Release of Student Information

FERPA
(The Buckley Amendment-The Family Educational Rights and Privacy Act of 1974)

Provisions for reviewing and correcting student information as required under the Family Educational Rights and Privacy Act of 1974 (The Buckley Amendment) have been available to Mississippi Valley State University (MVSU) students and parents for many years. Essentially, students have the opportunity to see official copies of their personal and academic information which are collected and distributed by the Office of Student Records during each semester of enrollment. Further, the student has the opportunity to correct personal and other data and submit such changes to the Office of Student Records during the registration period.

Pursuant to requirements of the Family Educational Rights and Privacy Act, the following types of information are hereby designated as “directory information” and may be released via official media of MVSU according to the University policy: the student’s name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, part-time or full-time enrollment status, the most recent previous educational agency or institution attended by the student and other similar information. Students must inform the Office of Student Records, in writing, if they refuse to permit the University to release “directory information” about them without specific prior consent. Notification to the University of refusal to permit the release of “directory information” will result in the University’s refusing to release any of this information to anyone except as provided by law.

Such a decision may result in a student’s name not appearing in lists of honor students, candidates for graduation, athletic programs, news releases, and the like. Therefore, students are encouraged to give this matter careful consideration before making the decision. Once made, the decision will remain in effect until notification is received by the Office of Student Records, in writing, to the contrary.

If the student is a minor, the parents or legal guardians may exercise the same rights. If the student is 18 years of age or older, MVSU will not permit the parents or legal guardians to inspect the student’s record unless the student has stated, in writing, to the Director of Student Records that the records may be released or opened for inspection.

However, if the parents are supporting the student—that is, if the student is a dependent as defined by the Internal Revenue Code—then the University may choose to disclose the records to the parents. If parents insist on a review of the records and demonstrate that their student is dependent, the University will grant access to the records.

Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of federal law as they pertain
to access and disclosure of students’ education records. The name and address of the Office that administers this law are:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, S.W.  
Washington, DC 20202-4605

Questions or concerns about the privacy of students’ education records or these procedures may be brought to the attention of the Director of Student Records, temporarily located in the Administration Annex I Building.

**Repeated Course Policy**

Students may enroll in repeated courses for credit at Mississippi Valley State University. Repeated courses enable the student to achieve a higher cumulative grade point average (GPA). Students may repeat those courses taken for which grades of “D” or “F” were received. Repetition of a passed course, in an attempt to improve a grade, is permitted. The last grade will stand as the official grade, and the only last grade earned will be calculated in the cumulative grade point average. Repeated courses, however, adversely affect the student’s ability to meet the required progression standards by increasing total hours attempted.

If extenuating circumstances exist, the Vice President for Academic Affairs may grant, upon the recommendation of the appropriate dean, a student’s request to take no more than six (6) of the last 32 hours at another accredited institution.”

**Student Academic Grievance Procedures**
It is the policy of the University that a student may have prompt and informal resolution of his or her student grievances and that this is accomplished under orderly procedures.

**Dispute Grades**

A student’s grades should represent the instructor’s good faith judgment of the student’s performance in the course based on the informed use of appropriate measurement and evaluation instruments. If a student disagrees with a grade he/she has received, the following procedure should be followed until the problem is resolved. These steps must be followed in order and appropriate documentation of each step (including notation of the date, time, location, length, content, and final outcome of the discussion) must be provided in order to proceed to the next step.

1. The student should discuss the disputed grade with the instructor of the course no later than the end of the third full week of classes of the semester following the receipt of the final course grade. This should normally be done during the instructor’s posted office hours.

2. If the dispute is not resolved in step one, the student should request a meeting with the chairperson of the department offering the course. The instructor of the course will also attend the meeting.

3. If the dispute is not resolved in step two, the student should request a meeting with the dean of the school offering the course. The instructor of the course and the instructor’s chairperson will also be present.

4. If the dispute is not resolved in step three, the student should request a meeting with the Vice President for Academic Affairs. The instructor of the course; the instructor’s chairperson; and the dean of the school offering the course will also be present. The decision of the Vice President for Academic Affairs is final and no further appeal is possible.

**Other Academic Grievances**

A student may have a grievance against an instructor which goes beyond a dispute over grades received in a course. Such grievances might involve allegations that the instructor is harassing students, practicing extortion; not meeting his/her classes or is generally incompetent. For such non-grade oriented grievances, the following procedure should be followed until the problem is resolved. These steps must be followed in order and appropriate documentation of each step (including notation of the date, time, location, length, content, and final outcome of the discussion) must be provided in order to proceed to the next step.

1. The student should make the grievance known to his/her instructor.
2. If the grievance is not resolved in step one, the student should request a meeting with the chairperson of the department offering the course. The instructor will not present at this meeting, but a follow-up meeting will be scheduled with the instructor and the chairperson.

3. If the grievance is not resolved in step two, the student should request a meeting with the dean of the school offering the course. The instructor of the course and the instructor’s chairperson will also be present at this meeting.

4. If the grievance is not resolved in step three, the student should request a meeting with the Vice President for Academic Affairs. The dean of the school offering the course will also be present at this meeting. The Vice President for Academic Affairs will schedule a follow-up meeting with the instructor; the instructor’s chairperson; and the dean of the school offering the course.

5. If the grievance is not resolved in step four, the student should request a meeting with the President. The Vice President for Academic Affairs will also attend this meeting. The President will schedule a follow-up meeting with the instructor, the instructor’s chairperson, the instructor’s dean and the Vice President for Academic Affairs. The President also has the option of empowering a panel of professor to review the allegations made by the student, render a judgment and recommend an action for the President to implement. The decision of the President is final.

**The Student’s Academic Rights in the Classroom Setting**

1. Without fear of penalty, the student shall be free to take reasonable exception to data and views offered in the classroom.

2. The student’s course grade should represent the instructor’s good-faith judgment and his/her best use of measurement and evaluation skills in assessing the student’s performance in the course.

3. The student has a right to expect reasonable efforts to protect against improper disclosure of information concerning his or her grades, views, beliefs, political associations, health or character acquired by the instructor during his professional relationship with the student.

4. The student has the right to expect accurate and clearly stated information which will enable him/her to determine the following:

   a. The general requirements for establishing and maintaining an acceptable academic standing.

   b. His/her own academic relationship with the University and any special conditions which apply.
c. The requirements for the course as well as for graduation.

5. The student has the right to be governed by educational justifiable regulations.

6. The student has the right to a classroom environment free from distractions and annoyances.

Classroom Freedom and Responsibility

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. As members of the academic community, students should develop the capacity for critical judgment and engage in a sustained and independent search for truth. Free inquiry and free expression are indispensable to the attainment of these goals. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

Student evaluation in class should be based primarily on academic performance. Academic grievances are resolved in accordance with the University Code of Academic Integrity. Should a student and a faculty member be unable to resolve a problem relating to academic performance, the student should see the department head.

Students are free to take reasonable exception to the data or view offered in any course of study and to reserve judgment about matters of opinion. Students are, however, responsible for learning the course content required for successfully completing the course.

Cases of dishonesty in academic work are considered to be serious violations; therefore, students risk incurring the penalty of failure in the course.

The academic program of the University is the basis for all activities; therefore, each student is expected to attend all classes. Since class attendance is a requirement for successful completion of the course, this requirement becomes the responsibility of the student.

Policy on Disruptive Behavior

Academic excellence demands that appropriate behavior and decorum be maintained by students at all times in the classroom. Mississippi Valley State University will not tolerate disruptive behavior by students.

When the student is judged to have engaged in disruptive behavior the instructor shall initiate the following procedures:

1. Instructor will request the student to discontinue the disruptive action.
2. If the behavior continues, the instructor will instruct the student to leave the classroom. University Police will be called to remove the student if he or she does not leave.

3. An incident report will then be completed by the instructor and filed with the Assistant Vice President for Student Affairs and a copy sent to the Vice President for Academic Affairs and the Vice President for Student Affairs, Enrollment Management and Diversity.

4. Upon receipt of the incident report, including the student’s comments, the Assistant Vice President for Student Affairs shall investigate the matter and take appropriate disciplinary action.

5. The accused student must secure written permission from the Assistant Vice President for Student Affairs in order to return to class. The instructor will be informed of the disciplinary sanction imposed on the student and the student will be held responsible for all absences incurred between the time of suspension from class and his or her return.

Mississippi Valley State University

Involuntary Withdrawal Policy

SUMMARY

Mississippi Valley State University is committed to the well-being and safety of all its community members. Therefore, a student may be involuntarily withdrawn from the University if it is determined that the student presents a danger to himself or to others. Decisions for involuntary withdrawal will be made by the Vice President of Student Affairs. A decision for involuntary withdrawal will only be made after less drastic measures have been considered and rejected as inappropriate or insufficient under the circumstances. Prior to any involuntary withdrawal, a student will be encouraged to withdraw voluntarily.

The standard for involuntary withdrawal is based on clear and convincing evidence that the student represents a danger to himself or herself, or to others. Examples of such circumstances include, but are not limited to: students threatening other individuals with severe bodily harm, students making suicidal threats, students engaging in serious self-abuse (such as alcohol or substance abuse), students who are not able to care for their own basic needs to the extent that their lack of self-care represents a threat to the health of themselves or others, and/or students exhibiting extremely bizarre or destructive behavior. This policy may not be used to involuntarily withdraw a student simply because he or she exhibits eccentric or unusual behavior.

EMERGENCY WITHDRAWAL:
The Vice President of Student Affairs or his/her designee may immediately withdraw a student on an interim basis where the student’s condition or conduct poses an imminent or significant risk to the individual or to others. Prior to the emergency withdrawal the student must be notified in writing of the proposed interim action; given an opportunity to address the basis for the emergency withdrawal with the Vice President of Student Affairs or their designee and informed that a formal hearing on the involuntary withdrawal will occur as expeditiously as possible. Such emergency withdrawal or restricted access may remain in effect until a formal decision has been made or the reasons for imposing the interim action no longer exist. If a formal hearing is to occur, the student shall be afforded a formal hearing within 5 days of an emergency removal. While the hearing is pending, The Vice President of Student Affairs may, for safety reasons, prohibit the student from being on campus or limit other student privileges or access to University facilities or resources.

PROCEDURE

A student who is being considered for involuntary withdrawal shall be notified in writing by the Vice President of Student Affairs or his/her designee. If the student would like to request a hearing, he or she must request a hearing in writing within 48 hours of the initial notification. If a student requests a hearing, it will be conducted as soon as possible, but no later than seven calendar days after the request is made, unless both the student and the Vice President of Student Affairs agree that a further postponement is necessary. The student has a right to be accompanied by an advisor or advocate; to present information relevant to the student’s behavior, including the testimony or written reports by healthcare providers, whether affiliated or not with the University; and to review and comment on all documents, information and statements considered regarding the proposed decision. While the hearing is pending, the Vice President of Student Affairs may also, for safety reasons, prohibit the student from being on campus or limit other student privileges or access to University facilities or resources.

The hearing shall be conducted by the Campus Action Referral and Evaluation Team (C.A.R.E Team) which may include, but is not limited to, the Director of the Counseling Center, the Director of the Health Center, the Director of Disability/ADA Services, the Director of Residential Life, and the Director of Campus Police. The C.A.R.E Team will submit its recommendations to the Vice President of Student Affairs who will make the final decision.

RIGHT TO REVIEW

Within 5 business days from the delivery of the notification that the student is being involuntarily withdrawn, the student may request, in writing, a review of the decision. The student shall state the specific issues the student wishes the Vice President of Student Affairs or his/her designee to consider.

If a decision is made by Vice President of Student Affairs to involuntarily withdraw a student from the University, a list of offices to be notified of the decision will be prepared immediately. The list shall include the offices of the Provost, the Registrar, and Dean of the School or College in which the student is enrolled, Residential Life, Financial Aid and the University Police
Department. Furthermore, the Vice President of Student Affairs may notify any person or office, both on campus or off campus, of its decision if he/she determines such notification is necessary to protect the health and/or safety of either the student or third parties.

READMISSION

Students who are involuntarily withdrawn from the University will be allowed to petition the Vice President of Student Affairs for readmission during a subsequent term. Students who have been involuntarily withdrawn will be required to present a psychological evaluation or statement from a psychiatrist stating that they no longer pose a danger to themselves or to others.

FEES AND REFUNDS

The normal policies and procedures for the entry of grades or fee refunds for students who withdraw during an academic term, as described in the Student Handbook, and/or other University policies, will apply to students who are withdrawn pursuant to this policy.

Note: Any electronic devices (beepers, telephones, radios, etc.) may cause disruption and therefore should be turned off in the classroom. In such case where the device causes disruption, the individual in possession of the device will be held accountable.

The fire log needs to include the nature, date, time and general location of each fire. A school must make annual reports to the campus community on these fires (see Chapter 6, “Providing Consumer Information”), and must annually submit a copy of the fire safety statistics to the Department.

**Missing person’s procedures**

A school that provides on-campus housing must establish a missing student notification policy for students who reside in on-campus housing that—

• informs each student that they have the option to identify an individual that the school can contact no later than 24 hours after the time the student is determined missing according to the school’s official notification procedures described below;

• provides each student a way to register confidential contact information in the event the student is determined to be missing for more than 24 hours;

• advises each student under 18 years of age (who is not emancipated) that the school must notify a custodial parent or guardian no later than 24 hours after the time the student is determined to be missing according to the institution’s official notification procedures; and

• requires the school to initiate the emergency contact procedures that the student designates if campus security or law enforcement personnel have been notified and determine that the student has been missing for more than 24 hours and has not returned to campus.

Schools must also establish official notification procedures for a missing student who resides in on-campus housing that

• include procedures for official notification of appropriate individuals at the school that such student has been missing for more than 24 hours; and

• require that any official missing person report relating to such student be referred immediately to the school’s police or campus security department.

In instances where, upon investigation of the official report, the police or campus security department determines that the missing student has been missing for more than 24 hours, the department must contact the individual identified by the student as a contact. If the missing
student is under 18 years of age and not emancipated the school must immediately contact the
custodial parent or legal guardian of the student and, in cases where the preceding two
scenarios do not apply to a student determined to be a missing person, the school will inform the
appropriate law enforcement agency that the student is missing.

Other safety requirements

Schools must have policies that encourage complete timely reporting of all crimes to the campus
police and appropriate law enforcement agencies. A school must test emergency response and
evacuation procedures annually.

Voter registration

If a participating school is located in a state that has not enacted the motor vehicle/voter
registration provisions of the National Voter Registration Act, the school must make a good faith
effort to distribute voter registration forms to its students. (Schools in Puerto Rico are not subject
to this provision because Puerto Rico is not a state under the National Voter Registration Act.)
The school must make the voter registration forms widely available to its students. It must
individually distribute the forms to its degree or certificate seeking (FSA eligible) students.

Penalties for Drug Violations

A notice must be provided to every student upon enrollment in a separate, clear and conspicuous
written notice with information on the penalties associated with drug related offenses under
existing 484(r) of the Higher Education Act (HEA). Additionally, there must be a
policy/procedures/process to provide the office of financial aid with the student’s information
whose eligibility is affected.

Emergency Response and Preparedness

All institutions that receive Title IV funding must have Emergency response and evacuation
procedures that immediately notify the campus community upon the confirmation of a significant
emergency or dangerous situation involving an immediate threat to the health or safety of
students or staff occurring on campus, unless the notification at that time will comprise efforts to
contain the emergency. Institutions must also publicize their emergency response and
evacuation procedures on an annual basis to reach student and staff and must test

Mississippi Valley State University wishes to create the optimal living and learning environment that validates its conceptualization as the Valley of Scholars, expecting all students to behave in a manner consistent with its standards of conduct. The University reserves the right to determine if a student’s behavior on or off campus is detrimental to the Institution, which may constitute suspension or expulsion from Mississippi Valley State University. Students, visitors and guests are subject to University policies and regulations. It is expected that all students will abide by policies of the University, as well as by local, state, and federal law. Students who violate these laws and University policies are subject to disciplinary actions by the University, as well as civil or criminal court. Not being aware of the policies of Mississippi Valley State University does not excuse non-compliance. Failure to correctly interpret the rules and regulations does not excuse anyone from penalties in cases of violation.

Student Code of Conduct

Students who experience the privilege of attending Mississippi Valley State University become members of the academic community while retaining status as citizens. Students are entitled to the same fundamental rights, privileges and immunities that are guaranteed to every citizen of the United States. With these rights, privileges and immunities are responsibilities to obey federal, state, and local laws, as well as University rules and regulations.

The University has the responsibility to develop policies, procedures, and standards which will ensure protection of the rights of each member of the academic community. The following are included among the responsibilities of students:

• To be fully acquainted with the University Catalog, Student Handbook, and other published regulations relating to students, and to comply with these regulations in the interest of an orderly and productive community. Violations of these regulations and/or a demonstrated unwillingness to obey rules governing conduct may lead to sanctions or disciplinary action by the University.

• To assist the University Administration in protecting the rights of others through orderly disciplinary procedures. Students have the right and the responsibility to report code violations, or any violation of University policy.

• To secure and respect general conditions conducive to the freedom to learn.

• To respect and comply with all the laws and rights of good citizenship. Irresponsible actions which are reported to University officials or which become public knowledge may be cause for disciplinary action.

In accordance with these responsibilities, the University has the obligation to set standards of conduct which it considers essential to its educational mission and its community life. Due process with the University does not exclude prosecution by local, state, and federal agencies when appropriate.
The Student Code of Conduct at Mississippi Valley State University establishes the exemplary behavior expected of students both as individuals and as ambassadors of the University. The Code of Conduct applies to each student who is enrolled, whether as boarding or day students; whether on campus or off campus; or whether during sessions or between sessions. Students are expected to exhibit respect for order, personal honor, good citizenship, and the rights of others. Students who willfully violate the Student Code of Conduct will be held accountable for such actions and may receive disciplinary action in relation to violations.

Student Conduct System

The primary purpose of the student conduct system is to help govern the University community by regulating student conduct and by enforcing the University’s Student Code of Conduct consistent with the principles of due process applicable to the University’s policies, procedures, and standards.

Student Conduct Authority

Article IX, Section Four (4) of the Bylaws and Policies of the Board of Trustees of the State Institutions of Higher Learning charge the President of Mississippi Valley State University with the responsibility of maintaining “appropriate standards of conduct of students” and further authorizes him/her “to expel, dismiss, suspend, and place limitations in continued attendance and to levy penalties for disciplinary violations…” In accordance with this responsibility, disciplinary sanction shall be applied only after the requirements of due process, fairness, and reasonableness have been met. The aim of disciplinary action is the redirection of student behavior towards the achievement of academic and social goals. The President has appointed this function to the Vice President for Student Affairs, Enrollment Management and Diversity, who in turn has delegated it to the Coordinator of Student Conduct.

Student Conduct Composition

The Division for Student Affairs has the administrative responsibility for the University’s Student Conduct system. Disciplinary Committees are appointed by the President. The Student Code of Conduct system is comprised of several student and faculty disciplinary committees. No other office on campus will have the power to appoint members or assign duties to these committees. All recommendations from duly authorized groups on campus should be directed to the Coordinator of Student Conduct for appropriate action. At no time should any recommendations be directed to the Disciplinary Committees or the chairpersons of these committees. The University reserves the right to hold students responsible, through its Student Conduct process, for offenses committed either on or off campus when such offenses affect the general welfare of other students and/or the general welfare of the University community.

Depending on the severity of the offense, students accused of “zero tolerance” penalties are brought before the University Student Conduct Committee, immediately suspended or expelled from the institution. The Coordinator of Student Conduct will make that decision. This duly
authorized committee is composed of students, staff and faculty. In addition to the Student Conduct Committee, there are other committees including the Residential Hall Hearing Committee. These committees are not established to replace criminal courts but to ensure that students are held accountable for their actions as they relate to the MVSU standard of conduct and that they receive due process. These committees are listed and defined as follows:

1. *Student Conduct Committee.* This committee has original jurisdiction over all disciplinary matters involving the students as campus citizens, including the most severe disciplinary cases (i.e., those involving suspension and expulsion).

2. *Residence Hall Hearing Committee.* This committee conducts hearings dealing with offensive behavior occurring within and in the immediate vicinity of the residence halls. After the hearing has been conducted and the punishment has been issued, the Student Conduct Committee board will not conduct an appeal hearing unless new evidence is presented. Cases involving a possible suspension will not be heard by this board, but referred to the Student Conduct Committee.

3. *Appellate Hearing Committee.* This committee hears only appeals from the Student Conduct Committee. It has no original jurisdiction. The decision of this Committee is final, subject to review by the President if she/he chooses. Petition for Presidential review is made through the Vice President for Student Affairs, Enrollment Management and Diversity in writing within 24 hours of written notification of the Appellate Hearing Committee’s decision.

The Coordinator of Student Conduct will conduct a preliminary investigation to determine the validity of the charge(s) and the possible disposition of the case, as well as whether the case warrants a hearing by the Student Conduct Committee. In cases of emergency or extraordinary circumstances, the Vice President for Student Affairs, Enrollment Management and Diversity has the authority to administratively suspend or expel the student from the University pending a hearing to be held at a later date.

Vehicles are registered in the Business and Finance Office. Parking space is limited in the vicinity of the residence halls and classroom buildings. Failure on the part of the student to make satisfactory arrangements to settle an account with the University by scheduled due date(s) will result in assessment late penalties. Continued failure to settle the account will result in either the cancellation of the student’s enrollment or the placing of a “HOLD” on the student’s official records. He/she may not reenroll, receive a diploma, nor obtain a transcript until he/she has (1) cleared the account, and (2) paid any specified fees to cover the administrative expenses involved in placing a “HOLD” on the records.

**Personal Behavior**

Any student defaming any member of the University community, including faculty staff and students by using false and malicious statements will be subject to suspension, expulsion or other appropriate disciplinary action. The conduct of a student is an important indication of character and future usefulness in life. It is incumbent upon each student to maintain the highest standards of integrity, honesty, and morality. Students who do not observe University rules will be subject to such action as may be deemed reasonable by appropriate University and civil authorities.

**Respect for Property Rights**

No student shall find and keep and/or take any article, which does not belong to him/her, with the intent of depriving the rightful owner of its use or willfully conceal, mutilate, or destroy any property belonging to another person or association.

**Restricted Areas**

MVSU reserves the right to designate certain areas of the campus as “Restricted Areas.” Failure to adhere to policies regarding such could result in disciplinary action and/or removal from the area by University police.

**Robbery**

Robbery is the unlawful taking or attempted taking of property that is in the immediate possession of another by force or the threat of force. Such an action is liable to civil charges.

**Safety Procedure**

Failure to follow evacuation procedures or obstructing the evacuation of a building during a fire, fire drill or any other type of emergency is strictly prohibited.
Sexual Assault

The forcing of, or attempting to force, another person regardless of gender to participate in sexual intercourse and/or other sexual activities against his/her will is prohibited. Such misconduct includes verbal coercion threats and physical restraint and will not be tolerated. Disciplinary action for such acts (i.e., rape, sexual battery, sexual harassment etc.) could lead to separation from the University and civil action.

Smoking

MVSU is a “smoke free” campus. Smoking is only permitted in designated areas outside of university buildings. Students are not allowed to smoke in the residence halls, auditoriums, classrooms, lecture rooms, dining halls or gymnasium and any other areas where signs are posted. This regulation will be enforced by all appropriate means.

Soliciting and selling products and services by individuals or groups on University property is prohibited unless written permission has been granted by Office of Advancement. Students may not solicit on behalf of the University without permission.

Stalking

Stalking is an action by any person who willfully, maliciously and repeatedly follows or harasses another person, or who makes a credible threat with the intent to place that person in reasonable fear of death or great bodily harm. Disciplinary action for such acts could lead to suspension or expulsion.

Tampering with Safety Equipment

Locks, fire alarms, and other types of equipment or devices are provided to ensure the safety of the University community. This equipment must be in working order to achieve its purpose, students should not tamper with safety equipment or devices, including destroying, defacing, or altering it in such a way that it becomes inoperable.

Trespassing

Each facility on the MVSU campus has unique operating hours, which serves to ensure that University property and members of the academic community are protected. Students are to respect the operating hours of each facility, and should not enter campus facilities without authorization or during unauthorized times. Any students or student organizations authorized to use a building of the University or area of the campus must have in their possession, while occupying the building or area, an approved Facility Reservation Form from the Director of Student Union/Student Activities. The approved Facility Reservation Form must be presented to
University Police or administrative officials upon request and the users shall ensure that the building is secure when they leave.

Complaints

All complaints and/or alleged violations of University disciplinary rules or regulations should be referred initially to the Office for Student Affairs, Enrollment Management & Diversity. The Coordinator of Student Conduct has the option to hear the case or refer the case to another disciplinary body. It is the responsibility of the Coordinator of Student Conduct to initiate, implement, and supervise the disciplinary process for students. The Coordinator of Student Conduct assigns cases to be heard by the Student Conduct Committee based on the type of infraction, location of the infraction, the professional assessment of the behavior, current disciplinary status, and case load of the judicial committees. The Student Conduct Committee will hear all “zero tolerance” offenses that take place on or off campus. When alleged violations or charge(s) has been filed with the Coordinator of Student Conduct, the following procedural guideline shall be followed:

1. The student shall be notified by the Coordinator of Student Conduct that he/she is accused of violating a regulation, rule or policy, and who is bringing the charge(s).

2. The student shall be notified that she/he may elect one of four course of action:

   • The student may admit the alleged violation and request in writing that the appropriate administrative office take whatever action she/he deems appropriate. Should the student elect to have the appropriate administrator handle the matter, she/he shall be notified that the decision of the administrator may be appealed to the Appellate Hearing Committee.

   • The student may admit the alleged violation and request a hearing for the penalty before the disciplinary board having jurisdiction over his/her case. The appropriate disciplinary board shall be notified by the Coordinator of Student Conduct.

   • The student may deny the alleged violation, in which case the Coordinator of Student Conduct shall refer the case to the appropriate disciplinary board.

3. Within forty-eight (48) hours (weekend excluded) after receipt of the letter from the Coordinator of Student Conduct, the student shall notify the Coordinator of Student Conduct of her/his decision.

4. Within seventy-two (72) hours after receipt of the student’s decision, the date, time and place will be set for the hearing.

5. At least forty-eight (48) hours prior to the hearing by the appropriate disciplinary board or administrator, the student shall be entitled to the following:

   • Written notification of the time, place and date of hearing.

   • A written statement of the charges to enable the student to prepare his/her defense.
• The student shall be entitled to appear in person and present his/her defense to the appropriate disciplinary board or administrator and may call witnesses in his/her behalf.

• The student shall be entitled to decline to answer questions.

• The student shall be entitled to be accompanied by a representative of his/her choice. The representative can be a member of the faculty, staff, student body or administration of the University. However, the student must speak for him/herself.

• If the student engages a private attorney, the attorney will not be able to participate in the disciplinary hearing under any circumstances. The student may use whatever advice that may have been provided by an attorney.

• If found guilty, the student shall be notified of his/her rights to appeal the decision of the Student Conduct Committee or Administrator within a period of forty-eight (48) hours. Should the accused appeal, any action assessed by the Student Conduct Committee remains as is until acted upon by the higher disciplinary body. Since appeals must follow certain guidelines, the appeal will be in accordance with the Appeal Procedure.

• If a student fails to attend his/her scheduled hearing, the hearing will be held in absentia. A student may request a waiver of a hearing before the Student Conduct Committee and if granted, be given an administrative hearing by the Coordinator of Student Conduct. (Disciplinary action shall be taken only after a hearing is held). A student may appeal a decision reached by the Student Conduct Committee and the Coordinator of Student Conduct to the Appellate Committee. Decisions of the Appellate Committee are final, subject to Presidential review, if the President so chooses. Petitions for Presidential review must be made in writing through the Office of the Vice President for Student Affairs, Enrollment Management & Diversity within 24 hours of the decision made by the Appellate Committee.

It is the duty of the Student Conduct Committee to conduct a fair and impartial hearing of each case. Not being aware of rules and regulations of the University cannot be used as an excuse for the violation. The committees will take into account the data and testimony related to whether the defendant did or did not commit the alleged misconduct and distinguish this from why an alleged act was or was not performed. While the committees might hear, as an act of courtesy to both sides, a description of events and activities leading up to the alleged misconduct, the major concern would be those occurrences directly associated with the charges as described in the letter to the student from the Coordinator of Student Conduct.
Disciplinary Hearing Procedures

Disciplinary hearings at Mississippi Valley State University are hearings to arrive at decisions regarding student behavior. These decisions affect the student and his/her relationship with the University. Rules and procedures for conducting disciplinary hearings are as follows:

A. Disciplinary hearings are of a private, confidential nature. They are closed to the public, unless opened by agreement of both the charged party and the hearing Chair.

B. The hearing is presided over by the Chair of the hearing body or his/her designee.

C. The format of a hearing of original jurisdiction will follow this sequence:

1. The chairperson of the Student Conduct Committee is in charge of the floor at all times until it is specifically granted by him/her to another person. Violators will be ruled out of order.

2. Present at the hearing normally will be the following: The Accused; the Accuser, witnesses (outside the room), representative for the Accused, the Chairperson, and disciplinary members, when applicable. In the event the hearing is closed, no other persons shall attend unless authorized by the Coordinator of Student Conduct.

3. The hearing begins when all are seated and ready to commence. The Chairperson will call the meeting to order and declare the sessions ready to begin. Since a written summary of every hearing must be prepared, a tape recorder should be available.

4. The Chairperson will ask the Accused if he/she is ready. If the Accused wishes to challenge a member of the Student Conduct Committee, it may be done at this time.

5. The Chairperson will stress the confidential nature of the proceedings and remind those present that they are obliged to speak the truth whenever they are speaking during the hearing.

6. The Chairperson will call the hearing to order once again and the charge(s) which have been provided.

7. The Chairperson will ask for the plea of the accused.

• If the Accused pleads “responsible”, the Student Conduct Committee will dismiss all from the room in order to deliberate upon the appropriate penalty.

• After deciding the appropriate penalty, the audience will be recalled into the room. The Chairperson will call the hearing to order and read the results to the Accused.

8. If the Accused pleads “not responsible”, the following will be the procedures:
• The Chairperson will present the opening remarks, state the nature of the accusation(s), and in a brief statement will outline the major elements of the case. Witnesses for the Accuser will be called in to testify one at a time. After each witness has testified, the Accused may then cross-examine, if he/she wishes to do so. The members of the Student Conduct Committee may question each witness if any member has a question. After the witnesses for the Accuser have all been called, the case of the Accuser is closed.

• The Accused now follows the same procedures as above: opening remarks, calling of witnesses, direct examination, cross-examination by the Accuser, and questions from the disciplinary board members, if any. After all witnesses have been called, the case for the Accused is closed.

• The Accuser will present closing remarks (summarizing the prior testimonies and how they may relate to the case).

• The Accused presents closing remarks in a like manner.

• The Student Conduct Committee will dismiss all from the room in order to deliberate. The verdict and penalty, if applicable, will be read by the Chairperson. In order to decide that a student is guilty, at least a majority of the votes must support the charge(s). Each disciplinary board member has one vote.

• Any Accused judged “not responsible” shall be acquitted. All records of the hearing will be maintained until a final report has been filed with the Coordinator of Student Conduct.

• If the Accused is found responsible, the records of the hearing and all evidence presented at the hearing will be maintained by the Coordinator of Student Conduct.

• The failure of the Student Conduct Committee to follow the precise procedures outlined above does not necessarily negate its deliberations and findings.

9. The Chair will grant recesses whenever he/she feels that they are in the best interest of the proceedings. Therefore, motions, suggestions or request for recesses or adjournment are not in order.

10. The hearing will generally be conducted on a charge basis. Thus, the Chair might interrupt testimony at any time he/she deems that such testimony is either irrelevant or superfluous to the specific charge under consideration at the moment. As much as practical and possible, testimony for or against the student will be charge by charge.

11. The proceeding will not tolerate profanity (except as a necessary part of the testimony), violent display of temper, or abusive and intimidating conduct which interferes with orderly proceedings. Any disruption of a disciplinary hearing at Mississippi Valley State University may result in the immediate suspension of the student or students involved in the disruption. A determination of disruption will be made by the chairperson of the committee.
The proceedings will continue, at the discretion of the Chair, until all testimony has been given by both sides and the case is ready to be submitted to the Student Conduct Committee for deliberation. While every effort will be made to give both sides the opportunity to completely explore all avenues, the Chair reserves the right to keep the number of witnesses, the length of their testimony, and the duration of questioning within reasonable limits. All hearings should be recorded in a manner suitable for transcription. If a student fails to attend his/her scheduled hearing, the hearing will be held in absentia.

**Appeals Process**

The student or registered organization being disciplined may appeal a decision reached by a disciplinary council, board, or administrative hearing. A written request for an appeal must be submitted by the student to the Coordinator of Student Conduct within forty-eight (48) hours (does not include weekends) after the lower board has made its determination. Letters of appeal shall contain a statement of sufficiency in order to allow the chairperson and the members of the next highest disciplinary board to make a reasonable judgment on whether to grant the appeal. If an appeal is denied, appropriate written response will be made to the person who requested the appeal and a copy will be forwarded to the Vice President for Student Affairs, Enrollment Management and Diversity.

**Grounds for an Appeal**

A decision by a MVSU Student Conduct Committee or Administrator may be appealed upon one or more of the following grounds:

1. Prejudicial error committed during the hearing whereby a fair hearing was not given due to a substantial violation of the hearing procedure. If the appeal is based on prejudicial error, the specific prejudicial error needs to be cited, reason(s) why the prejudicial error was not mentioned during the original hearing, and reason(s) as to how correction of prejudicial error can contribute to a decision other than the one originally made.

2. Non-cumulative material and relevant evidence, new or newly discovered. If the appeal is based on new evidence, a description of the new evidence and the name(s) of individual(s) who can provide this evidence, the reason why the evidence was not presented at the original hearing and explain how the new evidence may contribute to a decision other than that which was made originally.

3. The decision or judgment is not supported nor justified by the evidence. If the appeal is based on this, the request must include specific information indicating why the sanction is deemed unreasonable.

**Granting or Denial of Appeals**

The Appellate Committee has the right to deny an appeal if the board decides that an appeal is not warranted based on the merit of the appeal petition. The decision whether or not to hear the
appeal will be made within forty-eight hours of receiving the appeal letter. An appeal does not guarantee a hearing with the Appellate Committee.

**Action on an Appeal**

Once an appeal letter has been accepted for review, the higher disciplinary board will review the case and evidence. Once reviewed, the judicial board may do one of three things:

1. Accept the appeal and render a decision.
2. Accept the appeal for hearing.
3. Deny the appeal.

If a hearing is needed, the disciplinary board will set a time, place, and date to hear the case and basis for appeal. Once heard, the higher disciplinary board may do one of three things:

1. Sustain the findings and penalty.
2. Sustain the findings and alter the penalty downward.
3. Reverse the findings.

**Penalties for Violations of University Regulations**

If a student who goes before the Student Conduct Committee is found to be responsible for the charges, a penalty is given to that student. The following is a list of penalties for violating university regulations:

**Administrative Expulsion/Suspension**

Depending on the severity of the offense, the Vice President for Student Affairs, Enrollment Management and Diversity has the right to immediately suspend or expel any student who violates University policies.

**Expulsion**

Expulsion is the most severe sanction which can be imposed upon a student for violation of disciplinary procedures. Expulsion is permanent dismissal from the University, and the student is subject to the conditions and restrictions cited under disciplinary suspension, except that the student is not eligible to reapply for readmission to the University. Expulsions are recorded on the students’ permanent record. Student(s) expelled from the University are required to return their student identification card and room keys. Expelled students may not return to the campus without written permission, he/she will be charged with trespassing, in which case, he/she will be subject to arrest and prosecuted to the fullest extent of the law.
Suspension

Suspension prohibits a student from attending MVSU, including University activities, for a specified or indefinite time period. A student disciplinarily suspended from Mississippi Valley State University forfeits all rights and privileges afforded a student at this institution. This means that a disciplinarily suspended student is restricted from involvement in any academic or extracurricular activity at Mississippi Valley State University.

A disciplinary suspended student may not:

a. Earn academic credit at Mississippi Valley State University, or any other college/university credit to be transferred to Mississippi Valley State University, during the term of suspension. A suspended student will be dropped immediately from current rolls, including correspondence courses, and may not audit classes;

b. Be involved or participate in campus organizations;

c. Live in a residence hall;

d. Participate in intramural sports or be involved in any intramural activity;

e. Use university recreational facilities;

f. Participate in intercollegiate athletics, including team practices, workouts, meetings, or public appearances;

g. Be employed by the University;

h. Visit the campus unless written permission is received from the Vice President for Student Affairs, Enrollment Management and Diversity. If the student returns to the campus without permission during this period of suspension, his/her eligibility to return to MVSU will be threatened. Such persons may also be charged with trespassing, in which case, they will be subject to arrest.

A disciplinarily suspended student may receive academic credit for special problems or correspondence courses completed during the semester of suspension, if completed prior to the date of suspension.

Disciplinary Probation

Students placed on disciplinary probation are expected to demonstrate a positive change in their behavior. During the probation, the student shall be denied participation in intramural, intercollegiate and club sports. Such students may not represent the University in any public function or performance, hold office in a student organization, or be eligible to join a fraternity
or sorority during their probation status. Further misconduct is subject to suspension from the University.

Disciplinary Warning

Disciplinary warning, also known simply as “warning”, is defined as an official, written notification to the student that his or her behavior has been unacceptable and inappropriate as a MVSU student. Further misconduct will result in referral to the Student Conduct Committee.

Eviction

University student housing is being denied for a specified time period.

Restitution

Any student causing damage to or misappropriation of the property of another will provide reimbursement for damages or misappropriation of that property.

Disciplinary Penalty/Community Service

A disciplinary penalty which requires a student to perform services/tasks without pay within a specified period of time for violating the Student Code of Conduct.

Disciplinary Hold

A hold may be placed on a student’s account for failure to comply with the terms and conditions of any assigned sanction, to discuss or failure to respond to a request to meet with the Coordinator of Student Code regarding allegations of misconduct.

Administration of Disciplinary Records and Disciplinary Information

A transcript contains only academic information and disciplinary action which denies the privilege of the student to continue in or return to the University. The notation of suspension or expulsion is removed from the official transcript by the Vice President for Student Affairs, Enrollment Management and Diversity when the term of the sanction has expired or when the student has been readmitted. Academic and disciplinary records are kept separate to minimize the risk of improper disclosure. The disciplinary record shall be treated in a confidential manner. The contents of the student’s disciplinary record may be made available for use within the University only on the written request of the student or on direction of the Vice President for Student Affairs, Enrollment Management and Diversity. Records will be given to persons outside of the University only on written request of the student or in response to a court order. The University shall maintain for every student, who has been suspended or expelled, a permanent written disciplinary record of the charge, the sanction assessed, and any other pertinent information. However, for every student who has received a disciplinary sanction less than
suspension or expulsion, the University shall discard the disciplinary record after eight years from the last date of attendance or when the student graduates.

**Zero Tolerance Policy**

Mississippi Valley State University’s “zero tolerance policy” requires a severe penalty to be imposed which is unbending in its imposition, and often does not give allowance for extenuating circumstances. It is intolerant of the behavior for which it requires consequences, no matter what. As part of a “zero tolerance policy”, MVSU will take disciplinary action for any and every alcohol, drug, weapon, sexual misconduct or hazing related violation on campus. MVSU will also take disciplinary action for many of the violations reported off campus, provided these violations have a connection to the campus. This would include violations that endanger students or may cause harm to the campus community.
