Searching: [Academic Search Premier](#), [Show all](#) | [Choose Databases](#)[Search](#)[Search Options](#) ▶[Basic Search](#)[Advanced Search](#)[Search History](#)

Welcome to the EBSCOhost interface overview. In this tutorial, we will look at the EBSCOhost searching interface, as well as features including: the result list, article and image preview, and preferences options.

Searching: **Academic Search Premier**, Show all [Choose Databases](#)[Search](#)[Search Options](#) ▶[Basic Search](#)[Advanced Search](#)[Search History](#)

When logging into the EBSCOhost interface, you will first notice a clean Basic search screen. Also, you see the authority files (**Subjects, Publications, & Images**) at the top of the EBSCOhost screen. Click on these to search individual publications, subject terms, image collections, and more. If at any time during your session you wish to return to the basic search screen, simply click the **Basic Search** link below the **Find** field. You can add or change databases being searched by clicking the **Choose Databases** link above the **Find** field.

Projections of possible precipitation changes over the next 50 years have been subject to considerable uncertainty. This study uses the results of the 5th phase of the Coupled Model Intercomparison Project (CMIP5) to project precipitation changes over the next 50 years. The results show that precipitation is expected to decrease over the next 50 years in most regions, with the largest decreases expected in the tropics and subtropics. The results also show that precipitation is expected to increase over the next 50 years in some regions, with the largest increases expected in the mid-latitudes and high latitudes.

The response of the Indian Ocean dipole (IOD) mode to **global warming** is investigated based on simulations from phase 5 of the Coupled Model Intercomparison Project (CMIP5). In response to increases in greenhouse gas concentrations, the IOD mode is expected to become more active and to have a greater impact on the global climate system.
