ 2,915,781	\$ 44,087,725

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the USM Foundation's Level 3 assets for the year ended June 30, 2009.

<i>As of June 30, 2009</i>	Level 3 Assets				Total
	Real estate investment trust	Life insurance contracts	Real estate	Other	
Balance, beginning of year	\$ 1,256,577	\$ 1,673,193	\$ 516,056	\$ 46,032	\$ 3,491,858
Realized losses	(46,802)	-	(10,400)	-	(57,202)
Unrealized losses	(659,346)	-	-	-	(659,346)
Change in cash surrender value	-	140,471	-	-	140,471
Balance, end of year	\$ 550,429	\$ 1,813,664	\$ 505,656	\$ 46,032	\$ 2,915,781

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 4 – PLEDGES RECEIVABLE

Pledges receivable, net, are summarized as follows at June 30, 2009 and 2008:

<i>As of June 30,</i>	2009	2008
Unconditional promises expected to be collected in:		
Less than one year	\$ 3,994,036	\$ 4,386,979
One year to five years	3,556,733	4,609,775
Over five years	193,879	703,988
	7,744,648	9,700,742
Less unamortized discounts ranging from 2.54% to 5.15%	(640,650)	(909,986)
	7,103,998	8,790,756
Less allowance for uncollectible pledges	(805,603)	(723,871)
	\$ 6,298,395	\$ 8,066,885

NOTE 5 – EXTERNALLY MANAGED TRUSTS

Externally managed trusts consist of irrevocable charitable lead trusts and charitable remainder trust whereby the USM Foundation is the beneficiary, not the trustee. The amount due from these split-interest agreements and the related contribution revenue is recognized at the fair value at the date of the gift. The amount due is then discounted using a discount rate and age factors in order to record the contribution at net present value. The discount rates used as of June 30, 2009 ranged from 3.53% to 4.32% and as of June 30, 2008 ranged from 3.99% to 4.59%.

NOTE 6 – FURNITURE AND EQUIPMENT

Furniture and equipment are summarized as follows:

<i>As of June 30,</i>	2009	2008
Automobiles	\$ 45,469	\$ 45,469
Furniture and fixtures	66,872	66,872
Office equipment	9,374	8,519
Software (not placed in service as of June 30, 2009)	432,633	-
	554,348	120,860
Less accumulated depreciation	(107,808)	(98,349)
	\$ 446,540	\$ 22,511

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 6– FURNITURE AND EQUIPMENT (Continued)

The Foundation has made certain commitments to purchase additional computer software systems. At June 30, 2009, outstanding capital commitments total \$275,774.

NOTE 7 – LINE OF CREDIT

In December 2008, the USM Foundation entered into a revolving line of credit facility with JPMorgan Chase Bank, NA, to purchase an aircraft for lease to USM. The line allows for borrowings up to \$1,600,000 and is secured by an investment account held by the USM Foundation. The line has a maturity date of December 11, 2009. As of June 30, 2009, the outstanding balance of the line was \$1,474,503. The line bears interest at a variable rate basis at the rate per annum equal to 1.80% points over the one-month LIBOR index (2.12% at June 30, 2009). Interest expense incurred during the year was \$16,321, including accrued interest of \$1,778 at June 30, 2009.

NOTE 8 – TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets at June 30, 2009 and 2008 were available for the following purposes:

<i>As of June 30,</i>	2009	2008
Student financial aid	\$ 10,532,324	\$ 12,952,306
Academic divisions	3,308,586	2,455,194
Research	407,075	663,023
Operation and maintenance of plant	4,020,228	7,303,900
Library	122,185	190,312
Athletics	307,226	296,326
Faculty and staff support	319,554	506,616
Other restricted purposes	5,982,195	5,245,113
	\$ 24,999,373	\$ 29,612,790

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 9 – PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets at June 30, 2009 and 2008 have been categorized based on the donors' designation of the related investment income and are summarized as follows:

<i>As of June 30,</i>	2009	2008
Student financial aid	\$ 27,826,695	\$ 27,563,814
Academic divisions	3,994,702	2,229,254
Research	676,181	705,969
Operation and maintenance of plant	1,227,717	1,448,101
Library	2,896,691	2,975,699
Athletic	12,950	-
Faculty and staff support	6,167,858	5,967,517
Other restricted purposes	2,699,213	4,074,520
	\$ 45,502,007	\$ 44,964,874

NOTE 10 – ENDOWMENT NET ASSETS

The USM Foundation has approximately 750 individual funds which function as endowment-type funds that are established for operating and scholarship purposes. The endowment-type funds include both donor-restricted endowment-type funds and funds designated by the Board of Directors to function as endowments. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including board-designated funds to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

During the years ended June 30, 2009 and 2008, the USM Foundation had the following endowment related activities:

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Endowment net assets, July 1, 2008	\$ 3,432,487	\$ 11,064,573	\$ 40,300,862	\$ 54,797,922
Contributions	13,415	1,082,254	1,220,882	2,316,551
Net investment income (loss)	283,213	(8,935,895)	(350,210)	(9,002,892)
Other income (loss)	2,442	6,121	(2,906)	5,657
Change in restriction by donor	4,738	(24,050)	146,516	127,204
Expenses	(200,081)	(1,518,166)	-	(1,718,247)
Transfers	(1,089,912)	(6,349)	(159,128)	(1,255,389)
Allocation of fund deficiencies in endowments related to investment losses	(2,264,656)	2,264,656	-	-
Endowment net assets, June 30, 2009	\$ 181,646	\$ 3,933,144	\$ 41,156,016	\$ 45,270,806

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 10 – ENDOWMENT NET ASSETS (Continued)

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Endowment net assets, July 1, 2007	\$ 3,210,665	\$ 14,817,556	\$ 32,808,625	\$ 50,836,846
Contributions	29,672	8,488	1,239,330	1,277,490
Net investment income (loss)	1,164,047	(2,043,955)	72,420	(807,488)
Other income (loss)	(9,904)	302	(731)	(10,333)
Change in restriction by donor	(33,251)	(667,129)	723,194	22,814
Expenses	(10,124)	(1,274,596)	1,375	(1,283,345)
Transfers	(692,063)	(2,648)	5,456,649	4,761,938
Allocation of fund deficiencies in endowments related to investment losses	(226,555)	226,555	-	-
Endowment net assets, June 30, 2008	\$ 3,432,487	\$ 11,064,573	\$ 40,300,862	\$ 54,797,922

At June 30, 2009 and 2008, the endowment net asset composition by type of fund consists of the following:

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment- type funds	\$ -	\$ 3,933,144	\$ 41,156,016	\$ 45,089,160
Board-designated endowment-type funds	181,646	-	-	181,646
Endowment net assets, June 30, 2009	\$ 181,646	\$ 3,933,144	\$ 41,156,016	\$ 45,270,806
Donor-restricted endowment- type funds	\$ -	\$ 11,064,573	\$ 40,300,862	\$ 51,365,435
Board-designated endowment-type funds	3,432,487	-	-	3,432,487
Endowment net assets, June 30, 2008	\$ 3,432,487	\$ 11,064,573	\$ 40,300,862	\$ 54,797,922

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 11 – PLANNED GIVING INVENTORY (UNAUDITED)

Planned giving inventory for the USM Foundation as of June 30, 2009 and 2008 is as follows:

<i>As of June 30,</i>	2009	2008
Insurance policies	\$ 19,967,819	\$ 19,542,819
Wills	6,270,000	6,075,000
Trusts	8,634,599	8,434,599
Other	850,000	850,000
Total	\$ 35,722,418	\$ 34,902,418

NOTE 12 – RELATED PARTY TRANSACTIONS

The following contributed services, commodities, utilities, equipment, and facilities were received from USM during 2009 and 2008 and are reflected as unrestricted contributions and unrestricted expenses in the statements of activities.

<i>Years ended June 30,</i>	2009	2008
Wages and benefits	\$ 1,504,383	\$ 1,381,198
Contractual services	53,947	46,411
Commodities	40,108	22,931
Utilities	37,670	37,893
Facilities	96,144	96,144
Total	\$ 1,732,252	\$ 1,584,577

NOTE 13 – NET INVESTMENT IN DIRECT FINANCING LEASE

Through its wholly-owned subsidiary, Foundation Aviation Holdings LLC, the USM Foundation leases an airplane to USM under a direct financing lease arrangement. The lease expires in January 2019. The USM Foundation's net investment in the direct financing lease is presented below.

<i>As of June 30, 2009</i>	
Total minimum lease payments to be received	\$ 1,889,266
Less unearned income	(356,915)
Net investment in direct financing lease	\$ 1,532,351

University of Southern Mississippi Foundation

Notes to Financial Statements

NOTE 13 – NET INVESTMENT IN DIRECT FINANCING LEASE (Continued)

Future minimum lease payments to be received for each of the five succeeding fiscal years are as follows:

Year ending June 30:

2010	\$	197,141
2011		197,141
2012		197,141
2013		197,141
2014		197,141
Thereafter		903,561
	\$	1,889,266

State of Mississippi Institutions of Higher Learning

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2009

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs administered by the State of Mississippi Institutions of Higher Learning. Federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included on the schedule. Federal programs included in the accompanying schedule are accounted for using the economic resources measurement focus and the accrual basis of accounting, which is described in Note 1 to the IHL System's financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*.

The schedule was prepared using the same basis of accounting and significant accounting policies, as applicable, used by the IHL System in the preparation of its financial statements with the following exceptions:

- For purposes of the schedule, loans advanced from the Federal Perkins Loan Program (CFDA #84.038) and Health Profession Student Loans (CFDA #93.342) are presented as federal expenditures. These loans are not reported as expenditures on the IHL System's financial statements, but as an increase in notes receivables. The outstanding loan balances and the allowance for uncollectible amounts for the loan programs at June 30, 2009, are presented in Note 5 to the financial statements.
- For purposes of this schedule, loans made to students under the William D. Ford Direct Student Loan Program (CFDA #84.268) and/or the Federal Family Education Loan Program (CFDA #84.032) are presented as federal expenditures. Neither the funds advanced to students, nor the outstanding loan balance is included in the IHL System's financial statements since the loans are made and subsequently collected by private lending institutions and/or the federal government.
- For purposes of this schedule, pass-through federal programs or grants between institutions have not been eliminated.

State of Mississippi Institutions of Higher Learning

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2009

NOTE 2 – SUBRECIPIENT PAYMENTS

OMB Circular A-133 requires the Schedule of Expenditures of Federal Awards to include, to the extent practical, disclosure of the total amount provided to subrecipients from each Federal program. Major program expenditures presented in the schedule account for approximately 92% of the total Federal expenditures for the IHL System. Provided below is the amount of major program awards provided to subrecipients during the year ended June 30, 2009:

CFDA Number	Grant Program	Amount Provided to Subrecipients
10.574	Team Nutrition Grants	\$ 60,101
11.617	Congressionally-Identified Projects	-
16.738	Edward Byrne Memorial State and Local Law Enforcement Assistance Grant	381,294
20.106	Airport Improvement Program	-
47.076	Education and Human Resources	74,239
84.031	Higher Education - Institutional Aid	-
84.116	Fund for the Improvement of Post Secondary Education	19,897
84.334	Gear-Up	819,291
84.938	Hurricane Education Recovery Assistance	-
93.137	Community Programs to Improve Minority Health Grant Programs	1,611,012
93.241	Delta Health Initiative - Rural Hospital Flexibility Program	210,954
94.006	Americorps	675,911
97.084	Disaster Case Management Pilot Program	-
	Student Financial Aid Cluster	-
	Research and Development Cluster	27,789,276
		\$ 31,641,975

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees of the State Institutions of Higher Learning
3825 Ridgewood Road
Jackson, MS 39211-6463

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the State of Mississippi Institutions of Higher Learning (the IHL System), a component unit of the State of Mississippi, as of and for the year ended June 30, 2009 which collectively comprise the IHL System's basic financial statements as listed in the table of contents and have issued our report thereon dated December 15, 2009. We did not audit the financial statements and schedules of:

the University of Mississippi Medical Center Educational Building Corporation, a component unit of the University of Mississippi Medical Center, which statements reflect total assets of \$140,851,186 as of June 30, 2009, and total revenues of \$4,885,343 for the year then ended;

the University of Mississippi Educational Building Corporation, a component unit of the University of Mississippi, which statements reflect total assets of \$152,002,987 as of June 30, 2009, and total revenues of \$5,562,430 for the year then ended;

the University of Mississippi Medical Center Tort Claims Fund, which statements reflect total assets of \$28,250,872 as of June 30, 2009, and total revenues of \$1,488,134 for the year then ended;

the State Institutions of Higher Learning Self-Insured Workers' Compensation Program, which statements reflect total assets of \$11,423,030 as of June 30, 2009, and total revenues of \$7,640,196 for the year then ended;

the State Institutions of Higher Learning Tort Liability Fund, which statements reflect total assets of \$10,182,667 as of June 30, 2009, and total revenues of \$3,125,478 for the year then ended; and

the discretely presented component units consisting of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation and the University of Southern Mississippi Foundation, which represent 100% of the assets and revenues of the discretely presented component units.

Those financial statements were audited by other auditors whose reports thereon have been furnished to us. This report, insofar as it relates to the amounts included for the above mentioned entities, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements and schedules of the blended and discretely presented component units audited by other auditors, as described above, were not audited in accordance with *Government Auditing Standards*. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the IHL System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the IHL System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the IHL System's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies described in Section 2 of the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that none of the significant deficiencies described in the accompanying schedule of findings and questioned costs are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the IHL System's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests and the reports of other auditors did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The IHL System's responses to the findings identified in our audit are described in the accompanying auditee's corrective action plan section. We did not audit the IHL System's responses and, accordingly, we express no opinion on them.

We noted certain matters that we reported to management of the IHL System in a separate letter dated December 15, 2009.

This report is intended solely for the information and use of the IHL System management, members of the Legislature, entities with accreditation overview, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT AUDITOR'S REPORT
ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Trustees of the State Institutions of Higher Learning
3825 Ridgewood Road
Jackson, MS 39211-6463

Compliance

We have audited the compliance of the State of Mississippi Institutions of Higher Learning (the IHL System) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The IHL System's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the IHL System's management. Our responsibility is to express an opinion on the IHL System's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the IHL System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the IHL System's compliance with those requirements.

In our opinion, the IHL System complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in Section 3 of the accompanying Schedule of Findings and Questioned Costs.

Internal Control Over Compliance

The management of the IHL System is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the IHL System's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing an opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the IHL System's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider all the deficiencies in internal control over compliance described in Section 3 of the accompanying Schedule of Findings and Questioned Costs to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider any of the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses.

The IHL System's responses to the findings identified in our audit are described in the accompanying auditee's corrective action plan section. We did not audit the IHL System's responses and, accordingly, we express no opinion on them.

We noted certain other matters and immaterial instances of noncompliance that we reported to management of the IHL System in a separate letter dated March 12, 2010.

This report is intended solely for the information and use of the IHL System, members of the Legislature, entities with accreditation overview, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

awards which would require the auditee to prepare a summary schedule
of prior audit findings as discussed in Section .315(b) of OMB
Circular A-133? | Yes |

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

Section 2: Findings Relating to the Financial Statements

The deficiencies described in Section 2 were considered to be significant deficiencies in internal control over financial reporting.

System Wide Significant Deficiency:

FR09-IHL-1: Capitalized Interest on Construction in Progress

The IHL System describes in its summary of significant accounting policies that interest expense relating to construction is capitalized, net of interest income earned on resources set aside for construction purposes, if material. Management has maintained that capitalization of interest cost is immaterial to the financial statements of the IHL System and has historically never provided for capitalized interest. However, based upon our inquiries and review, there has been no formal analysis to evaluate the impact of not properly capitalizing construction period interest and no forecast as to the cumulative future impact as capitalized interest would result in a depreciable asset over a 40 year period. CRI has performed an analysis each year for the last three years and has estimated that the impact each year approximated a range of \$1.3 million to \$1.7 million. While we concur that the overall impact annually has been immaterial, we recommend that management adopt a formalized approach to evaluate and assess the impact of construction period interest capitalization which also includes projections that on a cumulative basis the net unamortized amounts would not result in a material misstatement to the financial statements of the IHL System or to the individual financial statements of the respective institutions.

FR09-IHL-2: Presentation and Classification of Net Assets

During our audit procedures, we noted that numerous institutions improperly classified their net asset classifications for reporting pursuant to GASB. As a result, significant reclassification adjustments were required for various institutions in order to properly present restricted and unrestricted net assets, as follows:

- Reclassification adjustments of approximately \$5,986,000 were required to correct for restricted quasi-endowments classified by Jackson State University as restricted non-expendable endowment net assets and properly present the amounts as expendable restricted net assets.
- Reclassification adjustments of approximately \$5,315,000 were required to correct for designated and auxiliary fund unrestricted net assets improperly classified as expendable restricted net assets by Mississippi Valley State University.
- Reclassification adjustments of approximately \$3,849,000 were required to correct for unrealized losses related to endowment investments which were improperly classified as a reduction of expendable restricted net assets by the University of Mississippi and should be presented as a reduction of non-expendable restricted net assets.
- Reclassification adjustments of approximately \$85,500,000 were required to correct for designated unrestricted net assets that were improperly classified as expendable restricted net assets and as restricted cash by the University of Mississippi Medical Center.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

- Reclassification adjustments of approximately \$16,705,000 were required to correct for the classification of restricted non-expendable endowment net assets inaccurately reported as restricted expendable net assets by the IHL Executive Board.

To strengthen the internal controls over financial reporting, we recommend that the IHL System establish a formalized policy by classification type, methodology of development and group support training relative to the proper presentation and classification of net assets for GASB reporting.

Institutional Campus Significant Deficiencies:

Alcorn State University

FR09-ASU-1: Recordkeeping of Capital Assets

During our audit procedures at Alcorn State University, we noted that there were irreconcilable differences between the capital asset detail and depreciation subsidiary records and the general ledger control accounts resulting in general ledger adjustments of approximately \$3,843,000. Management should adopt administrative control procedures to ensure that the capital asset general ledger control accounts are reconciled to the detail subsidiary ledgers on a monthly basis and that any differences are timely researched and corrected. Further, these administrative control procedures should include a formalized review of the status of construction in progress projects and the timely addition of completed projects to the depreciation records once a project is placed in service.

Jackson State University

FR09-JSU-1: Grants Receivable

During our review and testing of the validity of accounts receivable reported by Jackson State University (JSU), we noted that certain grant accounts receivables were misstated as a result of errors and a lack of a formal analysis and review of the general ledger accounts comprising this financial statement line item. Our testing and audit procedures detected the following misstatements which required corrective misstatements:

- The grants and contracts receivable reported by JSU were overstated due to errors and cumulative differences from prior years which had not been corrected. As a result an audit adjustment of approximately \$1,274,000 was recorded to reduce grants and contracts receivable and adjust accounts to their proper balance.
- The grants and contracts receivable reported by JSU were understated due to the netting of deferred revenues against the financial line item. As a result a reclassification adjustment of approximately \$2,142,000 was required to gross up accounts receivables and properly present the deferred revenue liabilities.

We recommend that management develop a more formalized approach which includes accountability and reconciliation of accounts receivable balances to the underlying supporting detail information on a more periodic basis. This reconciliation approach should be performed monthly and reviewed by a responsible person independent of the reconciliation process as evidenced by their signature.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

Mississippi Valley State University

FR09-MVSU-1: Financial Statement Classification and Presentation

During our audit procedures relative to the review of the groupings of expense classifications for the financial statement line items reported in Mississippi Valley State University's (MVSU) statements of revenues, expenses and other changes in net assets for consistency with the prior year we noted numerous accounts that were not grouped properly. As a result significant reclassifications were required to properly state the classification of expenses and aggregated over \$16 million. The significant deficiency resulted from a lack of formal review of the coding and development of the GASB financial statements by personnel to ensure uniformity and consistency of account classifications. MVSU should develop a formalized and effective review process to ensure the information grouped for financial line item presentation is correct and consistent.

FR09-MVSU-2: Recordkeeping of Capital Assets

During our audit procedures relative to capital assets at MVSU, we noted the following matters which resulted in corrective or potential misstatements to MVSU's financial statements:

- The prior year financial statements properly reflected the completed cost incurred to date for the renovation of the Magnolia Hall dormitory. However, during 2009, management incorrectly recorded these costs to current year expenditures as repairs. The renovation of Magnolia Hall represented a significant betterment to an existing facility with a carrying value of approximately \$32,000 that was originally constructed in 1962. As a result an audit adjustment was required to properly capitalize this improvement and approximated \$5,558,000.
- We detected cut-off errors relating to the proper capitalization of equipment in the current period. We noted over \$123,000 in equipment acquired in prior years that were not properly recorded until 2009. Further we identified equipment acquired in 2009 that was not properly capitalized until 2010 that approximated \$174,000. This misstatement appears to result from the fact equipment additions are not uploaded into the depreciation records and capitalized until the relating invoice is paid.
- We noted that one significant institutional project for the purchase and installation of fire alarm and security equipment on campus buildings was not capitalized. This project is expected to cost approximately \$645,000 and during 2009 approximately \$318,000 was incurred and charged to contractual services expense relative to this project.
- MVSU has incurred significant cost to repair serious defects in the Sutton Administrative Building. This building was originally completed with a completed cost basis of approximately \$10,406,000. MVSU did not impair the value of the building upon detection of the defects, but has rather expensed repair cost as incurred and continues to depreciate the original cost basis of the building. As of June 30, 2009, approximately \$15,800,000 has been incurred in the repair and renovation of the building. Management has continued to expense the repair and renovation cost on the basis that additional expenditures are required and the cumulative cost incurred to repair the building exceeds its estimated fair value.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

The majority of the deficiencies noted above occurred as a result of misinterpretation of capitalization requirements and the lack of effective reconciliation by MVSU with capital asset projects managed by both the institution and the Bureau of Buildings. MVSU should develop a formalized and effective reconciliation and review process to ensure expenditures of a capital nature are properly captured and identified for capitalization in the appropriate period. Further, with respect to the Sutton Administrative building, management should obtain an independent appraisal to support its assertions of fair value and capitalize additional renovation cost incurred that result in betterments and increases to the estimated fair value of the building.

University of Mississippi Medical Center

FR09-UMMC-1: Payroll and Human Resources

During our 2009 and 2008 audit procedures at the University of Mississippi Medical Center (UMMC), we identified deficiencies in the design of internal controls around management approval and review of changes made to employee compensation adjustments. From our review and inquiries, we noted that the use of hardcopy personnel action request (PAR) forms was discontinued during the prior fiscal year for the approval of certain compensation adjustments. These forms were previously used to document changes made to employee information including compensation adjustments and were reviewed and approved by responsible personnel prior to the upload of changes to the payroll master file. As an alternative, during the fiscal year a process was implemented in which a departmental listing of payroll changes detailing all employees for an applicable department was to be circulated and approved by responsible personnel. However, during our observation and review, we noted that this process was not performed timely and was not approved prior to the compensation adjustments being uploaded to the payroll master file. Because payroll master file data is used to generate multiple transactions, unauthorized changes to this data present a greater risk than errors in inputting transaction data. This is true because (1) any unauthorized modification, deletion, or corruption of master file data is likely to have a widespread or continuous effect; and (2) elements of the payroll master files tend to be sensitive and are normally confidential (e.g., salary/pay rates, medical history). Unauthorized changes to the payroll master files could result in invalid data, which may result in incorrect amounts paid to employees, failure to pay employees who are inappropriately deleted, or payments to nonexistent employees. To strengthen internal controls, management should ensure changes to employee compensation and personnel records are accurate, authorized, reviewed and approved in a timely fashion prior to any changes being made to the payroll master file. This review and approval should be documented by implementing a PAR form in either hardcopy or electronic format or by requiring a formal review and approval of employee changes on a documented departmental employee listing as evidenced by signatures of responsible personnel.

FR09-UMMC-2: Comprehensive Disaster Recovery Plan

During our audit procedures at UMMC, we noted that the current disaster recovery plan (DRP) in place was not comprehensive and somewhat inadequate. Should a disaster occur without a comprehensive plan that has been effectively tested, UMMC's ability to recover in a timely manner could be compromised.

The disaster recovery plan should be sufficiently detailed to enable an effective recovery from a disaster. The safety of personnel and their families should be the first priority of any DRP. Once family members are safe, employees have a greater chance of being able to concentrate on helping the

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

UMMC. Each employee should be trained in his or her role in the disaster recovery plan. Back-up personnel should be designated in the case that an employee is not available, and the back-ups need to receive the same training. Frequent audits of the plan should be made to ensure that the same people are still employed in the same roles with the same contact information. Multiple lines of communication are crucial to any good DRP. Detailed lists of employee and vendor contact information should be developed at a minimum. Some companies sign up with third-party conferencing and emergency communications services to send automated messages in times of crisis. The messages can be sent from any platform (phone, e-mail, SMS) and received on any platform. An advantage of these conferencing services is that individuals can easily update their contact information and indicate the fastest way to reach them in an emergency. Emergency communications services also have the ability to call everyone on the contact list at the same time, ringing pagers, cell phones and sending e-mails until receipt of the message is confirmed.

A third-party disaster recovery specialist can also provide UMMC with alternate workspaces in the event that the regular office is unavailable. Not only do these workspaces have all of the necessary equipment to do business (desks, phones, PCs, Internet access), but they also have access to all of UMMC's data, assuming the university has been regularly backing up and storing its data in an off-site facility. Certain types of data should be identified as crucial to running the business. The back-up and recovery plan should reflect those priorities. Security measures should also be included in this section of the plan so that all employees are trained in the safeguarding of UMMC's systems and sensitive data.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

Section 3: Findings and Questioned Costs Related to Federal Awards

System Wide Deficiency:

FA09-SW-01: Internal Controls over Return of Title IV Funds

Finding Type: Noncompliance / Significant Deficiency

Program Tested: Student Financial Aid

Questioned Cost: \$6,078

Criteria

Per federal regulations, when a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of Title IV aid earned by the student as of the student's withdrawal date. If the total amount of Title IV assistance earned by the student is less than the amount that was disbursed to the student or credited to the student on his or her behalf as of the date of the institution's determination that the student withdrew, the difference must be returned to the Title IV programs within a 45 day timeframe pursuant to 34 CFR Section 668.22 and 668.173. An institution must determine the withdrawal date for a student who withdraws without providing notification to the institution no later than 30 days after the end of the earlier of the: (i) payment period or period of enrollment, (ii) academic year in which the student withdrew, or (iii) educational program from which the student withdrew. When a recipient of Title IV grant or loan assistance does not begin attendance at an institution during a payment period or a period of enrollment, all disbursed Title IV grant and loan funds must be returned.

Condition and Cause

During our testing of the return of Title IV funds and related student withdrawals, we identified eight (8) students from a sample of ninety (90) in which certain institutions within the IHL System failed to (i) refund the required amount of Title IV funds for students who had withdrawn or (ii) return the Title IV funds within the allowable timeframe. Further, we identified nine (9) instances in which the calculation of the Title IV refund was incorrect resulting in the return of an inaccurate amount.

University of Mississippi: We identified one (1) student refund from a sample of fifteen (15) where proof of attendance could not be provided and as a result \$3,218 in unsubsidized Stafford Loans had been received but were not returned to the respective program. Further, we identified one (1) student refund from the sample of fifteen (15) in which the return of Title IV refund was calculated incorrectly as a result of charges for room and board reported improperly resulting in an overstated refund of \$189.

University of Mississippi Medical Center: We identified one (1) student from a sample of fifteen (15) students that had withdrawn early for which there was no evidence of a calculation of unearned aid and no return of Title IV funds. As a result, the institution did not return \$598 of unearned Title IV funds.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

University of Southern Mississippi: We identified six (6) student refunds from a sample of fifteen (15) students that withdrew that did not have the required refunded amount deposited with the Department of Education or appropriate lender within the allowable timeframe. Further, we identified ten (10) students refunds from a sample of fifteen (15) in which the calculations were computed improperly as a result of excluding (a) ACG awarded during the semester (one student), (b) out-of-state fees assessed during the semester (two students), (c) course/alternative learning fees (ten students) and (d) two (2) students whose return calculations included non-institutional charges assessed for housing damages. As a result of the above described findings, it was discovered that eight (8) students' Title IV return amounts were miscalculated resulting in a net understatement of \$2,451 in what should have been returned to Title IV programs.

Effect

Failure to return funds could result in sanctions rendered by the Department of Education.

Recommendation

We recommend that management implement additional preventive monitoring procedures to ensure return of Title IV funds calculations are performed correctly and the resulting refunds are returned within the required time frame.

Alcorn State University

FA09-ASU-01: Internal Controls over Financial Reporting

Finding Type: Noncompliance / Significant Deficiency

Program Tested: #16.580 Edward Byrne Memorial State & Local Law Enforcement Assistant Grant

Questioned Cost: None

Criteria

Per federal regulations and the award agreement, the institution is required to submit both financial and program reports. These reports describe the status of the funds, the status of the project, comparison of actual accomplishments to the objectives and other pertinent information. The award agreement requires semi-annual progress reports to be filed no later than 30 days after the end of the period.

Condition and Cause

During our testing of reporting compliance elements for the Edward Byrne Memorial State & Local Law Enforcement Assistance Grant at Alcorn State University, we noted one semi-annual progress report for the period ending June 30, 2009 that was not submitted timely.

Effect

Failure to submit financial status reports in accordance with the contractual obligations of the award agreement could potentially effect the funding of federal awards or any future relationship with the awarding agency.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

Recommendation

Internal control procedures should be adopted to ensure that reporting procedures are in place to document compliance with the reporting requirements.

Jackson State University

FA09-JSU-01: Internal Control over Allowable Costs – Special Requirements – Cost Accounting Standards and Disclosures Statements

Finding Type: Noncompliance / Significant Deficiency

Programs Tested: #84.031 – Higher Education Institutional Aid – Title III; #47.076 – National Science Foundation (NSF)

Questioned Cost: None

Criteria

A-21, "Cost Principles for Educational Institutions" Section C.14 requires educational institutions that receive aggregate sponsored agreements totaling \$25 million or more during their most recently completed fiscal year to disclose their cost accounting practices by filing a Disclosure Statement (DS-2). Educational institutions are responsible for maintaining an accurate DS-2 and complying with disclosed cost accounting practices. Educational institutions must file amendments to the DS-2 when disclosed practices are changed to comply with new or modified standards, or when practices are changed for other reasons. If the change is expected to have a material impact on the educational institution's negotiated F&A cost rates, the revision shall be approved by the cognizant agency before it is implemented.

Condition and Cause

During our review and testing of allowable costs - special requirements related to cost accounting standards and disclosure statements, we noted that Jackson State University did not prepare or submit the Disclosure Statement (DS-2) that describes the institution's cost accounting practices to its cognizant federal agency upon meeting the applicable threshold for filing such report.

Effect

The form was not prepared for the prior reporting period nor the current reporting period, thus resulting in noncompliance with applicable federal rules and regulations.

Recommendation

We recommend that management implement additional procedures and internal controls to ensure the personnel responsible for continued compliance with federal rules and regulations are aware of the reporting requirements relative to the cost accounting standards. The strengthening should include the monitoring of reporting requirements and their related due dates to ensure timely submission.

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

FA09-JSU-02: Internal Control over Period of Availability

Finding Type: Noncompliance / Significant Deficiency

Program Tested: #84.031 – Higher Education Institutional Aid – Title III

Questioned Cost: \$132,214

Criteria

Jackson State University prepares its Schedule of Expenditures of Federal Awards in accordance with accounting principles generally accepted in the United States of America (GAAP). As a result, allowable costs charged to a federal program should be determined in accordance with GAAP.

Condition and Cause

During the performance of our audit procedures, we noted that Jackson State University prepaid four (4) invoices related to maintenance/service contracts with maintenance/service periods that covered multiple fiscal years (i.e., fiscal year 2009 and 2010) resulting in questioned costs of \$132,314 which should not have been expensed until fiscal year 2010. The amounts prepaid on the invoices were expensed at the time of payment which is not in accordance with GAAP.

Effect

Failure of a non-federal entity to comply with the compliance requirements required to be followed by OMB Circular A-133 guidance resulting in expenditures charged to a federal program outside the period of availability.

Recommendation

We recommend that management implement additional procedures and internal controls to ensure that transactions are properly recorded in the general ledger as required by generally accepted accounting principles so as to be in compliance with applicable federal rules and regulations.

University of Mississippi

FA09-UM-01 Internal Control over Time and Effort Reporting

Finding Type: Noncompliance / Significant Deficiency

Program Tested: #16.580 Edward Byrne Memorial State & Local Law Enforcement Assistant Grant

Questioned Cost: None

Criteria

In accordance with OMB Circular A-21, Cost Principles for Educational Institutions, after-the-fact reports should be prepared each academic term, but no less frequently than every six months for professorial and professional staff salary expenditures charged to federal awards.. For other employee salaries charged to a federal award, unless alternate arrangements are agreed to, the

State of Mississippi Institutions of Higher Learning

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2009

reports should be prepared no less frequently than monthly and should coincide with one or more pay periods. In addition, the University of Mississippi policy states that time and effort reports should be submitted on a quarterly basis within 120 days after quarter end.

Condition and Cause

During our disbursement testing of the Edward Byrne Grants, we noted that time and effort reports related to two (2) professorial or professional employees from a sample of fifteen (15) were submitted in April 2009 for the September 2008 quarter end. As a result, the time and effort reports were not submitted within the required time frame.

Effect

Failure to submit and approve effort reports on a timely basis may result in inaccurate reporting of expenditures which could subsequently result in disallowed costs.

Recommendation

We recommend that the University of Mississippi implement additional control procedures to ensure that effort reports are prepared and certified in a timely manner with appropriate monitoring.

FA09-UM-02 Internal Control over Reporting

Finding Type: Significant Deficiency

Program Tested: #47.076 National Science Foundations (NSF)

Questioned Cost: None

Criteria

National Science Foundation General Grant Conditions state that all grantees shall submit a Federal Financial Report (FFR) by the 10th day of the 2nd month following the end of each quarter. All FFRs must be submitted electronically via use of the FastLane Financial Functions. Further, the Final Project Report (FPR) is to be submitted within 90 days following the expiration date of the award.

Condition and Cause

During our review of reporting compliance elements for the National Science Foundation we noted that certain standard financial reporting forms were not submitted timely. From a review of four (4) reporting forms, we identified one (1) FFR for the period ending December 31, 2008 that was not submitted until February 11, 2009 (1 day late). In addition, during our review of reporting compliance elements, we noted that the FPR for two (2) grants from a sample of four (4) were not submitted timely. The FPR for Award Number 0625120 was submitted nineteen days late and the FPR for Award Number 0809853 was submitted seventy-nine days late. These grants had project years ending on July 31, 2008 and May 31, 2009, respectively.

Effect

Failure to submit timely reports may delay processing of funding increments.

Recommendation

We recommend that the University of Mississippi implement additional control procedures, including review procedures, to ensure that required reports are submitted on a timely basis.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 2 Findings Related to Financial Statements For the Year Ended June 30, 2009

System Wide Significant Deficiency:

FR09-IHL-1: Capitalized Interest on Construction in Progress

Name(s) of Contact Person(s) Responsible for Corrective Action:
Chris Halliwell, Director of University Financial Analysis

Management Response and Corrective Action Planned:

The management of the IHL System concurs with the deficiency and will endeavor to develop a formalized approach to evaluate and assess the impact of construction period interest capitalization. The process will include a projections made on a cumulative basis of the net unamortized amounts and their material impact upon the IHL System as a whole or to the individual financial statements of the respective institutions. Professional assistance will be sought by management to aid in the development of such an approach.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

FR09-IHL-2: Presentation and Classification of Net Assets

Name(s) of Contact Person(s) Responsible for Corrective Action:
Chris Halliwell, Director of University Financial Analysis

Management Response and Corrective Action Planned:

The management of the IHL System concurs with the deficiency and will endeavor to develop a more formalized guideline by classification type and methodology of development of its future net assets for proper GASB financial presentation and reporting. This may include some group support training opportunities as needed and available.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

Institutional Campus Significant Deficiencies:

Alcorn State University

FR09-ASU-1: Recordkeeping of Capital Assets

Name(s) of Contact Person(s) Responsible for Corrective Action:
Carolyn Hinton, Controller; Cassandra Lewis, Director of Accounting;
Jerry Sims, Director of Inventory

Management Response and Corrective Action Planned:

Alcorn State University will ensure that the accounting department and the inventory department are responsible for reconciling the fixed asset detail schedules, including the depreciation schedules, to the general ledger monthly. All differences will be researched and corrected monthly. A report to

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 2 Findings Related to Financial Statements For the Year Ended June 30, 2009

confirm the reconciliation procedure has been completed will be forwarded to the controller monthly. Alcorn State University has instructed the inventory department to add items to the depreciation schedule only after receiving appropriate documentation of completion.

Anticipated Completion Date:

The procedures have already been put in place and are effectively immediately.

Jackson State University

FR09-JSU-1: Grants Receivable

Name(s) of Contact Person(s) Responsible for Corrective Action:

Sherry Wilson, Vice President/Comptroller

Management Response and Corrective Action Planned:

Procedures are being implemented to reconcile grant account receivable balances to the underlying support detail information on a timely and more periodic basis to include, but not limited to, the following:

- Project and expenditure end dates are populated on all restricted fund accounts to ensure that expenditures are not charged to inactive accounts;
- More attention is exercised in verifying availability of funds;
- Monthly review of expenditures and follow up on actions needed to correct expenditures charged erroneously to accounts;
- Grant close-out procedures are being developed and or strengthened to ensure grants are not over expended and to ensure that grants are closed out in a timely manner.

Further, processes will be updated to include a thorough review of the classification of the deferred revenue and receivables to ensure that classification is properly stated.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

Mississippi Valley State University

FR09-MVSU-1: Financial Statement Classification and Presentation

Name(s) of Contact Person(s) Responsible for Corrective Action:

Ms. Joyce Dixon
Assistant Vice President for Business and Finance

Management Response and Corrective Action Planned:

Mississippi Valley State University will institute a formal review of transactions posted to control and detail general ledger accounts that will ensure more uniformity in the maintenance of accounts and preparation of financial statements. This activity will be closely monitored by the Vice President for Business and Finance (or designee).

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 2 Findings Related to Financial Statements For the Year Ended June 30, 2009

Anticipated Completion Date:

The anticipated completion date of the corrective action is March 31, 2010.

FR09-MVSU-2: Recordkeeping of Capital Assets

Name(s) of Contact Person(s) Responsible for Corrective Action:

Ms. Joyce Dixon
Assistant Vice President for Business and Finance

Management Response and Corrective Action Planned:

A formalized system pertaining to capitalized expenditures will be developed and maintained that will allow for adequate review for determination of expenditures that are to be capitalized.

Anticipated Completion Date:

The anticipated completion date of the corrective action is March 31, 2010.

University of Mississippi Medical Center

FR09-UMMC-1: Payroll and Human Resources

Name(s) of Contact Person(s) Responsible for Corrective Action:

Thomas H. Sullivan, Director of Compensation

Management Response and Corrective Action Planned:

For mass pay adjustments, in lieu of individual PAR preparation, spreadsheets for upload to Lawson payroll software will be prepared outlining all changes such as salary, pay source, and percent of effort, and e-mailed to the respective department director or chairman. These would be printed, reviewed, signed, and forwarded to the appropriate budget office (and grant authority if needed) for further approval and signature, then returned to Human Resources before changes are electronically uploaded. No changes will be made to employee records without all appropriate authorization. This process was implemented and adhered to for the mass pay adjustment effective October 2009.

Anticipated Completion Date:

This process was implemented and adhered to for the mass pay adjustment effective October 2009.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 2 Findings Related to Financial Statements For the Year Ended June 30, 2009

FR09-UMMC-2: Comprehensive Disaster Recovery Plan

Name(s) of Contact Person(s) Responsible for Corrective Action:
Charlie Enicks, Chief Information Officer

Management Response and Corrective Action Planned:

Management of UMMC agrees that the components of the existing disaster recovery plan need to be more comprehensive and has established an action plan to address the deficiencies that include:

- (i) Conducting risk and assessment analysis
 - a. Data center analysis – complete
 - b. Prioritized application review – anticipated May 2010
 - c. Back-up and recovery – anticipated June 2010
- (ii) Evaluating options and alternatives given identified risks
 - a. Review data center recommendations – anticipated April 2010
 - b. Explore co-location and hot site options – anticipated April 2010
- (iii) Requesting proposals for scope defined by evaluation – May 2010
- (iv) Developing implementation plan for Phase I remediation efforts – July 2010
- (v) Test back-up and recovery for key systems – November 2010

Anticipated Completion Date:

See dates for various phases of corrective action as summarized above.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 3 Findings and Questioned Costs Related to Federal Awards For the Year Ended June 30, 2009

System Wide Deficiency:

FA09-SW-01: Internal Controls over Return of Title IV Funds

University of Mississippi

Name(s) of Contact Person(s) Responsible for Corrective Action:
Laura Diven-Brown, Director of Financial Aid

Management Response and Corrective Action Planned:

The University of Mississippi conducted a review of the office procedures for calculating student withdrawal refunds and determined that the procedural steps in the process are correct; however, the process includes manual steps. In this instance, the employee made an error when calculating the board charges on the student's account. The financial aid office will institute a review process for student withdrawal refunds. Furthermore, the University of Mississippi conducted a review of the office procedures for calculating student withdrawal refunds and determined that the procedural steps in the process are correct; however, the process includes manual steps whereby the final step of posting the refund amount was omitted. The financial aid office will institute a review process for student withdrawal refunds.

Anticipated Completion Date:

The anticipated completion date of the corrective action is March 1, 2010.

University of Mississippi Medical Center

Name(s) of Contact Person(s) Responsible for Corrective Action:
Stacey Mathews, Financial Aid Director
Sam E. Smith, Comptroller

Management Response and Corrective Action Planned:

The University of Mississippi Medical Center has noted that additional control procedures are needed to ensure that official and unofficial withdrawals are accounted for and the appropriate departments are notified. The University of Mississippi Medical Center has installed a new student services system that will ensure return of Title IV aid in a timely manner.

The corrective action plan implemented by the University of Mississippi Medical Center (UMMC) is as follows:

1. UMMC has implemented a new student services system. The new system will be used by school administrators and the registrar to input all data related to student enrollment status.
2. The registrar's office will forward a copy of all received notifications pertaining to student enrollment to the financial aid office. The registrar's office understands that all enrollment information directly affects financial aid eligibility.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 3 Findings and Questioned Costs Related to Federal Awards For the Year Ended June 30, 2009

3. The registrar's office will input all change of enrollment status into the system immediately upon receipt of school notification. The immediate change in the system will upload into the financial aid system the next morning. Therefore, the student's enrollment status will be in all systems within 24 hours.
4. The financial aid office has assigned an employee to review a change in enrollment report on a daily basis. The current day will be compared to the previous day and all removed students will be reviewed. This employee will be responsible for Return of Title IV aid calculations.
5. UMMC has requested that the consultants for the new student services system develop a report that will list all students in a status code that represents no longer enrolled such as leave of absence, dismissal, unofficial withdrawal, and official withdrawal. The report will run upon request and weekly.
6. The financial aid office will do a monthly reconciliation of all students that were listed on the previously mentioned reports, to ensure that all ineligible disbursements are reversed and Title IV funds are returned within the set federal guidelines.
7. The "no longer enrolled reconciliation" will be reviewed and approved each month by the Director of Student Financial Aid and the Assistant Comptroller.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

University of Southern Mississippi

Name(s) of Contact Person(s) Responsible for Corrective Action:

David Williamson, Director of Financial Aid
Barbara Madison, Bursar

Management Response and Corrective Action Planned:

The Corrective Action Plan for the findings cited for the University of Southern Mississippi is as follows:

- (A) The test of the fall and summer semesters return of Title IV funds did not disclose any non-compliance issues. Spring semester noncompliance was a result of the high volume of enrollment and previews for summer and the following fall. In the future, return of Title IV funds will be monitored more closely to ensure that deadlines are met. More staff will be trained to perform the return calculations and award adjustments. The Office of Financial Aid will coordinate the identification process with the grade entry. Once confirmation is received of the completion of grade entries, the unofficial withdrawal process will be run, communications will be sent to students, and the deadline date for returns will be established. After the 30 day time-frame for identification has elapsed, the 45 day deadline will begin. Weekly progress reports will be prepared to monitor the status of returns. Staff member duties will be re-assigned if needed to ensure the 45 day deadline of return of funds is met.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 3 Findings and Questioned Costs Related to Federal Awards For the Year Ended June 30, 2009

- (B) In addition, the Offices of Financial Aid and Business Services are in the process of making changes to the existing setup the Online Accessible Records (SOAR) system for the University of Southern Mississippi to include out of state and course/alternative learning fees and to exclude any housing damage charges from the return of funds calculation. Prior to the beginning of each academic year, these two offices will meet to ensure that no setup changes need to be made due to new charges and/or regulation changes. Further, additional staff will be trained to perform the return calculations and award adjustments. The Office of Financial Aid with the assistance of Business Services will review the fall 2009 semester and the spring 2010 semester for students affected by the change in setup to ensure compliance with the regulations.

Anticipated Completion Date:

- (A) The anticipated completion date of the corrective action was February 27, 2010.
(B) The anticipated completion date of the set-up changes for corrective action is March 15, 2010 with recalculations of current and prior term information by May 13, 2010.

Alcorn State University

FA09-ASU-01: Internal Controls over Financial Reporting

Name(s) of Contact Person(s) Responsible for Corrective Action:
Carolyn Hinton, Associate Vice President/Comptroller

Management Response and Corrective Action Planned:

The office of grants and contracts will implement procedures to document compliance with reporting requirements for all grants. All reports will be scheduled as required and prepared in a timely manner.

Anticipated Completion Date:
Currently implemented.

Jackson State University

FA09-JSU-01: Internal Control over Allowable Costs – Special Requirements – Cost Accounting Standards and Disclosures Statements

Name(s) of Contact Person(s) Responsible for Corrective Action:
Phillisa Conner, Director of Grants & Contract

Management Response and Corrective Action Planned:

Management is in the process of completing the requirements as outlined in the Cost Accounting Standard Board Disclosure Statement for Educational Institutions (CASB DS-2) to ensure compliance with the A-133 federal rules and regulations as it relates to institutions receiving more than \$ 25 million in federal awards.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 3 Findings and Questioned Costs Related to Federal Awards For the Year Ended June 30, 2009

Management will provide staff development on an as needed basis to review federal updates and reporting deadline requirements.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

FA09-JSU-02: Internal Control over Period of Availability

Name(s) of Contact Person(s) Responsible for Corrective Action:

Phillisa Connor, Director of Grants and Contracts

Elma Wade, Director of University Strategic Sourcing Services (USSS)

Management Response and Corrective Action Planned:

Management will implement a process to identify service/maintenance contracts that cover multiple fiscal years. The Office of Grants and Contracts and USSS will notify the Office of Financial Services of the contracts that cover multiple periods to ensure proper classification of the expenditure according to generally accepted accounting principles.

Anticipated Completion Date:

The anticipated completion date of the corrective action is June 30, 2010.

University of Mississippi

FA09-UM-01 Internal Control over Time and Effort Reporting

Name(s) of Contact Person(s) Responsible for Corrective Action:

Thomas Clancy, Director of National Center for Justice & the Rule of Law and Research
Professor of Law

Nina Jones, Director of Accounting

Management Response and Corrective Action Planned:

The University of Mississippi is implementing additional controls to ensure timely certification of effort. Written and/or oral communication will be initiated with the principal investigator and department responsible for each effort report that has not been certified. Failure to respond to the communications or provide certification of the effort report will result in the prohibition of further spending on the sponsored project.

Anticipated Completion Date:

The anticipated completion date of the corrective action is March 31, 2010.

State of Mississippi Institutions of Higher Learning

Auditee's Corrective Action Plan – Section 3 Findings and Questioned Costs Related to Federal Awards For the Year Ended June 30, 2009

FA09-UM-02 Internal Control over Reporting

Name(s) of Contact Person(s) Responsible for Corrective Action:

*Maurice R. Eftink, Provost and Vice Chancellor for Academic Affairs, Associate Provost, Dean of the Graduate School, Professor of Chemistry & Biochemistry and Director of Accreditation
Nina Jones, Director of Accounting*

Management Response and Corrective Action Planned:

The University of Mississippi has a field incorporated into the billing management program to designate due dates of required reports. These due dates will be reviewed on a regular basis to ensure accuracy. Priority will be given to reports with specific due dates populated in this field. The University of Mississippi will implement and oversee a review process to monitor the status of final report submissions. This review process will include communications with the principal investigator including the Department Chairs and Deans, if necessary, prior to the due dates of the final reports. Failure to complete final reports timely will affect the principal investigator's future participation on sponsored programs.

Anticipated Completion Date:

The anticipated completion date of the corrective action is March 31, 2010.
