Technology skills:	Basic computer skills, working within Windows system environment, navigating the internet, and familiarity with E-mail, Excel, PowerPoint and Word Processing programs
Catalog Course Description	An in-depth analysis of the American Criminal Justice System, including the examination of critical and contemporary issues in law enforcement, courts and corrections.
Mission of the Criminal Justice Program:	The Master of Science in Criminal Justice provides students with advanced knowledge, skills, and professional abilities relevant to the criminal justice field. Students will explore the theoretical, operational, and legal components of law enforcement, courts, and corrections. Graduates are prepared

	for careers in the public or private sectors of the criminal justice system, including the pursuit of post graduate studies in the field.
Student Learning Outcomes [SLOs]	<p>Upon completion of this course, the student should be able to:</p> <ol style="list-style-type: none"> 1. Have an in-depth knowledge of the functions of the American criminal justice system; 2. Understand the nature of crime and justice system's response to crime in America; 3. Understand victimization and criminal behavior; 4. Understand criminal justice and the rule of law; and 5. Analyze how a public policy change influences organizational policies and strategies of justice agencies.
Program Learning Outcomes [PLOs]	<p>Upon completion of the graduate program the student should be able to:</p> <ol style="list-style-type: none"> 1. Demonstrate an understanding of the core issues and principles governing the operations of the different components of the criminal justice system (Police, Courts and Corrections); 2. Analyze the theoretical formulations that explain crime, its prevention and control; 3. Apply research methodological skills appropriate for criminal justice research; and 4. Express knowledge of the discipline through competent writing.
Course Requirements	<p>A. Discussions and Participation: Each assigned discussion on the discussion board is worth 100 points. For each discussion topic, there should be at least three (3) submissions/responses for each learner, one original post (i.e., the learner's substantive original post to the discussion topic) and one response to two other learners' post.</p> <p>To actively participate in discussions, each learner should create a substantive post (a response in essay format) with supporting arguments/documentations (i.e., literature with citations) on the assigned topic. In addition, Each learner should also respond to the posts of at least two other learners for each discussion topic (i.e., responsive posts). These responses to other learners should also be substantive/meaningful posts that contribute to the conversation by asking questions, respectfully debating positions, and presenting supporting information relevant to the topic.</p> <p>In addition, learners should respond to any follow-up questions the instructor directs to them in the discussion area.</p>

As stated above, there are ten (10) discussion topics, each worth up to 100 points. If a learner does not participate in discussions during the assigned period, he or she will not be able to make-up such discussions. When a learner does not participate in discussions during the assigned period, he or she will not have an opportunity to engage in dialogue with other learners. Therefore, the learner will earn 0 points. Overall, discussions account for 30% of the final grade.

- B. Critical Thinking Activities (Assignment 1-5). Students are to respond to critical thinking questions set from each activity posted by the instructor. You must respond to the issues, questions, or video clips posted by the instructor. Students can earn up to 100 points per critical thinking activity. Students' response to critical thinking activities should be in essay format. The grading rubric for discussions and participation will be also employed for critical thinking activities. Overall, the critical thinking activities account for 15% of the final grade.
- C. Assignment 6 (Peer-Review Project): Please refer to the Assignment module of course for instructions. **Students are to post their course paper/project in the assignment module "Peer-Review Project"(which will be linked to the discussion board by March 31, 2019 as an attachment, including title and reference pages). This project is worth 5% of the final grade.**

As stated above, each student is to post his or her project in the assignment module under the corresponding section and provide feedback to one other peer in regard to his or her project projects.

When giving feedback, use the following Criteria (**Please refer to the grading rubric for Peer Review Project**):

- Identify the strengths of the work first. Comment on the linkage of the topic to the course, the method of applying coursework to practice, and the use of research and theory to form the scaffolding for the work.
- If indicated in your opinion, identify an area

or areas that would benefit from expansion or clarification. When doing this, use the "I" viewpoint.

With this peer feedback, the objectivity that comes with "fresh eyes" viewing one's work can add clarity to the next step in completing the work. Remember, all written work is in draft form. It can be revised and strengthened, and this is an important element of the self-reflection process. In addition, the instructor will also provide feedback to learners' paper.

D. Assignment 7 (Research Paper): Students are required to write a term paper on any contemporary criminal justice topic that is related to the material covered in this course. For example, you may choose to summarize, synthesize, and analyze one of the course learning objectives. Such topics must first be discussed with the instructor for approval. The paper is to follow the APA style and must be between twelve (12) to fifteen (15) typed double spaced pages. The term paper must consist of a minimum of five different citations. The term paper is due on or before **April 7, 2019**. Please note that plagiarism (the act of incorporating material that comes from another author without citing the source) is the most serious intellectual fraud and must be avoided. Any act of plagiarism will result in at least a failing grade for the assignment(s) and/or course. (The research paper accounts for 20% of the final grade—please see attached term paper rubric).

E. Examinations: There will be a minimum of two (2) examinations, each worth 100 points. Each exam will have approximately five to 10 essay questions. Each exam will encompass only the materials analyzed during that portion of the course and will consist of essay items. If a student finds it unavoidable to be absent from an examination, makeup exams are to be scheduled with the instructor and will only be given to students with excused absences (i.e., death of someone close, hospitalization of oneself or one's child, or a spouse, etc.) Expect such tests to be more challenging than regularly scheduled exams. Overall, both examinations (mid-term and final) account for 30% of the final grade.

Class attendance policy:	<p>This course is designed as an Assignment/Project-based course. For that reason, the majority of your grade will be determined by the quality of the assignments/projects that you submit. The course will begin in the classroom for orientation to Blackboard.</p> <p>Each student is expected to access the Blackboard site on a regular basis (daily, perhaps several times per day), from whatever location is available (home, office, lab, school, public library etc...).</p> <p>Student(s) who fail to participate in the classroom during a course week will be deemed absent for that week. The absence will be annotated as <u>absent unexcused</u> (AU), unless the instructor has been informed beforehand and deemed the absence as <u>absent excused</u> (AE). The instructor shall report all absences to the main campus as required. A student who has not participated for 7 consecutive days regardless if the absences were deemed AU or AE shall be recommended for administrative withdrawal to the main campus. In a traditional classroom just because a student contacts the instructor and is excused from a scheduled class meeting does not mean the student is given credit for participation or attendance. The student is still annotated as AU or AE. The online classroom shall be no different in this respect. It is the instructor's sole discretion as to what he/she shall consider AU or AE.</p>
Submission of Work:	<p>The first week begins the first day of the term. Scheduled assignments MUST be completed and successfully submitted through the Blackboard Assignment Tool (drop box) by due date and time. Assignments automatically become unavailable after the due date/time expires.</p> <p>NO opportunities will be available for making up online class activities or assignments and no multiple submissions will be allowed.</p> <p>All assignments MUST be keyed using MS Word or saved as a .DOC file.</p>
Make-up examination policy:	<p>Are to be scheduled with the instructor and will only be given to students with excused absences.</p>
Course Drops/Incompletes:	<p>Students not completing the course for any reason are required to submit official drop notices to the Registrar's Office prior to the deadline date. This is your responsibility. Failure to comply with the procedure <u>WILL</u> result in you receiving a letter grade of "F."</p> <p>Also, if for any reason you decide to withdraw from the university at any time, please withdraw properly. Not officially withdrawing from the university may impact your financial aid and result in you owing the university.</p>
Cheating and plagiarism policy:	<p>Cheating in any fashion will not be tolerated, including but not limited to plagiarizing another's words, work or ideas on individual class assignments.</p>

	<p>To address the situation of plagiarism, the University has implemented <i>Turnitin</i> to fight plagiarism and improve reading, writing, and research skills. <i>Turnitin</i> is a comprehensive plagiarism prevention system that lets faculty quickly and effectively check all students' work. Results are based on exhaustive searches of billions of pages from both current and archived instances on the Internet.</p> <p>Plagiarism will result in at least a failing grade for the assignment(s) and/or course.</p>																				
<p>Online Communication Observation of "Netiquette":</p>	<p>Students MUST use Blackboard mail for contact with the instructor and other members of the class.</p> <p>All your Online communications should be composed with fairness, honesty and tact. What you put into an Online course reflects on your level of professionalism</p>																				
<p>Technical Problems:</p>	<p>If you experience technical/computer difficulties (<i>need help downloading browsers or plug-in, logging into your course, using your course web site tools, or experience errors or problems while in your online course</i>), contact MR. <p>Teaching/Learning Strategies</p>	<p>The primary instructional model for this course is collaborative learning. Specifically, the instructor will set course content, course objectives, and methods of classroom assessment. The course will incorporate the following instructional strategies: class discussion, online activities, assigned readings, and/or individual projects. Students are encouraged to actively participate in activities, ask questions, and contribute comments for discussion. Students are also encouraged to offer input regarding instructional strategies and assignments. Most importantly, students are expected to be active learners and to ask for clarification when they have questions. In order to be successful in the class, it is important that students, read the assigned material, and submit assignments and be prepared to discuss what they have</p>

Participation Guidelines

To actively participate in discussions, you should create a substantive post for each of the discussion topics. Each post should demonstrate your achievement of the participation criteria. In addition, you should also respond to the posts of at least two of your fellow learners for each discussion topic/question. These responses to other learners should also be substantive posts that contribute to the conversation by asking questions, respectfully debating positions, and presenting supporting information relevant to the topic. In addition, learners should respond to any follow-up questions the instructor directs to you in the discussion area.

To allow other learners time to respond, you are encouraged to post your initial/substantive response to the discussion topic within the first week of assigned discussion on the discussion board. To receive maximum points for discussion, learners are to perform the following:

- Learners are expected to complete and post their substantive original post on the discussion board within the first week of assigned discussion;
- Learners are to move the discussion/dialogue forward by validating their position with applicable knowledge supporting by literature;
- Learners are to apply relevant professional, personal, or other real world experience to extend the dialogue during the duration of the assigned discussion; and
- Learners are to demonstrate quality-writing skills (e.g., proper spelling, punctuation, grammar, and sentence structure). Learners are not to post using shortcut texting. For example, students are not to use shortcut like “u” for “you” in their postings. Please “spell check” your work before posting.

Note: Learners are to proofread their work before posting on the discussion board.

CJ550-GRADING RUBRIC FOR PEER REVIEW PROJECT

The purposes of the peer-review process are three-fold which include:

- (1) To encourage students to produce the best possible materials by providing specific and structured proof-readings and review processes before the final term/research paper is submitted to the instructor for grading/assessment;
- (2) To allow peer-to-peer instruction, having each student raise the level of learning of the class by presenting new ideas and applications of concepts to their (at least two) peers; and
- (3) To provide students with additional opportunities to practice analytical and critical-thinking skills in the course as they analyze the structures, evidence, arguments, and plans as presented by their peers.

In the peer review/assessment process, students will earn points in the following participation criteria.

Criteria (100 total points)	Non- performance	Insufficient	Sufficient	Expected
Submitted your finished paper to the group discussion project area PRIOR to deadline to allow other learners to	0 points	1-13 points Incomplete/not finished/or past deadline.	14-15 points Fully complete and in ahead of deadline	16-20 points Materials submitted to group at least 72 hours before posting

GRADING RUBRIC FOR COMMENTARY ESSAYS

GENERAL GUIDELINES:

Writing

- Paper meets APA standards.
- Paper is organized; each paragraph flows logically into the next paragraph.
- Appropriate terminology it used; writing is clear and concise.
- Proper spelling and grammar is used; sentences are properly constructed.

Content

The two- page essay should have three main parts:

- (1) Summary: the assigned reading by, among other things, asking yourself: What are the main arguments? What is the point of the report is trying to make? What topics are covered? If someone asked what this report is about, what would you say? If someone asked what are the topics in the subject/topic are that this article discussed, what would you say? Are there vague or sweeping generalizations that aren't backed up with evidence? Are arguments very one-sided with no acknowledged of other viewpoints?
- (2) Assessment: After summarizing, it may be helpful to evaluate: What have you learned about the subject? What is (are) the problem(s)? Is there consensus/disagreement: in what areas, what about the consensus/disagreement? What areas are still being researched? Is the information reliable? Is this source biased or objective? What is the goal of this source? Was there enough evidence offered? Explain. Is the coverage comprehensive? Explain. Is the evidence based on a few studies or many? Explain. Does the author uses a good mix of sources of information (primary and secondary)? Explain.
- (3) Reflection: Once you've summarized and assessed, you need to ask how it fits into your research or our class. Was this source helpful in identifying issues? How does it shape your argument? How can you use this source in your research project? Has it changed how you think about your topic? Does the author offer sound reasons for reaching conclusions? How timely is the source? Some information becomes dates when new research is available, but another source can be quite sound 50 or 100 years later

GRADING RUBRIC FOR RESEARCH PAPER

GENERAL GUIDELINES:

Content 80%

- (1) The paper has a strong introduction, main body, and conclusion.
- (2) The topic is introduced, a purpose is clearly evident and an overview of the paper is provided; state the problem, discuss the importance, state your hypotheses/research objectives, provide a review of the literature, describe methods employed, and provide a discussion of relevant material according to the scholarly literature. Also, provide a concluding paragraph restating the thesis of your paper; summarize the key points of your paper; and make recommendation for policy changes and suggest areas for further research.
- (3) The research paper goes from general ideas to specific conclusions within each paragraph. Transitions tie sections together, as well as adjacent paragraphs. The paper flows logically from one idea to the next.
- (4) Scholarly research is utilized and effectively described in the main body of the paper; information is synthesized throughout the paper; includes a relevant and thorough discussion of sources that relate to the topic/issue and purpose of the paper.
- (5) The paper demonstrates critical and creative thinking skills.

Writing 20%

- (1) Paper meets APA guidelines standards; in-text citations and references are properly documented in accordance with APA format (see APA Manual, 2010).
- (2) Paper includes a minimum of twelve (12) (double-spaced, numbered) pages and at least twelve scholarly sources.
- (3) Paper is organized; each paragraph flows logically into the next paragraph or section of the paper. Headings and sub-headings are utilized.
- (4) Appropriate terminology is used; writing is clear and concise. To retrieve a list of active verbs please visit the following website: <http://www.owl.net.rice.edu/~cainproj/writingtips/preciseverbs.html>
- (5) Proper spelling and grammar is used; sentences are properly constructed.
- (6) Appropriate font (Times New Roman) and font size (12 point font).
- (7) The paper is written in a professional tone.

Grading Rubric	Points Possible	Points Earned
Writing/format/title page/length	20	
Introduction with thesis	10	
Organization/transitions	20	
Synthesis of scholarly research (at least 12 scholarly sources)	20	
Critical and creative thinking	20	
Conclusions/recommendations	10
