PLEASE NOTE: The textbook(s) for this course are available on Reserve at the Circulation Desk at the James H. White Library for a 2-hour loan period (books must stay in the Library). Catalog Course Description: A comprehensive survey of all facets of the juvenile justice systems and practices. The course starts with the origins of the juvenile justice system. It examines theories of delinquency, and reviews juvenile courts, prosecutions, juvenile rights, and corrections; and comparative juvenile justice systems and the future of the juvenile justice systems.

Criminal Justice Undergraduate Program Learning Outcomes (PLOs):

Upon completion of the undergraduate program in criminal justice, the student should demonstrate understanding of the:

1. Crime issues, trends, and basic legal principles in America;
2. The social, economic and political forces that influence the definition and response to crime in America; and
3. The history, development and operations of the criminal justice system.

Student Learning Outcomes (SLOs):

Upon completion of this course, students will be able to:

1. Describe the historical origins of the juvenile justice system:
2. Define terms specific to juvenile justice (e.g., status offense, delinquency, *parens patriae*, Houses of Refuge, child savers)
3. Recognize theoretical perspectives relative to the juvenile justice system (viz., individual theories of delinquency (choice and trait perspectives); sociological theories (cultural deviance, strain, social control, labeling and conflict explanations); developmental and female delinquency theories)
4. Identify the social context of delinquency (specifically comparing various environmental influences--social institutions—family, school, peer group, law enforcement, probation, and aftercare, relatively how they function proactively or reactively to delinquency); and
5. Describe the different stages in the juvenile justice process; and
6. Understand the etiology of delinquency and the policy implications that emerge from this knowledge

Class Attendance Policy:

This Class Requires Regular Attendance. Attendance will be taken each lecture. Absences, tardiness and leaving the classroom before class is dismissed are hereby discouraged, since both can have a negative effect on your grades. In signing up the honor system will be used. Students will legibly sign their names on the roll sheet. You are not allowed to sign up a friend, even when asked by that friend. In cases where the honor system is not observed, the situation will be brought up to the Program Coordinator, and if necessary, to the attention of Judicial Services (in writing). This letter will be kept in the files of all students involved until they graduate (Note: employers do check school records!)

Course Drops/Incompletes:

Students not completing the course for any reason are required to submit official drop notices to the Registrar's Office prior to the deadline date. This is **your** responsibility. Failure to comply with the procedure WILL result in you receiving a letter grade of “F” or “UF.”

Also, if for any reason you decide to withdraw from the university at any time, please withdraw properly. Not officially withdrawing from the university may impact your financial aid and result in you owing the university.

Academic Integrity: Cheating and Plagiarism Policy: Academic dishonesty is a very serious problem in academe. Academic dishonesty includes cheating and plagiarism, among other things. Plagiarism (the act of incorporating material from another author without citing the source) is the most serious intellectual fraud and must be avoided. Any act of plagiarism will result in an automatic F grade in the course. Furthermore, unauthorized assistance, or exchange, or interaction between or among students during an exam will be considered cheating. (See Student Handbook)

To address the situation of plagiarism, the University has implemented *Turnitin* to fight plagiarism and improve reading, writing, and research skills. Turnitin is a comprehensive

plagiarism prevention system that lets faculty quickly and effectively check all students' work. Results are based on exhaustive searches of billions of pages from both current and archived instances on the internet. Plagiarism will result in at least a failing grade for the course.

Submission of Work:

The first week begins the first day of the term. Scheduled assignments **MUST** be completed and successfully submitted when requested by instructor by the due dates and times. **NO** opportunities will be available for making up class activities or assignments if students do not have a bona fide excuse.

All course-writing assignments must be submitted in APA format (6th edition).

Make-up Policy: Make-up will be based on unforeseen circumstances or emergency situations (e.g., serious illness, accidents, jury duty, or death in the immediate family) that make it impossible for the student to complete the course requirements on schedule. In that case, the student must request the make-up of a course grading item(s) and obtain the approval of the instructor before the make-up. Also, students attending officially authorized functions must discuss make-up with the instructor and obtain the instructor's approval before the make-up. Otherwise, there is **NO** opportunity for make-up or **"I" grade** in this course.

Course Evaluation Methods/Teaching/Learning Strategies

A variety of instructional techniques will be utilized in this course. The class will be taught under the philosophy of active learning and student participation utilizing a team-based learning approach. This approach will provide students with opportunities to regularly practice skills that are essential to criminal justice practitioners. Students will be assigned to teams early in the semester and will work with those teams throughout the course. Course requirements are specifically designed to ensure that students are prepared for team work and that the team experience avoids typical problems of "group work" (e.g., free riders, dominant members, splitting up the work to avoid interaction, etc.). The responsibility for learning basic material is placed on students with work done outside of the class, while time in class is spent using that material in creative and sophisticated ways as both individuals and teams. All team work is done during class time. Course grades will be based on work from both individuals and teams. The following is a list of activities that will be done in your teams:

- a. You will take RATs first as an individual, then with your team, to ensure that you understand the most important information that will be applied to the Team-Based Learning Activity. These RATs will take place at the beginning of each unit.
- b. You will solve specific problems, or Team-Based Learning Activities. You will be asked to generate your own solutions, and work with your team members to come to a consensus about the solution, which you will report and defend as a team. These will be the basis for class discussions.

c. You will evaluate your team members in terms of preparation, flexibility, contributions and respect for the group (i.e., on-time and regular attendance). Peer evaluations are an integral part of TBL as they help to assure accountability among team members.

d. Class attendance will be taken at every session, so it is highly recommended that you attend class regularly. Failure to attend class will result in lost participation points and reduced course engagement. Please arrive early or on time, as we will start promptly at 9:25 AM. On the days that you have a RAT, the RAT will be given at the beginning of the class period and arriving late will earn you 0 points on the Individual RAT (i-RAT), though you will earn Team RAT (t-RAT) points. You may not make up that day's i-RAT.

e. If for some reason you must miss class, please notify the instructor to be able to make up missed work. It is not possible to make up Team Activities.

f. As a Team member, please be prepared to ask and respond to questions and participate in class discussion. Students must remember that informed and interested participation will greatly impact their final grade. The goal of this approach is to develop a safe learning environment that addresses a variety of learning styles, promotes critical thinking, and fosters creativity. Thus, I cannot emphasize enough the need to have the book early in the course.

Assignments:

Each student is required to turn in/participate in the following assignments described below. The purpose of these assignments is simply to ensure that the students have read and understood the lecture material and the content of each chapter. No late assignment will be accepted, which means the student can get a zero for not submitting their assignment on time. Similarly, the instructor will not accept any assignment ahead of time, except in anticipation of a major bed ridden illness or some other reason. In any case, please let the instructor know ahead of time. Not turning in an assignment can be a costly decision as these assignments comprise 70% of your overall grade. This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes of the course

CLASS FORMAT

This class will be taught using Team-Based Learning, which consists of **Reading Assurance Tests (RATs)**, facilitated discussions, team activities, and some mini-lectures.

Course Evaluation Methods

This course will utilize the following instruments to determine students' grades:

1. Examinations: 30%

There will be a minimum of two (2) examinations, each worth 100 points. Each exam will have

approximately 75 – 100 questions (e.g., multiple choice, true/false). Each exam will encompass only the materials analyzed during that portion of the course. If a student finds it unavoidable to be absent from an examination, makeup exams are to be scheduled with the instructor and will only be given to students with excused absences (i.e., death of someone close, hospitalization of oneself or one's child, or a spouse, etc.) Expect such tests to be more challenging than regularly scheduled exams.

These cases will be handled on an individual basis. Students can only miss ONE test due to an emergency. In such an event, the new test administered will be ALL essay/discussion questions.

2. Reading Assurance Tests - RATs: - 20%

These in-class quizzes (minimum 7) assess students' comprehension of assigned readings to ensure that they are adequately prepared to apply the knowledge from those readings to class activities. RATs are closed-book tests that are administered twice in the same day. First students take the test individually (i-RATs). Each i-RAT is worth 30 points. Once they turn in their individual responses, then students take the test again as a team (t-RATs). Team members discuss each question to obtain consensus about the answer. Each t-RAT is worth 40 points. The lowest i-RAT and t-RAT score for everyone will be dropped at the end of the semester to allow for absences. Make-ups for RATs will only be allowed for exceptional circumstances upon prior approval by the professor.

Class participation is key!!! The instructor is interested in creating a dialogue – in which the students actively participate – as they examine key topics and issues in criminal justice.

PLEASE NOTE: THE TOP TEAM MEMBERS WILL BE AWARDED AT THE END OF THE SEMESTER!!!!

3. Weekly Discussion – Team Based Activity– 20%

In the second week of class, as a group you will sign up for your class participation activities. Your activities and date for your presentations will be determined by your professor. Here are five important considerations as you complete your activities.

1. I expect this to be a group effort – it is your responsibility to find your group members (Your Team) and to collaborate on the assignment. You should coordinate your presentation prior to class.
2. You will be graded on the quality of your presentation – that is, how well you have addressed your assigned issue. You do not get points for mere completion of the assignment – I expect to see that you have put some time and thought into it.
3. It will take some time for you to prepare for these activities. Start early – don't wait until the last minute, or you may not be able to locate information or otherwise prepare for your assignment!
4. As a group, (TEAM) you must turn in the following materials (typed, of course): (a) a copy of your presentation (b) a bibliography listing the sources you used; and (c) any

- supporting material (such as charts, etc.) – if relevant to your presentation.
5. Your presentation should be twenty to twenty-five minutes in length – neither substantially shorter nor substantially longer.

The purpose of these activities is twofold: (1) for students to gain knowledge about a topic of interest to them based on the course, and (2) to familiarize them with resources available for criminal justice research. Each discussion should be a minimum of one full page. Responses should demonstrate that the student have seriously thought about the question or issue. Filling a page with nonsense or evading the question will not result in the student receiving credit for that entry.

Please note that assignments should be double spaced, 12-point font, and Times New Roman type. The paper will include a minimum of one reference taken from scholarly journals located in the MVSU Library and no more than two references from the internet. The format and style of the paper will follow the American Psychological Association (APA) Manual. The instructor will grade the paper on content, organization, and English usage.

Please note that plagiarism (the act of incorporating material that comes from another author without citing the source) is the most serious intellectual fraud and must be avoided. Any act of plagiarism will result in at least a failing grade for the assignment(s) and/or course.

4. Analytical Term Paper = 30% (due on or before April 22, 2019) - Individual Submission

For your analytical term paper please choose an issue concerning juvenile delinquency in the United States. In writing this paper it helps if you choose a topic that touches you personally – that is one that you can relate to/with for one reason or the other. You may find it more motivating also to choose a topic that addresses a problem that is relevant to your current or future career interest, your community needs or issues currently in the criminal/juvenile justice system. You must define and describe the issue in detail and comment on your perspective on the issue and how the issue (problem) can be solved.

The term paper should be at least 5 pages long, and should include the following sections: Introduction, Literature Review, Methodology, Discussion, Conclusion and Bibliography. Your paper must be typewritten, using 2.0 line spacing, and must be properly referenced using the APA referencing style. Ensure that your work conforms to proper use of grammar, spelling and sentence structure. Your paper should read like a very well written journal article.

I encourage you to discuss your paper with each other. You must, however, submit a work that is truly yours. In other words, while two or more people can write on the same topic, the paper you submit must reflect individual enterprise, that is, you are not allowed to collaborate on the actual writing of the assignment.

The following are suggested outlines for your term paper:

- a. Introduction (Problem statement. What? Why? How?)
- b. Literature Review (Review of extant literature on the subject, Why? How? Find a Hole; Look for Debates).
- c. Research Design (Methods applied to obtain materials for your paper, How? Library search? Research Procedures, kind of data.)
- d. Research Findings –evidence of importance
- e. Discussion of Research Findings (analysis of issue/problem)
- f. Conclusions - Implications of Study/Research Findings for policy/solving of real-life problem; Importance; Contributions
- g. References

The following are good sources for data for your term paper: (The University Library will be your best place to start your inquiry. Do not also forget that I remain your other source for guidance, and I am available to assist you when you call on me. To complete a good research paper, you must give yourself time. Start now to put your materials and thoughts together. It is not possible to write a good research paper within 24 hours).

- a. Refereed Academic/ Professional Journals
- b. Books published by Academic Presses
- c. Magazines or Newspapers that are highly regarded
- d. The Mainstream Popular Press
- e. Internet sources (etc.).

Note: All papers (including projects) must be typed, double-spaced and in APA format, 6th edition. Please submit your paper via e-mail to your professor.
