# FOREWORD

The Mississippi Valley State University *FactBook* is an annual publication of the Office of Institutional Research and Effectiveness. Its primary purpose is to serve as a reference for those seeking statistical information about the University.

This particular edition of the *FactBook* contains data for the academic years 2003-2004 through 2012-2013. It includes a wealth of information about Mississippi Valley State University such as historical facts, various enrollment breakdowns, faculty and staff demographics, student characteristics, and campus resources. This edition continues to reflect the changing landscape of the university, especially the enrollment perspective and key organizational changes. The 2012 *FactBook* continues to include enrollment, however, this year it is in unduplicated format. It also provides useful details about the student body including residence, age, degree programs, and colleges.

For the most part, *FactBook* data is derived from IHL Management Information Systems (MIS) reports. These reports represent the work of many campus units. Therefore, we would like to take this opportunity to extend our gratitude to Academic Affairs, Business & Finance, Enrollment Management, Human Resources and especially Information Technology for their contributions.

Although the 2012 *FactBook* contains many new facts, we realize there are numerous opportunities for presenting data. Therefore, the Office of Institutional Research is working diligently to supply new and relevant data in future editions. In the meantime, we hope this edition will prove to be informative and useful. As always, we welcome your suggestions, comments, or recommendations for the improvement of the *FactBook*.

# INSTITUTION

## **OFFICE OF INSTITUTIONAL RESEARCH AND EFFECTIVENESS**

The MVSU Office of Institutional Research and Effectiveness (IRE) is an administrative support unit reporting directly to the Vice President for Research, Planning, Community and Economic Development. The staff consists of an Associate Vice President/Director, an Associate Director, a Researcher, and an Administrative Assistant and is responsible for collecting, analyzing, and disseminating data about the university. Our staff remains active through our membership in the Mississippi Association for Institutional Research and our membership in pertinent institutional committees.

The IRE office has a variety of responsibilities. Our primary task is to coordinate the submission of recurring IHL-MIS reports and federal IPEDS reports on behalf of the university. We also prepare a number of ad hoc reports for administrators and staff in order to inform and guide their management decisions. In addition, IRE provides information to a number of external entities including such agencies as the Southern Association of Colleges and Schools (SACS), the Thurgood Marshall Scholarship Fund and *U. S. News and World Report*.

Another very important role of IRE deals with institutional effectiveness. In an effort to gauge the effectiveness of our many programs and services, IRE conducts an annual assessment of each unit. This process is essential in that an on-going program of institutional effectiveness is a core requirement for regional accreditation through SACS.

## **MISSION STATEMENT**

### **VISION**

The vision of Mississippi Valley State University is to attain preeminence in the quality of its students' educational experience and its graduates. In addition, the University wishes to create the optimal living and learning environment that validates its conceptualization as the *Valley of Scholars*. The institution ultimately endeavors to produce ethical and capable students who are exceptionally prepared for graduate and professional schools and the world of work in a global society.

### **MISSION**

Mississippi Valley State University, located in Leflore County, is a Carnegie Master's I institution, which provides accessible, relevant and quality academic and public service programs. While the University has historically drawn the majority of its students from throughout the Delta, the institution recognizes the need to provide greater services to the south and east Delta areas. MVSU, which recognizes the need to be efficient, effective and productive in all of its operations, offers concentrated study in the arts, business, education, humanities, public services, pre-professional health services, social sciences, sciences, social work, and technology. Master's level programs are offered in criminal justice, elementary education, environmental health, special education, and teaching. The University also endeavors to provide additional programs that are vital and unique to the needs of the population it serves. MVSU emphasizes the study and applications of technology, basic and applied research, service learning, health and wellness, and economic development. The University expands its emphasis to incorporate an international focus on governmental, economic and cultural affairs. Out of this concept, the Delta Research and Cultural Institute provides the avenue for faculty and students to engage in theoretical and applied research on subject matter related to the cultural, social, economic and political concerns of the Delta.

### **OPERATING PRINCIPLES**

#### **The Foundation of Excellence**

Mississippi Valley State University remains committed to its original mission of preparing teachers for elementary and secondary schools and to preparing students to engage in other meaningful and productive careers. MVSU values and strives to gain multicultural diversity and to achieve curricular advances that place it in the forefront with high-quality and high demand technological and professional programs. The programmatic directions incorporated in the Ayers Agreement have produced master's level programs in special education, computer science, bioinformatics, leadership administration, and business administration. Ayers also bring a broadening of the undergraduate curriculum, including an expansion of the teacher education offerings.

## **Meeting Regional Educational Needs/Maintaining Historical Relationships**

MVSU recognizes the Delta area and bordering counties as its primary service areas; however, the University also realizes the need to attract students from geographically diverse areas, both nationally and internationally, including those areas with which it has constituent relationships through alumni and family heritages and collaborative ventures. MVSU sees the need to have strong partnerships with K-12 schools in the Delta and to provide a supportive environment for non-traditional students and those interested in lifelong learning opportunities. Educational offerings in learning centers off the main campus help the University provide community-based students greater access and more flexibility in program offerings and course schedules.

## **Community Service/Service Learning**

MVSU is an engaged institution that strives to develop responsible citizens who are sensitive to the needs of a pluralistic society. Community Service/Service Learning is an integral part of MVSU's mission and is carried out through community involvement by administrators, faculty, staff and students and by bringing community people to the campus for programs and services. The Community Service/Service Learning component of each student's educational program also complements the public service mission of the University.

## **Centers of Excellence**

As a means of bringing focus to the academic programs and services that project the direction of the institution, MVSU endeavors to establish centers of excellence that incorporate instructional research and service functions. These include: a center of excellence in teacher education, dedicated to the enhancement of the Delta region's teaching community through such programs as the Institute for Effective Teaching Practices and the Delta Superintendent's Partnership; a center of excellence in science and technology, which seeks to bridge the "digital divide" and improve diversity in science and technology education through programs such as its Saturday Academy and the Summer Science and Technology Academy and through cutting-edge programs like bioinformatics and Automatic Identification Technology; and a center of excellence in entrepreneurship and economic development, which promotes entrepreneurship, economic development activities and provides continuous information, technical assistance and training through partnerships with such entities as the Mid-Delta Empowerment Zone and the USDA Rural Development Service.

## **Health and Wellness**

In view of the prevalent health issues that are predominant in the University community and the Delta Region, MVSU incorporates health and wellness services into its mission. Although the University includes health and wellness content in its curricular offerings, it incorporates the concepts more intensely through community services and special projects. Through its focus on health and wellness, the University provides educational awareness, resources, screening and fitness facilities.

### **Research and Culture**

As the birthplace of the blues and as a place that has an abundance of creativity in the fine arts, the Mississippi Delta has unparalleled cultural and research opportunities. To date, these elements have been untapped. MVSU endeavors to promote cultural and social research, with an emphasis upon economics and the human condition.

### **A Global Perspective**

In view of the global dynamics that are impacting the University and the future of our students, MVSU sees the need to bring a global perspective to our curricular offerings and our total student experience. Therefore, curricular offerings and the student experience will incorporate international language development, faculty and student exchanges, study abroad programs and research abroad programs. These activities will better prepare our students and faculty for greater participation in an expanding global society.
