## **Independent Auditors' Report**

The Board of Trustees State of Mississippi Institutions of Higher Learning:

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the State of Mississippi Institutions of Higher Learning (the IHL System), a component unit of the State of Mississippi, as of and for the year ended June 30, 2012, which collectively comprise the IHL System's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the IHL System's management. Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund, and the State Institutions of Higher Learning Tort Liability Fund. Those financial statements, which reflect approximately 10.6% and 1.8%, and 8.5% and 2.2%, of the assets and revenues, respectively, of the IHL System's business-type activities as of and for the years ended June 30, 2012 and 2011, were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the above mentioned entities/funds, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation, the University of Southern Mississippi Foundation, the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund, and the State Institutions of Higher Learning Tort Liability Fund were not audited in accordance with Government Auditing Standards. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the IHL System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinions.

(THIS PAGE LEFT BLANI	K INTENTIONALLY)	

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and the aggregate discretely presented component units of the IHL System as of June 30, 2012 and 2011, and the respective changes in financial position, and where applicable, cash flows, thereof for the years then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2012, on our consideration of the IHL System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 3 through 17 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires or management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

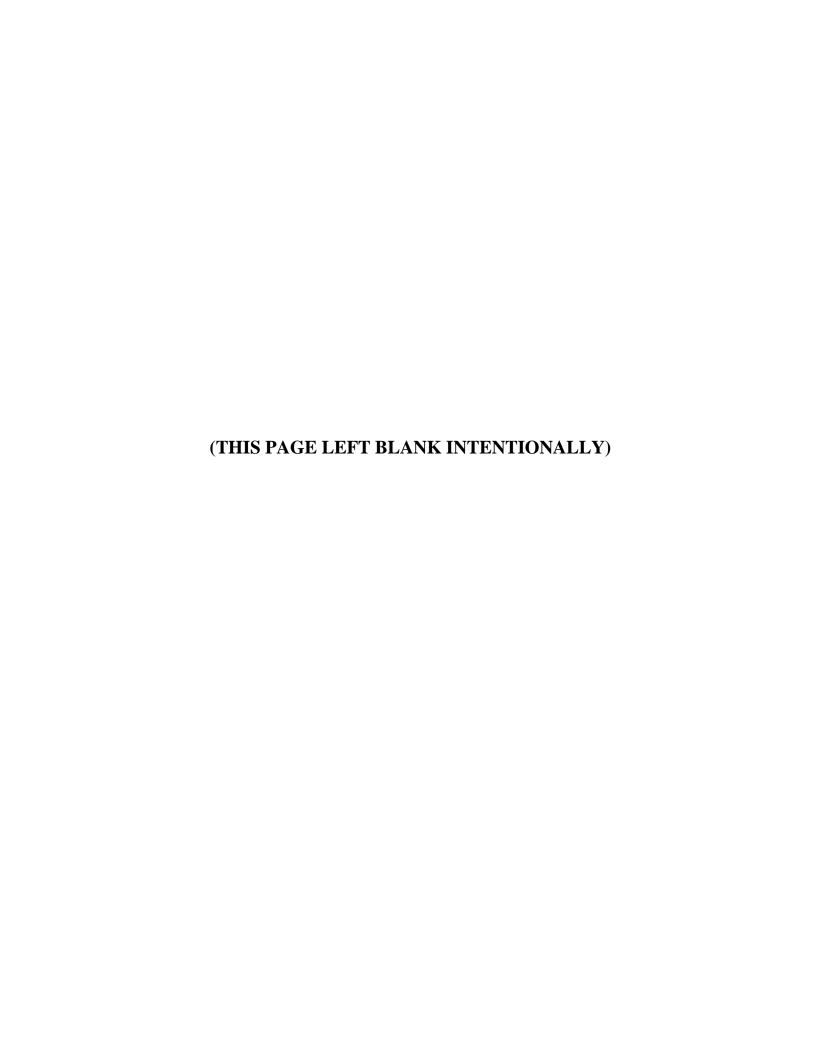

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the IHL System's basic financial statements. The accompanying 2012 combining supplemental information on pages 120 through 126 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

#### Introduction

The Board of Trustees of Mississippi's Institutions of Higher Learning (IHL System) governs the State's public four year institutions. The Constitutional Governing Board was created in 1943 for the purpose of overseeing and directing Mississippi's eight public universities including the University of Mississippi Medical Center, various off-campus centers and multiple research institutes located throughout Mississippi.

The institutions serve approximately 81,000 students with an employee base of 25,200 individuals. Faculty makes up approximately 5,300 of the total employee count. The system offers over 800 degrees and graduates approximately 15,700 students each year.

In addition to regular operations, each university has established its own educational building corporation (EBC) in accordance with Section 37-101-61 of the Mississippi Code Annotated of 1972. The purpose of these corporations is to provide a means to acquire land or buildings, construct or renovate facilities, and/or equip facilities. Governmental Accounting Standards Board (GASB) Statements 14 and 39 deem EBCs to be component units of the IHL System; therefore, they are included as blended component units in the basic financial statements. In addition to EBCs, the IHL System has three additional component units considered significant to the financial statements. The three units were Mississippi State University Foundation, Inc., the University of Mississippi Foundation and the University of Southern Mississippi Foundation. These audited financial statements are discretely presented following the IHL System's financial statements.

These reports were prepared in accordance with GASB Statements 34 and 35, *Basic Financial Statements-and Management's Discussion and Analysis for State and Local Governments* and presents financial data for two fiscal periods – June 30, 2012 and 2011. The IHL System reports as a special purpose government, engaged solely in business-type activities. The section should be read in conjunction with the financial statements and the notes which follow.

3

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

The following is a list of abbreviations used throughout this financial report for the member universities of the IHL System:

ASU Alcorn State University
DSU Delta State University
JSU Jackson State University
MSU Mississippi State University
MUW Mississippi University for Women
MVSU Mississippi Valley State University

UM University of Mississippi

USM University of Southern Mississippi
UMMC University of Mississippi Medical Center

IHL Executive Office Institutions of Higher Learning – Executive Office

MCVS Mississippi Commission for Volunteer Services – Off-campus entity

IHL SYSTEM (Summary of all of the above)

#### **Overview of the Financial Statements**

The IHL System's financial report consists of three sections – Management's Discussion and Analysis, financial statements including notes, and financial statements of the discrete component units. The statements of IHL System's financial statements are Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows and the Statements of Financial Position and Statements of Activities for the discretely presented component units.

#### **Financial Statements**

The financial statements present information for the IHL System as a whole. The Statement of Net Assets presents the financial position of the IHL System at the end of the fiscal year and includes all assets and liabilities for all institutions within the IHL System. The difference between total assets and total liabilities – net assets – is one measure of the IHL System's financial health or position. The change in net assets is a useful indicator of financial health of the System. Over time, increases or decreases in the System's net assets provides a useful trend in assessing whether its financial health is improving. Other non-financial factors such as enrollment trends and the condition of the physical plant are also useful in evaluating the overall financial health of the IHL System.

The Statement of Revenues, Expenses and Changes in Net Assets presents the operating results of the IHL System, as well as nonoperating revenues and expenses. Operating revenues are received for providing goods and services to various customers and constituencies of the IHL System. Operating expenses are incurred to acquire or produce the goods and services provided in return for the operating revenues. Nonoperating revenues are received for which goods and services are not provided as an exchange transaction. State appropriations, which represent 24% of total IHL System revenues, are classified a nonoperating revenue because these revenues are recognized at the state level rather than at the institutional level. This accounting treatment for this revenue classification typically results in the IHL System showing an operating loss. Other typical nonoperating revenue sources include gifts, grants and appropriations restricted for capital purposes.

The Statement of Cash Flows provides information about the cash sources and uses of the IHL System. Additional information for this statement is provided later in this report.

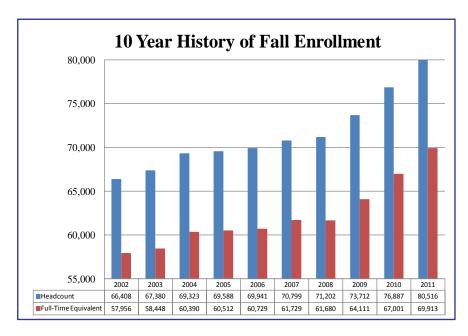

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

## **Financial Highlights**

The financial position of the IHL System has shown growth over the last several years. Net assets have increased by \$277.7 million (assets minus liabilities) since June 30, 2010. The main source for this improvement was in the area of capital assets, where the System has experienced a \$335.3 million increase in its capital assets, net of related debt. Most of the institutions have recently undergone, or are in the process of major building projects, especially for student housing. Additional details for these increases are presented later in this report. Unrestricted net assets have also increased \$53.1 million since that time and restricted net assets have increased \$14.5 million.

Despite tuition rate increases, enrollment has continued to increase for the IHL System. Full time student enrollment, as well as student headcounts, for the fall 2011 academic term stood at an all time high (see chart below). IHL management believes this increase is indicative of the demand for a quality educational product at a reasonable price.

While the IHL System's state appropriated revenues have stagnated the last several years, other revenue sources such as student tuition, auxiliary revenues and patient fees have increased steadily. The IHL System's efforts to create self-generated funds, control costs, and eliminate expenditures on noncore essential activities allowed the institutions to generate sufficient resources to meet and sometimes even exceed budgeted goals.

GASB guidance requires that state appropriation revenues be classified as nonoperating on the Statement of Revenues, Expenses and Changes in Net Assets (SRECNA). Because of this accounting treatment, the IHL System expects to always show a net operating loss at year-end on the SRECNA. This net operating loss approximated \$852.8 and \$863.2 million for the years ended June 30, 2012 and 2011, respectively. Total operating revenues increased 5.1% in 2012 and 2.3% in 2011, while operating expenses for 2012 and 2011 increased 3.1% and 3.0%, respectively. The accumulated impact of nonoperating and other revenues and expenses of the IHL System resulted in a net gain of \$979.2 million in 2012 and \$1.01 billion in 2011. Overall,

5

Management's Discussion and Analysis (Unaudited)

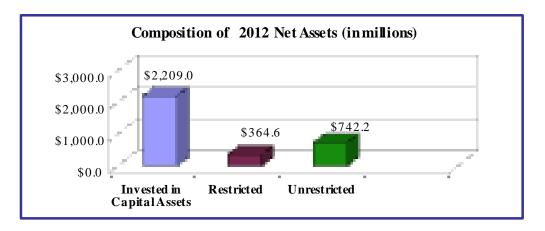

June 30, 2012 and 2011

the IHL System's net assets increased by \$126.4 million for fiscal year 2012 compared to \$151.3 million for fiscal year 2011.

Net assets are divided into three major categories:

- **Invested in capital assets, net of debt** represents the IHL System's net equity in property, plant and equipment which it owns.
- **Restricted net assets** represent those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements.
- Unrestricted net assets represent those assets that are available to the IHL System for any lawful purpose.

Net assets, which represent the residual interest in the IHL System's assets after liabilities are deducted, increased by \$126.4 million (4.0%) from the prior fiscal year to \$3.3 billion in 2012. This compares to an increase of \$151.3 million (-6.5%) in 2011. Shown below is a chart illustrating the composition of the IHL System's net assets as of June 30, 2012.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

Unrestricted net assets as of June 30, 2012 and 2011 equaled \$742.2 million and \$720.6 million, respectively. Over 89% of this total (\$661.3 million) was attributed to four IHL institutions, the University of Mississippi Medical Center, Mississippi State University, the University of Mississippi and the University of Southern Mississippi. As a comparison, at June 30, 2010 total IHL System unrestricted net assets were equal to \$689.2 million.

#### Summary of Net Assets (Condensed)

		As of			Changes between years	
	June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012	
Assets:						
Current assets	\$ 771,436,873	794,345,992	845,660,586	3.0%	6.5%	
Capital assets, net	2,699,713,429	2,848,085,443	3,034,987,815	5.5	6.6	
Other assets	839,380,972	788,995,751	884,984,437	(6.0)	12.2	
Total assets	\$ 4,310,531,274	4,431,427,186	4,765,632,838	2.8%	7.5%	
Liabilities:						
Current liabilities	\$ 314,325,463	288,086,502	338,337,493	(8.3)%	17.4%	
Noncurrent liabilities	958,129,509	953,927,510	1,111,486,263	(0.4)	16.5	
Total liabilities	\$ 1,272,454,972	1,242,014,012	1,449,823,756	(2.4)%	16.7%	
Net assets:						
Invested in capital assets,						
net of debt	\$ 1,998,798,858	2,121,333,863	2,208,957,182	6.1%	4.1%	
Restricted – nonexpendable	114,576,372	121,730,506	132,893,611	6.2	9.2	
Restricted – expendable	235,532,348	225,750,920	231,716,866	(4.2)	2.6	
Unrestricted	689,168,724	720,597,885	742,241,423	4.6	3.0	
Total net assets	\$ 3,038,076,302	3,189,413,174	3,315,809,082	5.0%	4.0%	

From the data presented, readers of the Statement of Net Assets are able to determine the following:

- the assets available to continue the operations of the IHL System
- the liabilities of the IHL System which include amounts owed to vendors and lending institutions, and
- the net assets that are available for future expenditure by the IHL System

At June 30, 2012 current assets totaled \$845.7 million and consisted primarily of cash and cash equivalents, short-term investments and net receivables. Current assets increased 6.5% (\$51.3 million) from June 30, 2011. Since June 30, 2010, current assets have increased 9.6%. Cash, cash equivalents, and short-term investments constituted approximately 57% and 56% of current assets as of June 30, 2012 and 2011, respectively, while accounts receivables constituted approximately 38% and 39% of current assets respectively. Approximately 39% and 45% of these net receivable are amounts due from gifts, contracts and grants and the State of Mississippi for appropriations as of June 30, 2012 and 2011, respectively, while 26% (2012) and 30% (2011) were related to patient care receivables from UMMC. The remaining receivables were primarily owed from students for tuition, room and board charges. Student owed receivables approximated \$99 million at June 30, 2012. This amount has remained steady for the past three years.

7

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

At June 30, 2012, current liabilities equaled \$338.3 million and consisted primarily of accounts payable and accrued liabilities, and deferred revenues. Deferred revenues include advance receipts for athletic ticket sales, summer tuition, fees, and student housing. Current liabilities increased 17.4% (\$50.3 million) from June 30, 2011. Since June 30, 2010 current liabilities have increased 7.6% (\$24.0 million). In more detail, significant decreases were incurred in the areas of accounts payable and accrued expense liabilities (\$19.3 million) and deferred revenues (\$23.1 million) by several IHL institutions during 2012.

At June 30, 2012 and 2011, noncurrent assets totaled \$3.9 billion and \$3.6 billion, respectively, and included capital assets of \$3.0 billion (2012) and \$2.8 billion (2011). Noncurrent cash and investments that are restricted externally by endowment arrangements or specific grant and contract arrangements approximated \$769.0 million at June 30, 2012 and \$681.4 million at June 30, 2011. One other significant noncurrent asset of the IHL System was student notes receivable which equaled \$98.6 million at June 30, 2012 and \$98.7 million at June 30, 2011. In total, noncurrent assets increased 7.8% (\$282.9 million) during the past twelve months. Since June 30, 2010, these noncurrent assets have actually increased 10.8% (\$380.9 million). The majority of this increase has been seen in the accumulation of capital assets of \$335.3 million since 2010 (12.4%). Specifically, the IHL System's inventory of buildings has increased in pre-depreciation value by a total of \$424.0 million since June 30, 2010, over \$160.0 million of that increase realized since June 30, 2011. Additional details about the IHL System's most recent capital asset growth can be seen in the Capital Asset and Debt Administration section of this report.

Noncurrent liabilities are those liabilities due and payable more than twelve months from year-end (June 30th). Noncurrent liabilities equaled \$1.1 billion at June 30, 2012 and \$953.9 million at June 30, 2011. These liabilities have increased 16.5% (or \$157.6 million) since June 30, 2011. The principal reason for this large increase was the incurrence of new bonded debt issues at many of the institutions. In recent years, the IHL System has experienced unparalleled levels of new construction and renovation to its existing facilities. Additional details about the IHL System's most recent capital debt can be seen in the Capital Asset and Debt Administration section of this report. Other noncurrent liabilities of significance include accrued compensated leave liabilities that will not be paid within the next fiscal year (\$98.3 million at June 30, 2012 and \$94.7 million at June 30, 2011), and noncurrent portions of unpaid claim liabilities relative to its self-insured programs, and government advance refundable obligations relative to the federal government's Perkins loan program in the event of termination. These other noncurrent liabilities have remained relatively stable during the past several years.

Restricted nonexpendable net assets equaled \$132.9 million and \$121.7 million at June 30, 2012 and 2011 respectively, and consisted of endowment and similar type funds, which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained intact and invested for the purpose of producing income that may either be expended or added to principal. The values of these net assets have increased approximately \$18.2 million or 15.9% since June 30, 2010.

Restricted expendable net assets equaled \$231.7 million and \$225.8 million at June 30, 2012 and 2011, respectively, and consisted of resources that the IHL System is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Unrestricted net assets equaled \$742.2 million and \$720.6 million at June 30, 2012 and 2011 respectively, and represent those assets that are available to the IHL System for any lawful purpose. The values of these net assets have increased approximately \$21.6 million or 3.0% since June 30, 2011.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

## Statement of Revenues, Expenses and Changes in Net Assets

The Statement of Revenues, Expenses and Changes in Net Assets (SRECNA) displays information on how the IHL System's assets changed as a result of current year operations. This statement presents the IHL System's revenues received and expenses incurred, as well as any other gains or losses for the fiscal year. Operating revenues and expenses have been revised to give effect for certain eliminations relating to inter-campus transactions among the IHL System institutions.

The IHL System's consolidated SRECNA for the year ended June 30, 2012 indicates a net operating loss of \$852.8 million and compares to a net operating loss of \$863.2 million in 2011. The change from 2011 to 2012 represents a \$10.4 million overall decrease in the annual net operating loss. Since June 30, 2010, the IHL System's annual net operating loss has increased 3.4% (or \$28.0 million). The net operating loss does not include the effects of nonoperating items such as state appropriated revenues, certain gift or grant revenues, or net investment earnings. A summary of the IHL System's SRECNA for the last three fiscal years is shown below.

#### **Summary of Revenues, Expenses and Changes in Net Assets (Condensed)**

		Years ended		Changes between years		
		June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012
Operating revenues	\$	1,820,332,746	1,861,842,152	1,957,042,710	2.3%	5.1%
Operating expenses	_	2,645,178,096	2,725,010,197	2,809,839,477	3.0	3.1
Operating income (loss)		(824,845,350)	(863,168,045)	(852,796,767)	4.6	(1.2)
Nonoperating revenues (expense)	_	880,985,831	887,168,736	877,970,006	0.7	(1.0)
Income (loss) before other revenues, expenses, gains or losses		56,140,481	24,000,691	25,173,239	(57.2)	4.9
Other revenues, expenses, gains or losses	_	105,745,043	127,336,181	101,222,669	20.4	(20.5)
Increase in net assets		161,885,524	151,336,872	126,395,908	(6.5)	(16.5)
Net assets at beginning of the year – restated	_	2,876,190,778	3,038,076,302	3,189,413,174	5.6	5.0
Net assets at the end of the year	\$	3,038,076,302	3,189,413,174	3,315,809,082	5.0%	4.0%

## **Operating Revenues**

Operating revenues for the IHL System equaled \$2.0 billion for fiscal year 2012 compared to \$1.9 billion for fiscal year 2011. Operating revenues increased 5.1% (or \$95.2 million) during 2012, and an additional 2.3% (or \$41.5 million) during 2011. Major components of operating revenues are the UMMC patient care revenues (36% in 2012 and 2011), grants and contracts revenues (24% in 2012 and 26% in 2011), net tuition and fees (23% in

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

2012 and 22% in 2011), and sales and service revenues from auxiliary activities (10% in 2012 and 2011). The following table summarizes the IHL System's operating revenues for the past three fiscal years.

## **Operating Revenues**

			Years ended	Changes between years		
	_	June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012
Tuition and fees (net)	\$	368,712,223	407,959,713	457,817,684	10.6%	12.2%
Grants and contracts		491,378,374	485,840,532	460,073,470	(1.1)	(5.3)
Federal appropriations		13,440,511	12,737,243	11,023,528	(5.2)	(13.5)
Sales and services of educational						
departments		52,271,161	53,593,973	54,560,556	2.5	1.8
Auxiliary enterprises (net)		179,515,593	186,754,660	195,614,679	4.0	4.7
Patient care revenues		673,216,880	668,733,613	704,269,102	(0.7)	5.3
Other	_	41,798,004	46,222,418	73,683,691	10.6	59.4
Total operating						
revenues	\$	1,820,332,746	1,861,842,152	1,957,042,710	2.0%	5.0%

Net tuition and fee revenues increased 12.2% (\$49.9 million) in fiscal year 2012. All IHL institutions raised their in-state tuition rates during 2012 (average increase of 7.5%). Non-Mississippi residents also paid a higher tuition rate during 2012 (average increase of 7.0%). These rate increases, coupled with the positive enrollment growth across the IHL System resulted in substantial tuition revenue increases. The IHL System also increased general tuition rates on all students in 2011 and on nonresidents students in 2010. Coupled with steady enrollment growth during those periods also, net tuition revenues have increased \$89.1 million since 2010 (24.2%).

Grants and contracts revenue has decreased two consecutive years since a high of \$491.4 million in 2010. In FY 2012, this revenue decreased 5.3% (\$25.8 million). In fiscal year 2011 the IHL System experienced a decrease of 1.1% (\$5.5 million).

Patient care revenues at the UMMC rebounded from a down year in 2011 to increase during 2012 (\$35.5 million or 5.3%). This increase was primarily due to reimbursement increases from commercial and governmental payers and increases in patient volume. In 2011, these same revenues dropped off slightly by \$4.5 million or 0.7%.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

## **Operating Expenses**

Operating expenses for the IHL System totaled \$2.8 billion for fiscal year 2012 compared to \$2.7 billion in 2011. Operating expenses increased 3.1% (\$84.8 million) during 2012, and an additional 3.0% (\$79.8 million) during 2011. Personnel costs (including fringe benefits) were the largest expenditure component for the IHL System, representing 58% of the total in 2012 and 2011. Other major components include contractual services (16% in 2012 and 2011), commodities (10% in 2012 and 2011), and scholarships and fellowships (6% during 2012 and 2011). The following table summarizes the IHL System's operating expenses (by major object category) for the past three fiscal years.

#### **Operating Expenses**

	Years ended			Changes between years	
	June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012
By major object category:					
	1,211,246,243	1,245,544,156	1,282,002,735	2.8%	2.9%
Fringe benefits	334,165,951	340,973,191	358,526,493	2.0	5.1
Travel	41,633,900	44,944,546	48,034,153	8.0	6.9
Contractual services	434,281,566	428,167,512	449,115,656	(1.4)	4.9
Utilities	61,788,107	64,403,486	59,832,377	4.2	(7.1)
Scholarships and fellowships	164,808,834	174,146,376	177,267,881	5.7	1.8
Commodities	275,398,108	285,572,300	291,720,535	3.7	2.2
Depreciation	115,971,798	129,645,671	131,390,795	11.8	1.3
Other	5,883,589	11,612,959	11,948,852	97.4	2.9
Total operating expenses	2,645,178,096	2,725,010,197	2,809,839,477	3.0%	3.1%

IHL personnel costs (salaries, wages and fringe benefits) increased 3.4% (\$54.0 million) during 2012. Several of the IHL institutions incorporated general market adjustments for their faculty and staff during 2012. The range of these pay raises varied from institution to institution. MSU (\$24.4 million), UM (\$14.8 million) and UMMC (\$13.8 million) had the largest expenditure increase in this category, while the other institutions had smaller increases. Since 2010, the IHL System's personnel costs have increased 6.2% (\$95.2 million). Contractual services increased 4.9% (20.9 million) during 2012. In an effort to realize greater cost efficiencies, the IHL System has made a concerted effort in the past few years to reduce its contractual services among other overhead costs. Since 2010, these costs have increased 3.4% (\$14.8 million). The cost for commodities did increase slightly during 2012 (2.2% or 6.1 million). Scholarships and fellowships expenditures continued its annual increase in 2012. These costs which take the form of student financial aid awards increased 1.8% (\$3.1 million). These costs have grown 7.6% or \$12.5 million since 2010. The increases were in part a response to the general tuition rate increases enacted over that period in time, but also reflect a strategy to enhance enrollment growth with the provision of improved institutional and federally sponsored financial aid packages. It is expected that these costs will continue a steady climb in coming years.

As an alternative presentation model, the IHL System's last three fiscal years of operating expenses are shown on the next page by major function category. Functional classifications are the traditional categories that universities have used in past financial presentations (Pre-GASB 34). These functions represent the types of programs and

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

services that the universities generally provide. For example, funds utilized to compensate a classroom professor or provide classroom materials would be classified as instruction.

	Years ended			Changes between years	
	June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012
By function:					
Instruction	\$ 581,364,784	575,927,306	593,792,096	(0.9)%	3.1%
Research	332,762,585	320,300,032	315,027,966	(3.7)	(1.6)

Auxiliary enterprises	167,337,986	180,973,505	190,486,406	8.1	5.3
Depreciation	115,967,646	129,645,671	122,157,044	11.8	(5.8)
Hospital	592,753,855	654,798,736	676,796,305	10.5	3.4
Other	2,706,863	2,928,514	1,510,706	8.2	(48.4)
Eliminations	(51,659,562)	(56,068,735)	(68,247,584)	8.5	21.7
Total operating expenses	\$ 2,645,178,096	2,725,010,197	2,759,686,669	3.0%	3.1%

Funding for the Instruction function continues to be the one of the IHL System's highest priorities. Approximately 22% and 21% of the System's expenditure pie was devoted to the Instruction function in 2012 and 2011 respectively. Since 2010, instructional costs have increased 2.1% or \$12.4 million. Institutional research (internal and external) and public service costs continue to command one the IHL's primary cost missions. While declining slightly since 2010, these costs represent approximately 17% of the IHL System's total focus. Public Service sector expenditures decreased 1.2% (\$1.8 million) during 2012. Institutional support costs typically present the functions of the executive management department, general administration, logistical support services, computing, public relations and development. These costs increased in 18.0% (\$42.4 million) in 2012. Since 2010, institutional support costs have increased 21.8% (\$50.0 million). Auxiliary enterprise costs include all expenditures associated with departments that primarily exist to furnish goods or services to students, faculty, or staff and that charge a fee directly related to, although not necessarily equal to, the cost of the goods and services. Auxiliary departments are required to be essentially self-supporting activities. Examples are (1) Student housing, (2) Food Services, (3) Bookstores, and (4) Intercollegiate Athletics. Auxiliary expenditures increased 5.3% (\$9.5 million) in fiscal year 2012. Student Aid expenditures continue to increase significantly in response to student enrollment demands and tuition, room and board rate increases. Since 2010, student aid costs have increased 9.4%, or \$15.7 million. Finally, Hospital expenditures increased during FY 2012. These costs were incurred by the UMMC during the course of their treatment of patients. Hospital costs increased 3.4% in 2012 (or \$22.0 million). In 2011, UMMC incurred substantial one-time costs while implementing their LAWSON and EPIC ERP software systems. While these implementations were still on-going to various degrees in 2012, the bulk of the cash outlay occurred in 2011. Since 2010, Hospital expenses have risen 14.2% (or \$84.0 million).

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

From fiscal year 2010 through 2012, the IHL System identified millions of dollars in inter-campus transactions that required elimination for financial statement presentation purposes. Examples of such transactions would be student financial aid funds administered by the IHL Executive Office that were directed to the campuses, as well as grant agreements between one or more IHL System institutions in which one campus served as a primary recipient and the other campus acted as a sub-recipient. The eliminations were mostly channeled through the scholarships and fellowships line-item as presented by major object code category.

## **Capital Asset and Debt Administration**

At June 30, 2012, the IHL System had over \$3.0 billion invested in a broad range of capital assets. These assets are comprised of land, buildings and improvements (infrastructure), equipment and library books. They are stated net of accumulated depreciation. The following table summarizes the IHL System's Capital Assets for the most recent three year-end reporting dates.

#### **Capital Asset Summary**

		Years ended			Changes between years		
		June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012	
Capital assets not being depreciated	\$	447,072,199	349,274,649	408,464,638	(21.9)%	16.9%	
Depreciable capital assets:							
Improvements other than buildings	\$	252,348,893	269,898,159	288,121,327	7.0%	6.8%	
Buildings		2,413,303,564	2,676,695,058	2,837,330,303	10.9	6.0	
Equipment		566,347,955	618,196,029	667,086,451	9.2	7.9	
Library Books	-	328,134,814	339,343,335	352,708,483	3.4	3.9	
Total depreciable							
capital assets	\$	3,560,135,226	3,904,132,581	4,145,246,564	9.7%	6.2%	
Total cost of capital assets	\$	4,007,207,425	4,253,407,230	4,553,711,202	6.1%	7.1%	
Less accumulated depreciation	_	(1,307,493,996)	(1,405,321,787)	(1,518,723,387)	7.5	8.1	
Capital assets, net	\$	2,699,713,429	2,848,085,443	3,034,987,815	5.5%	6.6%	

Nondepreciable capital assets equaled \$408.5 million at June 30, 2012 and \$349.3 million at June 30, 2011. These assets principally consisted of land and construction in progress. The \$59.2 million increase from June 30, 2011 through June 30, 2012 was due to capitalized facility projects that were "in-progress" at June 30, 2012, but will be finished in subsequent reporting periods and reclassified to the depreciable Buildings category.

In 2012, the System experienced strong growth in two capital asset areas, Buildings and Equipment. These assets increased 6.0% and 7.9% respectively, during 2012. Since fiscal year 2010, the gross value of IHL System buildings has increased \$424.0 million or 17.6%. Most of the IHL institution recorded sizable capital asset additions during fiscal year 2012. Some of the more significant additions are listed below.

• ASU had a number of significant renovation projects underway on their campus during 2012. Over \$4.5 million in new renovation costs had been accrued by year-end. These costs will be classifies as construction-in-progress until their completion.

13

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

- DSU had a number of significant renovation projects underway on their campus during 2012. Over \$1.3 million in new renovation costs had been accrued by year-end. These costs will be classifies as construction-in-progress until their completion
- JSU completed a \$16.1 million renovation project of their football stadium during 2012.
- MSU completed construction on a new \$25.1 million student residence facility (South Hall) as well as began construction on two new student residence facilities (Oak Hall and Magnolia Hall). While not yet complete as of June 30, 2012, these two facilities had accumulated over \$37. 2 million in cost by year-end and are classified as construction-in-progress until their completion.
- MUW completed almost \$1.8 million of campus drainage street repairs during 2012, while continuing with major renovations to Poindexter Hall (\$3.8 million). This project is classified as construction-in-progress until its completion.
- MVSU continued with a major renovation project to its football facility in 2012. While not complete at year-end, an additional \$6.9 million was spent in 2012. This project is classified as construction-in-progress until its completion.
- UM completed construction on a number of significant facility projects during 2012. Included were \$4.0 million renovations to both Carrier Hall and Faser Hall, a \$44.0 million new law facility (Khayat Law Center), and over \$4.2 million in renovations to the Campus Walk apartment complex. In addition, UM completed a \$5.8 million renovation to its airport taxiway infrastructure. While not yet complete as of June 30, 2012, the university had incurred an additional \$33.5 million of construction cost in a new student residence facility. This project will be classified as construction-in-progress until its completion.
- USM completed construction on a number of significant facility projects during 2012. Included were a \$4.1 million Aquaculture Visitor's Pavilion and a \$6.8 million office research building both located on the USM Gulf Coast Research Laboratory campus. In addition, USM began a major renovation to Hardy Hall during 2012. While this project will be classified as construction-in-progress until its completion, approximately \$5.3 million of renovation costs have occurred through 2012.
- UMMC completed over \$13.1 million of renovation to the Guyton Research Hall during 2012. Numerous other renovation projects were on-going at year-end. These projects will be classifies as construction-in-progress until their completion.

Please refer to the June 30, 2011 and June 30, 2010 audited financial statements for a description of significant additions during those fiscal years.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

At June 30, 2012, the IHL System had \$931.0 million in bonded debt, notes payable and capital lease obligations. This represented a 19.5% or \$152.2 million increase over the prior year-end. The following table summarizes the System's long-term debt for the most recent three year-end reporting dates.

## **Long-term Debt Summary**

		Years ended			Changes between years		
		June 30, 2010	June 30, 2011	June 30, 2012	2010 to 2011	2011 to 2012	
Bonds payable	\$	753,065,137	733,882,296	890,473,217	(2.5)%	21.3%	
Notes payable		20,969,833	20,567,308	19,813,989	(1.9)	(3.7)	
Capital lease obligations	_	15,126,721	24,397,978	20,747,813	61.3	(15.0)	
Total depreciable							
capital assets	\$_	789,161,691	778,847,582	931,035,019	(1.3)%	19.5%	

Bonded debt increased significantly during 2012 (21.3% or \$156.6 million). Several of the institutions issued long-term bond obligations during the year, including MSU (\$54.4 million) and UM (\$30.4 million), both to primarily construct new residence halls on their campuses. UMMC issued two long-term obligations totaling \$106.5 million during 2012. Their issuances were primarily used to finance renovation projects through the medical center campus. Capital lease obligations decreased 15.0% or \$3.7 million during 2012.

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

#### **Statement of Cash Flows**

The final statement presented by the IHL System is the Statement of Cash Flows. This statement presents detailed information about the cash activities of the institution during the year. The statement is divided into five parts. The first part entitled "Cash Flows Activities from Operating" shows the net cash used by the operating activities of the IHL System. The second section is entitled "Cash Flows Activities from Noncapital Financing". The primary source of these activities includes State Appropriations. The third section, entitled "Cash Flows Activities from Capital and Related Financing" shows cash flows from the acquisition and construction of capital and related items. The fourth section is entitled "Cash Flows Activities from Investing". This section reflects cash flows from investing activities and shows purchases, proceeds, and interest received from investing activities. The final section contains a reconciliation of net cash provided by (used in) operations to the operating income (loss) reflected on the SRECNA. A condensed Statement of Cash Flows is presented on the next page.

Major sources of funds included in the operating activities section for fiscal year 2012 were student tuition and fees (\$467.7 million), grants and contracts (\$474.7 million), patient care services (\$716.1 million), and auxiliary enterprises (\$206.4 million). Major uses of funds included in operating activities were payments for employees' salaries and benefits (\$1.6 billion), payments to suppliers (\$726.2 million), and payments made for scholarships and fellowships (\$173.3 million).

Major sources of funds included in the noncapital financing activities section for fiscal year 2012 include state appropriations (\$707.4 million) and gifts and grants received for purposes other than capital purposes (\$172.6 million).

Management's Discussion and Analysis (Unaudited)

June 30, 2012 and 2011

Major sources of funds included in the capital and related financing activities section for fiscal year 2012 includes proceeds from capital debt issuances (\$188.9 million) and grants and contract funding designated for capital projects (\$38.5 million). Major uses of funds in this section include direct cash payments made for capital assets (\$241.4 million), and principal and interest payments made to retire capital debt (\$76.7 million combined).

#### **Economic Outlook**

The overall financial position of the IHL System remains strong. The IHL System continues to successfully respond to significant challenges to its academic programs, stemming from the national, state and local economic downturns. The IHL began the 2012 fiscal year with an anticipated system wide budget increase of \$191.2 million. This increase was being funded primarily by tuition revenues, auxiliary revenues and external or restricted gifts and grants. The actual net surplus for 2012 was \$126.4 million (see the SRECNA summary table on page 7 of the MD&A). While the anticipated tuition and auxiliary revenue gains actually materialized, external funding fell short of budgeted expectations. In our opinion, this was caused by the continuing stagnation of the national economy and tightened federal budgets. For fiscal year 2013, general education funding from the State of Mississippi remains flat. In 2013, the IHL is expecting to receive a 0.86% increase in state funding for educational and general (E&G), or classroom purposes. This small increase equates to \$2.9 million System-wide. Once again, the IHL System will be relying upon increases in tuition and auxiliary revenues to provide the necessary funds for sustained excellence in its academic programs and student services. The IHL System anticipates receiving an additional \$56.0 million in new tuition revenue during 2013 due to a mixture of enrollment growth and general rate increases. In FY 2012 budgeted state appropriated revenues comprised approximately 19.9% of the IHL System's total budgeted revenues. In 2013, budgeted revenues are expected to only represent 18.2% of total IHL System revenues.

The IHL System maintains high credit ratings from Moody's (Aa3) and Standard & Poor's (AA-). Achieving and maintaining these high credit ratings provides the IHL System a higher degree of flexibility in securing capital funds on the most competitive terms. This flexibility, along with ongoing efforts toward revenue diversification and cost containment, will enable the IHL System to provide the necessary resources to support a level of excellence in service to students, patients, the research community, the State of Mississippi and the nation as a whole.

As a labor-intensive organization, the IHL System faces competitive pressures related to attracting and retaining faculty and staff. Moreover, consistent with the national landscape, the cost of the IHL System's health benefits for its employees continues to increase. The IHL System has in the past and will continue to take proactive steps to respond to these challenges of rising costs. An example of continued steps includes the preparation of three year business plans by the institutions.

While it is not possible at this time to predict the ultimate results, management believes that the IHL System's financial condition will remain relatively strong and stable into FY 2013 and beyond. Management at each institution has a proven track record of successfully adapting to this present economic environment while continuing to search for new opportunities to complement state support. The IHL System's financial goal, as always, is to deliver quality services to its customers and constituents while maintaining financial integrity.

Notes to Financial Statements June 30, 2012 and 2011

## (1) Summary of Significant Accounting Policies

## (a) Nature of Operations

Through its member universities, the State of Mississippi Institutions of Higher Learning (IHL System) serves the state, national and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge and by disseminating knowledge to the people of Mississippi and throughout the world.

## (b) Reporting Entity

The Mississippi Constitution was amended in 1943 to create a separate legal entity and establish a Board of Trustees of State Institutions of Higher Learning (Board). This constitutional Board provides management and control of Mississippi's system of universities. The Board meets monthly and oversees the eight public universities, the University of Mississippi Medical Center and various off-campus centers and locations throughout the state.

The current twelve Board members of the IHL System were appointed by the Governor and approved by the Senate for twelve year terms as follows: one from each of the seven congressional districts, one from each of the three Supreme Court Districts, and two appointed from the state-at-large. The Mississippi Constitution was amended in 2003 to change the length of terms and appointment districts for Board members. New appointments will occur from the three current Supreme Court districts for terms of nine years. The amendment provides for these new appointments and tenures to be gradually implemented. Full implementation occurs in 2012.

Each of the eight universities and the University of Mississippi Medical Center has established its own educational building corporation (a nonprofit corporation incorporated in the State of Mississippi) in accordance with Section 37-101-61 of the Mississippi Code Annotated of 1972. The purpose of these corporations is for the acquisition, construction and equipping of facilities and land for the various universities. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these educational building corporations are blended component units of the State of Mississippi Institutions of Higher Learning. These blended component units provide services entirely, or almost entirely, to their respective universities.

Notes to Financial Statements

June 30, 2012 and 2011

The following is a list of abbreviations used throughout the report for the member universities of the State of Mississippi Institutions of Higher Learning (collectively the IHL System):

ASU Alcorn State University
DSU Delta State University
JSU Jackson State University
MSU Mississippi State University
MUW Mississippi University for Women
MVSU Mississippi Valley State University

UM University of Mississippi

USM University of Southern Mississippi
UMMC University of Mississippi Medical Center
IHL Board Office Institutions of Higher Learning – System Office

MCVS Mississippi Commission for Volunteer Services (Off-campus entity)

The IHL System is considered a component unit of the State of Mississippi reporting entity.

The IHL System reports the following discretely presented component units, which also have separate stand alone audits performed, which can be obtained by requesting a copy from the finance department of each respective university below:

#### Mississippi State University Foundation, Inc.

The Mississippi State University Foundation, Inc. is a legally separate, tax-exempt not for profit entity established to solicit and manage funds for the benefit of Mississippi State University.

#### **University of Mississippi Foundation**

The University of Mississippi Foundation is a legally separate, tax-exempt not for profit nonstock corporation formed for the benefit of the University of Mississippi.

#### **University of Southern Mississippi Foundation**

The University of Southern Mississippi Foundation is a not for profit entity formed to provide support to the University of Southern Mississippi and its students.

These foundations are private nonprofit organizations that report under Financial Accounting Standards Board (FASB) standards, including FASB Statement No. 117, *Financial Statements of Non-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from Governmental Accounting Standards Board (GASB) revenue recognition criteria and presentation features. No modifications have been made to the foundations' financial information in the IHL System's financial reporting entity for these differences.

These foundations act primarily as fund-raising organizations to supplement the resources that are available to the respective universities in support of their programs. The governing body of each foundation is self-perpetuating and consists of graduates and friends of the respective universities. Although the respective universities do not control the timing or amount of receipts from the foundations, the majority of resources, or income thereon, that the foundations hold and invest are

Notes to Financial Statements
June 30, 2012 and 2011

restricted to the activities of the respective universities by the donors. Because these restricted resources held by the foundations can only be used by, or for the benefit of, the respective universities, these foundations are considered discretely presented component units of the IHL System.

The Mississippi State University Foundation, Inc., the University of Mississippi Foundation, and the University of Southern Mississippi Foundation each make distributions to their respective Universities for support. During the years ended June 30, 2012 and 2011, support distributions were as follows:

	2012	2011
Mississippi State University Foundation, Inc.	\$27,461,690	\$21,621,502
University of Mississippi Foundation	34,038,290	47,141,383
University of Southern Mississippi Foundation	9,801,749	6,974,473

#### (c) Basis of Presentation

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles as prescribed by the GASB. The IHL System's financial statements follow the "business-type activities" reporting which provides a comprehensive one-look at the IHL System's financial activities.

#### (d) Basis of Accounting

The financial statements of the IHL System have been prepared on the accrual basis whereby all revenues are recorded when earned and expenses are recorded when an obligation has been incurred. All significant transactions among departments, campuses and auxiliary units of the IHL System have been eliminated.

Grant and contract revenues, which are received or receivable from external sources, are recognized as revenues to the extent of related expenses or satisfaction of eligibility requirements. State appropriations are recognized as nonoperating revenues when eligibility requirements are satisfied.

In accordance with GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, the IHL System follows all applicable GASB pronouncements. In addition, the IHL System applies all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The IHL System has elected not to apply FASB pronouncements issued after November 30, 1989.

Notes to Financial Statements June 30, 2012 and 2011

## (e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates include the determination of the allowances for uncollectible accounts and contractual adjustments and estimated third-party payor settlements, included as other current assets and as other current liabilities, relating to the IHL System's patient services. In addition, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is a least a reasonable possibility that recorded estimates associated with these programs could change by a material amount in the near term.

Included in other noncurrent liabilities are unpaid claim liabilities relating to the IHL System's self-insured workers' compensation, unemployment compensation, and tort claims. The liabilities for these unpaid claims and loss adjustment expenses are determined using both evaluations of each claim and statistical analyses and represent the estimated ultimate net cost of all claims and expenses incurred through the end of the reporting period. The determinations of claims payable include estimates that are particularly susceptible to change in the near term. Management believes that liabilities established for these unpaid claims at June 30, 2012 and 2011 are adequate to cover the ultimate net cost of claims and contractual adjustments, but these liabilities are necessarily based upon estimates and, accordingly, the amount ultimately paid will be more or less than such estimates. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed, and any adjustments are reflected in operations currently.

The IHL System's investments are invested in various types of investment securities within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the IHL System's financial statements.

In connection with the preparation of the financial statements of the IHL System, management evaluated subsequent events through December 5, 2012 which was the date the financial statements were available to be issued.

## (f) Cash Equivalents

The IHL System considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

#### (g) Short-Term Investments

Short-term investments are investments that are not cash equivalents but mature within the next fiscal year.

Notes to Financial Statements

June 30, 2012 and 2011

#### (h) Accounts Receivable, Net

Accounts receivable consist of tuition and fee charges to students and patient accounts receivable at UMMC. Accounts receivable also include amounts due from federal and state governments, and nongovernmental sources, in connection with reimbursement of allowable expenses made pursuant to the IHL System's grants and contracts. Accounts receivable are recorded net of an allowance for doubtful accounts.

#### (i) Student Notes Receivable, Net

Student notes receivable consist of federal, state and institutional loans made to students for the purpose of paying tuition and fee charges. Loan balances expected to be paid during the next fiscal year are presented on the statement of net assets as current assets. Those balances that are either in deferment status or expected to be paid back beyond the next fiscal year are presented as noncurrent assets on the statement of net assets.

#### (j) Inventories

Inventories consist of bookstore, physical plant, agriculture, printing, central supply, food service supply, and various hospital inventories. These inventories are generally valued at the lower of cost or market, on the first-in, first-out (FIFO) basis.

## (k) Prepaid Expenses

Recorded items consist of expenditures that are related to projects, programs, activities, or revenues of future fiscal periods.

#### (1) Restricted Cash and Cash Equivalents and Restricted Short-Term Investments

Cash, cash equivalents and short-term investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statements of net assets.

#### (m) Endowment Investments

The IHL System's endowment investments are generally subject to the restrictions of donor gift instruments. They include donor restricted endowments, which are funds received from a donor with the restrictions that only the income is to be utilized or for which the donor has stipulated that the principal may be expended only after a stated period or upon the occurrence of a certain event, and funds functioning as endowments, which are funds established by the governing board to function similar to an endowment fund but may be fully expended at any time at the discretion of the governing board.

#### (n) Investments

Investments are reported at fair value. Unrealized gains (losses) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses and changes in net assets. Investments in partnerships for which there are no quoted market prices are valued at net asset value.

Notes to Financial Statements

June 30, 2012 and 2011

#### (o) Capital Assets

Capital assets are recorded at cost at the date of acquisition, or, if donated, at fair value at the date of donation. For movable property, the IHL System's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life greater than one year. Renovations to buildings and improvements other than buildings that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to the functional expenditure categories. See note 5 for additional details concerning useful lives and salvage values. The IHL System uses the composite method for library book depreciation if the books are considered to have a useful life of greater than one year. Expenditures for construction in progress are capitalized as incurred. Interest expense relating to construction is capitalized net of interest income earned on resources set aside for this purpose if material.

### (p) Accounts Payable and Accrued Liabilities

Recorded items consist of amounts owed to vendors, contractors, or accrued amounts such as interest, wages, and salaries.

# (q) Compensated Absences / Accrued Leave

Twelve-month employees earn annual personal leave at a rate of 12 hours per month for zero to three years of service; 14 hours per month for three to eight years of service; 16 hours per month for eight to fifteen years of service; and 18 hours per month for fifteen years of service and above.

Nine-month employees earn major medical leave at a rate of 13 1/3 hours per month for one month to three years of service; 14 1/5 hours per month for three to eight years of service; 15 2/5 hours per month for eight to fifteen years of service; and 16 hours per month for fifteen years of service and above.

There is no requirement that annual leave be taken, and there is no maximum accumulation. At termination, employees are paid up to 240 hours of accumulated leave. At retirement, employees are paid up to 240 hours of accumulated major medical leave.

# (r) Deferred Revenues

Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

#### (s) Deposits Refundable

Deposits refundable represent good faith deposits from students to reserve housing assignments, key deposits and post breakage deposits in the residence halls of the member universities of the IHL System.

Notes to Financial Statements

June 30, 2012 and 2011

#### (t) Noncurrent Liabilities

Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable and capital lease obligations; (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

#### (u) Government Advances Refundable

The IHL System participates in the Federal Perkins Loan and Nursing Loan Programs, which are funded through a combination of Federal and institutional resources. The portion of these programs that has been funded with Federal funds is ultimately refundable to the U.S. government upon the termination of IHL System's participation in the programs. The portion that would be refundable if the programs were terminated has been presented as other long-term liabilities and approximated \$61,745,000 and \$62,933,000 as of June 30, 2012 and 2011, respectively.

#### (v) Income Taxes

As state institutions of higher learning, the income of the IHL System is generally exempt from federal and state income taxes under Section 115(1) of the Internal Revenue Code; however, income generated from activities unrelated to the IHL System's exempt purpose is subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B).

#### (w) Classification of Revenues and Expenses

The IHL System has classified its revenues as either operating or nonoperating revenues according to the following criteria:

#### **Operating Revenues and Expenses**

Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition, net of scholarship discounts and allowances and bad debt expense, (2) sales and services education services and auxiliary enterprises (net of scholarship discounts and allowances), (3) Federal, state and local grants and contracts (non-Title IV financial aid) and Federal appropriations, if any, (4) interest on institutional student loans and other revenues, and (5) patient care revenues. Gifts (pledges) that are received on an installment basis are recorded at net present value. Examples of operating expenses include (1) employee compensation, benefits, and related expense; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, commodities (supplies) and contractual services; (4) professional fees; and (5) depreciation expenses related to certain capital assets.

#### **Nonoperating Revenues and Expenses**

Nonoperating revenues have the characteristics of nonexchange transactions. Nonoperating revenues include activities that have the characteristics of nonexchange transactions, including state appropriation for operations and capital uses, federal grants for financial aid, gifts, investment income, and other revenue sources that are defined as nonoperating revenues by GASB No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities

Notes to Financial Statements
June 30, 2012 and 2011

That Use Proprietary Fund Accounting, and GASB No. 34. Examples of nonoperating expenses include interest on capital asset related debt and bond expenses.

#### (x) Auxiliary Enterprise Activities

Auxiliary enterprises typically exist to furnish goods or services to students, faculty, or staff, and charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. One distinguishing characteristic of auxiliary enterprises is that they are managed as essentially self-supporting activities.

Auxiliary enterprises include residence halls, athletics, food services, bookstore, convenience store, laundry and faculty and staff housing. The general public may be served incidentally by auxiliary enterprises.

#### (y) Patient Care Revenues

UMMC's hospital and clinical service revenues are reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered, including contractual allowances and estimated retroactive adjustments under reimbursement programs with third-party payers, less an allowance for doubtful accounts. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Inpatient skilled nursing services are paid at prospectively determined per diem rates that are based upon patients' acuity. Certain inpatient nonacute services and defined medical education costs are paid based on a cost reimbursement methodology. UMMC is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports and audits thereof by the Medicare intermediary.

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology for certain services and at prospectively determined rates for all other services. UMMC is reimbursed for cost reimbursable services at tentative rates with final settlement determined after submission of annual cost reports by UMMC and audits thereof by Medicaid fiscal intermediary.

Revenue from the Medicare and Medicaid programs accounted for approximately 26.4% and 33.5%, respectively, of UMMC's net patient service revenues for the year ended June 30, 2012 and approximately 26.6% and 33.0%, respectively, for the year ended June 30, 2011.

UMMC also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to UMMC under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Notes to Financial Statements June 30, 2012 and 2011

The Centers for Medicare & Medicaid Services (CMS) have implemented provisions of the American Recovery and Reinvestment Act of 2009 that provide incentive payments for the meaningful use of certified electronic health record (HER) technology. CMS has defined meaningful use as meeting certain objectives and clinical quality measures based on current and updated technology capabilities over predetermined reporting periods as established by CMS. The Medicare HER incentive program provided annual incentive payments to eligible professionals, eligible hospitals, and critical access hospitals, as defined, that are meaningful users of certified HER technology. The Medicaid HER incentive program provides annual incentive payments to eligible professionals and hospitals for efforts to adopt, implement, and meaningfully use certified HER technology. UMMC utilizes a grant accounting model to recognize HER incentive revenues. UMMC records HER incentive revenue ratably throughout the incentive reporting period when it is reasonably assured that it will meet the meaningful use objectives for the required reporting period and that the grants will be received. The HER reporting period is based on the federal fiscal year, which runs from October 1 through September 30. UMMC received and recorded \$13,735,659 from Medicaid for HER incentive revenue for fiscal year ending June 30, 2012. This amount has been included in Other Operating Revenues.

#### (z) Hospital Reimbursement

The University Hospitals and Health System (UHHS) Medicare cost reports have been audited and settled by the fiscal intermediary through the cost reports filed for the year ended June 30, 2006 for the Jackson Campus and June 30, 2009 for the Holmes County facility.

UHHS routinely enters into consulting arrangements to re-open or amend Medicare cost reports for purposes of increasing Medicaid eligible days in the Medicare Disproportionate Share Hospital (DSH) calculation and to increase reimbursement for other programs. The ultimate disposition of any of these reviews is uncertain, thus the reimbursement effect cannot be reasonably estimated until settled by the fiscal intermediary. During fiscal year 2009, UHHS received approximately \$1.4 million in additional reimbursement due to these re-openings. While consulting engagements were entered into during subsequent fiscal years, no additional payments have been received to date.

### (aa) Scholarship Discounts and Allowances

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid, such as loans, funds provided to students as awarded by third parties and Federal Direct Lending, is accounted for as a third party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as scholarship allowances, which reduce operating revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash.

Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a University basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third party aid.

Notes to Financial Statements June 30, 2012 and 2011

#### (bb) Net Assets

The IHL System's net assets are classified as follows:

Invested in capital assets, net of related debt reflect the IHL System's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such debt is excluded from the calculation of invested in capital assets, net of related debt.

Restricted, nonexpendable net assets consist of endowment and similar type funds which donors or other outside sources have stipulated, as a condition of the gift instrument, the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted, expendable net assets include resources that the IHL System is legally or contractually obligated to spend in accordance with restrictions imposed by external parties. When both restricted and unrestricted resources are available for use, it is generally the University's policy to utilize restricted resources first, and then unrestricted resources as needed.

*Unrestricted* net assets represent resources derived from student tuition and fees, state appropriations, net patient service revenue, sales and services of educational activities and auxiliary enterprises. Auxiliary enterprises are substantially self-supporting activities that provide services for students, faculty, and staff. While unrestricted net assets may be designated for specific purposes by action of management or the Board, they are available for use at the discretion of the governing board, to meet current expenses for any purpose. Substantially all unrestricted net assets are designed for academic and research programs and initiatives, and capital programs.

#### (2) Cash and Investments

#### (a) Policies

#### Cash, Cash Equivalents and Short-term Investments

Investment policies as set forth by the IHL System Board of Trustees policy and state statute authorize the University to invest in demand deposits and interest-bearing time deposits such as savings accounts, certificates of deposit, money market funds, U.S. Treasury bills and notes, and repurchase agreements. Investment policy at the System is governed by State statute (Section 27-105-33, MS Code Ann. 1972) and the Uniform Management of Institutional Funds Act of 1998.

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 of the Mississippi Code Annotated (1972). Under this program, the University's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits. In the event of the failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Notes to Financial Statements June 30, 2012 and 2011

#### **Investments**

Investment policies as set forth by Board policy as authorized by Section 37-101-15, Mississippi Code Annotated (1972), authorize the universities to invest in equity securities, bonds and other securities. Investments are reported at fair value.

A summary of cash and investments as of June 30, 2012 and 2011 is as follows:

	_	2012	2011
Cash	\$	356,693,208	341,930,106
Restricted cash and cash equivalents		224,498,332	199,749,691
U.S. government agency obligations		235,416,105	189,410,824
U.S. treasury obligations		113,065,178	62,862,784
Certificates of deposit		71,175,750	96,628,645
Corporate bonds and notes		4,309,620	4,349,116
Commercial mortgage backed securities		4,057,633	3,802,801
Collateralized mortgage obligations		34,857,975	31,817,875
Municipal bonds		49,271,249	32,842,599
Money market funds		631,476	870,630
Fixed income mutual funds		28,539,462	35,899,105

Domestic equity securities		16,234,336	41,157,172
International equity mutual funds		24,775,281	24,567,516
Land grant principle		1,340,068	1,340,068
Domestic equity mutual funds		34,977,847	21,009,791
Equity hedge funds		28,049,120	20,356,412
Miscellaneous	_	23,687,834	19,259,769
Total	\$_	1,253,916,618	1,129,815,726

## (b) Custodial Credit Risk

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered with securities held by the counterparty's trust department or agent, but not held in the government's name. The IHL System had no investments exposed to custodial credit risk at June 30, 2012 and 2011.

### (c) Interest Rate Risk

Interest rate risk is defined as the risk a government may face should interest rate variances adversely affect the fair value of investments. The IHL System does not presently have a formal policy that addresses interest rate risk.

Notes to Financial Statements
June 30, 2012 and 2011

As of June 30, 2012 and 2011, the IHL System had the following investments subject to interest rate risk:

			2012			
	Years to maturity					
	Fair value	Less than 1	1 – 5	6 – 10	More than 10	
U.S. government

# (d) Credit Risk

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. The IHL System does not have a formal investment policy that addresses credit risk.

Notes to Financial Statements June 30, 2012 and 2011

As of June 30, 2012 and 2011, the IHL System had the following investments subject to credit risk:

	Fair value			
		2012	2011	
Credit rating:				
AAA	\$ 92.	,038,336	170,665,700	
Aaa	62.	,112,778	28,182,373	
Aa1			32,603	
Aa2	22.	,994,453	5,722,185	
Aa3		938,676	_	
AA	97.	,823,730	22,158,914	
A1		28,484	6,998,881

Baa3		7,187	_	
BBB	2.	,146,147	2,461,732	
BB	2.	,571,463	3,112,778	
C		377,404	563,925	
Rating not available	70.	,745,455	56,125,038	
Total	\$357.	,904,632	300,083,142	

The credit risk ratings listed above are issued upon standards set by Standard and Poor's or Moody's Ratings Services.

## (e) Concentration of Credit Risk

Concentration of credit risk is defined by GASB Statement No. 40 as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The IHL System does not presently have a formal policy that addresses concentration of credit risk.

As of June 30, 2012 and 2011, the IHL System had the following issuers holding investments that exceeded 5% of total investments.

	2012				
Issuer	 Fair value	Percentage			
Federal Home Loan Bank notes	\$ 68,227,173	10.11%			
Federal National Mortgage Association notes	37,385,550	5.54			

Notes to Financial Statements

June 30, 2012 and 2011

	20	11
Issuer	Fair value	Percentage
Federal Home Loan Bank notes	\$ 56,625,526	9.63%
Federal National Mortgage Association notes	29,953,366	5.09

## (f) Foreign Currency Risk

Foreign currency risk is defined as the risk that changes in exchange rates will adversely affect the fair value of an investment. The IHL System does not presently have a formal policy that addresses foreign currency risk. The IHL System's exposure to foreign currency risk is limited to investments in global or pooled non-U.S. equity mutual funds which approximated \$21,675,331 and \$25,819,541 at June 30, 2012 and 2011, respectively.

#### (3) Accounts Receivable

Accounts receivable consisted of the following at June 30, 2012 and 2011:

Type of receivable		2012	2011
Student tuition	\$	66,910,520	63,188,999
Auxiliary enterprises and other operating activities		24,936,137	21,448,130
Contributions and gifts		10,887,654	6,508,874
Federal, state, and private grants and contracts		100,469,871	112,022,811
State appropriation		11,830,440	13,950,172
Accrued interest		2,598,301	4,247,388
Patient income		1,856,612,322	1,721,798,809
Other	_	46,770,084	19,585,071
Total account receivable		2,121,015,329	1,962,750,254
Less bad debt provision		(1,811,856,069)	(1,669,060,185)
Net accounts receivable	\$	309,159,260	293,690,069

As a component unit of the State of Mississippi, the IHL System is precluded by statute from discharging amounts owed. Accordingly, gross accounts receivables and the allowance for doubtful accounts include amounts considered to be 100% uncollectible and fully reserved in prior years.

Notes to Financial Statements
June 30, 2012 and 2011

## (4) Notes Receivable from Students

Notes receivable from students are payable in installments over a period of up to ten years, commencing three to twelve months from the date of separation from one of the IHL System's institutions.

The following is a schedule of interest rates and unpaid balances for the different types of notes receivable held by the IHL System as of June 30, 2012 and 2011:

	Interest rates		June 30, 2012	Current portion	Noncurrent portion
Perkins student loans	3% to 9%	\$	74,386,819	8,330,883	66,055,936
Institutional loans	0% to 10%		51,486,396	7,868,900	43,617,496
Nursing student loans	3% to 9%		815,558	82,770	732,788
Dental student loans	3% to 9%		323,642	40,347	283,295
Medical student loans	3% to 9%		188,710	12,722	175,988
Other federal loans	3% to 9%	_	3,601,224	2,061,551	1,539,673
Total notes receivable			130,802,349	18,397,173	112,405,176
Less allowance for doubtful accounts		_	(17,984,773)	(4,168,064)	(13,816,709)
Net notes receivable		\$	112,817,576	14,229,109	98,588,467
	Interest rates		June 30, 2011	Current portion	Noncurrent portion
Perkins student loans	3% to 9%	\$	75,951,178	8,780,506	67,170,672
Institutional loans	0% to 10%		49,982,703	6,341,529	43,641,174
Nursing student loans	3% to 9%		712,966	75,910	637,056
Dental student loans	3% to 9%		365,486	39,189	326,297
Medical student loans	3% to 9%		112,759	13,791	98,968
Other federal loans	3% to 9%	_	3,399,864	1,947,648	1,452,216
Total notes receivable			130,524,956	17,198,573	113,326,383

Equipment		382,426,443	56,270,115	(23,974,536)	414,722,022
Library books	_	261,080,809	14,347,859	(870,439)	274,558,229
Total accumulated					
depreciation	_	1,307,493,996	129,645,671	(31,817,880)	1,405,321,787
Net capital assets	\$_	2,699,713,429	388,931,173	(240,559,159)	2,848,085,443

As of June 30, 2012 and 2011, capital assets included assets under capital leases with an original cost basis of approximately \$15,314,000 and \$32,377,000, respectively and accumulated amortization of approximately \$6,659,000 and \$14,362,000, respectively. During fiscal year 2012 the State of Mississippi Department of Finance and Administration transferred the Mississippi Veterans Memorial Stadium to Jackson State University with existing accumulated depreciation of approximately \$6.9 million.

Depreciation is computed on a straight-line basis with the exception of library books, for which depreciation is computed using a composite method. The following useful life, salvage values, and capitalization thresholds are used to compute depreciation.

Capital assets	Estimated useful life	Salvage value	Capitalization threshold
Buildings	40 Years	20%	50,000
Improvements other than buildings	20 Years	20%	25,000
Equipment	3-15 Years	1 - 10%	5,000
Library books	10 Years		

Notes to Financial Statements

June 30, 2012 and 2011

## (6) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities as of June 30, 2012 and 2011 are as follows:

	_	2012	2011
Payable to vendors and contractors	\$	78,427,807	77,647,156
Accrued salaries, wages and employee withholdings		79,912,716	65,090,801
Accrued interest		4,931,490	4,554,801
Other	_	6,224,239	2,865,584
Total	\$	169,496,252	150,158,342

All amounts are considered current and expected to be settled within one year.

#### (7) Deferred Revenues

Deferred revenues as of June 30, 2012 and 2011 are as follows:

	_	2012	2011
Unearned summer school revenue	\$	37,309,756	31,969,108
Unearned grants and contract revenue		19,460,174	12,061,163
Other, principally athletic activities		25,065,518	14,735,620
Total	\$_	81,835,448	58,765,891

All amounts are considered current and will be fully recognized within one year.

### (8) Long-Term Liabilities

Long-term liabilities of the IHL System consists of notes and bonds payable, capital lease obligations and certain other liabilities that are expected to be liquidated at least one year from June 30, 2012 and 2011, respectively. The various leases cover a period not to exceed five years. The IHL System has the option to prepay all outstanding obligations less any unearned interest to fully satisfy the obligation. There is also a fiscal funding addendum stating that if funds are not appropriated for periodic payment for any future fiscal period, the lessee will not be obligated to pay the remainder of the total payments due beyond the end of the current fiscal period. Other long-term liabilities and notes payable consist of accrued leave liabilities, deposits refundable, notes payable and other liabilities (government advance refundables, self-insured workers compensation, and tort claims).

Information regarding original issue amounts, interest rates and maturity dates for bonds, notes and capital leases relative to the long-term liabilities for each of the universities within the IHL System as of June 30, 2012 and 2011, is listed in the following schedule.

Notes to Financial Statements June 30, 2012 and 2011

### (a) Delta State University

#### **Capital Lease Transaction**

Delta State University has entered into a Lease Purchase Agreement with Statesman Housing LLC (SHL) for the use of a 362 bed residence hall and a 32 unit apartment complex located on the DSU campus to house students, faculty and staff, starting in August 2010. Mississippi Business Finance Corporation (MBFC) issued \$17,065,000 MBFC Revenue Bonds and \$175,000 MBFC Taxable Revenue Bonds to build the facilities, and SHL will utilize the lease payments from DSU to pay the debt for the building. SHL will make principal payments annually starting September 1, 2012 and ending June 1, 2039. The lease payments are \$172,500 to \$530,000 to be submitted semiannually on March 1 and September 1, starting September 1, 2011. This includes interest of 4.21% to 4.81% variable rate. Upon expiration of the 29 year lease on March 1, 2039 the University has the right to purchase the Residence Hall and Apartment Complex for the sum of One Dollar (\$1).

### (b) Jackson State University

#### **Defeased Bonds**

During 2010 and in prior years, Jackson State University Educational Building Corporation (JSUEBC) defeased certain outstanding bonds by depositing the new proceeds of refunding bonds and additional monies from debt service funds in irrevocable trusts to be used solely for satisfying all remaining principal and interest payments on defeased bonds. Accordingly, for financial reporting purposes the defeased bonds and related trust accounts are not included in the financial statements. On March 1, 2011, the previously defeased 2004-B Bond was paid in its entirety from escrowed funds in the amount of \$24,888,247. At June 30, 2012, approximately \$36,090,099 was held in irrevocable trusts for outstanding bonds (including prior years' refundings) which are considered defeased.

#### **Interest Rate Exchange Agreements (Swaps)**

To lower exposure to rising interest rates, during FY 2009 JSUEBC entered into an interest rate swap agreement with a notional amount of \$44,030,000 in order to hedge the interest rate on its Series 2007 bonds. As of the trade date, September 11, 2008, the interest rate swap agreement was fixed at a rate considered off-market and JSUEBC received an upfront payment of \$1,095,000, which was accounted for as a borrowing liability that was to be repaid over the life of the swap agreement once it becomes effective. The effective date of the swap agreement related to the Series 2007 bonds is March 1, 2015, at which time JSUEBC will pay the counterparty at a fixed rate of 5% and receive a variable rate indexed to the SIFMA Municipal Swap Index rate. This swap agreement expires on March 1, 2034 and interest payments are settled semi-annually.

In June 2008, the GASB issued GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, which became effective for the University for the fiscal year beginning July 1, 2009. This statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments and specifically requires governments to measure most derivative instruments at fair value in their financial statements that are prepared using the economic resources measurement focus and the accrual basis of accounting. The new standard provides specific criteria that governments are to use to determine

Notes to Financial Statements June 30, 2012 and 2011

whether a derivative instrument will result in an effective hedge. Changes in fair value for effective hedges that are achieved with derivative instruments will be recorded in the reporting period to which they relate. The changes in fair value of these hedging derivative instruments do not affect current investment revenue, but are instead reported as deferrals in the statement of net assets. Derivative instruments that either do not meet the criteria for an effective hedge or are associated with investments that are already reported at fair value are classified as investment derivative instruments for financial reporting purposes. Changes in fair value of those derivative instruments are reported as part of investment revenue in the current reporting period. JSU adopted the provisions of this statement during 2010 and as a result measured the fair value of the swap agreement which is carried in other noncurrent assets and which approximated \$10,517,695 and \$3,612,183 as of June 30, 2012 and 2011, respectively. Management also determined that the swap agreement was an effective hedge as of June 30, 2012 and 2011.

The fair value of the swap agreement was calculated by the counterparty using systems derived from both proprietary models as of a given date based on certain assumptions regarding past, present and further market conditions and certain financial information from sources that the counterparty believes to be reliable.

JSUEBC is exposed to credit risk in the amount of the swap agreement's fair value of \$10.5 million and \$3.6 million as of June 30, 2012 and 2011, respectively. To mitigate the potential credit risk, the interest rate swap agreement includes provisions for collateral thresholds and transfer amounts that correspond to the credit rating of the swap counterparty's senior unsecured debt. The debt of the counterparty was rated Aa2 by Moody's Investors and AA – by Standard & Poor's as of June 30, 2012 and 2011. Any required collateralizations will be in the form of U.S. government securities and posted with a third-party custodian.

In addition, JSUEBC may be exposed to certain other risks, including interest rate risk, basis risk, market-access risk and termination risk, on the interest rate swap's effective date of March 1, 2015 in the event the Series 2007 bonds cannot be successfully remarketed or remarketed at terms different than currently anticipated in the hedging strategy.

JSUEBC or the counterparty may terminate the interest rate swap agreement if the other party fails to perform under the terms of the contract. If at the time of termination, the fair value of the interest rate swap agreement is negative, JSUEBC would be liable to the counterparty for a payment equal to the fair value of the interest rate swap agreement.

The upfront payment of \$1,095,000 received by JSUEBC and accounted for as an other borrowing liability is repayable over the life of the interest rate swap agreement beginning on its respective effective date based upon an imputed portion of the fixed rate payor settlements. This other borrowing accrues interest at a discount rate of approximately 4.60% annually and accrued interest as of June 30, 2012 approximated \$181,405.

#### (c) Mississippi State University

On July 28, 2011, the University issued \$54,370,000 in Educational Building Corporation revenue and refunding bonds, Series 2011 with interest rates ranging from 2.00% to 5.00%. The University utilized a portion of these proceeds to defease \$8,940,000 of the outstanding EBC-Revenue Bonds,

Notes to Financial Statements June 30, 2012 and 2011

Series 2001. The balance of the proceeds (\$45,990,000) funded the construction of two new student housing facilities. As a result of the refunding, the University reduced its debt service requirement by \$1,352,050 over the next 15 years and obtained an economic gain of \$954,015. The bonds are scheduled to be retired in full in August of 2041.

# (d) University of Mississippi

On October 26, 2011, the University of Mississippi Educational Building Corporation issued bonds totaling \$27,995,000, with an additional premium of approximately \$2.4 million, (Series 2011) for student housing construction. Semi-annual interest rates range from 2.0% to 5.0%. The bonds are scheduled to be retired in full in October of 2031. As part of this bond issuance, all \$4,220,000 of outstanding series 2002 bonds were called and redeemed on June 1, 2012.

# (e) University of Mississippi Medical Center

On April 12, 2012, the University of Mississippi Medical Center Building Corporation issued \$51,860,000 and \$53,390,000 of Series 2012A revenue bonds and 2012B taxable revenue bonds respectively. The 2012B taxable revenue bonds were issued with an additional premium of approximately \$1.3 million. The purpose of these revenue bonds is to finance capital expenditures related to the expansion, renovation, furnishing and equipping of existing and new healthcare, education, and research facilities for the University of Mississippi Medical Center. The Series 2012A revenue bonds bear interest rates of 4.0% to 5.0% with interest due semiannually on June 1 and December 1 of each year beginning June 1, 20112. Principal matures on June 1, 2038 through 2041. The Series B taxable revenue bonds bear interest rates of 4.064% to 4.822% with interest due semiannually on June 1 and December 1 of each year beginning June 1, 2012. Principal matures June 1, 2025 through 2038.

# (10) Operating Leases

Leased property under operating leases is composed of office rent, land, computer software and equipment. The following is a schedule by year of the future minimum rental payments required under noncancelable operating leases for the next five years:

	_	Amount
Year ending June 30:		
2013	\$	17,464,605
2014		14,014,092
2015		12,269,582
2016		11,648,008
2017		10,615,919
2018 - 2022		37,773,465
2023 - 2027		38,170,655
2028 - 2032	_	32,306,968
Total minimum payments		
required	\$	174,263,294

The total rental expense for all operating leases, except those with terms of a month or less that were not renewed, for the years ending June 30, 2012 and 2011 approximated \$23,349,733 and \$20,224,567, respectively.

# (11) Construction Commitments and Financing

The IHL System has contracted for various construction projects as of June 30, 2012 and 2011. Estimated costs to complete the various projects and the sources of anticipated funding are presented below:

	2012								
	-			Fund	ed by

#### (12) Donor Restricted Endowments

The net appreciation on investments of donor restricted endowments that is available for authorization for expenditure approximated \$37,611,000 and \$42,705,000 as of June 30, 2012 and 2011, respectively. These amounts are included in the accompanying statement of net assets in "net assets – expendable for other purposes", and "net assets – expendable for scholarships and fellowships".

Most endowments operate on the total-return concept as permitted by the Uniform Management of Institutional Funds Act (Sections 79-11-601 through 79-11-617, MS Code, Ann. 1972) as enacted in 1998. The annual spending rate for these endowments is 5% of the three-year moving average market value.

#### (13) Pension Plan

#### (a) Plan Description

The IHL System participates in either the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan or the Optional Retirement Plan (ORP), a multiple-employer defined contribution plan established in 1990. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to the Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

#### (b) Vesting Period

In 2007, the Mississippi Legislature amended the PERS Plan to change the vesting period from four to eight years for members who entered the IHL System after July 1, 2007. A member who entered

#### Notes to Financial Statements

June 30, 2012 and 2011

the IHL System prior to July 1, 2007 is still subject to the four year vesting period provided that the member does not subsequently refund their account balance.

### (c) Funding Policy

PERS members are required to contribute 9% of their annual salary and the institution is required to contribute at an actuarially determined rate. The actuarially determined rate was 12% of annual covered payroll at June 30, 2012 and 2011. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The IHL System's contributions to PERS for the years ending June 30, 2012, 2011, and 2010 were \$113,338,752, \$104,773,765, and \$101,915,820, respectively. Such contributions equaled the required contributions for each respective year.

The membership of the ORP is composed of teachers and administrators of the IHL System appointed or employed on or after July 1, 1990, who elect to participate in ORP and reject membership in PERS. The IHL System's contributions to ORP for the years ending June 30, 2012, 2011, and 2010, were \$36,217,793, \$32,785,226, and \$31,104,963, respectively, which equaled its required contributions for each respective year.

#### (14) Self-Insured Worker's Compensation Fund

The IHL System participates in the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund (the WC Fund). The WC Fund provides a mechanism for the institutions to fund and budget for the costs of providing worker compensation benefits to eligible employees. The WC Fund does not pay benefits directly to employees. Funds are set aside in trust, and a third-party administrator is utilized to distribute the benefits to eligible employees. Total assets and liabilities related to this activity approximated \$21,579,897 and \$21,579,897, at June 30, 2012, respectively, and approximated \$19,229,980 and \$19,229,980, at June 30, 2011, respectively, and are included in the statement of net assets.

A professionally licensed actuarial firm was contracted to establish a liability for both reported and unreported insured events, which includes estimates of future payments of losses. The difference between the assets and liabilities of the fund is not expected to impact the WC Fund's ability to pay claims.

In order to minimize the amount of risk and in accordance with self-insurance general practices, the WC Fund purchases excess loss insurance to cover risks exceeding \$1,000,000 per occurrence. Excess loss insurance premiums for the years ended June 30, 2012 and 2011 were approximately \$343,000 and \$324,000, respectively. Excess loss insurance does not discharge the WC Fund from its primary liability to cover the IHL System's claims. Consequently, failure of the insurer to honor its obligation could result in losses to the WC Fund.

#### Notes to Financial Statements

June 30, 2012 and 2011

The following represents changes in the unpaid claims liabilities for the IHL System's portion of the WC Fund for the years ended June 30, 2012, 2011, and 2010:

		2012	2011	2010
Accrued claims at beginning of year	\$	19,082,000	17,375,000	14,664,000
Incurred claims: Provision for insured events of the current year		7,925,000	7,904,000	9,254,000
Decrease in provision for insured events of prior years	_	(990,000)	(464,000)	3,000
Total incurred claims and claims adjustment expenses	_	6,935,000	7,440,000	9,257,000
Claim payments: Claims attributable to insured events of the current year Claims attributable to insured events		1,537,000	1,562,000	2,556,000
of prior years	_	3,052,000	4,171,000	3,990,000
Total payments		4,589,000	5,733,000	6,546,000
Total accrued claims at end of year	\$ _	21,428,000	19,082,000	17,375,000

Total accrued claims, included in other liabilities, are presented at their present value using a discount rate of 3.0%. The discount approximated \$2,596,000 and \$2,201,000 as of June 30, 2012 and 2011, respectively.

#### (15) Unemployment Trust Fund

The IHL System participates in a self-funded Unemployment Trust Fund (the Unemployment Fund). The Unemployment Fund provides a mechanism for the IHL System to fund and budget for the costs of providing unemployment benefits to eligible former employees. The Unemployment Fund does not pay benefits directly to former employees. Rather, it reimburses the Mississippi Department of Employment Security for benefits it pays directly to former IHL System employees. The assets and liabilities, included in other liabilities, related to this activity equaled \$2,225,916 and \$2,938,686 at June 30, 2012, respectively and approximated \$1,965,597 and \$2,656,113 at June 30, 2011, approximated \$1,714,549 and \$2,275,838 at June 30, 2010, and approximated \$2,358,000 and \$2,129,000 at June 30, 2009, respectively, and are included in the statement of net assets.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis of the Unemployment Fund as of June 30, 2012 and 2011. The actuarial firm recommended a minimum funding level of \$2,800,000 million as of June 30, 2012. They concluded that the actual assets of the Unemployment Fund, which equaled \$2,225,916 at June 30, 2012, were lower than the recommended minimum. This fact would be considered by the IHL when determining future funding rates.

#### Notes to Financial Statements

June 30, 2012 and 2011

### (16) Tort Liability Fund and Other Contingencies

The IHL System participates in the State Institutions of Higher Learning Tort Liability Fund (the IHL Tort Fund). In accordance with Section 11-46-1, et seq., Mississippi Code Annotated (1972), the Mississippi Tort Claims Board has authorized the Board of Trustees of State Institutions of Higher Learning (IHL Board) to establish a fund in order to self-insure a certain portion of its liability under the Mississippi Tort Claims Act and professional liability claims. The IHL Board established the IHL Tort Fund to provide self-insurance.

Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against public institutions. A maximum limit of liability of \$500,000 per occurrence is currently permissible.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis of the IHL Tort Fund as of June 30, 2012 and 2011. Total assets and liabilities related to this activity approximated \$14,175,979 and \$14,748,142 at June 30, 2012, respectively, and approximated \$12,867,086 and \$11,798,397 at June 30, 2011, respectively, and are included in the statement of net assets.

The following represents changes in the unpaid claims liabilities for the IHL System's portion of the IHL Tort Fund during the period ended June 30, 2012, 2011, and 2010:

	_	2012	2011	2010
Accrued claims at beginning of year	\$	11,746,000	11,566,000	10,892,000
Incurred claims: Provision for insured events of the				
current year Increase (decrease) in provision for		3,113,000	2,856,000	2,401,000
insured events of prior years	_	1,302,000	(1,027,000)	(626,000)
Total incurred claims and claims adjustment expense	_	4,415,000	1,829,000	1,775,000
Claims paid:				
Claims attributable to insured events of the current year Claims attributable to insured events of		98,000	63,000	22,000
prior years	_	1,375,000	1,586,000	1,079,000
Total payments		1,473,000	1,649,000	1,101,000
Total accrued claims at end of year	\$_	14,688,000	11,746,000	11,566,000

Total accrued claims, included in other liabilities, are presented at their present value using a discount rate of 3.0%. The discount approximated \$1,797,000 and \$1,291,000 as of June 30, 2012 and 2011, respectively.

In addition to claims covered by the IHL Tort Fund and the UMMC Tort Fund (described more fully below), the IHL System is defendant in various other legal matters occurring in the normal course of

#### Notes to Financial Statements

June 30, 2012 and 2011

business activities. Management, with the advice of legal counsel, is of the opinion that the ultimate resolution of these matters will not have a material adverse impact on the IHL System's financial statements.

#### (17) University of Mississippi Medical Center Tort Claims Fund

The University of Mississippi Medical Center participates in the University of Mississippi Medical Center Tort Claims Fund (UMMC Tort Claims Fund). In accordance with Section 11-46-1, et seq., Mississippi Code Annotated (1972), the Mississippi Tort Claims Board has authorized the Board of Trustees of the IHL System to establish a fund to self-insure a certain portion of its liability under the Mississippi Tort Claims Act.

Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against public institutions. A maximum limit of liability of \$500,000 per occurrence is currently permissible.

The Board of Trustees of Higher Learning has established a Medical Center Tort Claims fund to pay claims up to the maximum liability limits described above. Losses from professional and tort liability claims of the Medical Center are the responsibility of the Medical Center Tort Claims Fund.

Total assets and liabilities related to this activity approximated \$41,914,057 and \$34,352,520 at June 30, 2012 and approximately \$38,956,169 and \$35,072,061 at June 30, 2011, respectively, and are included in the Statement of Net Assets.

A professionally licensed actuarial firm was contracted to perform an actuarial analysis to establish a liability for both reported, and unreported insured events, which includes estimates of future payments of losses.

### Notes to Financial Statements

June 30, 2012 and 2011

The following represents changes in the unpaid claims liabilities for the IHL System's portion of the UMMC Tort Claims Fund for the years ended June 30, 2012, 2011, and 2010:

	_	2012	2011	2010
Accrued claims at beginning of year	\$	32,846,000	30,119,000	26,987,000
Incurred claims: Provision for insured events of the				
current year Decrease in provision for insured		7,424,000	7,928,000	8,567,000
events of prior years	_	(2,286,000)	(690,000)	877,000
Total incurred claims	_	5,138,000	7,238,000	9,444,000
Payments: Claims attributable to insured events of				
the current year Claims attributable to insured events of		520,347	579,000	448,000
prior years	_	4,738,653	3,932,000	5,864,000
Total payments	_	5,259,000	4,511,000	6,312,000
Total accrued claims at end of year	\$ _	32,725,000	32,846,000	30,119,000

At June 30, 2012, unpaid claims, included in other liabilities, of \$36,409,000 are presented at their net present value of \$32,725,000.

#### Notes to Financial Statements

June 30, 2012 and 2011

# (18) Significant Disclosures for the Discretely Presented Component Unit of the IHL System – Mississippi State University Foundation, Inc.

#### (a) Significant Accounting Policies

#### (i) Organization

Mississippi State University Foundation, Inc. (MSUF) is a not-for-profit entity established to solicit and manage funds for the benefit of Mississippi State University. MSUF also manages funds for affiliates of MSU, including MSU Alumni Association, MSU Alumni Foundation, MSU Bulldog Club, Inc. and MSU Bulldog Foundation.

#### (ii) Basis of Accounting

The MSUF financial statements include MSUF and the Mississippi State Investment Pool in which MSUF has a significant financial interest and control. These financial statements, which are presented on the accrual basis of accounting and follow Financial Accounting Standards Board (FASB) statements, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three classes – permanently restricted, temporarily restricted or unrestricted as follows:

Permanently restricted net assets – net assets subject to donor-imposed stipulations that they be maintained permanently by MSUF. Generally, the donor of these assets permits MSUF to use all or part of the income earned on related investments for general or specific purposes in support of MSU.

*Temporarily restricted net assets* – net assets subject to donor-imposed stipulations that will be met by actions of MSUF and/or the passage of time.

*Unrestricted net assets* – net assets which represent resources generated from operations or that are not subject to donor-imposed stipulations.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenditures are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributed goods and services are recorded as revenues and expenses in the statement of activities at estimated fair value.

86

#### Notes to Financial Statements

June 30, 2012 and 2011

#### (iii) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

An estimate that is particularly susceptible to significant change in the near term relates to the allowance for uncollectible pledges.

MSUF's investments are invested in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in MSUF's financial statements.

#### (iv) Fair Value Measurements

The carrying amounts reported in the statement of financial position for cash, other receivables, and accounts payable and accrued liabilities approximate fair value because of the immediate or short-term maturities of these financial instruments. The carrying amount of pledges receivable approximates fair value as they are presented on a discounted basis. The fair value of the notes receivable and note payable has been estimated using current interest rates and approximate the carrying amounts at June 30, 2012. Investments and amounts due from externally managed trusts are reflected in the accompanying financial statements at fair value. The fair value of annuity obligations approximates carrying value at June 30, 2012 due to discount rates and actuarial assumptions used in the calculation of MSUF's liability.

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that MSUF has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

#### Notes to Financial Statements

June 30, 2012 and 2011

Shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable, are classified as Level 2 or Level 3. Because the net asset value reported by each fund is used as a practical expedient to estimate the fair value of MSUF's interest therein, its classification in Level 2 is based on MSUF's ability to redeem its interest at or near the date of the statement of financial position. If the interest can be redeemed in the near term, the investment is classified in Level 2, otherwise the investment is classified in Level 3. The classification of investments in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

#### (v) Investments

#### Overall Investment Objective

The overall investment objective of MSUF is to invest its assets in a prudent manner that will achieve a long-term rate of return sufficient to fund donor-designated directives and maintain each fund's inflation-adjusted impact. MSUF diversifies its investments among various asset classes incorporating multiple strategies and managers. Major investment decisions are authorized by MSUF's Investment Committee, which oversees its investment program in accordance with an established investment policy.

#### Mississippi State Investment Pool

MSUF, MSU, the MSU Alumni Foundation, and the MSU Bulldog Club, Inc. are participants in a joint venture, the Mississippi State Investment Pool (MSIP), whereby certain assets are pooled for investment purposes. MSUF is the investment pool's managing member, manages the assets of the pool, and maintains separate accounts for each participant. Investment income, gains and losses, and expenses of the MSIP are allocated to each participant based on their share of ownership of the MSIP. Due to MSUF's significant financial interest in and control of the MSIP, MSUF has consolidated the MSIP reflecting the noncontrolling interests of the other three participants in its financial statements. As of June 30, 2012 and 2011, MSUF's financial statements include \$42,749,038 and \$42,200,866, respectively, for their noncontrolling share within investments and unrestricted net assets related to noncontrolling interests. MSUF recorded \$1,032,305 of losses and \$7,703,119 of gains associated with these investments in fiscal 2012 and 2011, respectively, which is reported in net investment income.

#### Allocation of Investment Strategies

In addition to traditional stocks and fixed income securities, MSUF may also hold shares or units in alternative investment vehicles involving hedged, private equity, and real asset strategies. Hedged strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Funds with hedged strategies generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges and other instruments, and are valued accordingly. Private equity funds employ buyout and venture capital strategies and focus on investments in turn-around situations. Real asset strategies include natural resources and contributed properties held for investment. Natural

#### Notes to Financial Statements

June 30, 2012 and 2011

resources funds generally hold interests in timber management organizations and master limited partnerships. Private equity and real asset strategies therefore often require the estimation of fair values by the fund managers in the absence of readily determinable market values. Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held. Moreover, the fair values of MSUF's interests in shares or units of these funds, because of liquidity and capital commitment terms that vary depending on the specific fund or partnership agreement, may differ from the fair value of the funds' underlying net assets. Cash held for reinvestment consists of liquid short-term investments held by the investment pool.

### Basis of Reporting

Investments are reported at estimated fair value. If an investment is held directly by MSUF and an active market with quoted prices exists, the market price of an identical security is used as reported fair value. Reported fair values for shares in mutual funds registered with the SEC are based on share prices reported by the funds as of the last business day of the fiscal year. MSUF's interests in alternative investment funds are generally reported at the net asset value (NAV) reported by the fund managers, which is used a practical expedient to estimate the fair value of MSUF's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2012, MSUF had no plans or intentions to sell investments at amounts different from NAV. Properties held for investment are reported at estimated fair value based on periodic appraisals conducted by third-party appraisers.

### vi) Pledges

All unconditional promises to give are recorded at their estimated realizable value on a discounted basis.

Externally managed trusts consist of irrevocable charitable lead trusts, charitable remainder trusts, and perpetual trusts whereby MSUF is the beneficiary, not the trustee. MSUF records these trusts, after discovery of their existence, at the present value of the estimated future cash receipts from the assets of the trust.

### Notes to Financial Statements

June 30, 2012 and 2011

### (b) Investments

Investments are summarized as follows at June 30, 2012 and 2011:

	2012	2011
Fixed income securities	\$ 70,457,688	67,112,840
Equity securities	142,202,640	147,675,903
Hedged funds	66,049,643	64,247,790
Private equity and venture capital funds	5,082,762	4,309,013
Natural resources	18,537,182	16,521,777
Short-term investments	2,492,845	7,838,602
Contributed properties held for investment	11,726,801	14,723,873
Cash surrender value of life insurance	1,733,877	1,658,374
	\$ 318,283,438	324,088,172

Total investments include a portion of an investment vehicle controlled by MSUF (see note (a)(v)) that totaled \$42,749,038 and \$45,200,866 as of June 30, 2012 and 2011, respectively.

The following schedule summarizes net investment income in the statements of activities for the year ended June 30, 2012 and 2011:

	_	2012	2011
Dividends and interest (net of expenses of \$697,465 and			
\$819,488, respectively)	\$	6,997,944	7,215,742
Net realized and unrealized gains	_	(8,850,405)	44,858,253
	\$	(1,852,461)	52,073,995

### Notes to Financial Statements

Present value of amounts due from externally managed trusts \$	_	34,343,134	_	34,343,134		

- (1) Some of the hedge fund investments with redemption restrictions allow early redemption for specified fees. The terms and conditions upon which an investor may redeem an investment vary, usually with the majority requiring 15 to 180 days notice after the initial lock up period, which may be monthly, quarterly, or annually. At June 30, 2012 and 2011, MSUF had no alternative investment funds for which an otherwise redeemable investment was not redeemable.
- (2) These funds have ten-year terms or twelve-year terms, with extensions of one to four years, and are expected to liquidate prior to fund closing; future commitments to these funds approximate \$10,600,000 and \$12,000,000 at June 30, 2012 and 2009, respectively. Private equity and venture capital investments are generally made through limited partnerships. Under the terms of such agreements, the MSIP may be required to provide additional funding when capital or liquidity calls are made by fund managers. These partnerships have a limited existence, and they may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, or other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. MSUF cannot anticipate such changes because they generally arise from unforeseeable events, but should they occur they could reduce liquidity or originally anticipated investment returns. Accordingly, the timing and amount of future capital or liquidity calls in any particular future year are uncertain.
- (3) One partnership expected to terminate in May 2019, but is subject to two 2-year extensions. The master limited partnership allows for monthly redemptions with 30 days notice.
- (4) Bulldog Forest properties may be held in perpetuity or liquidated at the MSUF's discretion. Other properties are for immediate sale.
- (5) MSUF currently has no plans to surrender these policies prior to maturity, but cash would be realized in a minimal amount of time if the insurance policy is cancelled.

#### Notes to Financial Statements

June 30, 2012 and 2011

The following table presents MSUF's activities for the year ended June 30, 2012 and 2011 for investments classified in Level 3:

#### (f) Endowment

MSUF's endowment consists of approximately 1000 individual donor-restricted endowment funds established for a variety of purposes. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors of MSUF (the MSUF Board) to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

#### (i) Interpretations of Relevant Law

June 30, 2011 \$ 64,247,790

The MSUF Board has interpreted the State of Mississippi Code of 1972 §79-11-601 through §79-11-617 cited as the "Uniform Management of Institutional Funds Act" (UMIFA) as requiring the MSUF Board to use reasonable care, skill, and caution as exercised by a prudent investor, in considering the investment management and expenditures of endowment funds. In

#### Notes to Financial Statements

June 30, 2012 and 2011

accordance with UMIFA, the MSUF Board may expend so much of an endowment fund's net appreciation as the MSUF Board determines to be prudent for the uses and purposes for which the endowment fund is established, consistent with the goal of conserving the long-term purchasing power of the endowment fund. The MSUF Board considered the following factors in making its determination:

- (1) The purpose of MSUF
- (2) The intent of the donor of the endowment fund
- (3) The terms of the applicable instrument
- (4) The long-term and short-term needs of MSUF and MSU in carrying out their purposes
- (5) General economic conditions
- (6) The possible effect of inflation or deflation
- (7) The other resources of MSUF and MSU

#### (ii) Perpetuation of the endowment

As a result of this interpretation, the MSUF Board classifies as permanently restricted net assets (a) the original value of gifts donated to a permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UMIFA. However, by MSUF Board policy, any appreciation is considered an asset of each individual endowment fund and is not appropriated for general MSUF or MSU use.

#### (iii) Spending Policy

MSUF's spending policy is designed to provide for positive growth in the market value of its endowment, net of distributions, over an extended period of time. In establishing this policy, the MSUF Board considered the long-term expected return of the endowment investment pool and the goal of maintaining the purchasing power of the endowment asset. Over the long-term, the current spending policy is designed to return a net positive gain in market value (growth) after spendable transfers.

The annual rate for spendable transfers, distributed semi-annually, is 4% of the investment pool's average unit value over the most recent 36-month period. In addition, each endowed fund is assessed an annual 1.25% administrative fee. This fee is a portion of the funding mechanism for the development and alumni programs of MSU.

#### Notes to Financial Statements

June 30, 2012 and 2011

## (iv) Investment Policy

MSUF's investment objectives are to provide an annualized real (adjusted for inflation) rate of return of 5% or more in order to preserve, or increase, the purchasing power of endowment capital, while generating an income stream to support activities of the funds held for the colleges and units of MSU. This policy is designed to tolerate volatility in short and intermediate-term performance. The endowment assets are invested as a part of the investment pool.

To satisfy its long-term rate of return objectives, the pool embraces a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). MSUF, through the Mississippi State Investment Pool, targets a diversified asset allocation that includes global equities, fixed income, natural resources, and hedge strategies to achieve long-term objectives within prudent risk constraints.

#### Notes to Financial Statements

June 30, 2012 and 2011

#### (v) Funds with deficiencies

As a result of market declines for certain recently established endowments, the fair value of certain donor-restricted endowments was less than the historical cost value (original gift/book value) of such funds (underwater) by \$2,520,229 and \$1,244,912 at June 30, 2012 and 2011, respectively.

These losses have been recorded as reductions in unrestricted net assets in accordance with U.S. generally accepted accounting principles. Future gains will be used to restore this deficiency in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets.

# (19) Significant Disclosures for the Discretely Presented Component Unit of the IHL System – University of Mississippi Foundation

## (a) Significant Accounting Policies

#### (i) Organization

The University of Mississippi Foundation (UMF) is a nonprofit, nonstock corporation formed for the benefit of The University of Mississippi. UMF promotes, encourages, and assists educational, scientific, literary, research, and service activities of UM and its affiliates.

#### (ii) Basis of Accounting

These financial statements, which are presented on the accrual basis of accounting and follow Financial Accounting Standards Board (FASB) statements, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three classes – permanently restricted, temporarily restricted or unrestricted as follows:

Permanently restricted net assets – net assets subject to donor-imposed stipulations that they be maintained permanently by UMF. Generally, the donor of these assets permits UMF to use all or part of the income earned on related investments for general or specific purposes in support of UM.

*Temporarily restricted net assets* – net assets subject to donor-imposed stipulations that will be met by actions of UMF and/or the passage of time.

*Unrestricted net assets* – net assets which represent resources granted from operations or that are not subject to donor-imposed stipulations.

#### (iii) Use of Estimates

UMF prepares its financial statements in accordance with U.S. generally accepted accounting principles, which require that management make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Such estimates include the present value discount rates applied to the pledges receivable and liabilities under remainder trusts, allowance for uncollectible pledges, fair market values of certain investments

#### Notes to Financial Statements

June 30, 2012 and 2011

including real estate, partnership and member interests, and depreciation of property and equipment. Actual results could differ significantly from those estimates.

UMF's investments are primarily invested in various types of investment securities within many markets. Investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in UMF's financial statements.

## (iv) Donor-Imposed Restrictions

The financial statements report amounts in three classes of net assets – unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets – based on the existence or absence of donor-imposed restrictions.

Contributions are considered to be available for unrestricted use unless specifically restricted by the donor. UMF considers donor contributions to the various UM schools and departments to be temporarily restricted as those UM units have authority over expenditures. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted.

When a donor restriction expires or the stated purpose is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and are reported in the statements of activities as net assets released from restriction.

The permanently restricted net assets include the principal amount of contributions accepted with the stipulation from the donor that the principal be maintained in perpetuity and only the income from investment thereof be expended. The purpose of such expenditure may also be specified by the donor.

## (v) Revenue Recognition

UMF generally recognizes gifts as revenue when notified of an unconditional promise to give. Unconditional promises to give that are expected to be collected in future years are reported at the present value of their future cash flows. The discounts on these amounts are computed using risk-free interest rates at the time of the pledge which are applicable to the years in which the pledges are scheduled to be received. Accretion of the discounts is included in contribution revenues. An allowance for uncollectible amounts is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of the fund-raising activity. Investments received by gift are recorded at fair value at the date of donation.

#### (vi) Investments

Investments are recorded at fair value. The fair values of all investments other than real estate and partnership and membership interests (which include certain private equity investments

#### Notes to Financial Statements

June 30, 2012 and 2011

and hedge funds) are based on quoted market prices and other observable inputs such as quoted prices for similar assets, quoted prices in inactive markets, or inputs corroborated by observable market data. UMF's partnership and member interests are generally reported at the net asset value (NAV) reported by the fund managers, which is used as a practical expedient to estimate the fair value of the UM's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2012 and 2011, UMF had no plans or intentions to sell investments at amounts different from NAV. UMF's real estate investments are also carried at fair value based on appraisal values at the date of receipt and as subsequently updated. Both realized and unrealized gains and losses are classified in the accompanying statements of activities based on restrictions put in place by the donor.

## (vii) Fair Value of Financial Instruments

The carrying amounts at June 30, 2012 and 2011 for cash and cash equivalents, pledges receivable, beneficial interest in remainder trust, funds held for others, liabilities under remainder trusts, and other liabilities approximate their fair values.

## (b) Pledges Receivable

UMF obtains pledges through fund-raising projects in support of various activities. At June 30, 2012, pledges mature at various dates through 2032 (approximately \$9,008,000 is due in fiscal year 2013, \$14,921,000 is due in total during the period including fiscal year 2014 through fiscal year 2018, and \$1,037,000 is due thereafter). At June 30, 2011, pledges mature at various dates through 2032 (approximately \$6,281,000 is due in fiscal year 2012, \$20,283,000 is due in total during the period including fiscal year 2013 through fiscal year 2017, and \$629,000 is due thereafter). A summary of pledges receivable as of June 30, 2012 and 2011 are as follows:

	_	2012	2011
Temporarily restricted Permanently restricted	\$	14,371,763 10,594,102	16,540,406 10,652,243
		24,965,865	27,192,649
Allowances for doubtful pledges Present value discounts (ranging from 1.6% to 6.5%)	_	(1,874,340) (3,416,027)	(2,657,149) (3,875,092)
	\$	19,675,498	20,660,408

#### Notes to Financial Statements

June 30, 2012 and 2011

## (c) Investments

UMF's investments, aggregated by investment strategy, with related liquidity information consist of the following at June 30, 2012 and 2011:

	2012	2011	Liquidation period
Investment strategy:			
Fixed income: U.S. Government securities \$ Corporate bonds Certificates of deposit Other fixed income securities	216,291 20,640,572 106,536 65,141,714	252,182 13,544,457 210,877 71,263,910	Daily Daily Annually Daily
Total fixed income	86,105,113	85,271,426	
Equities: Common stocks Common stock funds Mutual funds Index funds	20,265,279 42,039,739 20,066,215 29,944,825	19,578,095 66,926,802 18,284,389 14,339,796	Daily Daily Daily Daily
Total equities	112,316,058	119,129,082	
Hedge funds Venture capital	77,133,993 9,373,029	64,855,088 8,099,937	Various <sup>1</sup> Illiquid <sup>2</sup>
Real estate: Real estate owned	5,072,742	5,578,849	Illiquid
Timber fund	11,742,955	13,291,764	Illiquid <sup>3</sup>
Partnership interest	750,000	750,000	${ m Illiquid}^4$
Total real estate	17,565,697	19,620,613	
Other short-term investments	1,153,687	2,741,630	Daily
Total investments \$	303,647,577	299,717,776	

- 1 The majority of these hedge funds have liquidation terms that allow UMF to liquidate its investment in the fund on a quarterly basis but require prior notification ranging from 30 to 65 days.
- 2 These venture capital investments have liquidation terms that allow UMF to liquidate its investment in the different funds after 7 to 12 years depending on the investment.
- 3 This fund represent interest in a partnership that invests solely in timber land and allows for liquidation after a 10-year term.
- 4 This investment represents a 49% interest in a commercial property. The investment would be liquidated upon the sale of the property.

#### Notes to Financial Statements

June 30, 2012 and 2011

#### (d) Fair Value Measurement

ASC Topic 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that are observable at the measurement date;
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data; and
- Level 3: Significant unobservable inputs for the asset or liability that reflects the reporting
  entity's own estimates about the assumptions that market participants would use in pricing the
  asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. In accordance with ASU 2009-12, *Investments that can be Redeemed at Net Asset Value on the Measurement Date or in the Near Term*, may be classified as Level 2. NAV is used as a practical expedient to estimate the fair value of such investments unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2012 and 2011, UMF had no plans or intentions to sell investments at amounts different from NAV.

## Notes to Financial Statements

June 30, 2012 and 2011

The following table presents the financial assets carried at fair value by level within the valuation hierarchy as of June 30, 2012.

		Level 1	Level 2	Level 3	Total

Real estate:					
Real estate owned		_	_	5,578,849	5,578,849
Timber fund		_	_	13,291,764	13,291,764
Partnership interest				750,000	750,000
Total real estate	_			19,620,613	19,620,613
Other short-term					
investments	_	2,741,630			2,741,630
Total investments	\$	192,451,478	79,545,748	27,720,550	299,717,776
Beneficial interest in	-				
remainder trust	\$	_	_	5,313,904	5,313,904

The methods used to determine the fair value of UMF's investments and its beneficial interest in remainder trust may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while UMF believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### Notes to Financial Statements

June 30, 2012 and 2011

The following table includes a rollforward of the amounts for the year ended June 30, 2012 and 2011 for investments classified within Level 3:

	_	Real estate	Venture capital	Beneficial interest in remainder trust
Balance as of June 30, 2010 Net realized and unrealized gain	\$	18,603,780	7,319,029	4,511,220
(loss) Net purchases (sales)	_	584,833 432,000	759,817 21,091	802,684

Balance as of June 30, 2012	\$	17,565,697	9,373,029	5,512,593

## (e) Net Asset Classification of Endowment Funds

UMF adopted Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds (ASC Topic 958-205). This standard provides guidance on the net asset classification of donor restricted endowment funds and related disclosures. ASC Topic 958-205 also provides guidance relative to net asset classification of funds subject to UPMIFA. When adopted by the state of domicile, UPMIFA requires a number of management assessments, including:

- Determination as to whether a donor intended an endowment to maintain its purchasing power or as a fixed sum,
- The classification of endowment earnings, and
- The ability to spend corpus of an endowment.

The State of Mississippi has not adopted UPMIFA. UMF's Board of Directors has determined its donor agreements provide for the preservation of the fair value of the original gift as of the date of the donor-restricted endowment funds. As a result, UMF classifies as permanently restricted net assets the original gift donated to the permanent endowment and the original value of subsequent gifts and other income. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified in temporarily restricted net assets until the amounts are appropriated for expenditure in accordance with the donor memorandums of agreement.

UMF has established policies to achieve the overall, long-term investment goal of achieving an annualized total return, through appreciation and income, greater than the rate of inflation plus any

#### Notes to Financial Statements

June 30, 2012 and 2011

distribution needs, thus protecting the assets against inflation. UMF's Board and Joint Committee on Investments agree that investing in securities with higher return expectations outweighs their short-term volatility risk. As a result, the majority of assets are invested in equity or equity-like securities. Fixed income securities are used to lower the short-term volatility of the portfolio and to provide income stability, especially during periods of weak or negative equity markets. Cash is not a strategic asset of the portfolio, but is a residual to the investment process and used to meet short-term liquidity needs. The primary performance objective of UMF is to achieve a total return, net of investment management fees and expenses, in excess of inflation and the spending rate.

Income available for spending is determined by a total return system and is approved by the Board of Directors of UMF. The amount to be spent involves taking 5% of a 3-year moving average of the market value per unit. The objective is to provide relatively stable spending allocations. No portion of the original gift value of the endowed assets will be allocated for spending.

Changes in donor-restricted endowment net assets for the year ended June 30, 2012 and 2011 is as follows:

	_	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment					
net assets (deficit),					
June 30, 2010	\$	(2,403,433)	38,535,533	147,890,995	184,023,095

	=				

#### Notes to Financial Statements

June 30, 2012 and 2011

Due to unfavorable market fluctuations, UMF has endowments that have fallen below the original gift value of the funds. At June 30, 2012 and 2011, the fair values of certain permanently restricted investments were below their original contributions by approximately \$406,000 and \$161,000, respectively, and these deficiencies have been recorded in unrestricted net assets. Future gains will be used to restore these deficiencies in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets.

#### (f) Net Assets

Permanently restricted net assets at June 30, 2012 and 2011 were available for the following purposes:

	_	2012	2011
Academic and program support	\$	33,539,980	32,457,007
Scholarship support		76,411,592	73,488,150
Faculty support		47,129,077	39,503,967
Library support	_	13,265,472	13,637,766
Total	\$	170,346,121	159,086,890

The vast majority of temporarily restricted net assets at June 30, 2012 and 2011 were available for academic and program support.

# (20) Significant Disclosures for the Discretely Presented Component Unit of the IHL System – University of Southern Mississippi Foundation

## (a) Significant Accounting Policies

## (i) Organization

The University of Southern Mississippi Foundation (USMF) is a not-for-profit entity organized under the laws of the State of Mississippi to provide support to The University of Southern Mississippi and its students. USMF depends on USM to provide the staff and facilities for its operations.

Foundation Aviation Holdings, LLC was formed by USMF in October 2008 as a single member limited liability company. USMF's financial statements include the accounts of Foundation Aviation Holdings, LLC. All significant intercompany accounts and intercompany transactions have been eliminated.

#### Notes to Financial Statements

June 30, 2012 and 2011

## (ii) Basis of Accounting

The financial statements, which are presented on the accrual basis of accounting and follow Financial Accounting Standards Board (FASB) statements, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three classes – permanently restricted, temporarily restricted and unrestricted as follows:

Permanently restricted net assets – net assets subject to donor-imposed stipulations that they be maintained permanently by USMF. Generally, the donor of these assets permits USMF to use all or part of the income earned on related investments for general or specific purposes in support of USM.

Temporarily restricted net assets – net assets subject to donor-imposed stipulations that will be met by actions of USMF and/or the passage of time. Temporarily restricted net assets include contributions designated to a particular college or unit. To the extent that restricted resources from multiple donors are available for the same purpose, USMF expends such gifts on a "first in, first out" basis.

*Unrestricted net assets* – net assets which represent resources generated from operations or that are not subject to donor-imposed stipulations.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless the use of the underlying net asset is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at a rate commensurate with the risk involved. Amortization of the discount is recorded as contribution revenue and recognized in accordance with donor-imposed restrictions, if any, on the contributions. Allowance is made for uncollectible contributions based upon management's judgment and analysis of the creditworthiness of the donors, past collection experience and other relevant factors.

Income and realized and unrealized gains (losses) on investments of permanently restricted net assets are reported as follows:

 as increases (decreases) in permanently restricted net assets if the terms of the gift or USMF's interpretation of relevant state law require that they be added to the principal of a permanent endowment fund;

#### Notes to Financial Statements

June 30, 2012 and 2011

- as increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on their use;
- as increases (decreases) in unrestricted net assets in all other cases.

#### (iii) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

USMF's investments are invested in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in USMF's financial statements.

Another estimate that is particularly susceptible to significant change in the near term relates to the allowance for uncollectible pledges. Management's estimate of the allowance for uncollectible pledges is based on an analysis of economic conditions, financial information about donors and current receivable levels and agings.

## (iv) Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are reported at fair value.

The liquidity crisis that originally was linked principally to the sub-prime lending markets has spread to other corners of the credit markets in the U.S. and internationally. It is not possible at this time to predict the full impact or duration of the existing illiquid credit market conditions. The unstable market conditions and the resulting uncertainties contribute to additional risks associated with certain significant investment valuation estimates. Management continues to monitor the composition of its portfolio to assess the potential impact of these market conditions on the valuation of its investments.

## (v) Pledges

All unconditional pledges to give are recorded at their estimated realizable value on a discounted basis using a risk-free interest rate.

# Notes to Financial Statements

June 30, 2012 and 2011

# (b) Pledges Receivable

Pledges receivable, net, are summarized as follows at June 30, 2012 and 2011:

	_	2012	2011
Unconditional promises expected to be collected in:			
Less than one year	\$	5,714,474	3,629,451

#### (d) Fair Value Measurements

FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 also establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value hierarchy established in FASB ASC 820 prioritizes the inputs used in valuation techniques into three levels as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets and liabilities that USMF has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual and common stock funds, index funds, hedge funds and commodity funds, U.S. Government securities, corporate bonds and common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Real estate investment funds: At June 30, 2012 and 2011, \$3,098,043 and \$3,420,662, respectively, are publicly traded and are valued at the closing price reported on the active market on which the individual securities are traded. At June 30, 2012 and 2011, USMF did not have any assets reported at net asset value.

Cash surrender value of insurance policies: Valued at the cash surrender value of the life insurance contract as determined by the life insurance company.

*Real estate and other*: Valued on the basis of recent appraisals.

## Notes to Financial Statements

June 30, 2012 and 2011

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while USMF believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, USMF's assets at fair value or net asset value as of June 30, 2012 and 2011:

Other restricted purposes	_	2,615,549	2,350,082
Total	\$_	52,245,428	49,222,730

### (g) Endowment Net Assets

The FASB issued FASB ASC 958, *Not-for-Profit Entities*, which provides guidance about the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and expands disclosures about endowment funds (both donor-restricted and board-designated endowment funds), regardless of whether an organization is subject to UPMIFA. As of June 30, 2012, the State of Mississippi had not yet adopted UPMIFA.

At June 30, 2012 and 2011, USMF has approximately 800 individual funds which function as endowment-type funds that are established for a variety of purposes to support USM. The endowment-type funds include both donor-restricted endowment-type funds and funds designated by USMF's Board of Directors to function as endowments. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including board-designated funds to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

USMF's Board of Directors has determined its donor agreements provide for the preservation of the fair value of the original gift as of the date of the donor-restricted endowment funds. As a result, USMF classifies as permanently restricted net assets the original gift donated to the permanent endowment and the original value of subsequent gifts. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified in temporarily restricted net assets until the amounts are appropriated for expenditures in accordance with the donor agreements.

USMF has established investment policies to ensure the assets of USMF's endowment are managed in a prudent fashion in accordance with sound investment principles. USMF's Board of Directors sets and approves the investment policies and charges the Investment Committee with implementation and subsequent, ongoing monitoring of the policies. USMF's investment objectives for endowments are to provide a total return that preserves the purchasing power of the endowment's

#### Notes to Financial Statements

June 30, 2012 and 2011

assets while providing sustainable annual support to USM. The primary performance objective of the endowment is to achieve a total return, net of investment fees and within prudent levels of risk, in excess of the total spending rate.

USMF's spending policy is designed to instill confidence that the positive growth in the market value of the endowment is sufficient to offset reasonable spending over an extended period of time. The spending policy is approved by USMF's Board of Directors. The spending rate was approximately 4% for the year ended June 30, 2012 and 2011. In addition, applicable endowment funds were assessed a 2% administrative fee. This fee is a portion of the funding for the development programs of USMF. No portion of the original gift value of the endowed assets is allocated for spending.

During the year ended June 30, 2012 and 2011, USMF had the following endowment related activity:

	_	Unrestricted	Temporarily restricted	Permanently restricted	Total

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees State of Mississippi Institutions of Higher Learning:

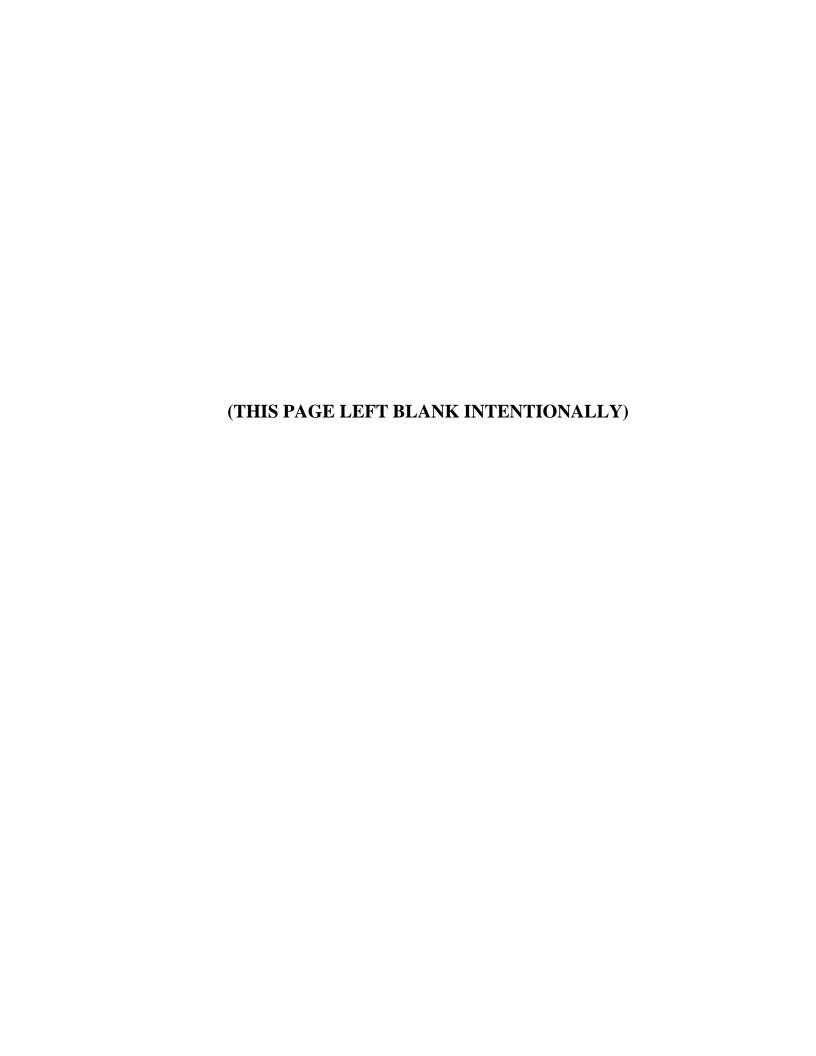

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the State of Mississippi Institutions of Higher Learning (the IHL System), a component unit of the State of Mississippi, as of and for the year ended June 30, 2012 which collectively comprise the IHL System's basic financial statements as listed in the table of contents, and have issued our report thereon dated December 5, 2012. Our report was modified to include reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

As described in our report on the IHL System's financial statements, other auditors audited the financial statements of the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund, and the State Institutions of Higher Learning Tort Liability Fund.

As described in our report on the IHL System's financial statements, the financial statements of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation, the University of Southern Mississippi Foundation, the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund, and the State Institutions of Higher Learning Tort Liability Fund were not audited in accordance with *Government Auditing Standards*.

#### **Internal Control over Financial Reporting**

Management of the IHL System is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the IHL System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the IHL System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the IHL System's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the IHL System's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the IHL System management, members of the Legislature, entities with accreditation overview, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

#### REPORT ON COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

(THIS PAGE LEFT BL	ANK INTENTIONALI	· <b>Y</b> )

KPMG LLP Suite 1100 One Jackson Place 188 East Capitol Street Jackson, MS 39201-2127

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

Board of Trustees State of Mississippi Institutions of Higher Learning:

#### **Compliance**

We have audited the State of Mississippi Institutions of Higher Learning (the IHL System)'s compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement (Compliance Supplement) that could have a direct and material effect on each of the IHL System's major federal programs for the year ended June 30, 2012. The IHL System's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the IHL System's management. Our responsibility is to express an opinion on the IHL System's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, *Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the IHL System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the IHL System's compliance with those requirements.

In our opinion, the IHL System complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### **Internal Control over Compliance**

Management of the IHL System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the IHL System's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the IHL System's internal control over compliance.

(THIS PAGE LEFT BL	ANK INTENTIONALI	· <b>Y</b> )

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the IHL System, a component unit of the State of Mississippi, as of and for the year ended June 30, 2012, and have issued our report thereon dated December 5, 2012, which contained unqualified opinions on those financial statements. Our report on the basic financial statements was modified to include reference to other auditors. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the IHL System's basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 5, 2012. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the IHL System management, members of the Legislature, entities with accreditation overview, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties

<sup>\*</sup> Indicates major program

Notes to Schedule of Expenditures of Federal Awards Year ended June 30, 2012

#### (1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs administered by the State of Mississippi Institutions of Higher Learning. Federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies, is included on the schedule. Federal programs included in the accompanying schedule are accounted for using the economic resources measurement focus and the accrual basis of accounting, which is described in note 1 to the IHL System's financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*.

The schedule was prepared using the same basis of accounting and significant accounting policies, as applicable, used by the IHL System in the preparation of its financial statements with the following exceptions:

- For purposes of the schedule, loans advanced from the Federal Perkins Loan Program (CFDA #84.038) are presented as federal expenditures. These loans are not reported as expenditures on the IHL System's financial statements, but as an increase in notes receivable. The outstanding loan balances and the allowance for uncollectible amounts for the loan programs at June 30, 2012, are presented in note 4 to the financial statements.
- For purposes of this schedule, loans made to students under the Direct Student Loan Program (CFDA #84.268) are presented as federal expenditures. Neither the funds advanced to students, nor the outstanding loan balance is included in the IHL System's financial statements since the loans are made and subsequently collected by private lending institutions and/or the federal government.
