1.1.5 Governance

Recognizing the legal authority of the governing board and the Institutional Executive Officer for governance of all aspects of the institution, faculty judgments should ordinarily prevail in three areas: (1) curriculum (course content, class scheduling, subject matter and methods of instruction, and research); (2) matters of faculty status (e.g. hiring, discipline, dismissal, retention, tenure, promotion and other faculty welfare issues); and, (3) those aspects of student life that relate to the educational process. The faculty's role shall include representation on University decision and policy-making units or bodies and representation on search committees for University administration. Administrators will act on such recommendations and provide timely rationale for any modification or rejection of input received.

1.1.5.2 Standing Committees and Councils

Membership on University wide committees and councils is through election by the faculty and approval and appointment by the Institutional Executive Officer. Faculty members are encouraged to indicate interest in serving on particular committees and councils to the Department Chair. Appointments to committees shall be made in September of each academic year to ensure

effective participation in University governance. Every effort will be made to ensure a fair and equitable assignment of committees. ~~1.1.5.4 Graduate Council~~

~~The Graduate Council is the body responsible to develop and recommend graduate policy, rules, regulations, and guidelines that govern academic programs leading to advanced degrees. MVSU FACULTY HANDBOOK

B. Administrative Officers:

A nine-month faculty member who has academic rank and rights of tenure in the Corps of Instruction and who accepts a twelve-month appointment to an administrative office shall retain his/her academic rank and rights of tenure as an ex officio member of the Corps of Instruction but shall have no rights of tenure in the administrative office to which he or she has been appointed. Full-time administrators without teaching duties will not be considered as faculty regardless of title. Hence, as to the administrative appointment, the employee may be removed from the administrative position at the will and pleasure of the Institutional Executive Officer. The “at-will” status of the administrative position is to be stated within the faculty employment contract, as to make clear to the employee that the Institutional Executive Officer may remove the employee from the administrative position at any time.

C. Faculty Change of Status to 12-Month Interim Position

When a faculty member is appointed to a 12-month interim position, his/her salary should be annualized to reflect compensation for the additional months of work required in the interim position.

Annualized salary shall be payable on a monthly basis at the beginning of the interim contract period. The additional months of salary shall be considered as an administrative stipend or administrative incentive payable only during time served in the interim position. Such monies will be discontinued when the individual returns to faculty status.

Upon return to faculty status, faculty salary shall be ~~reinstated~~ **reinstated** with additions of raises, cost of living, or other increases that employee would have been eligible to receive as faculty. In some instances, a minimal amount of the stipend/incentive may be added to the base amount of the faculty salary, e.g. \$1000 per year or fraction of year that faculty served in a 12-month position.

Examples of computations:

Move from 9 months to 12 months

Faculty Salary \$45,000 (9 x \$5,000) Annualized Salary \$60,000 (12 x \$5,000)

Administrative Stipend is \$15,000 Move from 12 months to 9 months

The Faculty Senate also has responsibility for maintaining academic freedom in providing a forum for the faculty to voice their opinion on key issues and concerns related to shared governance and faculty welfare.

More specifically, the Faculty Senate can review and make recommendations on academic policies; make recommendations on the membership on all university-wide non-standing (temporary) advisory or decision-making committees; make recommendations on criteria for faculty appointment, promotion and tenure; evaluate and make recommendations on various academic support functions including library, computer services, and the university calendar; evaluate and make recommendations on policies associated with conditions of employment; and review, make recommendations and approve the Faculty Handbook. This list of actions the

Faculty Senate can take is not meant to be exhaustive.

Faculty Senate meetings are held on the first Tuesday of each month and/or the first Tuesday of the academic calendar when the University reopens after the first Tuesday of the month. In the event that a department meeting becomes necessary and prudent, Faculty Senate members may be given consideration for release from the department meeting, with the understanding that departmental meetings take precedence over Senate Meetings.

Members of the Faculty Senate are elected by the faculty according to the Constitution and Bylaws of the Faculty Senate. 2.3 ACADEMIC FREEDOM AND RESPONSIBILITY

2.3.1 Academic Freedom

A general expression of individual academic freedom is included in the "1940 Statement of Principles on Academic Freedom and Tenure" by the American Association of University Professors (AAUP). This Statement by the AAUP has no legal effect, but the AAUP publicly censures colleges and universities that they believe have violated academic freedom. However, all major colleges and universities have adopted this Statement, or a variation of this Statement, which is contained in the faculty policy manual of each college or university, and is incorporated by reference in the employment contract between the University and each individual faculty member.

- Faculty members are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.
- Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter which has no relation to their subject. Limitations of academic freedom because of religious or other aims of the institution should be clearly stated in writing at the time of the appointment. Faculty are entitled to be free from coercion regarding their evaluation of student performance and assigning of course grades while following the syllabus that has been distributed to students for that course.
- Faculty members are entitled to the right to speak on matters of Institutional governance ("intramural speech").
- College and university teachers are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the

community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence, they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

- Freedom to learn and freedom to teach are inseparable facets of academic freedom. Students have a right to enjoy the fullest First Amendment rights. They have a right to dissent from the mainstream in politics. They have a right to protest peacefully and lawfully. They have a right to disagree with teachers. They have a right to disagree with administrators. They have a right to publish and publicize their disagreements, but they are responsible for learning the content of any course of study in which they are enrolled.
- Student publications and the student press are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion and of intellectual exploration on the campus. In the delegation of editorial responsibility to students, the institution must provide sufficient editorial freedom and financial autonomy for the student publications to maintain their integrity of purpose as vehicles for free inquiry and free expression in an academic community. The student press should be free of censorship and advance approval of copy, and its editors and managers should be free to develop their own editorial policies and news coverage.

2.3.2 Code of Ethics

Recognizing the importance of integrity in the performance of professional duties, Mississippi Valley State University expects high ethical standards of all faculty and instructional personnel. To that end, the University endorses the 1966 Statement of Principles on Academic Freedom and Tenure of the American Association of University Professors, as revised and approved by the Association's Committee on Professional Ethics, adopted by the Association's Council in 1987, and endorsed by the Seventy-third Annual Meeting. The Statement sets forth general standards for conduct with regard to those responsibilities inherent in the academic profession, including but not limited to professors' utterances as citizens, exercise of their responsibilities to students and colleagues, and their conduct when resigning from an institution or when undertaking sponsored research.

Statement on Professional Ethics

Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end, professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

Responsibilities to Teaching and Students

As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors.

Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student's true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

Types of Unacceptable Conduct

Failure to meet the responsibilities of instruction, including:

1. arbitrary denial of access to instruction;
2. significant intrusion of material unrelated to the course;
3. significant evidence of a pattern of failing to adhere, without legitimate reason, to the rules of the faculty in the conduct of courses, to meet class, to keep office hours, or to hold examinations as scheduled;
4. evaluation of student work by criteria not directly reflective of course performance;
5. participating in or deliberately abetting disruption, interference, or intimidation in the classroom;
6. breach of the confidential relationship between faculty member and student;
7. unauthorized or inappropriate use of self-authored textbooks;
8. using the creative achievements of students for publication or presentation without appropriate consultation and credit to all parties involved as well as approval by the ~~area~~ **Dean Department Chair**.
9. Discrimination, including harassment, against a student on political grounds, or for reasons of race, religion, sex, sexual orientation, ethnic origin, national origin, ancestry, marital status, medical condition, status as a covered veteran, or, within the limits imposed by law or University regulations, because of age or citizenship or for other arbitrary or personal reasons; and,
10. Violation of the University policy, including the pertinent guidelines, applying to nondiscrimination against students on the basis of disability.

Responsibilities to Colleagues

Academic freedom is an important aspect of a collegial system that is inherent in the discharge of university education, administration and service. It is understood, by definition, that a colleague is anyone of a faculty rank, administrative, or professional status without regards to one's major job. For effective and positive university governance therefore, it is essential that ALL colleagues recognize the basic tenets of a good collegial system. These include, but are not limited to:

Ethical Standards

1. Demonstration of the spirits of constructive cooperation with integrity and principles.
2. Freedom of participation of colleagues (faculty, administrator, and professional) in a collegial process.
3. Freedom of colleagues to participate fully and professionally on advisory or decision-making committees.
4. Yielding genuine and mutual respect for ~~ALL~~ all colleagues.
5. Good-faith consultation on all policies and amendments that impact faculty and professionals.
6. Respect and support for decisions reached through a collegial process.
7. Freedom to seek policy changes through established University process/policies.
8. Freedom for Committee Chairs, Directors, Chairs, ~~Deans~~, Faculty Senate, Vice Institutional Executive Officers, and Institutional Executive Officer to communicate and execute decisions wrought through the collegial system without malice.
9. Acceptance of shared responsibility for governance of the University by Faculty and Professionals.
10. Objectivity in professional judgment of colleagues.
11. Freedom from discrimination or harassment by colleagues.

Types of Unacceptable Conduct

1. Evaluating the professional competence of faculty members by criteria not reflective of professional performance.
2. Breaching established rules governing confidentiality in personnel procedures.
3. Interfering with the academic freedom of faculty members operating within departmental or university policy, including but not limited to interfering with the academic freedom of faculty including, but not limited to, teaching methodologies, strategies, course content, **textbook selection and syllabi design**.
4. Knowingly violating any departmental or university policy.
5. Using the creative achievements of colleagues without appropriate consultation and credit.
6. Discrimination, including harassment, against a student on political grounds, or origin, ancestry, marital status, **gender, sexual orientation**, medical condition, status as a covered veteran, or, within the limits imposed by law or University regulations, because of age or citizenship or for other arbitrary or personal reasons.
7. Violation of the University policy, including the pertinent guidelines, applying to nondiscrimination against colleagues on the basis of disability.

Responsibilities to Scholarship

As members of an academic institution, professors seek, above all, to be effective teachers and scholars. Although professors observe the stated regulations of the institution, (provided the regulations do not contravene academic freedom), they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering the interruption

or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

Types of Unacceptable Conduct

1. Violation of canons of intellectual honesty, such as intentional misappropriation of the writings, research, and findings of others.
2. Engaging in activities where conflict of interest may influence the evaluation of, funding for, or general promotion of research proposals or research results.
3. Sexual harassment which relates to research responsibility of the faculty member whether related to students, faculty, or staff.

Responsibilities to Community

As members of their community, professors have the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their ~~college or~~ university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

Types of Unacceptable Conduct

1. Deliberately misrepresenting personal views as an official position of the university or its agencies.
2. Using the university's name or logo to create the impression of university sanction for private activity.
3. Committing a felony or other serious act that demonstrates impropriety to continue as a member of the faculty.

In addition to all of the above, all faculty/employees must abide by the requirements of the State Ethics Laws. The State Ethics Commission oversees compliance with the State Ethics Laws and its staff is available as a resource concerning any ethics issues or possible ethics issues.

2.4. EQUAL OPPORTUNITY

MVSU is an Equal Opportunity Employer and is expressly committed to maintaining and promoting non-discrimination in all aspects of recruitment and employment of individuals at all levels throughout the University. The University is committed to recruit, hire, and promote all faculty and staff without regard to race, religion, ~~sex, gender, sexual orientation,~~ national origin, physical or mental handicap, status as to disabled veteran or Vietnam era veteran, or age as specified by applicable laws and regulations.

It is the responsibility of all persons making employment decisions to support this policy. Students are also assured that access to educational opportunities, financial assistance, and social and recreational programs will be free from discrimination.

2.4.1 Employment of Relatives

- a) No individual shall be employed in a department or unit under the supervision of a relative who has or may have a direct effect on the individual's progress, performance or welfare.
- b) For the purpose of this policy, relatives are defined as husbands, wives, parents and children, brothers, sisters, and any in-laws of any of the foregoing within the third degree.
- c) This section does not apply to any employee who shall have been in said department prior to the time his or her kinsman, within the third degree, became the head of said department, or when such appointments are made purely on academic merit/qualifications.
- d) An employee who falls within "c" shall have all matters dealing with the individual's progress, performance, welfare, assignment, salary, tenure or promotion decided by the next highest administrative officer upon approval of the Board.

2.5 EMPLOYMENT POLICIES

The University's general employment policies for professional staff are formulated in accordance with portions of the Board of Trustees Policies and Bylaws as amended from time to time.

2.5.1 Authorization for Employment

By statute, the Board has the power and authority to contract with all **deans, chairs**, professors, and other members of the teaching staff and all administrative employees of said institutions for a term not exceeding four years. Although the law does not empower the Board to contract for indefinite periods, its bylaws provide that -It shall be the policy of the Board to elect all officials for a definite tenure of service and to re-elect during the period of satisfactory service. The Board also empowers the executive heads of the institutions to adopt policies of continuing employment for the purpose of making nominations for the teaching positions. All amendments, revisions, additions and reductions to employee contracts are subject to approval by the Board.

2.5.2 Delegation of Authority

Acting under appropriated statutory authority, the Board of Trustees hereby empowers the executive officers of the several institutions to nominate individuals for positions on the faculty of the respective institutions, consistent with Board policies.

2.5.3 Faculty Rank

There are four ranks for full-time members of the MVSU faculty: Professor, Associate Professor, Assistant Professor, and Instructor. Professional members of the library staff may

hold faculty rank.

Part-time and adjunct faculty are employed as conditions warrant. Part-time faculty are those employed full-time with the university whose primary responsibility is in a non-instructional department. Adjunct faculty are those teaching in an instructional department, but are not employed full-time by the University. For the Adjunct Faculty Evaluation Procedures and Agreement Form, see Appendix B.

2.5.3.1 Faculty Qualifications

All full-time, part-time, and adjunct faculty teaching at the baccalaureate degree level must have completed at least eighteen (18) graduate semester hours in the teaching discipline and hold at least a master's degree, or hold the minimum of a master's degree with a major in the teaching discipline. Graduate degrees must be from an **regionally** accredited institution.

All faculty teaching graduate level courses should hold the highest earned degree in their disciplines, or related disciplines, although in some cases experience and/or scholarly or creative activities may substitute for the highest degree. The decision of substitution must be made by the full faculty meeting within the respective department.

2.5.3.2 Application for Faculty Employment Procedure

The basic information that must be submitted by each applicant for a position includes a completed application, personnel data form, official transcripts (or other official documentations deemed as equivalents) of all college work, at least three **professional** references and any other information that the applicant deems pertinent.

The selection process is outlined below.

1. When a vacancy occurs, a search committee is formed and an advertisement is placed usually in The Chronicle of Higher Education or other professional journals by the Office of Academic Affairs and the University Human Resources web site. **The search committee must be made up of full-time faculty members, a majority of whom are from the degree program in which the position is advertised.**
2. Applicants are asked to send a letter of application for the position, a copy of their curriculum vita, three letters of recommendation, and an official copy of their transcripts (or other official documentations as equivalents), and any other relevant materials to the Office of Human Resources. The Office of Human Resources forwards said documents to the Department with the vacancy.
3. These credentials and all materials submitted are forwarded to the departmental search committee. The search committee reviews the credentials and makes a recommendation to the Chair of the department for campus interviews.
4. The Chair forwards the recommendations to the **Dean-or** next level administrator of the College. If the **Dean-or** next level administrator concurs with the Chair's recommendation, she/he forwards the recommendation to the Office of Academic Affairs along with his/her

MVSU FACULTY HANDBOOK

recommendation. The Office of Academic Affairs reviews and approves or disapproves inviting the candidates to the campus.

5. Upon receiving approval for an interview from the Office of Academic Affairs, the Chair of the department arranges an interview with the candidate(s). At this point the candidate(s) should be informed to make themselves familiar with policies in the Faculty Handbook and its location on the MVSU website.
6. The candidate(s) will be interviewed by the search committee, which includes faculty members, students and other constituencies interested in the program, the Chair of the department, ~~the Dean of the College~~ or the Chief Academic Officer. The Institutional Executive Officer may also choose to conduct an interview.
7. After the interview, the search committee consults with faculty members and students of the department to collect their observations. The committee meets and deliberates on each candidate's strengths and weakness, and transmits the results through the ~~Dean Chair~~ to the Chief Academic Officer.
8. On recommendation from the Chief Academic Officer, notification of the appointment, if approved by the Institutional Executive Officer, will be forwarded to the applicant.
9. Faculty appointments that also include certain administrative appointment may require IHL Board approval pursuant to IHL Board Policy 401.0102.

2.8.03 Tenure and Promotion

Non-tenure Defined:

Universities are authorized to establish faculty positions designated as non-tenure track positions. Universities may enter into renewable contracts, for periods up to four years in length, with non-tenure track faculty members in three separate categories - research, teaching, and service - based on the mission and needs of the institution. Each institution employing non-tenure track faculty will have a formal system of annual evaluations to assess each such faculty member's performance. Renewal of contracts is not guaranteed and will be determined by the institution on the basis of the faculty member's performance, availability of funding, and institutional priorities. Individuals employed in non-tenure track positions have no expectation of continuing employment beyond the expiration of their contracts and shall not be eligible for consideration for the award of tenure. Individuals in non-tenure track positions may not have their status converted to tenure track positions. However, they are eligible to apply for tenure track positions when posted or announced.

Non-tenure track faculty may hold the rank of instructor, assistant professor, associate professor, or professor. Faculty on non-tenure track are eligible for promotion in rank based on the criteria set forth in 2.8.06 (Mississippi Valley State University's Qualifications for Promotion and Tenure).

Tenure Defined:

Tenure is defined as continuing employment that may be granted to a faculty member after a probationary period upon nomination by the Institutional Executive Officer for election by the Board. A tenured faculty is protected from dismissal except for those reasons set forth below within Section 2.8.09. A faculty member is tenured to a department unless otherwise designated by the Board. In the interpretation of this principle (Board Policy 403.0101), it is understood that the following represent acceptable academic practice:

2.8.04 Minimum Standards for Tenured Employment

Mississippi Valley State University's faculty contracts specify whether the appointment is with tenure, tenure track, or non-tenure track. The position of Instructor is a non-tenure track position. Therefore, appointment at the Instructor level carries no eligibility for tenure consideration.

However, an Instructor may apply for an announced/posted tenure track position for which he/she qualifies. Beginning with a tenure track appointment to a professorial rank as assistant professor, associate professor, or professor, a faculty member will be reviewed for tenure during the sixth academic year of the probationary period or at the end of the designated probationary period as discussed below. A letter of invitation to apply for tenure shall be initiated from the Office of the Chief Academic Officer. The review shall include, but not be limited to, the criteria set forth in Section 2.7.02. See **Appendix E (Tenure and Promotion Calendar) for specific dates.**

Upon written agreement between the institution and the faculty member, credit up to a maximum of five (5) years toward fulfillment of the minimum probationary period may be allowed for service at an institution of higher education. Such credit toward the probationary period must be determined at the time of initial appointment to rank. Such allowance is to be granted only to an individual who possesses exceptional professional qualifications and achievements and is not to be construed as exempting said individual from any other institutional policies and procedures governing the award of tenure.

Once the probationary period has been completed, a tenure track professor of any rank, if reappointed, must be awarded tenure or a terminal contract. For tenure to be awarded, the Institutional Executive Officer must make a recommendation to the Board in writing. Only faculty members of professorial rank can be awarded tenure. The award of tenure is not vested until notice of the award is given in writing by the Institutional Executive Officer, after approval by the Board, and the written notice is actually received by the faculty member.

At the time of initial employment by the Board, a faculty member or an administrative employee whose preceding employment included faculty rank at the level of assistant professor, associate professor, or professor and tenure may be granted tenure only if so recommended by the Institutional Executive Officer and approved by the Board.

There shall be appropriate tenure/grievance committees at Mississippi Valley State University.

2.8.05 Tenure and Promotion Policy

Mississippi Valley State University is a teaching, research and service institution meeting regional educational needs. In granting tenure to a faculty member, academic qualifications are to be considered, especially with regard to excellence in teaching.

For changes in rank or tenure appointment, only full-time faculty or faculty who are awarded a reduction in teaching hours, or faculty teaching at least fifty percent (50%) time per year and holding a joint administrative or other appointment will be considered.

2.8.06 Qualifications and Procedure for Promotion and Tenure

A ranked faculty member is a full-time employee of Mississippi Valley State University who has been appointed to one of the three regular academic ranks within an academic department/unit: assistant professor, associate professor, or professor.

Such an individual fulfills the duties and responsibilities of a faculty member as specified in Section 2.13 Academic Regulations.

2.8.06.01 Promotion in Rank

Normally, faculty at the professorial rank applying for promotion serve five full years at their present rank and in the sixth year are eligible to apply for promotion (including any credit given toward tenure/promotion as outlined in 2.8.04 Minimum Standards for Tenured Employment). While length of service is important, it is not a sufficient condition for promotion. To be considered for promotion, candidates must satisfy the department specific criteria. For the purpose of promotion, the University recognizes the MLS and MFA as terminal degrees. A full contract year is defined as one that starts in August for 9-month employees and in July for 12-month employees and continues until the next contract period. If the initial contract is for a partial year, e.g., starts after August for a 9-month employee and after July for a 12-month employee, that time is not included in the probationary period.

2.8.06.02 Tenure

To be considered for tenure, candidates must satisfy the department specific criteria. For the purpose of tenure, the University recognizes the MLS and MFA as terminal degrees.

2.8.06.03 Criteria for Awarding Promotion and Tenure

Each department shall develop a policy for discipline specific criteria for awarding promotion and tenure. The development and implementation of this policy must be voted on and approved by all faculty members who are tenured or on tenure track. This policy should be given to each new faculty member within the first month of employment by the Chair of the Department. During the first month of employment, the Department Chair shall meet with a new faculty member (tenured, tenure track and non-tenured) and develop a plan for progress toward tenure, promotion post-tenure review, or continued employment. This plan shall be voted on and approved by the Department Tenure and Promotion Committee.

The criteria to be used in recommendations regarding promotion and plan for progress toward tenure include the following, with the greatest weight being given to the first criterion:

Teaching Excellence:

This criterion may include regular classroom and laboratory instruction; supervision of field work, internships, and performances; direction of senior projects and/or theses; development of educational materials; presentation of non-credit and off-campus public lectures and demonstrations; and other teaching activities as defined by the department specific criteria. Excellence in teaching includes the ability to impart the knowledge, methods, and standards of the discipline, the ability to communicate effectively with students by counseling, advising, or motivating them, the ability to direct students in their own research, and the ability to evaluate student work accurately and fairly according to prevailing academic standards of the discipline.

Excellence in teaching may be documented by peer reviews, student evaluations, sample course materials, graded student work, recordings of teaching sessions, senior projects and graduate student theses, and any other documentary materials that demonstrate teaching effectiveness.

Research, Scholarly and Professional Activities:

Scholarly inquiry and learning vary by discipline and are reflected in, but are not limited to, the following: dissemination of research and scholarly findings through books, journal articles, monographs, and presentations at professional meetings; presentation of creative achievements through exhibitions, performances, and publications; development of new research methodologies; grants or contracts that support scholarly and creative activity; honors and awards for significant scholarly and creative activity, and participation as an editor and/or referee in support of scholarly and creative publications.

Service (University/Community):

Criteria may include activities which enhance the scholarly life of the university or the Discipline and related disciplines, improve the quality of life or society, or promote the general welfare of the institution, the community, the state, or the nation. Thus, it includes outreach and extension of academic knowledge to the public, participation on departmental, college, or university committees, or on regional, national, or international scholarly committees, boards, or review panels, or on public boards as a representative of the scholarly community. Membership or participation in such bodies may constitute satisfactory service, but excellence requires leadership or initiative leading to substantial improvements or progress.

2.8.06.04 Promotion and Tenure Procedures

Promotion: It shall be the responsibility of the faculty member to inform his/her Department Chair in writing of his/her intent to apply for promotion. Following consultation with the Chair regarding eligibility for promotion, it shall be the responsibility of the faculty member to send copies of a letter of intent to the Dean of the respective College and to the Chief Academic Officer for transmittal to the University Tenure and Promotion Committee (See Appendix E- Tenure and Promotion Calendar).

Tenure: In the case of tenure, the Chief Academic Officer shall inform the faculty member of his/her eligibility. Faculty members who, according to the policy in effect, are scheduled to apply for tenure shall be notified by the University by the first Monday in April of the Spring Semester prior to the year of application (see Appendix E- Tenure and Promotion Calendar).

Verification: In both cases (Tenure and/or Promotion) The Chief Academic Officer will verify eligibility and issue each candidate a binder for their dossier.

2.8.06.05 Promotion/Tenure Dossiers

It may request additional information and interviews with tenured and non-tenured faculty to reach its recommendation regarding a candidate. In addition, the University Tenure and Promotion Committee will review all promotion/tenure materials for conformity with established promotion policies,

procedures, and administrative guidelines. The University Tenure and Promotion Committee's recommendation and statement of rationale for the recommendation, along with all recommendations and the candidate's dossier, must be submitted to the Chief Academic Officer for administrative review.

2.8.06.12 Tenure and Promotion Appeals Procedures

Faculty members who have been denied promotion or tenure may, within ten working days of receipt of the Institutional Executive Officer's decision letter, request an appeals hearing before the University Faculty Appeals Committee. The request must be made through the Chief Academic Officer who will forward the request to the University Faculty Appeals Committee. Grounds for requesting an appeal are (1) that the decision was prejudiced, arbitrary, or capricious; or (2) that the procedures contained in the promotion and tenure policies of the IHL or MVSU were not properly followed.

The University Faculty Appeals Committee, upon request of the Chief Academic Officer, will review the entire case. The appeal will be heard by all five faculty members **of the University Faculty Appeals Committee**. Members should excuse themselves from appeals by candidates who are relatives or with whom they have some conflict of interest, if the committee member has served in the previous levels of evaluation of the appellant or if for any reason the committee member feels he/she cannot be objective.

A committee member will not vote on an appeal unless he/she has heard all hearings pertaining to the case. In the event that a committee member has excused themselves from an appeal, the Committee Chair may, with the concurrence of the committee and approval of the Chief Academic Officer, appoint substitutes from among the professors of the general faculty. In special circumstances potentially prejudicial to the appellant, the Committee Chair may, with concurrence of the committee and approval of the Chief Academic Officer, **may** appoint an ad-hoc committee to assist in the resolution of the appeal. Academic Officer. The committee will also provide a copy of this written recommendation to the candidate.

The Chief Academic Officer will transmit the Committee's written recommendation along with his/her own recommendation to the Institutional Executive Officer, who will make the final on-campus decision. This decision will end the university appeals process. A copy of each recommendation will be provided to the candidate.

The Board of Trustees of the Institutions of Higher Learning may grant a further appeal as outlined in Board of Trustees Policy 403.0105. Please note that any statement of grievance regarding a request for a Board review of a denial of tenure **and promotion** must be submitted to the Commissioner of Higher Education within 30 days following notification by the Institutional Executive Officer of the denial of tenure **and promotion**.

This schedule of notification does not apply to persons holding temporary or part time positions, or persons with courtesy appointments, such as adjunct appointments.

2.8.08 Post-Tenure Review

Post-Tenure Review

Post Tenure Review shall be intended to provide a means for continued faculty development and evidence of academic effectiveness. The tenured faculty member shall be evaluated and assessed in the areas of teaching effectiveness, scholarly and professional activity, and university and community services. Post-tenure review is not a re-evaluation of tenure. The burden of proof should not be shifted from the University's administration (to show cause for dismissal) to the individual faculty member (to show cause for retention). The post-tenure review process should allow substantive due process of individual faculty members at all times and the process shall be under the control of the faculty. In addition to the annual evaluation of all faculty members, the Post-Tenure Review shall be initiated in every sixth year following the grant of tenure or following the most recent post-tenure promotion or when the tenured faculty member's annual evaluation is unsatisfactory for three consecutive years. The department chair/~~dean~~ may postpone the Post Tenure Review of the faculty member because of illness, university special assignments, or extenuating circumstances.

Mandatory Sixth Year Review

In every sixth year following the grant of tenure or following the most recent post-tenure promotion, the five most recent reviews of each tenured professor shall be reviewed by the ~~dean~~ **department chair** to determine whether there is ~~commutative~~ evidence of low performance on first view. If the ~~dean~~ **department chair** has determined that there is evidence of low performance, he or she shall inform the ~~department chair and~~ professor **and Chief Academic Officer** in writing and ask the Post-Tenure Review Committee to conduct an informal investigation to determine whether there is evidence of low performance. It shall interview the professor, the department chair and any other parties whose assistance it considers relevant. This committee shall have the same access to university records that is granted the University Tenure and Promotion Committee. If the committee finds that there is insufficient evidence of low

performance or that there is evidence of insufficiently recognized merit, it will report its findings in writing to the ~~dean or~~ next administrative level designee and the review is concluded. If the committee finds that there is evidence of low performance, the committee shall recommend to the department chair and the faculty member to develop a plan to improve the performance of the tenured faculty member.

Review Triggered by Three Consecutive Unsatisfactory Evaluations

Upon the tenured faculty member receiving three consecutive unsatisfactory evaluations, the post tenure committee shall review the unsatisfactory evaluations **provided** by the department chair. The Post-Tenure Review Committee shall conduct an informal investigation to determine whether there is evidence of low performance. It shall interview the professor, the department chair and any other parties whose assistance it considers relevant. This committee shall have the same access to university records that is granted the University Tenure and Promotion Committee. If the committee agrees with the chair's unsatisfactory evaluation, the committee will recommend to the chair and the faculty member to develop a plan to improve the performance of the tenured faculty member. The post tenure improvement plan and the chair's recommendations shall be submitted to the Post Tenure **Review** Committee for review and subsequently submitted to the Chief Academic Officer for final approval. Should the committee disagree with the chair's unsatisfactory evaluation, the committee shall submit the evaluation and recommendations to the Chief Academic Officer for review and final resolution.

Post-Tenure Improvement Plan

If the Post Tenure Review Committee finds that there is evidence of low performance, the committee shall recommend to the department chair and the faculty member to develop a plan to improve the performance of the tenured faculty member including a list of items to be completed and available resources to accomplish the listed tasks/activities. The post-tenure improvement plan shall be over a period of 18 months to two years. The post-tenure improvement plan and the chair's recommendations shall be submitted to the Post-Tenure **Review** Committee for review and approval then subsequently submitted to the Chief Academic Officer for final approval. In the event that approval is not granted the **process plan** shall be returned to the department chair and professor for revising.

Results of the Post-tenure Improvement Plan

Upon completion of the post-tenure improvement plan, the chair shall submit to the Post Tenure **Review** Committee, in writing, the results of the post tenure improvement plan. If there is a difference of opinion between the department chair and the faculty member on the results of the post-tenure review plan, the faculty member may submit a rebuttal to the Post Tenure Review Committee within ten working days of the completion of the post-tenure improvement plan. If the Post Tenure **Review** Committee agrees with the chair's results, the Committee shall make their written recommendation and submit the results to the Chief Academic Officer for approval and acceptance. The Chief Academic Officer shall provide a written statement to the President for final approval and acceptance of the Post Tenure Review of the faculty member. If the Committee disagrees with the chair's report of results, the entire Post Tenure Review file, along with the committee's recommendations and all other relevant material shall be submitted to the

Vice President for Academic Affairs for final resolution. The Vice President for Academic Affairs shall provide a written statement to the President for final approval or disapproval of the post tenure review of the faculty member.

The President shall notify the faculty member in writing as to the preliminary outcome of the post tenure review process. The faculty member is entitled to 30 days to submit to the President a rebuttal to any and all parts of the post tenure review process. The Chief Academic Officer shall be responsible for the resolution of all items of rebuttals submitted to the President and make recommendations to the President for final approval and acceptance. The President shall notify the faculty member as to the final outcome in writing of the post tenure review process. If the result is favorable, the letter shall be added to the professor's personnel file. If the result is not favorable, the President shall include in his/her written statement one or a combination of the listed sanctions included in this policy.

Sanctions:

The tenured faculty member who fails to **make corrections** or complete their post tenure improvement plan in the required time period, with special exception, shall be subject to the following sanctions:

- Revocation of Tenure
- Reduction in Academic Rank and Salary
- Involuntary Leave
- Termination of Employment

Note that the post-tenure review process is not the only process under which a tenured faculty member may be terminated. Tenured faculty dismissal may occur at any time pursuant to the procedures set out below within Section 2.8.09.

2.8.09 Tenured Faculty Dismissal

A. Termination of service of a tenured faculty member is made only under these extraordinary circumstances:

3. Malfeasance or contumacious conduct; or,
4. For cause.

B. Termination or Dismissal for Cause of a faculty member prior to the expiration of a term appointment shall be recommended only after the faculty member has been afforded the opportunity for a hearing. In no event shall the contract of a tenured faculty member be terminated for cause without the faculty member being afforded the opportunity for a hearing. In all cases the following procedure shall be adhered to:

MVSU FACULTY HANDBOOK

2.8.10 Procedures for Approval and Dissemination of Tenure and Promotion Policies and Standards

It is the responsibility of the Chief Academic Officer and the Faculty Senate to review University standards for promotion and/or tenure periodically and, with consent of each party, recommend changes to the Institutional Executive Officer.

MVSU FACULTY HANDBOOK

Each academic department shall develop discipline specific criteria for tenure and/or promotion, consistent with applicable Board policy or the provisions of the Faculty Handbook. These criteria should be voted on and approved by all faculty **within the department** who are tenured or on tenure track. The academic department criteria must be submitted to the ~~Dean of the College in which the unit is housed or~~ next administrative level designee for approval. Following the ~~Dean's or~~ next administrative level designee's approval, the **Chief Academic Officer** ~~Dean~~ shall forward ~~the document~~ **criteria** to the Faculty Senate for approval. 2.8.11 Appeals to the Board

A) Conditions of Appeals to the Board of Trustees:

Miss. Code Ann., Section 37-101-15 sets forth the general obligations of the Board of Trustees of State Institutions of Higher Learning with respect to employment at the various institutions of higher learning. It is the policy of the Board to consider appeals of faculty personnel decisions only after the aggrieved faculty member has exhausted all administrative remedies at the institutional level. In the event that an appeal to the Board is requested by the aggrieved party, the Institutional Executive Officer shall transmit to the Board the full report of the grievance/tenure **and promotion** committee concerning the matter appealed. The types of faculty personnel decisions that may be appealed to the Board include denials of tenure **and/or promotions**, terminations of tenured faculty, and termination of employment contracts before expiration of the contract.

The individual allegedly aggrieved will be allowed to submit a written statement of his grievance to the Commissioner within a thirty (30) **calendar** day period following notification of the decision of the Institutional Executive Officer. No persons will appear personally before the Board unless invited.

If review is allowed by the Board, only the record developed at the institution will be reviewed. No new evidence may be submitted on appeal.

Review by the Board is not a matter of right, but is within the sound discretion of the Board.

B) Review of Appeal by the Board:

The Board, upon receipt of such an appeal, shall review the records of the institutional committee's hearing and all documentation relative to the personnel decision. The Board reserves the right to correct an omission or other inaccuracy in the record submitted upon suggestion by either party or

MVSU FACULTY HANDBOOK

upon its own motion. The Board shall then determine the following:

1. If the institutional due process procedures were followed; and/or
2. If the decision was arbitrary or capricious.

The Board, after reviewing the written argument and documentary evidence, shall affirm the decision of the Institutional Executive Officer or make another decision which shall be final and binding.

2.9 GRIEVANCE DEFINED

2.9.1 Grievance Defined

A grievance is defined as the claim of an individual employee that there has been a violation, misinterpretation or misapplication of a rule, policy or procedure in relation to personnel policies, including working hours, working conditions, leaves, promotions, and other conditions of employment. (Board Policies, 403.0201)

2.9.2 Appeals to the Board Concerning Grievances

Grievances, as defined in Section 2.9.1, are **not** appealable to the Board. The **decision of the** Institutional Executive Officer is binding and final.

Appeals may take place only after the faculty member has exhausted all other prerequisite administrative remedies as prescribed by the institution and a decision has been rendered by the Institutional Executive Officer. During final review by the Institutional Executive Officer, legal counsel may be assigned to assist in the review. Appeals to the Board on these matters will follow the same policies and procedures as set forth for dismissal of tenure track faculty.

2.10 TENURE OF INSTITUTIONAL EXECUTIVE OFFICERS

The Institutional Executive Officer of Mississippi Valley State University, upon appointment, will be concurrently appointed to the faculty in his/her discipline at the rank of full professor. After the successful completion of five (5) years of service as Institutional Executive Officer, he/she may be tenured as a full professor in the designated department at the discretion of the Board. Tenure shall carry the usual rights and privileges as specified in Board and institutional policy. In the event that the Institutional Executive Officer resigns and elects to remain with the institution, his/her salary as a Professor shall be determined based upon the appropriate consideration of teaching, research and public service, and salary conditions in the discipline.

After ten (10) or more years of satisfactory service as an Institutional Executive Officer, he/she may be appointed to a Board Distinguished Professorship per Section 301.0801 (G) Duties of the President (Board Policy).

2.11 NON-TENURE TRACK FACULTY

Mississippi Valley State University is authorized to establish faculty positions designated as non-

tenure track positions. The University may enter into renewable contracts, for periods up to four years in length, with non-tenure track faculty members in three separate categories - research, teaching, and service - based on the mission and needs of the institution.

The University, when employing non-tenure track faculty, will have a formal system of annual evaluations to assess each such faculty member's performance. Renewal of contracts is not guaranteed and will be determined by the institution on the basis of the faculty member's performance, availability of funding, and institutional priorities.

Individuals employed in non-tenure track positions have no expectation of continuing employment beyond the expiration of their contracts and shall not be eligible for consideration for the award of tenure. Individuals in non-tenure track positions may not have their status converted to tenure track positions. However, they are eligible to apply for tenure track positions.

2.12 NOTICE OF NON-RENEWAL OR TERMINATION OF NON- TENURE TRACK PERSONNEL

Notice of intent not to renew non-tenure track personnel shall be furnished in writing thirty (30) **Calendar** days prior to the expiration date of the contract.

Notice of termination of non-tenure track personnel prior to the expiration of the contract due to lack of funds shall be furnished in writing thirty (30) **calendar** days prior to the termination.

2.13 FACULTY ROLES AND RESPONSIBILITIES

Faculty members should be cognizant of university policies and practice collegial and collaborative relationships. Faculty should also engage students in class discussions, research, and service.

2.13.01 Faculty Roles in Teaching Load Assignment

- Courses assigned to faculty should reflect the qualifications, teaching effectiveness, experience, and expertise of the faculty member. (See statement 1.a under Section 1.1.4.4, Management of Department Personnel)
- Faculty member shall have input in the selection of courses to be included in his/her teaching load.
- Faculty member shall receive teaching load assignments (courses, other related assignments) soon after semester schedule has been approved by **Dean/Chair**.
- **Dean/Chair** shall inform and consult with faculty member in a timely manner when a change in teaching load or other assignment becomes necessary.
- Except in special circumstances, assignment of overloads or the assignment of adjuncts shall be considered only after regular faculty members have full teaching load assignments.

- Faculty members should familiarize themselves with, and be guided by, all University publications concerning academic policies and procedures.

2.13.02 Teaching Load

In addition to the primary responsibility of providing instruction for courses assigned to them, faculty members have further professional responsibilities which consist of service on University Committees and academic advisement to students. Full-time teaching load will be defined by the following guidelines which apply to each academic semester (other than the summer and winter sessions):

1. For teaching assignments entirely of undergraduate classes the full-time teaching load shall be twelve (12) credit hours.
2. For assignments consisting of graduate classes or a combination of graduate and undergraduate classes, the full-time teaching load shall be nine (9) credit hours.

Under certain circumstances, workload may be adjusted. Examples of factors which may lead to adjustment of workloads are committee assignments (such as directing the SACS self-study), nature of instruction (such as initiation of new degree programs), and class size.

Laboratory or studio supervisions shall be designated in credit hours according to the following definitions of equivalence:

- A. Each fifty-minute lecture or recitation period per week during a semester shall equal one (1) credit hour.
- B. Each set of two fifty-minute laboratory or studio periods per week during a semester in which the entire student exercise is conducted within the organized instructional period shall equal one (1) credit hour.

2.13.03 Syllabi

Each faculty member shall prepare a syllabus, for each course assigned. Each student should receive a syllabus during the first class meeting. The syllabus should include required and optional textbooks, assignments, grading policies, attendance rules, course prerequisites, etc. The objectives and evaluation procedures should be clearly spelled out in the syllabus in a language students can understand. Cheating and plagiarism penalties, as well as Americans with Disabilities Act policies, should also be a part of the outline (see Appendix G-Sample Course Syllabus).

Copies of each syllabus should be on file in the departmental office. Any modifications in the syllabus should be provided to the students and the Department Chair.

2.13.04 Class Meetings

Classes should be taught at the regularly designated times and places providing quality instruction based on the stated objectives of each course. Any permanent changes in the schedule and classroom must be approved in advance by the Chair.

In compliance with IHL and SACS policies, the University requires a minimum of 2,250 minutes per three semester hour course, which may include final examination time. The number of weeks must meet federal financial aid requirements. Summer semesters begin the week of Memorial Day.

2.13.05 Absence from Duty

Whenever it is necessary for a faculty member to be absent from the University, the Chair should be notified as soon as possible. Personal and professional leave **MUST** be approved before it is taken. Faculty must comply with Human Resource Policies and Procedures on leaves of absence.

2.13.06 Examinations

To ensure compliance with Board guidelines for student contact hours, faculty members shall administer mid-term and final examinations according to the University calendar and final examination schedule. Faculty shall use appropriate evaluation measures as often as necessary to determine the students' mastery of the course objectives.

Examinations, papers and class projects should be graded promptly and made available for students to review. Final examinations, papers/class projects should be retained for at least two months after the beginning of the following term.

2.13.07 Academic Integrity

The instructor ordinarily has final authority over the grades given to students or the lowering of grades resulting from any deliberate attempt to gain an unfair advantage in academic work. Examples of academic dishonesty include cheating, falsification of information, fraud, plagiarism, and unauthorized access to academic records or computer systems. The following will apply to cases of academic dishonesty:

1. The instructor will take appropriate disciplinary action which may include the awarding of an "F" on the particular assignment or in the course.
2. The instructor will make a report of the incident and of the action taken, if any to his/her Department Chair, the Vice Institutional Executive Officer of Student Affairs, and the student.
3. The Student Conduct Committee may review the incident and impose conduct discipline, including probation and suspension, if warranted.
4. The student may desire to discuss the matter with the Student Conduct Committee.

2.13.08 Office Hours

Each full-time faculty member shall establish ten (10) posted office hours per week for advisement

and conferences with students in their classes. These hours should be spread over at least three different days.

2.13.09 Record Keeping

All grade/roll books (print or electronic) are the property of the University and therefore, faculty members are to turn them in to the Chair of the Department at the end of each semester and the end of each summer **and winter** session. All adjunct faculty must submit grade/roll books at the end of each semester. These grade/roll books will remain with the University for a period of five years. Faculty members should make a copy for their records prior to submission of the grade/roll books.

2.13.10 Class Roster

It is the responsibility of faculty to periodically review class rosters to ensure accuracy. Inaccuracies should be reported to the Office of Student Records. Additionally, attendance indicators must be submitted as directed by the Office of Student Records to ensure the accuracy of class rosters and compliance with federal guidelines.

It is the responsibility of the student to attend all classes and complete any academic requirements the instructor may prescribe. Absences are a matter between the instructor and the student. When absence from class is due to extenuating circumstances (e.g. accidents, death/serious illness in the immediate family), it is the responsibility of the student to inform his/her instructor. It is the responsibility of the student to also inform the Office of Student Affairs of an absence.

2.13.11 Class Attendance Policy

Policy: Regular and punctual attendance is required for all classes and activities earning credit. Students must comply with class attendance policies set by individual faculty members and complete all work required for each course.

Faculty members are obligated to notify students in writing at the beginning of each semester of the policies and procedures on absences and make-up work. When students must be absent from class, they are required to make arrangements satisfactory to the instructor with regard to work missed.

When students know in advance that they will be absent from class, instructors should be notified and arrangements made to secure assignments. Students may obtain from the Vice President of Student Affairs an official excuse from class due to an emergency (illness, accidents, jury duty, or death in the immediate family, **etc.**) or for attendance at officially-authorized functions and authorized field trips sponsored by the University. Official absences presented to the instructor within seven days from the date of the absence entitle the student to make up any work missed.

Faculty members are required to submit absences and -never attended reports at a designated time via the Banner System. Students who receive Financial Aid awards can only receive funds

for -class attendance. The MVSU Attendance Policy for Financial Aid includes No Shows and Unofficial Course Withdrawals.

No Shows: Students who never attended the class at all, during the first 10-14 days of the semester will be administratively dropped from class which may affect the students' eligibility for financial aid. Faculty must submit an electronic report via the Banner System to the Office of Student Records immediately after the close of the last day to drop/add a course or at a designated time.

Unofficial Class Withdrawals: The student's financial aid is based upon class attendance throughout the semester. If a student officially withdraws from all courses, a refund calculation is performed using the actual date of withdrawal to determine the amount of funds earned by class attendance and the amount of unearned funds to be returned to the programs that provided the aid. For students who cease attending a class and earn a grade of -F|| for the semester, the last date of attendance (LDA) will determine the time attended and the amount of aid earned and unearned. For a student who attends the class for at least 60% of the semester, the full financial aid award is considered earned. For unofficial withdrawals, faculty members are requested to indicate the last date of attendance or participation in a class event or activity at the time they report the final grade of "F". The accuracy of reporting can have an impact on the student's account and on the University's budget.

2.13.12 Faculty Evaluation

Each faculty member is evaluated at least once annually in three ways:

1. By his or her Chair;
2. By students enrolled in courses; and,
3. By a peer(s) in the faculty members' respective department.

The purpose of the evaluation is to provide adequate feedback to the employee; to serve as a basis for changed behavior, which leads toward more effective work habits; and, to provide data for decisions on assignments, employment status, and comparison (see Appendix C-Faculty Evaluation Instrument). Because peer evaluation is not just an evaluative process but also an opportunity to enhance teaching effectiveness, the Peer Evaluation Form provides for both a formative and a summative evaluation. Results of the actual evaluations are confidential. However, the summary is to be shared with the Department Chair and the faculty member being evaluated before the end of the semester in which the evaluation is completed (see Appendix D – Peer Evaluation Instrument).

Annually, each faculty member will be given an opportunity to assist in the evaluation of their respective Chair by completing an administrative survey. The ~~Dean of the respective College~~ **Chief Academic Officer** will conduct this evaluation.

2.13.13 Evaluation Procedures

Faculty evaluations will be determined using the following Instruments:

1. Faculty Evaluation Plan- statement completed by the faculty in consultation with his/her

MVSU FACULTY HANDBOOK

Department Chair no later than September 30 of the academic year in which the evaluation will take place.

2. Statement of the Faculty Members Accomplishments – statement initiated by the faculty to be evaluated and submitted to the Department Chair by March 1 covering the twelve-month period immediately preceding this date.
3. Faculty Evaluation Instrument- to be completed by the Department Chair, discussed with the faculty being evaluated, and submitted to the ~~College Dean~~ Chief Academic Officer by April 30th. Faculty members are encouraged to maintain an updated folder documenting their teaching, research, and service activities.
4. Student Rating Instrument-Student evaluations of the faculty's performance will be conducted annually. These surveys will measure aspects of each of the following categories: 1) the course, 2) the instructor, and 3) the method of delivery. After the surveys are assessed by the Office of Assessment, it will be the Department Chair's responsibility to distribute a copy of the results to the faculty being evaluated. A copy of the results will also be added to the faculty's file in the Department and others distributed to the ~~College Dean and the Provost~~ Chief Academic Officer.

The performance instruments are designed to provide faculty members with data to support their strengths, denote where improvements are needed, and to assist the University in determining where faculty support services are needed.

B. Additional Evaluation of Faculty

All faculty members are expected to provide the Department Chair with additional information that will serve to support their teaching, service and research performance. In addition to the above referenced methods of evaluation, faculty may choose one or more of the following criteria to support their performance:

1. An external peer evaluator
2. Course syllabi and examinations
3. Teaching, grants, and awards
4. Additional student input in the form of letters, emails, faculty nominations, etc.
5. Curriculum development and innovation

2.13.13 Faculty Performance Report

Each faculty member shall submit annually a cumulative self-report to the Chair. The following should be included in the report: teaching load, proof of teaching effectiveness, academic achievement, service to the institution, professional development activities, and any supporting documentation considered relevant by the faculty member to provide information that could be useful in the evaluative process.

2.13.14 Educational Trips

Faculty members who take students on tours or trips off the campus shall secure the approval of the Chair, ~~the Dean of the College or the next administrative level designee~~, Vice Institutional Executive Officer for Student Affairs and the Chief Academic Officer using the appropriate form.

2.13.15 Summer School

Scheduling of classes for the summer terms shall be based on cooperative planning between the faculty and the Chair. Consideration will be given to student request, course prerequisites, and the appropriateness of the course for effective instruction within the abbreviated period.

2.13.16 Summer/Winter Term Employment

Employment of faculty to teach summer/winter courses is voluntary. Faculty may teach a maximum of two courses per Summer Session and one for the Winter Session. It is permissible for faculty to teach in both summer sessions. Priority shall be given to full time faculty.

Each academic unit must determine its program needs in selecting Summer/Winter Session courses. Research based courses cannot be taught during the Winter Session. However, research based courses may be taught in a Summer Session with the approval of the ~~area Dean or~~ Chief Academic Officer. Once courses have been selected, the most qualified faculty members who have volunteered should be selected to teach the courses. In situations where there are equally qualified faculty members for a course willing to teach, the faculty should be rotated.

The minimum class enrollment for summer classes is ten students for undergraduate classes and five students for graduate classes. Exception to the minimum class size policy may be requested by the Department Chair, and Approved by the ~~area Dean or~~ Chief Academic Officer.

2.13.17 Summer Research

Employment of faculty to conduct funded research depends on the salary provision made on the research budget and projected research activities for the summer as specified in the project proposal. A maximum duration of summer employment for nine-month faculty for research is three (3) months and one may work on a part-time or full-time basis. The summer pay should not exceed the prorated nine-month salary.

2.13.18 Meetings

When a general faculty meeting is called, all faculty members are required to attend unless specifically excused by the Chief Academic Officer or the Institutional Executive Officer. Departmental faculty meetings are convened at the discretion of the Chair. ~~Deans are also given authority to convene college meetings at their discretion.~~

2.13.19 Advising

Student advising and counseling is an integral function of the faculty. While the specific advising program may vary by program or department, the advisor should understand the curriculum and all

relevant University policies and requirements relating to student progression toward completing a degree. Advisors should insist that students complete the core curriculum before proceeding with major courses. Advisement forms shall be developed for each program. Advisement forms should be signed each semester by both the advisor and student with a copy kept in the students' file in the departmental office. Course Substitution and Course Transfer Forms must be completed prior to the submission of the student's application to graduate. Furthermore, formal evaluation of transcripts should precede course registration for transfer students.

2.13.20 Final Course Grade

Faculty members must accurately record, account for, and register each student's progress and scholastic attainment. All final grades will be assigned in each class section on a consistent and equitable basis and in accordance with course syllabi. Faculty of record has sole responsibility for evaluating student performance and assigning course grades.

2.13.21 Classroom Decorum

The classroom atmosphere must be one of mutual respect and professionalism on the part of the faculty and the students. Neither the faculty member nor the student is expected to tolerate rude or disrespectful behavior.

2.13.22 Student Conduct

A student behaving in a disruptive manner may be dismissed from class. If the faculty member perceives that a student poses an immediate threat, the faculty member is encouraged to call campus police.

The faculty member may file charges against the student for misconduct. If formal charges are filed, a written report of the incident(s) leading to the charges, supporting documentation, and a list of witnesses should be submitted to the Vice Institutional Executive Officer for Student Affairs through the Chair ~~and the Dean~~.

Students must be encouraged and expected to conduct themselves with respect for others.

Faculty may wish to refer to the Student Handbook for further clarification and details.

Under no circumstances will firearms or other weapons be allowed in the classroom.

2.13.23 Academic Programs Change Process

Mississippi Valley State University subscribes to the philosophy that the faculty's involvement in curriculum change/development is the most essential component in the process.

The process of curriculum change/development explicitly recognizes the roles of the Faculty, the Administration, the Board of Trustees of the Institutions of Higher Learning of the State of Mississippi (IHL), the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) and the professional accrediting agency, if the program is accredited by a specialized professional accreditation agency. Depending on the scope of a change, the latter two

organizations may or may not be involved in the process.

Curriculum change/development encompasses any change in curriculum, ranging from a minor change, such as changing course number or title, to establishing a new program. The units required to participate in the curriculum change/development are faculty of the unit originating change; the Chairs; ~~the Deans~~; the Academic Policy Committee; the Graduate Council; the Chief Academic Officer; and the Institutional Executive Officer who has ultimate authority to approve, disapprove, or return a curriculum proposal for recommended change.

The forms for curriculum change are located in Appendix H, and the sequence of curriculum change is described below.

Origin of Institutional Program Change Proposal

Any proposal requesting changes to the academic programs must be generated by the faculty within the Department connected with the subject matter involved under normal circumstances. However, occasionally, the administration may request the faculty of a unit to develop a new proposal identified as needed through the university's strategic planning and/or by IHL. The proposal must be voted on and approved by a majority of the members of the Department.

The proposal must contain a detailed explanation of the desired change, including the following (all of which is illustrated in detail on the three primary approval documents):

- The rationale and need for the proposed curriculum change
- Course syllabus, prerequisite courses, course number and course title which should include:
 - A course description suitable for inclusion in the catalog
 - Course goals and objectives
 - Student learning outcomes of the course
 - Course assessment measures
 - Proposed textbooks and library materials supporting the course
 - Faculty Roster(s) indicating who will be responsible for teaching the course
 - Budgetary support, if additional funding is needed
- One of the Following Forms:
 - Curriculum Change Form (if changes to courses only) – Academic Change Form #2A
 - Academic Program Changes Proposal Form – Academic Change Form #2B
 - Academic Programs Proposal Form – Academic Change Form #2C
 - Academic Programs Clearance Form – Academic Change Form #3

Please note: At this point the proposal will be reviewed by the SACS liaison and he/she will attach a SACS Checklist form (Academic Change Form #4) to the proposal. If he/she determines that the proposed academic or curriculum changes constitute a substantive change, according to the regulations of SACSCOC, then the process will be suspended upon approval of the proposal by the full Faculty Senate until a Substantive Change Prospectus is completed and forwarded to the SACS COC office.

- If it is deemed to be a Procedure 1 Change, then the process can commence upon notification to SACSCOC. However, the proposal cannot be approved by APC until approval is granted by SACSCOC (either a six or twelve month time frame).
- However, if it is deemed to be a Procedure 2 Change, the process can commence, including approval by APC and the president, upon notification to SACSCOC of the impending change.

As the process continues, individuals are asked to complete their portion of the Academic Programs Clearance Form – Academic Change Form #4. This is critical as this is the documentation ensuring that all relevant parties have been involved in the process. Please note that regardless of whether the other documentation is completed, APC will not approve any changes without a completed checklist.

Review and Approval by the ~~Dean of the College~~ Chief Academic Officer

The chair of the department originating the change should send a copy of the completed proposal to the ~~Dean of the College~~ Office of Institutional Research for substantive change assessment recommendations and approval. ~~If the change is at the graduate level, then the Dean of the Graduate School must also ratify the change.~~ Once the substantive change assessment is complete, the document is forwarded to the University Curriculum Committee.

Review and Approval by ~~the Faculty Senate~~ the University Curriculum Committee and Faculty Senate

The ~~Faculty University~~ Curriculum Committee will review the proposal and (if necessary) ask the department to provide additional information and/or to make revisions. After review, the ~~Faculty University~~ Curriculum Committee will vote to approve or reject the recommended changes. If the proposed changes are rejected by the Committee, it must provide a rationale for rejection to the Department. A notification of when the Curriculum Committee meets, ~~as well as the agenda of the Faculty Senate meeting at which~~ when the recommendation of the Curriculum Committee is considered must be sent to the Department seeking the change, to allow for a representative to be present at the meeting to provide any additional information to the Committee.

The ~~Faculty University~~ Curriculum Committee must bring before the full Faculty Senate all approved proposals ~~deemed a substantive or major change~~ for a vote by the full senate. If the Senate votes to recommend approval for the proposed ~~substantive or major~~ changes, it must be forwarded to the ~~Office of the Provost~~ Chief Academic Officer. If the Senate disapproves of the proposed changes, it must provide to the ~~Office of the Provost~~ Chief Academic Officer a rationale for the rejection.

Review and Approval by the ~~Office of Provost~~ Chief Academic Officer

Upon receiving the recommendation for approval of the proposed change from the Faculty Senate ~~or the University Curriculum Committee~~, the ~~Provost~~ Chief Academic Officer will call an Academic Policy Council (APC) meeting for review and approval of the proposed curriculum by the APC.

Review and Approval by the President

The ~~Provost~~ **Chief Academic Officer** will forward the proposed curriculum changes to the President or his/her designee for review and approval. If the President approves the proposal, then the President will solicit approval from IHL or SACS, **if such higher-level authority is required.** If the President rejects the proposal, then the proposal is sent back to the ~~Office of the Provost~~ **Chief Academic Officer** with a rationale which will either trigger a series of reviews and revisions involving various units and committees or it may end the proposal process.

2.13.24 Faculty Contracts

Contracts shall be awarded to faculty **members** annually per **College** Board policy.

2.13.25 Faculty/Staff Housing

MVSU maintains on-campus housing for faculty which includes single family units, apartments and the Delta Sands Hotel. These facilities are for ~~exclusive~~ occupancy by faculty and administrative staff and their families and are assigned based on availability and order of request. However, these facilities are intended as temporary accommodations. Preference will be given to the faculty. ~~The seventy-seven (77) faculty apartments consist of one, two, and three bedroom individual apartments, with living room, kitchen or kitchenette, and bath. Along with apartments, there are thirty two (32) houses.~~

2.13.26 Convocation

Faculty members are expected to attend formal academic exercises of the University as designated on the contract. Academic regalia is the attire for such convocations as Founders, Honors, and Graduation.

2.13.27 Faculty Compensation

Mississippi Valley State University endorses the concept of an equitable salary for each faculty rank. Salaries by rank will be determined based on available financial resources and will be established annually.

2.13.28 Professional Growth and Development

Professional development must be a constant concern of each faculty member. Requests for professional development activities and/or funding should be developed in cooperation with the Chair ~~and Dean~~. Funding for such activities may be provided through ~~college and~~ departmental budgets to the extent available. Additional funding may be available through the Office of Faculty Development and other external funding sources. See Appendix K for Faculty Development Grant Policies.

3.0 HOLIDAYS, VACATIONS, AND LEAVES

3.1 OFFICIAL HOLIDAYS

The official holidays observed by MVSU are the Fourth of July, Labor Day, Thanksgiving Day, Christmas Day, New Year's Day, Martin Luther King, Jr., Day, Good Friday/Easter, and Memorial Day. Unless the occasion warrants otherwise, all offices will be closed. Special holidays may be announced at the discretion of the Institutional Executive Officer.

3.2 SEVERE WEATHER AND EMERGENCY CONDITIONS

The decision to close the university due to inclement weather or for other emergencies shall be made by the university administration. The decision shall be communicated internally through the unit heads and directors. Local radio and television stations will be officially notified of closing and reopening. Furthermore, employees may call the University switchboard or University Police for information.

When the University is reopened, persons unable to report to work based upon their particular circumstances shall call their supervisor as soon as possible and complete a leave form upon returning to work.

The University has developed, and keeps on file in the Office of the Director of the Physical Plant, an Emergency Response Plan. The Plan is aimed at protecting the health and safety of the campus community. Emergency situations include but are not limited to tornadoes, fire, explosions, hazardous waste material, utility failure, and civil disturbance, acts of terrorism or threats of such, and evacuation routes.

3.3 PERSONAL LEAVE

Personal leave matters are handled by the Mississippi Valley State University Office of Human Resources as published in the *University Personnel Handbook* under policy on personal leave.

3.3.1 General Policy

MVSU shall maintain proper leave records and shall keep the employee informed as to the employee's accumulated leave balances. Personal leave may be used for vacation and personal business and shall be used for the first day of an employee's illness.

3.3.2 Application of Rules

Faculty members do not earn personal leave time. Faculty employed on a nine-month contract shall not be eligible for personal leave.

3.3.3 Full-Time Faculty

All full-time university employees, except those described in Section 3.3.2 shall be allowed credit for personal leave computed as follows:

MVSU FACULTY HANDBOOK

Personal Leave for 12 Month Faculty

Continuous Service	Accrual Rate (Monthly)	Accrual Rate (Annually)
--------------------	---------------------------	----------------------------

1 month to 3 years	12 hours per month	18 days per year
37 months to 8 years	14 hours per month	21 days per year
97 months to 15 years	16 hours per month	24 days per year

However, employees who were hired prior to July 1, 1984, who have continuous service of more than five (5) years but not more than eight (8) years shall accrue fifteen hours of personal leave each month.

For the purpose of computing credit for personal leave, each employee shall be considered to work not more than five (5) days each week. Leaves of absence granted by Mississippi Valley State University for one year or less shall be permitted without forfeiting accumulated continuous service. The provisions of this policy shall not apply to military leaves of absence. The time for taking personal leave, except when such leave is taken due to an illness, shall be determined by Mississippi Valley State University. An official vacation period shall be announced each year by the institution. Personal leave and vacations must be taken at a time mutually agreeable to the immediate supervisor and the employer.

The earned personal leave of each employee shall be credited monthly after the completion of each month of service. Mississippi Valley State University will not grant personal leave in an amount greater than was earned and accumulated by the employee.

There shall be no limit to the accumulation of personal leave. Upon termination of employment, each employee shall be paid for not more than thirty (30) days of accumulated personal leave. Unused personal leave in excess of thirty (30) days shall be counted as creditable service for the purposes of the retirement system.

Under no circumstances will an employee be paid for accrued personal leave while still employed by Mississippi Valley State University or any other agency of the state of Mississippi. When members transfer to other agencies of the state, all accrued personal leave shall be transferred. Mississippi Valley State University shall furnish a statement of accrued leave at the time of transfer by an employee.

Should an employee die having accumulated personal leave as provided for in this handbook, the wages or salary which would have been paid to such employee during their leave shall be paid to the person designated by such employee for this purpose or, in the absence of such designation, to the beneficiary of such employee as recorded with the Public Employees' Retirement System.

The foregoing vacation policy is in accordance with Section 25, Chapter 3 of the 1986 Cumulative Supplement to *Mississippi Code 1972 Annotated*, as amended.

3.3.4 Nine and Ten-Month Faculty

Faculty on nine and ten-month appointments are granted no additional vacation beyond the holidays and seasonal breaks occurring during the academic year.

3.3.5 Personal Leave Procedure

The following procedure is followed by all who accrue leave, as well as 9 and 10 month faculty with leave accrued previously:

1. Employee fills out a Request for Leave – Faculty from Human Resources
2. Employee requests by letter with attached Request for Leave Form to the department chair with approval by the dean and the provost.
3. Department chair notifies the employee of the decision.
4. If approved, employee contacts the Human Resources Department about continuation of benefits during the approved leave of absence.
5. Upon return to work, employee contacts the Human Resources Department about reinstatement of benefits.

3.4 MEDICAL LEAVE POLICY

3.4.1 Full-Time Faculty

All full-time University employees (except those described in Section 3.3.2) shall accrue credits for major medical leaves as follows:

However, major medical leave may be used, without prior use of personal leave, to cover regular scheduled visits to a doctor's office or a hospital for the continuing treatment of a chronic disease, as certified in advance by a medical doctor. For each absence due to illness of thirty-two (32) or more consecutive working hours (combined personal leave) major medical leave shall be authorized only when certified by a medical doctor.

MVSU FACULTY HANDBOOK

In the event an employee is absent due to illness beyond the medical leave days earned, a prorated deduction will be made from the employee's salary for the number of days in excess of the employee's accumulated medical leave days. For accounting purposes, an employee's anniversary date is the date of the employee's appointment to full-time regular or provisional service at Mississippi Valley State University.

An employee may use up to three (3) days of earned major medical leave in any calendar year because of death in the immediate family requiring the employee's absence from work. No qualifying time or use of personal leave will be required prior to use of major medical leave for this purpose. For the purpose of this section, the immediate family is defined as spouse, parent, step-parent, sibling, child, stepchild, grandchild, grandparent, son or daughter -in-law, mother or father-in-law, or brother or sister-in-law.

At no time will an employee be paid for accrued medical leave while still employed at Mississippi Valley State University except for medical leave pay which may be made as heretofore provided. Medical leave will not be paid in excess of that accrued by the employee. In order to be eligible for allowance of medical leave, the employee must be ill, notify the Chair immediately of the reason for absence, and keep the Chair informed of his condition. Unused medical leave will be counted as creditable service for purposes of the state retirement system.

If any nine-month faculty member becomes temporarily disabled prior to the end of the contract period but has accrued personal and major medical leave, he or she is not eligible to be continued on a paid leave status after the end of the contract period, if the contract period ends prior to using all earned leave days.

3.5 SABBATICAL LEAVE

3.5.1 Purpose

A sabbatical leave shall be granted for the purpose of professional improvement only. The leave enables a member of the faculty to undertake such research, writing, study, advanced degree work, or other creative endeavors as he/she would not be able to do in the course of his/her full-time university responsibilities. A sabbatical leave is designed to increase the usefulness, effectiveness, and productivity of faculty.

Sabbatical leaves allowed under the Mississippi statute are not granted as rest periods, vacations, earned leave with part pay, or any other purpose except as explicitly stated in law. Sabbatical leaves are granted at the discretion of the university and subject to availability of funds.

3.5.2 Eligibility for Sabbatical Leave

Only full-time faculty **members** are eligible for sabbatical leave. To qualify for one semester (four and one-half months) of leave, a faculty member must have served full-time on the faculty of Mississippi Valley State University for six (6) or more consecutive semesters of regular session work before the effective date of the leave; to qualify for two semesters (nine months) of leave, the faculty member must have served twelve (12) or more consecutive semesters of regular session work in the university before the effective date of leave. A faculty member granted sabbatical leave must enter into a formal agreement with the Board of Trustees to remain on the full-time regular faculty of the employing institution for one semester for each semester of leave granted. Full time contractual services will commence immediately upon

termination of the leave period. This formal agreement requires repayment of salary received while on leave by anyone given sabbatical leave who does not return to work for the specified time required. Persons who fail to return from sabbatical leave forfeit their relationship with the university.

Sabbatical leave may be spent on campus or off campus, depending on the type of activity to be undertaken. A faculty member shall not be expected to carry on committee assignments or special administrative functions during the period of leave.

Faculty members may have the right, while on sabbatical leave, to receive any grant or stipend designed primarily to further professional growth of students, scholars and professional people, whether under the sponsorship of any institutions of higher education or of an organization known generally to engage in educational promotions meritorious to higher education. Faculty members on such leave may not accept full-time employment or enter into any written or implied obligation employment which would violate the contracts for full service he/she will have with his institution while on sabbatical leave.

Application for sabbatical leave must not be later than six (6) months prior to the projected commencement of the leave period.

Sabbatical leave periods normally will be during regular session semesters (Fall and Spring). It is not intended to allow for summer school attendance only.

Compensation payable to persons on sabbatical leave shall be paid at the same time and in the same manner in which salaries of the other members of the faculty are paid.

A faculty member on sabbatical leave remains a full-time employee of the Board. Such faculty member shall retain all the rights and benefits including those of retirement, insurance, housing, longevity, and other benefits.

3.7 LEAVE OF ABSENCE

3.7.1 General Policy

It is recognized that employees suffer temporary sicknesses or disabilities from time to time and are therefore unable to perform assigned duties. This policy describes employee entitlements, including leave with or without pay, for such temporary sicknesses or disabilities.

It is the intention of this policy and its entitlement to provide for any temporary disabled occurrence that normally has a reasonably predictable time frame, encompassing an onset and an end of the condition. Leave necessary for the purpose of child bearing is included in this policy. This policy does not guarantee an entitlement for any employee who is absent from work on a frequent and/or regular basis and whose attendance habits are such that the employee fails to accomplish assigned job responsibilities.

The respective universities and agencies reserve the right to require medical statements in support of uses of benefits under this policy as well as to support the universities' and agencies' needs to determine that employees be permitted to work. Failure to provide required necessary documentation may result in a "non-pay" status for the period of time in question, and/or in dismissal (although accrued personal leave and major medical leave exist). **The Family Medical Leave Act requirements govern this type of leave of absence.**

3.7.2 Entitlement

Any regular full-time employee who has successfully completed the respective institutions' or agency's probation period and who suffers temporary sickness or disabilities thus making him/her unable to perform assigned duties may be granted leave.

An employee's group insurance plan will be kept in force as long as major medical leave or personal leave entitlements are paid. It may be kept in force, thereafter, through direct contribution by the employee not receiving pay under major medical leave. Arrangements for this service must be made by the employee with the appropriate designated institutional department prior to the date that such contributions should be made.

3.7.3 Jury Duty and Elections

The head of an institution or division may grant administrative leave with pay to an employee serving as a witness or juror or party litigant, as verified by the Clerk of the Court.

Jury duty is recognized as a civic responsibility. Faculty, when summoned for jury duty, shall be given time off with pay.

In the case of local and national elections, an employee may request time off to vote.

3.7.4 Military Leave

Faculty who are on permanent status with the institution and who are called to active military duty on a short notice, such as national emergencies, may be granted military leave of absence (without pay) beginning on the date of the call to military service.

A leave of absence with pay not in excess of fifteen (15) days annually may be granted to a regular faculty who, as a member of the National Guard or official militia of the State of Mississippi or a member of any of the reserve components of the armed forces, is ordered to active duty. However, any applicable Federal laws shall govern this policy.

4.4 EXIT INTERVIEW

All personnel leaving the employment of Mississippi Valley State University must have an exit interview with the Director of Human Resources on their last regular working day. The interview will protect the employee's benefits, provide an accurate forwarding address for references, retirement fund, and tax purposes.

University property maintained by separating employees, such as keys, uniforms, handbooks and identification cards, must be returned to the appropriate office no later than the last working day. Verification must be obtained that all items have been returned and all accounts have been cleared from the various offices listed on the Termination Clearance Form. The final payroll check **may** be held until the signed clearance has been received. Forms are available in the **Office of Human Resources** ~~Office~~.

Faculty members who wish to express views or to provide an evaluation of one's working environment, will be granted an opportunity during an exit interview with the appropriate Department Chair ~~and dean~~. The form is available in the Office of Human Resources.

4.16 INTELLECTUAL PROPERTY POLICY

The production of new knowledge and the dissemination of both old and new knowledge are major objectives recognized by university personnel. Activities pursuant to these objectives include the development of new and useful devices and processes and the publication of scholarly works. While the primary focus of such efforts is to advance the central purpose of the institution, the products of scholarship often have implications for wider and differing applications. These products – intellectual properties – thus may be of benefit to the individuals involved and to the institution.

Intellectual properties often come about because of activities of faculty and other employees who have been aided wholly or in part through the use of institutional resources. It becomes significant, therefore, to ensure the utilization of such resources to expedite their development and marketing. The rights and privileges of the inventor or authors must be preserved so their abilities and those of other employees may be encouraged and stimulated.

4.19 EXTERNAL RELATIONS POLICIES

4.19.1 COMMUNICATION CHANNELS: POLICIES AND PROCEDURES

The Office of Public Relations is the official information agency for the University with all media, which includes newspapers, radio, television, student publications, printed programs, and external and internal newsletters. The Office of Public Relations shall be responsible for promoting a positive institutional image through internal and external media.

4.19.2 PROCEDURES FOR SUBMISSION OF PRESS RELEASES

All communications regarding any aspect of Mississippi Valley State University requiring interaction with the media (newspapers, radio, television--incoming and outgoing) should be channeled through the Office of Public Relations for dissemination via press releases. Information to be released should be submitted in writing no less than ten (10) working days prior to the press release date. The preferred format for the submission of information is a simple outline, which would include who, what, where, when, why, and how. Additional, information outlining the specifics of the subject matter is also preferred. Faculty/employees are encouraged to contact the Public Relations Office if clarification is needed.

4.19.3 PUBLICITY FOR FACULTY ACTIVITIES

Faculty are strongly encouraged to forward to the Academic Affairs and Public Relations Offices information pertaining to their professional activities, such as publications (especially those in refereed academic journals), research presentations, conference activities and honors. These offices will channel information to Public Relations to gain maximum local publicity for these activities and accomplishments.

MVSU FACULTY HANDBOOK

Persons representing Mississippi Valley State University on local television and radio talk shows and newscasts or in newspapers will be selected according to the following criteria:

- a) Knowledge in the topic to be discussed;
- b) Proficiency in specific program, or area of interest;
- c) Unique or universal appeal concerning Mississippi Valley State University.

Persons selected to submit a written article or be featured in an issue of "The Communiqué" newsletter must:

- a) Be faculty, staff, alumni or students, who are knowledgeable in the particular topic area of the selected program focus.
- b) Express views which promote the objectives of the university's college/department or office or agency concerned or identified;
- c) Understand and accept the concept of this particular newsletter, (i.e., that it conforms to target, focus, and impact for optimum exposure to and interest by educational, business, commercial, and governmental leaders throughout Mississippi and the nation).

4.20 EXTRA COMPENSATION

In general, when the University enters into contracts or arrangements to provide services to an organization outside of the University, the participating personnel of the University will not be entitled to extra salaries for these services. The employee (s) will receive their regular salaries and the organization will reimburse the University.

It is the expectation that University personnel conducting University-related assignments beyond that which is normally expected will be granted release time by their administrative supervisor (s). The decision concerning such release time will be based upon the duration and nature of the concerned project. The policy statements listed below will serve as guidelines for extra compensation for the following categories of employees: non-exempt, full-time faculty, and exempt employees.

4.20.1 NON-EXEMPT EMPLOYEES

Mississippi Valley State University operates under the Fair Labor Standards Act as Amended in 1985. Non-exempt employees are those in clerical/secretarial, technical/ paraprofessional, skilled crafts and service/maintenance job classes. Overtime pay or compensatory time should be given for all time in excess of a normal forty (40) hour work week according to specific guidelines. All overtime pay and compensatory time is to be approved by immediate supervisors.

In areas where compensatory time will impose an undue hardship on existing employees (i.e., maintenance and some clerical/secretarial positions) time and one-half pay should be given for all hours in excess of regular forty (40) hour-work-week (provided such funds are available in the budget).

Compensatory time should be given for said time beyond a regular forty (40) hour work week to be used within a reasonable time period during the same calendar year. This time is to be calculated on straight time if given during the same work week in which the overtime occurred. However, if time-off cannot be allowed within the same work week, the time-off must be calculated at time and one-half for all hours over forty (40) hours on month-to-month basis.

4.20.2 FULL-TIME FACULTY

Salary for academic year: Charges for work performed on sponsored agreements by faculty members during the academic year will be based on individual faculty member's regular compensation for the continuous period which, under the policy of the institution concerned, constitutes the basis of his salary. Charges for work performed on sponsored agreements during all or any portion of such periods are allowable at the base salary rate. In no event will charges to the sponsored agreement, irrespective of the basis of computation, exceed the proportionate share of the base salary for the period. This principle applies to all members of the faculty at the institution. Since intra-university consulting is assumed to be undertaken as a university obligation requiring no compensation in addition to full-time base salary, the principle also applies to faculty members who function as consultants or otherwise contribute to a sponsored agreement conducted by another faculty member of the same institution. However, in unusual cases where consultation is across departmental lines or involves a separate or remote operation, and the work performed by the consultant is in addition to his/her regular departmental load, charges for such work representing extra compensation above the base salary are allowable provided that such consulting agreements are specifically provided for in the agreement or approved in writing by the sponsoring agency.

The maximum daily rate that may be paid a nine-month employee is 0.5% of his or her nine-month salary for no more than forty (40) days of an academic year, including holidays, vacations, and weekends. Carryover time from one year to another will not be authorized.

Any and all such activities performed by faculty must have prior written approval by the Chair/Dean of the department to which the faculty person is assigned and the Chief Academic Officer of the University.

4.20.3 CHAIRS, ~~DEANS~~, ADMINISTRATORS AND OTHER EXEMPT EMPLOYEES

No additional payments for extra work will be made to Chair/~~Deans~~, Administrators or other exempt employees except under the following conditions:

- a) The work performed is in addition to his or her regular assigned duties, involves a separate or remote operation, and occurs during a time that will not interfere with the employee's primary responsibilities.
- b) Payment of extra compensation above the base salary, as outlined in Section 1, is allowable only if such arrangements are specifically provided for in the sponsored agreement or approved in writing by the sponsoring agency.
- d) The maximum daily rate that may be paid a twelve month employee is three percent (3%) of his or her twelve month salary for no more than fifty (50) days a year, including

holidays, vacations and weekends. Carryover time from one year to another will not be authorized.

4.20.4 OVERLOAD/CONTINUING EDUCATION COURSES

The normal teaching load is 12 (13 if teaching a 1 hour course) hours per semester. When conditions warrant, faculty members will be compensated for an overload when the teaching load exceeds (12) semester hours.

4.21 STUDENT RECORDS POLICIES (BUCKLEY AMENDMENT)

In accordance with the provisions of Section 438 of the Family Educational Rights and Privacy Act, commonly known as the Buckley Amendment, students shall have the right of access to their file, whether or not the University maintains a centralized record keeping system. Procedures shall be available in the office responsible for the maintenance of the record and students shall be informed that they may inspect and review the contents of their records and obtain copies of items in the file at their own expense. Students also have the right to a response from the appropriate official of the office, to reasonable requests for explanation and interpretations of their records and may challenge the accuracy, appropriateness or validity of any item in their file (Such rights, however do not extend to content placed in the file prior to January 1, 1975).

1. Access to Public Information

Directory information is public information unless specifically ordered withheld. Directory information is limited to name, campus address phone number, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Public information shall be released freely unless the student requests in writing that certain public information not be released.

2. Access to Personal Information

Access to personally identifiable information which consists of academic or citizenship records, academic standing, academic rank, grade point average, test scores, and other related educational records shall be released only upon written permission by the student. Certain documents may carry waivers, signed by the student, relinquishing to third parties the right of access to personally identifiable information.

3. Faculty and Staff Access for Students Files

Student records are open to members of the faculty and staff who have a legitimate need to know their contents, except where access is prohibited by special policies such as those governing medical and psychological records. The determination of —a legitimate need to know—will be made by the person responsible for the maintenance of the records. This

MVSU FACULTY HANDBOOK

determination must be made scrupulously and with respect for the individual whose record is involved. Academic documents inaccessible to students (because the documents have been filed before January 1, 1975, or are segregated by waivers) are to be used only for the purpose for which they were prepared. (Detailed guidelines for the use and dissemination of information from student files, with provisions excluding the inspection of certain student records, can be obtained through the Office of Student Affairs).

Peer Evaluation of Classroom Teaching

Peer evaluation at Mississippi Valley State University should be approached not just as an evaluative process but also as an opportunity to enhance teaching effectiveness. Accordingly, the peer evaluation form provides for both a formative and a summative evaluation. Peer evaluations are done for all faculty engaged in classroom instruction. All components of the peer evaluation should be completed by midterm of the spring semester. The forms are to be incorporated as part of an overall faculty development plan.

PEER EVALUATION FORM

Peer Evaluation is intended to be a vehicle to help improve the quality of classroom instruction. While the actual evaluation is confidential, the Summary is to be shared with the Department Chair before the end of the semester in which the evaluation is completed.

Peer Evaluation Process

There are three components to the Peer Evaluation process:

1. Pre-Visit Preparatory Meeting

The specific activities that are expected to occur are identified in the **Peer Evaluation Form**.

The Peer evaluator and faculty member meet approximately one week prior to class in which the Peer Evaluation is to take place. The purpose of the meeting is to:

Review course syllabus for course objectives, teaching, and evaluation methods.

Discuss the types of learners in the class.

Discuss methods of instruction selected for the class to be observed in relation to the types of learners and class.

Discuss the selection and implementation of student evaluation methods, the ways in which the methods are to be implemented, and how feedback is to be provided to students.

Discuss the source of information for the topic presented and its relationship to current state of knowledge and research.

Other areas, as requested by the faculty member being evaluated. Specify on the form any additional areas evaluated.

2. Peer Evaluation Visit

The **Peer Evaluation Form** is to be completed by the Peer Evaluator. Upon completion of the class session in which the peer evaluation occurs, the faculty member being evaluated is to complete the **Classroom Session Self-Appraisal Form**.

3. Post Evaluation Meeting

The Peer Evaluator and the faculty member are to meet following the class session and review the results of the Peer Evaluation Form and the Classroom Session Self-Appraisal Form. Following the review and discussion, a Summary is jointly developed by the Peer Evaluator and the faculty member.

GRIEVANCE PROCEDURES

GRIEVANCE DEFINED

A grievance is defined as the claim of an individual employee that there has been a violation, misinterpretation or misapplication of a rule, policy or procedure in relation to personnel policies, including working hours, working conditions, leaves, promotions, and other conditions of employment. (Board Policies, 403.0201)

GENERAL POLICY

In any organization, conditions may arise that lead to dissatisfaction and misunderstanding among employees and between employees and employers. The grievance procedure is designed to facilitate resolution of problems and to maintain or re-establish an organizational atmosphere and working environment characterized by mutuality of respect, collegiality, and efficiency.

The steps in the grievance procedure are to determine the specific cause(s) of the grievance so that university officials can find an acceptable remedy for it. This section does not contain procedures for termination of tenured faculty, the dismissal for cause of a faculty member prior to the expiration of a term of appointment or on matters pertaining to promotion or tenure actions. Procedures for grievance/appeals of the aforementioned matters are discussed in the respective areas of this handbook.

STANDING TO FILE GRIEVANCES

All faculty have standing to file a grievance. However, only permanent, full-time faculty have standing to file employment grievances in the categories of promotion, tenure, and termination or suspension.

ENCOURAGEMENT OF VOLUNTARY INFORMAL CONCILIATION EFFORTS

Faculty members and those holding faculty status who feel aggrieved should first seek an informal resolution at the department or college level before filing a formal grievance. If a resolution has not been worked out within 30 days of the beginning of the informal resolution process, the aggrieved party may file a formal grievance as outlined below.

GENERAL PROVISIONS OF THE GRIEVANCE PROCEDURE

- a. The decision to utilize this grievance procedure shall be voluntary on the part of the employee.
- b. If a grievance hearing is conducted under this procedure, the grievant and the party against whom the complaint is made shall have the right to have a person of his/her choice present at the hearing for consultation or moral support.
- c. The Faculty Grievance Committee shall be convened to review the allegations submitted by the employee.
- d. The Faculty Grievance Committee shall keep all grievances and findings of administration strictly confidential.
- e. Each employee will be furnished a copy of the grievance procedure.
- f. At each step in the procedure, the grievant shall be furnished a written copy of the decision within the time period designated below.
- g. Where the grievance is not resolved before formally reaching the Institutional Executive Officer, the decision of the Institutional Executive Officer shall be final (Board Policy 403.0202).

Examples of bases for grievances include, but are not limited to, the following:

- a. Discrimination
- b. Decision regarding salary
- c. Problems affecting employee morale and efficiency d.
Allegations of unfair or inequitable treatment
- e. Unsafe physical environment
- f. Hostile work environment
- g. Violation of academic freedom h.
Violation of the Code of Ethics

STEPS IN THE GRIEVANCE PROCEDURE

Step One:

A faculty member with a grievance is encouraged to discuss the facts and circumstances giving rise to the grievance with his/her Chair and attempt to resolve the matter at that level. If the grievance is resolved through discussion between the parties, no written decision is necessary. If the grievance is not resolved, the faculty member must submit a letter within 90 days of the alleged grievance describing the nature and details of the grievance to the Department Chair. The Department Chair must render a written decision to the faculty member on the complaint within five (5) working days of receipt of the grievance letter.

Step Two:

If the employee is dissatisfied with the decision of the Department Chair, or if the decision is not rendered in a timely manner, the faculty member may appeal to the ~~school Dean~~ **Chief Academic Officer** with a second letter stating the unsatisfactory results of step one and attach the initial letter of complaint from step one. The ~~Dean~~ **Chief Academic Officer** will convene a meeting with the Department Chair and faculty member within five (5) working days of receipt of the letter. The ~~school Dean~~ **Chief Academic Officer** will investigate the matter, afford the faculty member an opportunity to present information and evidence pertinent to the grievance, receive information and evidence from the Department Chair, and must render a written decision to the faculty member on the complaint within ~~five (5)~~ **ten (10)** working days of receipt of the grievance letter.

Step Three:

~~If the faculty member is dissatisfied with the academic Dean's response, the faculty member may appeal in writing to the Chief Academic Officer within five (5) working days after receipt of the Dean's response. MVSU FACULTY HANDBOOK

shall render a final decision in writing to the grievant within fifteen (15) working days after receiving the recommendation of the Faculty Grievance Committee.

2. Schedule a hearing within ten (10) working days after receipt of the charge from the ~~Provost~~/Chief Academic Officer.
3. Meet in executive session after completion of all hearings and investigations to deliberate the findings and submit a written recommendation within five (5) working days following the hearing to the Institutional Executive Officer of the University and the employee.

COMPOSITION AND PROCEDURES OF THE GRIEVANCE COMMITTEE

This election will be conducted by the Chief Academic Officer who will recommend those elected to the Institutional Executive Officer for appointment to the Faculty Grievance Committee. The Chief Academic Officer shall set up procedures to appoint three members of the committee to hear each grievance. The three-member panel shall be selected on a rotational basis.

The Chief Academic Officer shall notify the three selected members of the committee who are to hear the grievance. The names of the three members and copies of the grievance shall be sent to the committee members, the grievant, and the accused party five (5) working days in advance of the hearing. A party may present a request in writing, at least three (3) days in advance of any hearing to the Chief Academic Officer, to remove any member from the committee for reasonable cause. If the Chief Academic Officer grants the request, the vacancy thus created shall be filled using the established rotation. The committee member thus chosen may likewise be removed for reasonable cause. The Chief Academic Officer may remove any member for reasonable cause.

The Human Resources Director shall sit in on all committee hearings as a non-voting member to record the proceedings.

It is the role of the grievance committee to investigate the complaint as presented to the committee by the grievant, to obtain facts in the dispute, and come to a conclusion as to whether or not the grievant had good cause to complain. A grievance committee convened pursuant to alleged affirmative action violations must come to ~~the~~ a conclusion as to

whether the procedures and rules, regulations, and standards of the involved unit have been applied in a discriminatory manner.

In grievances concerning the terms of faculty appointment, promotion, non-reappointment or the award of tenure, the role of the grievance committee is to determine whether the grievant has had all of the benefits of the procedures afforded by the grievant's contract and the University rules and regulations and whether the decision questioned was the result of adequate application of the relevant policies of the University.

The Responsibilities of the Grievance Committee

1. The Committee shall select a chairperson
2. The committee shall set the time, date and location of the hearing. The chairperson shall work with the grievant in establishing times for the appearance of witnesses to be presented by the grievant.

4. The Committee may hold preliminary meetings with the grievant and other parties to provide for exchange of documents and to prepare for a fair and expeditious hearing.
5. The Committee may question the grievant and any witnesses the grievant presents.
6. The Committee may call such witnesses and examine such documents as it considers necessary.
7. A grievance hearing shall be confidential and only those concerned should be included in the grievance hearing.
8. The formal rules of civil procedure and evidence shall not be applicable.
9. The Committee shall be guided in its decision only by the evidence presented at the hearing.

1. Persons charged with a grievance shall be allowed to present any available witnesses or documents.
2. Charged parties have the right to be present and hear and question all witnesses and to inspect and rebut other statements presented by the grievant or any other

party against him/her.

3. Charged parties cannot be represented by counsel; however, counsel may be present in an advisory capacity.

Committee Report

When the hearing is concluded, the Committee shall summarize the evidence that was heard and the conclusions reached by the Committee. Copies of the report shall be sent to the Institutional Executive Officer and faculty member within five (5) working days after the end of the hearing.

If a proposal is accepted, recipients must submit a travel request form along with an application form and proposal. They will also need to include conference agenda, flight itinerary, and hotel information. (See Fiscal Affairs Handbook for the procedures, forms, and attachments that must be included.)

Upon their return, recipients will be reimbursed for their expenses after they submit the necessary forms. All forms must be submitted within 15 days after they return. ~~The Title III Office will form a committee to consider~~ The Faculty Development & Travel Fund Committee reviews and approves applications. The committee will employ the Summer Research Grant Review Rubric for reviewing applications and base their decisions on the feasibility of the project, a reasonable timeline, the innovative nature of the project, its contribution to professional development and field of study and on its contribution to the University, and the requirements stipulated in the Summer Research Grant Guidelines. Applicants will not be eligible to receive a grant for one consecutive year.

Any accomplishments received related to the grant, including workshops, seminars, readings, publications, and other related activities must acknowledge the support of the U.S. Department of Education, The Title 111-Part B Program, Mississippi Valley State University, and The Center for Teaching and Learning. APPENDIX J

MVSU SEXUAL HARASSMENT POLICY

This policy needs to be checked with Title IX and HR

I. STATEMENT OF POLICY

Mississippi Valley State University is committed to the principle that the working and learning environment be free from inappropriate conduct of a sexual nature. Sexual harassment is inappropriate, unprofessional and illegal behavior that will not be tolerated by the University. Individuals who engage in such conduct will be subject to disciplinary action.

II. SCOPE OF POLICY

This policy applies to all administrators, faculty, staff and students and is applicable regardless of the gender of the complainant or the alleged harasser.

III. DEFINITION

A. Sexual Harassment. Sexual harassment includes unwelcome sexual advances, requests for sexual favors, or verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of employment or student status;
2. Submission to or rejection of such conduct is used as a basis for evaluation in making personnel or academic decisions affecting that individual; or
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's performance as an administrator, faculty member, staff or student, or creating an intimidating, hostile or offensive environment.

B. Examples. Examples of behavior that could be considered sexual harassment include but are limited to:

1. Physical contact of sexual nature including touching, patting, hugging, or brushing against a person's body;
2. Explicit or implicit proposition or offers to engage in sexual activity;
3. Comments of a sexual nature including sexually explicit statements,

questions, jokes or anecdotes; remarks of a sexual nature about a person's clothing or body; remarks about sexual activity; speculation about sexual experience;

4. Exposure to sexually oriented graffiti, pictures, posters, or materials; and/or
5. Physical interference with, or restriction of, an individual's movements.

IV. INFORMAL COMPLAINT PROCEDURES

This process may be used as a prelude to filing a formal complaint or, as an alternative. It is not necessary that this option be used. Anyone who believes that he or she has been subjected to sexual harassment may immediately file a formal complaint as described in Section V of this policy. An individual wishing to utilize the options under the informal process should contact the Director of Human Resources or if the complainant is a student, the Vice Institutional Executive Officer for Student Affairs.

- A. **Consultative Services** are a part of the informal process and are designed to provide a member of the university community an opportunity to discuss specific concerns in a confidential setting. Assistance will be provided to help the employee understand the definition and the legal implications of sexual harassment.
- B. **Informal Assistance:** The complainant is provided assistance in attempting to resolve possible sexual harassment if the complainant does not wish to file a formal complaint. Such assistance may include strategies for the complainant to inform the offending party that his or her behavior is unwelcome and should ceased, action by an appropriate University official to stop the unwelcome conduct, and/or informal mediation.
- C. **Confidentiality:** The University will endeavor to maintain confidentiality to the extent permitted by law. Where the complainant's desire to maintain anonymity constrains attempts at establishing facts and eliminating the potential harassment, the University will attempt to find the right balance between the complainant's desire for privacy and confidentiality, and the responsibility of the University to provide an environment free of sexual harassment. However, not all circumstances will allow for complete confidentiality and, the University may take more formal action in cases of egregious sexual harassment.

V. FORMAL COMPLAINT

PROCEDURE A. Reporting.

1. Mississippi Valley State University encourages any person who believes that he or she has been subjected to sexual harassment to immediately report the incident to (1) the appropriate supervisor of the accused faculty member or employee, (2) to the Director of Human Resources or, (3) when a student is the complainant or the accused individual, to the Vice Institutional Executive Officer for Student Affairs. In no case will a complainant be required to report such behavior to the person accused in the misconduct. The complainant will be advised of the procedures for filing a formal complaint of sexual harassment at the time he or she reports the alleged harassment. When a supervisor or the Vice Institutional Executive Officer for Student Affairs receives a complaint, he or she will immediately notify the Director of Human Resources.
2. In order to initiate the investigation process, the complainant should submit a written statement setting out the details of the conduct that is the subject of the complaint. While an investigation may begin on the basis of an oral complaint, the complainant is strongly encouraged to file a written complaint. When a supervisor or the Vice Institutional Executive Officer of Student Affairs receives a complaint with a written statement, he or she shall immediately notify the Director of Human Resources.

B. Compliant Investigation.
