Separation of Employment

Separation from employment may result from layoff, resignation, retirement, completion of a time-limited appointment, non-renewal of an employment contract, or discharge. Separation may also occur when an employee moves from one department, division, unit, or position to another within the University.

Employees intending to resign/retire are asked to write a letter of resignation/retirement to the President with a copy to the department head, the Office of Human Resources and the area’s vice president no later than two weeks before the date of resignation/retirement. Administrators and supervisory personnel are requested to give a thirty (30) day notice.

A fully executed Exit PC05 must be completed by the department and submitted through the proper administrative chain of command to the Office of Human Resources to ensure the proper reason for the separation and documentation.

When separation from employment with the University occurs, the employee should schedule an Exit Interview with the Office of Human Resources (except when an employee is discharged). The information attained from the exit interview will be utilized to improve training, selection, and supervision practices, to improve working conditions at the University and to acquire any concerns of the employee.

Employees are expected to provide written notice of resignation or retirement to their immediate supervisor who is authorized to accept it.

Before an employee is given final clearance from his/her area of employment, a Personnel Release Form must be completed by the employee. If separation is initiated by the department head, a Personnel Release form must be completed by the department head. Forms may be obtained from the Office of Human Resources or the website@ www.mvsu.edu.
